CHANGING YOUR CODE

ALWAYS PERFORM THIS OPERATION WITH THE DOOR OPEN

➀ Enter “zero” six times.
➁ Enter your existing six (6) digit code one time.
➂ Enter your NEW six (6) digit code two times.
➃ If a mistake is made wait thirty (30) seconds and repeat steps ➀ - ➂.
➄ Test lock operation several times before closing the door.

Valid Code Entry - Double signal after valid six (6) digit code is entered.
Invalid Code Entry - Triple signal and old code is still valid.

BATTERY LOW WARNING

● Repeated beeping during an opening indicates that the battery is low and needs immediate replacement.
● Uses one (1) 9-Volt Alkaline Battery. LA GARD recommends the use of Duracell™ or Everready™ Alkaline batteries.

If battery is depleted and will not allow lock to open, simply follow instructions below.

CHANGING YOUR BATTERY

Note: Some manufacturers use a small screw to secure the battery compartment cover to the keypad housing. If your model has this screw, it must be removed first before following the steps listed below.

➀ Remove black plastic battery compartment cover (located at the bottom of the keypad) by gently pulling downward on it’s handle.
➁ Allow the battery and it’s attached leads to drop down and out of the battery compartment. If it does not drop, gently pull on the battery until it does.
➂ The connector is easily removed by unsnapping it from the two terminals on the top of the battery.
Never Pull on the Battery Leads

➃ Connect a new 9-Volt Alkaline battery to the battery clip.
➄ Push the battery and the leads completely up into the battery compartment.
➅ Install the battery cover by placing one side of the cover in position and then pressing the other side into position with your finger.

FEATURES

USER CODE
● Open Lock
● Change Code

WRONG TRY PENALTY
● Four (4) consecutive invalid codes initiates five minute delay period.

LOW BATTERY WARNING
● Repeated audio and visual signal (LED flashing and repeated beeping) during opening indicates battery low.

AUDIO AND VISUAL SIGNAL
