JOSEPH MAMEROW'S HUMVEE DISPLAYS HIS FAVORITE LOGO —

During his off-time in Iraq, Joseph climbed on the roof of his Humvee and painted a pair of Buckmark logos on the gun shield of his “Ma Deuce” 50 caliber Browning machine gun, and two more on the doors.

When he's home on leave, Joseph hunts in Southeast Texas. “I like to hunt whitetail and wild hogs with my relatives,” Joseph said. “Actually, I like to hunt just about everything.”

His winning photo from Iraq means his next Browning is on us.

Browning proudly salutes the men and women of our armed forces around the world serving to protect our freedom.

Browning Automatic Rifle (BAR)

Gas-operated BAR® ShortTrac® and LongTrac® autoloaders give you fast follow-up shots with minimal recoil. A multiple-lug rotating bolt locks up vault-tight to the barrel for true minute-of-angle accuracy, something virtually unheard of in other sporting autoloaders. This ultra-strong design also gives the BAR potent magnum cartridge capability, while the machined aircraft-grade alloy receiver keeps it light, agile and fast to the shoulder.
