

MAXUS FEATURE CHECKLIST COMPARISON CHART
 Make sure the shotgun you buy has the features you want.

Features	Browning Maxus	Competitor A	Competitor B
Quick Detach Speed Lock Forearm	✓		
Speed Load Plus takes shells -- as you load into the magazine -- directly to the chamber when action is open	✓		
Magazine cut-off system lets you block the magazine for unloading the chamber	✓		
TurnKey magazine adapter system makes inserting and replacing the plug easier	✓		
Lightning Trigger has fastest lock time, 5.20 milliseconds for better timing	✓		
Back bored barrel (.742") for less shot deformation and reduced perceived recoil	✓		
Vector Pro 2.5" lengthened forcing cone for better pattern performance	✓		
Invector Plus Choke system with longer taper for more consistent patterns	✓		
Proven Invector Plus design has threads at the rear which restricts gas slipping between the tube and barrel keeping parts cleaner	✓		
Adjustable drop and cast using the included shim kit	✓		
Low, flat rib is on same plane as receiver for dead-on point of impact	✓		
Better grip in all conditions with Dura-Touch Armor Coating on stock and forearm	✓		
Power Drive gas system for reduced felt recoil. The least of all major brands	✓		
Power Drive Gas piston maintains more consistent bolt speed for less wear on the action	✓		
Shoots all field to magnum loads, 1 oz. shells on up	✓		
Choose 3" or 3 1/2" chamber models	✓		
With plug removed, four in magazine one in chamber	✓		
Length of pull adjustable with included spacers	✓		
Thinner, more ergonomic forearm	✓		
Inflex recoil pad cushions and directs recoil away from your face	✓
