

CUSTOM RIFLE FIT STRAIGHT FROM THE BOX.

Belt a little snug after dinner? Sneakers laced too tight? Knees hitting the dashboard? Not likely, because adjustments that maximize comfort and performance are everywhere. With the new Vari-Tech stock, found exclusively on the Browning X-Bolt 2, a new level of customization is now available for bolt-action hunting rifles. Featuring industry-leading, three-way adjustment that adapts the rifle to your body and unique shooting needs, Vari-Tech is engineered to improve accuracy, control felt recoil, and optimize handling — all without sacrificing the timeless appearance of a traditional hunting stock.

SEE CLEARLY

Get intuitive, repeatable eye-to-scope alignment even with large optics. Six positions offer 1" of height adjustment.

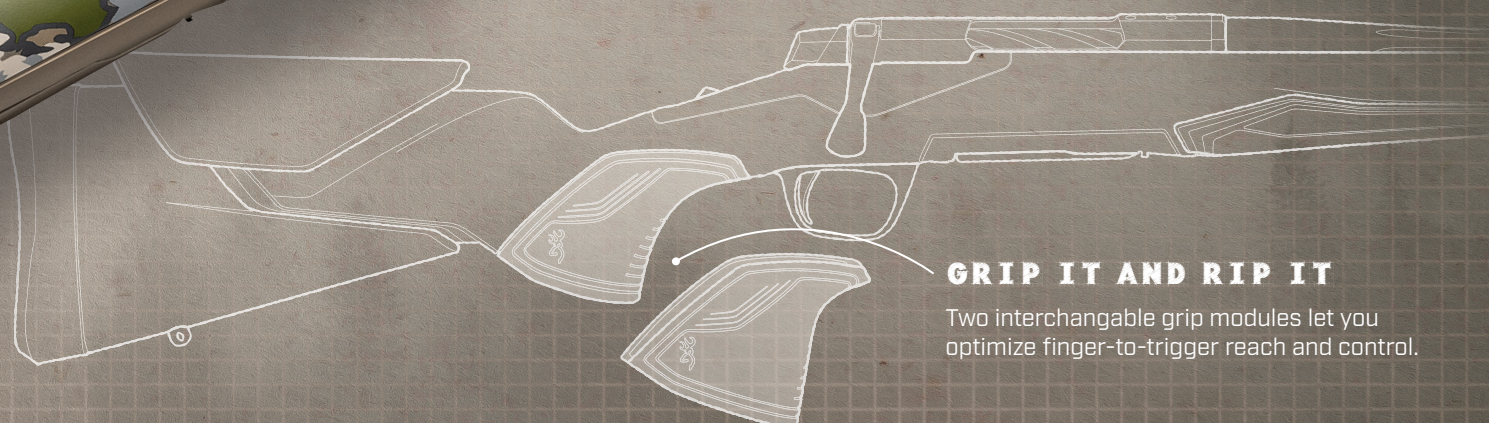

LENGTH MATTERS

Short or tall, Vari-Tech fits them all. Length of pull is adjustable from 13-5/8" to 14-5/8" right from the box.
