

# HATE BEING SWEATY, STINKY, WET AND COLD?

Browning has the solution:

The innovative new  
**TRANSITIONS SERIES**  
of outdoor clothing.

Look for these tags  
to find the specific layer  
of protection you need:

**TRANSITIONS**<sup>TM</sup>  
base · insulation · protection

«NTS»  
NEXT TO SKIN

## BASE layer

Wicks moisture away  
and kills odor-causing  
bacteria. Look for  
NTS antimicrobial  
shirts and pants.

## INSULATION layer

Select the insulation  
layer needed based on  
temperature and your  
activity level. The  
4x MicroFleece<sup>TM</sup> Vest  
shown here is just  
one of many options.

**X**  
MICRO FLEECE

## PROTECTION layer

The best defense against  
wind, rain and snow.  
Choose the water-  
and wind-resistant  
Pursuit<sup>TM</sup> soft-shell parka  
to keep you warm and dry.  
Be sure to look for other  
Layer 3 protection choices.

**PURSUIT**

Visit the Browning  
section of the store and  
check out the new line  
of Transitions Series  
layering clothing!
