Be a Safe Shooter

Read and follow all safety information in the owner's manual provided with each firearm before using the firearm. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible, however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.

Browning is committed to serving you.

Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice. If you have any questions regarding Browning products, please write to Browning, One Browning Place, Morgan, UT 84050-9326.

MICRO MIDAS — TOP QUALITY, COMPACT SIZES.

In the past, finding a high-quality firearm built for younger or smaller shooters was difficult. Those days are over thanks to the new line of Browning Micro Midas guns. Micro Midas guns are sized to fit smaller shooters in every way — they are slimmer, lighter and have shorter lengths of pull. They are also built to the same high standard of quality you trust from Browning. When you buy a new Micro Midas firearm, you are eligible to participate in the Growth Insurance Program that allows the shotgun to grow with the shooter.

MICRO MIDAS

BROWNING GROWTH INSURANCE PROGRAM

It’s a fact, kids grow. Which makes purchasing a firearm for them a difficult decision. Should you buy an inexpensive “youth” model with questionable quality that they will soon grow out of? Or should you buy a well-made, but ill-fitting, full-size firearm that won’t let them shoot to their potential because of poor fit? Fortunately, Browning offers the perfect solution for both now and later with the Growth Insurance Program. For a limited time, with the purchase of a new Browning Micro Midas or Micro firearm, you are eligible to purchase a full-size stock at 50% off the retail price. That’s a big savings for you, and allows them to enjoy a firearm of the highest quality that is sure to fit and maximize their shooting performance and enjoyment for years to come. Visit browning.com for complete details.

CITORI SATIN HUNTER MICRO MIDAS

RECEIVER - Steel - Blued finish
BARREL - Ventilated rib
ACTION - Single selective trigger
· Hammer ejectors · Top-tang barrel selector/safety

STOCK - Satin finish walnut
· Compact stock with 13" length of pull
FEATURES - Vector Pro lengthened forcing cone
· Three Invector-Plus choke tubes · Recoil pad on 12 gauge model · Ivory front bead sight

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
SILVER HUNTER MICRO MIDAS  ▶ GAUGE: 12 (SHOWN), 20 ▶ SATIN FINISH STOCK AND FOREARM

RECEIVER - Strong, lightweight aluminum alloy  
- Semi-humpback design - Silver finish  
BARREL - Lightweight profile - Ventilated rib  
ACTION - Gas-operated autoloader - 3" chamber  
- Active Valve reliably cycles a wide range of loads  
STOCK - Satin finish walnut stock and forearm  
- Compact 13½" length of pull for smaller shooters  
FEATURES - Three Invector-Plus™ choke tubes  
- Ivory front bead sight - One ¼" stock spacer

X-BOLT MICRO MIDAS ▶ SATIN FINISH STOCK

RECEIVER - Steel - Low-luster blued finish - Glass bedded - Drilled and tapped for scope mounts  
BARREL - Low-luster blued finish - Free-floating  
- Hand chambered - Target crown  
ACTION - Bolt-action - 60° bolt lift  
- Adjustable Feather Trigger™  
- Detachable rotary magazine - Top-tang safety - Bolt unlock button  
STOCK - Satin finish checkered walnut stock - Compact 12½" length of pull for smaller shooters  
FEATURES - Sling swivel studs installed - Inflex Technology recoil pad  
(Scope and mounts not included)

BL-22 GRADE I MICRO MIDAS ▶ GLOSS FINISH STOCK AND FOREARM

RECEIVER - Steel - Blued finish  
- Grooved for scope mounts  
BARREL - Blued finish - Recessed crown  
ACTION - Lever-action - Short 35° throw  
- Tubular magazine  
STOCK - Gloss finish American walnut - Straight grip - Compact 12" length of pull for smaller shooters  
FEATURES - Adjustable sights

***Measured from centerline of bore.
A-BOLT SHOTGUNS — RUGGED AND ACCURATE. Since many areas prohibit the use of rifles, the popularity of shotguns for deer hunting continues to rise. If you prefer the feel of a bolt-action, our accurate A-Bolt shotguns look, handle and feel like an A-Bolt rifle, and feature the same fast-cycling 60° bolt lift, easy-to-reach top-tang safety, and the sweet trigger feel as the rifles you know. An adjustable rear sight is included, and the receiver is tapped and ultra stable for scope mounts. Want pinpoint groups at 100 yards with sabots? Get an A-Bolt shotgun today.

STOCK The rugged composite stock features the familiar close radius pistol grip of the A-Bolt rifle. Textured surfaces and Dura-Touch® Armor Coating provide a secure grip.

BARREL The A-Bolt shotgun features a fully rifled 1 in 28" twist barrel designed exclusively for use with sabot-type slugs. You can expect superb accuracy with the A-Bolt shotgun with 1½" groups or better at 100 yards.

DETECTABLE MAGAZINE A detachable magazine on a hinged floorplate allows you to quickly reload. 2 + 1 capacity. Extra magazines can be carried for fast reloading.

PERFORMANCE The smooth, anti-bind performance of our A-Bolt centerfire rifles is also found in the A-Bolt shotgun action.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
### A-Bolt Shotgun Hunter

**New**

**Gauge:** 12  
**Barrel Length:** 22"  
**Code Number:** 015001120  
**UPC #:** 023614072027  
**Chamber:** 3"  
**Avg. Weight:** 7 lbs. 2 oz.  
**Overall Length:** 43¼"  
**Sight Radius:** 15¼"  
**Drop At Comb:** ¾"  
**Drop At Reel:** ¾"  
**Length Of Pull:** 14"  
**Rate Of Twist:** 1 in 28"  
**Suggested Retail Price:** $1,199.99

**Receiver:** Steel - Low-luster blued finish  
- Drilled and tapped for scope mounts  
**Barrel:** Low-luster blued finish  
**Action:** 3" chamber - Bolt-action - 60° bolt lift  
- Detachable two-round magazine - Top-tang safety  
**Stock:** Satin finish walnut stock and forearm  
- Checkered  
**Features:** Sling swivel studs installed  
- Recoil pad - TRUGLO®/Marble’s® fiber-optic front sight - Rear sight adjustable for windage and elevation

### A-Bolt Shotgun Stalker

**Chamber:** 3"  
**Avg. Weight:** 7 lbs.  
**Overall Length:** 43¼"  
**Sight Radius:** 15¼"  
**Drop At Comb:** ¾"  
**Drop At Reel:** ¾"  
**Length Of Pull:** 14"  
**Rate Of Twist:** 1 in 28"  
**Suggested Retail Price:** $1,239.99

**Receiver:** Steel - Low-luster blued finish  
- Drilled and tapped for scope mounts  
**Barrel:** Low-luster blued finish  
**Action:** 3" chamber - Bolt-action - 60° bolt lift  
- Detachable two-round magazine - Top-tang safety  
**Stock:** Composite stock and forearm  
- Textured gripping surfaces - Mossy Oak® Break-Up® Infinity™ camo finish - Dura-Touch® Armor Coating  
**Features:** Sling swivel studs installed  
- Recoil pad - TRUGLO®/Marble’s® fiber-optic front sight - Rear sight adjustable for windage and elevation

---

**BROWNING.COM**
THE BROWNING MAXUS — MAXIMUM RELIABILITY.
The high performance Browning Maxus is the most exciting autoloading shotgun in decades. Innovative technologies join together and deliver up to 18% less felt recoil for greater comfort, 44% less muzzle jump for more accurate follow-up shots, 19% faster bolt speed and 24% faster locktime than the nearest competitor. Other conveniences like the Speed Lock Forearm and TurnKey Magazine Plug further elevate the Maxus. Shoot a Maxus today and you’ll agree it is the finest, most reliable 3½” autoloader ever built.

LESS MUZZLE JUMP
Less felt recoil means less muzzle jump and that instantly translates into more birds in your bag. The Power Drive Gas System works perfectly with the Inflex Technology recoil pad to reduce muzzle jump as much as 44% compared to the competition.

INFLUX TECHNOLOGY RECOIL PAD
The Inflex Technology recoil pad is the softest pad on any autoloader. More than a mass of recoil absorbing material, it has been engineered with directional deflection to pull the comb down and away from your face with every shot for even greater comfort and faster follow-up shooting.

THE SOFTEST SHOOTING AUTOLOADER EVER
Felt recoil is more than just an instantaneous peak force, it is the total energy absorbing experience when you fire a shell. While no recoil reduction system can escape the laws of physics, the Maxus will change your mind about recoil control. The Power Drive Gas System, Inflex Technology recoil pad, Vector Pro™ back-boring and natural Browning balance combine to transfer up to 18% less total felt recoil force to your shoulder than other autoloaders on the market.

SPEED LOCK FOREARM
For the Maxus, our engineers stepped outside the box, then put a target on it. Gone is the traditional bulky screw-on magazine cap, replaced with the patented Speed Lock Forearm. This secure forearm attachment system makes taking down the Maxus for cleaning or storage faster and easier than ever before, and makes attaching or removing a sling a snap.
INVECTOR-PLUS™ CHOKE SYSTEM

The proven Invector-Plus interchangeable choke tube system works with Vector Pro™ and back-boring to offer consistent, dense shot patterns with just the constriction needed for the shooting situation. The longer choke taper inside an Invector-Plus choke tube produces consistent patterns with more uniform densities and fewer fliers. The superior design of the Invector-Plus system is far more durable than the choke systems found in our competitors' guns, especially when shooting steel shot. Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel. See page 146 through 149 for a complete listing of choke tubes.

The competition's choke tube is grooved and pitted after shooting 500 rounds of steel shot.

Browning's Invector-Plus choke tube is still flawless after 500 rounds of steel.

The forcing cone of the competition is pitted and damaged beyond repair after 500 rounds of steel shot. After 500 rounds of steel shot, the higher-quality Browning barrel shows no wear.

STEEL SHOT PERFORMANCE

Our barrels are made to handle the punishment of steel shot. Unlike some manufacturers whose guns face an uncertain future after shooting steel, we have long been at the forefront of dependable steel shot performance and durability. Our barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications. Browning Maxus barrels will last.

VECTOR PRO™ LENGTHENED FORCING CONE

We were the first manufacturer to recognize the advantages of a back-bored barrel and make it a standard feature on shotguns. Now we have gone a step further with Vector Pro, featuring a lengthened forcing cone that is over 2" longer than other systems. This long, gradual taper minimizes shot deformation and maximizes pattern uniformity, consistency and density. Back-boring increases bore diameter to its maximum specification, reducing friction between the shot cup and the bore to propel the shot pellets to a higher velocity and reduce felt recoil. Reducing constriction from the forcing cone on the shot column results in fewer deformed pellets for more uniform patterns, and keeps more pellets in the central part of the pattern where they need to be to bag birds and dust targets. Our back-bore specifications represent the ideal bore diameter. A larger bore diameter can let gases slip by the shot cup, resulting in both reduced pellet velocity and blown patterns. A smaller bore diameter means the forcing cone can deform pellets, leading to poor ballistic performance and uneven, spotty pellet coverage on your target.
The Lightning Trigger System is the finest ever offered in an autoloading shotgun, designed to offer a smooth, crisp feel with minimal travel. With locktimes averaging .0052 seconds, the Lightning Trigger is 24% faster than the nearest competing autoloader, making every pull perfect. It’s also easy to remove for cleaning.

MAXIMUM GRIP
Composite Maxus models combine in-molded textured gripping surfaces and our proven Dura-Touch™ Armor Coating for a sure hold and a sleek feel in all climate conditions.

MAGAZINE CUT-OFF
The Maxus is equipped with a magazine cut-off that allows you to easily unload the chamber to change loads without cycling a shell from the magazine.

OPTIMAL DIMENSIONS
Innovation is rampant throughout the Maxus, and it carries into fit and handling. The Maxus features a trim forearm and close radius pistol grip to maximize control. A relieved steel magazine tube reduces weight allowing a faster swing while maintaining durability. Drop and cast can be tuned using the included stock shim kit. An externally relieved magazine tube reduces weight and adds strength. A low rib is in line with the top of the receiver and translates into a flat point of impact.

The patented TurnKey Magazine Plug is easily removed in seconds using a vehicle key. Combined with the Speed Lock System, the magazine plug can be removed from the Maxus in mere seconds.

Speed Loading has been popular on Browning autoloaders for decades. Our patented feeding system sends the first shell loaded into the magazine directly into the chamber. Now, unloading is just as easy with the Maxus. The Speed Unload feature makes emptying the magazine fast and easy, without having to cycle and chamber every shell with the bolt handle.

BROWNING.COM
EXCEEDING ITS REPUTATION.
There simply isn’t another over and under made today that can boast the reputation of a Browning Citori. Regarded by many as having the toughest action available, these gorgeous guns are precision built and hand assembled to outlast the competition. Quick to the shoulder and fast to swing, a Citori offers all of this quality and performance at a price tag often thousands less than other premium shotguns.

STEEl SHot PeRFoRMance
The strength of a Browning barrel is legendary, and built to handle the punishment of steel shot. Unlike some manufacturers’ barrels that show pitting after shooting steel, Browning has pioneered construction that maximizes steel shot performance and barrel durability. Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications. With proper care, Browning Citori barrels will last a lifetime.

TrIPLE TrIGGER SYStEm
All Sporting Clays, XT and XS Series Citori shotguns come equipped with the Triple Trigger™ System, which fine-tunes the length of pull. Choose between a wide checkered, a narrow smooth and a wide smooth cantled trigger shoe.

LoCKINg BoLT AND HINGE PIN
The Citori features a heavy-duty, transverse-mounted, full-width tapered locking bolt that engages a full-width tapered recess in the rear barrel lugs. Tapering the bolt and recess allows the bolt to seat deeper, accommodating for wear. The hinge pin extends across the width of the receiver for maximum strength. Engineering like this ensures the Citori wears in, not out.

HAMMERS AND HAMMER EJECTORS
For positive primer ignition, Citori hammers are driven by powerful coil-type mainsprings. The convenient barrel selector allows a shooter to choose which barrel fires on the first pull of the single trigger, and the second pull fires the remaining barrel. Ejectors are fired by a sharp hammer blow for more positive ejection than the push imported by competitors’ ejectors. The automatic ejectors eject fired hulls when the breech is opened and elevate unfired shells for easy removal.
VECTOR PRO™ LENGTHENED FORCING CONES ON 12 AND 20 GAUGE CITORI SHOTGUNS

Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformation for more uniform patterns and reduced felt recoil. Browning was the first manufacturer to put back-boring and its advantages into production shotguns. Now, we've made the next big leap with Vector Pro. More than 2" longer than the competitors' forcing cone dimensions, Vector Pro's gradual taper minimizes shot deformation for maximum pattern uniformity, consistency and density and more shot right where it needs to be to bring down birds and smoke clays. Vector Pro back-bore specifications are the ideal bore diameters. Any larger and gases blow past the shot cup, resulting in reduced pellet velocity and blown shot patterns. If the bore is smaller, pellets are smashed into the forcing cone, leading to poor ballistic performance and uneven patterning.

INVECTOR™ CHOKE TUBE SYSTEMS

The proven Standard Invector (28 gauge, .410 bore) or Invector-Plus™ (12, 20 gauge) interchangeable choke tube systems are featured on every Citori shotgun and provide consistent, dense shot patterns in the constriction needed for the specific shooting situation. The longer choke taper inside an Invector-Plus choke tube works with Vector Pro™ lengthened forcing cones to produce dense patterns with uniform densities and fewer fliers. The superior designs of the Invector systems are far more durable than the choke systems found in competitors' guns, especially when lengthened forcing cones to produce dense patterns with uniform densities and fewer fliers. The superior designs of the Invector systems are far more durable than the choke systems found in competitors' guns, especially when

CHROME CHAMBERS

For increased durability and corrosion resistance, all Citori shotguns feature hard chrome-plated chambers to resist the toll that thousands of shells can take on lesser quality guns.

**Citori Superlight Feather**  
*Gauge: 12, 20 (shown) | Gloss finish stock and forearm*

- **Receiver**: Lightweight alloy with steel breech face and hinge pin - High-relief engraving
- **Barrel**: Ventilated rib
- **Action**: Single selective trigger - Hammer ejectors - Top-tang barrel selector/safety
- **Stock**: Gloss finish walnut
- **Features**: Vector Pro™ lengthened forcing cones on 12 and 20 - Three Invector-Plus™ choke tubes - Ivory front bead sight

**Citori Lightning Feather Combo**  
*Gauge: 20, 28 | Gloss finish stock and forearm*

- **Receiver**: Lightweight alloy with steel breech face and hinge pin - High-relief engraving
- **Barrel**: Combo includes 3” chambered 20 gauge and 2¾” chambered 28 gauge barrels in 27” length - Ventilated rib
- **Action**: Single selective trigger - Hammer ejectors - Top-tang barrel selector/safety
- **Stock**: Gloss finish walnut - Lightning-style stock and forearm
- **Features**: Vector Pro™ lengthened forcing cones on 20 gauge barrels - Three Invector-Plus™ choke tubes - Three Standard Invector™ choke tubes - Ivory front bead sight - Fitted luggage case included

**Citori 625 Sporting**  
*Gauge: 12 (shown), 20, 28, .410 | Gloss oil finish stock and forearm*

- **Receiver**: Steel - Silver nitride finish - High-relief engraving with gold embellishment
- **Barrel**: Ventilated top and side rib - Tapered, floating top rib - Ported on 12 and 20
- **Action**: Single selective trigger - Hammer ejectors - Top-tang barrel selector/safety
- **Stock**: Gloss oil finish Grade III/IV walnut stock with close radius pistol grip and right-hand palm swell - Schnabel forearm
- **Features**: Vector Pro™ lengthened forcing cones on 12 and 20 - Five Diamond Grade extended Invector-Plus™ choke tubes on 12 and 20 - Standard Invector™ on 28 and .410 - Sporting recoil pad - Triple Trigger™ System - HiViz® Pro-Comp fiber-optic sight
**CITORI XS SPECIAL WITH LOW POST RIB AND ADJUSTABLE COMB**

**RECEIVER** - Steel · Silver nitride finish · Gold accented, high-relief XS Special engraving  
**BARREL** - Lightweight profile · Ventilated top and side ribs · Tapered, floating low-post top rib · Ported  
**ACTION** - Single selective trigger · Hammer ejectors · Top-tang barrel selector/safety  
**STOCK** - Satin finish walnut stock with right-hand palm swell · Adjustable comb · Semi-beavertail forearm with finger grooves · Ideal for skeet and sporting clays  
**FEATURES** - Vector Pro™ lengthened forcing cones · Five Invector-Plus™ Midas™ Grade choke tubes · Triple Trigger™ System · HiViz® Pro-Comp fiber-optic sight

High-quality fit and finish make the Citori one of the most durable, long-lasting guns you can own. When you open the breech of a Citori, the quality is evident. Precision manufacturing and hand-fitting ensures enduring quality and smoothness. Timeless, elegant and rugged, the Citori remains the quintessential over and under shotgun.

**BROWNING.COM**
Cypergy®

A TOTALLY NEW EXPERIENCE IN OVER AND UNDER SHOTGUNS.
Unlike other “new” over and under shotguns, the innovative Browning Cynergy is not just a twist on old technology. The Cynergy is a completely new experience in over and under shotguns, with handling, felt recoil control, speed and reliability that you must shoot to fully appreciate.

MECHANICAL TRIGGER
Cynergy shotguns feature the innovative Reverse Striker ignition system, a striker-based, mechanical trigger that offers the benefits of a crisp feel, reduced locktime and less overtravel than any other over and under available. And because inertia is not needed for the hammers to set, the design eliminates the possibility of the second barrel not firing. Cynergy target models are equipped with the Triple Trigger™ System, allowing you to adjust the length of pull and switch between styles of trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

INFLEX TECHNOLOGY RECOIL PAD
The Inflex Technology Recoil Pad system provides long travel recoil reduction for a massive 25% decrease in felt recoil on 12 gauge guns and makes recoil virtually non-existent on small gauge guns. A slick Parylene coating prevents the pad from snagging on clothing and allows the recoil pad to remain soft. Three pad lengths are available in ½” increments to provide length of pull adjustment to fit a wide variety of shooters. A ¼” spacer is included for customizing. See page 27 for accessories. (Inflex not available on Cynergy Classics.)

ADJUSTABLE COMB
Composite models include an integrated, adjustable comb system that allows the gun to be easily customized to your individual needs. Drop at comb adjustments are made in ¼” increments. For cast on/cast off customizing, accessory combs are available.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
SUPERIOR GRIPPING SURFACES
Composite Cynergy models combine molded-in rubberized textured gripping surfaces and our proven Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate and weather conditions.

MONOLOCK HINGE
The strong MonoLock Hinge design is the engineering behind the Cynergy’s low profile receiver. The MonoLock Hinge is the integration of the monobloc and the hinge, and has up to 300% more surface area to pivot on than traditional trunnion-style hinges. Rectangular locking pins provide extra strength and feature a “Wear-In Relief” that keeps the action tight. Jeweling adds a beautiful appearance, smoother function and improved durability.

VECTOR PRO™ LENGTHENED FORCING CONES ON 12 AND 20 GAUGE CYNERGY SHOTGUNS
Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformity for more uniform patterns and reduced felt recoil. Browning was the first manufacturer to put back-boring and its advantages into production shotguns. Now we’ve made the next big leap with Vector Pro. More than 2" longer than the competitors’ forcing cone dimensions, Vector Pro’s gradual taper minimizes shot deformation for maximum pattern uniformity, consistency and density and more shot right where it needs to be to bring down birds and smoke clays. Vector Pro back-bore specifications are the ideal bore diameters. Any larger and gases blow past the shot cup, resulting in reduced pellet velocity and blown shot patterns. If the bore is smaller, pellets are smashed into the forcing cone, leading to poor ballistic performance and uneven patterning.

IMPACT EJECTORS
Impact Ejectors are aided by the punch of a secondary striker spring for more positive, reliable ejection of fired hulls from the chambers. Unfired shells are elevated for easy removal.

CHROME CHAMBERS
For increased durability and corrosion resistance, all Cynergy shotguns feature hard chrome-plated chambers to reset the toll that thousands of shells can take on lesser quality guns.

STEEL SHOT PERFORMANCE
The strength of a Browning barrel is legendary, and built to handle the punishment of steel shot. Unlike some manufacturers’ barrels that show pitting after shooting steel, Browning has pioneered construction that maximizes steel shot performance and barrel durability. Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications. With proper care, Browning Cynergy barrels will last a lifetime.
**CYNERGY FIELD**  GAUGE: 12 (SHOWN), 20, 28, .410 | GLOSS OIL FINISH STOCK AND FOREARM

RECEIVER - Steel · Silver nitride finish · Ultra-low profile · Monolock Hinge · Jewelled monobloc
- High relief engraving includes the receiver, forearm iron and top lever (12 gauge models illustrate pheasants and ducks. Small gauge models feature quail and grouse.)
BARREL - Lightweight profile · Ventilated top and side ribs
ACTION - Reverse Striker ignition system · Impact Ejectors · Top-tang barrel selector/safety

**STOCK** - Gloss oil finish and upgraded Grade II/III walnut
**FEATURES** - Vector Pro™ lengthened forcing cones on 12 and 20 · Three Standard Invector™ on 28 and .410 · Inflex Technology Recoil Pad System · .4 stock spacer · Ivory front and mid-bead sights

---

**CYNERGY FEATHER**  GAUGE: 12 (SHOWN), 20, 28, .410 | GLOSS OIL FINISH STOCK AND FOREARM

RECEIVER - Lightweight alloy with steel breech face · Gold enhanced grayed finish · Ultra-low profile · Monolock Hinge · Jewelled monobloc
BARREL - Lightweight profile · Ventilated top and side ribs
ACTION - Reverse Striker ignition system · Impact Ejectors · Top-tang barrel selector/safety

**STOCK** - Gloss oil finish and upgraded Grade II/III walnut
**FEATURES** - Vector Pro™ lengthened forcing cones on 12 and 20 · Three Invector-Plus™ choke tubes on 12 and 20 · Three Standard Invector™ on 28 and .410 · Inflex Technology Recoil Pad System · .4 stock spacer · Ivory front and mid-bead sights

---

**CYNERGY FEATHER COMPOSITE WITH ADJUSTABLE COMB**  GAUGE: 12 | DURA-TOUCH® ARMOR COATING ON STOCK AND FOREARM

RECEIVER - Lightweight alloy with steel breech face · Gold enhanced grayed finish · Ultra-low profile · Monolock Hinge · Jewelled monobloc
BARREL - Lightweight profile · Ventilated top and side ribs
ACTION - Reverse Striker ignition system · Impact Ejectors · Top-tang barrel selector/safety

**STOCK** - Black composite with rubber overmoldings in grip areas · Dura-Touch® Armor Coating · Adjustable comb
**FEATURES** - Vector Pro™ lengthened forcing cones · Three Invector-Plus™ choke tubes · Inflex Technology Recoil Pad System · .4 stock spacer · Ivory front and mid-bead sights

## Cynergy Field

- **Type:** Field
- **Gauge:** 12
- **Barrel Length:** Various lengths: 26, 28, 30, 32 inches
- **Choke:** Various chokes: Cylinder, Improved Cylinder, Modified, Full, IC, Sky
- **Stock Finish:** Gloss oil
- **Stock Material:** Grade II/III Walnut
- **Comb Adjustment:** Yes
- **Safety:** Yes
- **Trigger:** Triple Trigger™
- **Sights:** HiViz® Pro-Comp Fiber-Optic
- **Action:** Reverse Striker Ignition
- **Selectivity:** Top-tang barrel selector
- **Chokes Included:** Various options
- **Overall Length:** Varies with different lengths
- **Drop at Heel:** Varies with different lengths
- **Comb:** Adjustable
- **Drop:** Varies with different lengths
- **Comb Width:** Varies with different lengths
- **Laminate:** Yes
- **SPC:** Yes
- **Grade:** Excellent
- **Overall:** 2123

### Additional Features
- **Safety:** Yes
- **Rear Sight:** Adjustable comb
- **Trigger:** Triple Trigger™
- **Choke Tubes:** Various options
- **Sights:** HiViz® Pro-Comp Fiber-Optic
- **Drop:** Varies
- **Comb:** Adjustable
- **Weight:** Varies
- **Overall Length:** Varies

### Engineering Features
- **Action:** Reverse Striker Ignition
- **Selectivity:** Top-tang barrel selector
- **Chokes Included:** Various options
- **Overall:** 2123

*NOTE: Weights listed are approximate.*
**CYNERGY CLASSIC FIELD GRADE III**  
GAUGE: 12 (SHOWN), 20 | GLOSS FINISH STOCK AND FOREARM

**RECEIVER**  
- Steel · Silver nitride finish · Ultra-low profile  
- Jewelled monobloc · Monolock Hinge · High-relief engraving includes the trigger guard, tang and top lever (12 gauge models illustrate pheasants on the left, mallards on the right. 20 gauge models feature teal and partridge.)

**BARREL**  
- Lightweight profile  
- Ventilated top and side ribs  
**ACTION** - Reverse Striker ignition system · Impact Ejectors · Top-tang barrel selector/safety

**STOCK**  
- Gloss finish Grade III/IV walnut

**FEATURES**  
- Vector Pro™ lengthened forcing cones  
- Three Invector-Plus™ choke tubes · Ivory front and mid-bead sights · Recoil pad on 12 gauge model

**Features:**
- Vector Pro™ lengthened forcing cones  
- Three Invector-Plus™ choke tubes · Ivory front and mid-bead sights · Recoil pad on 12 gauge model

---

**CYNERGY CLASSIC FIELD GRADE VI**  
GAUGE: 12 (SHOWN), 20 | GLOSS FINISH STOCK AND FOREARM

**RECEIVER**  
- Steel · Silver nitride finish · Ultra-low profile  
- Jewelled monobloc · Monolock Hinge · Full coverage high-relief engraving is gold enhanced and includes the trigger guard, tang and top lever (12 gauge models illustrate pheasants on the right, mallards on the left. 20 gauge models feature quail and grouse.)

**BARREL**  
- Lightweight profile  
- Ventilated top and side ribs  
**ACTION** - Reverse Striker ignition system · Impact Ejectors · Top-tang barrel selector/safety

**STOCK**  
- Gloss finish Grade V/VI walnut

**FEATURES**  
- Vector Pro™ lengthened forcing cones  
- Three Invector-Plus™ choke tubes · Ivory front and mid-bead sights · Recoil pad on 12 gauge model

**Features:**
- Vector Pro™ lengthened forcing cones  
- Three Invector-Plus™ choke tubes · Ivory front and mid-bead sights · Recoil pad on 12 gauge model

CYNERGY CLASSIC SPORTING WITH ADJUSTABLE COMB

**Gauge:** 12 (shown), 20
**Finish:** Gloss oil

**Features:**
- Adjustable comb
- Vector Pro™ lengthened forcing cones
- Three Invector-Plus™ Midas™ Grade choke tubes
- HiViz® Pro-Comp fiber-optic sight

**Specifications:**
- Receivers: Steel, Silver nitride finish
- Barrels: Lightweight profile
- Actions: Reverse Striker ignition
- Stocks: Gloss finish Monte Carlo Grade III/IV

**Model Options:**
- 12 GA: 32" BBL, 8 lbs. 11 oz., 50" overall, $3,859.99
- 12 GA: 30" BBL, 8 lbs. 10 oz., 48½" overall, $3,779.99
- 20 GA: 32" BBL, 7 lbs, 14½" overall, $4,199.99

*Note: Weights listed are approximate.*

*NOTE: All new guns are shipped with medium pads.

Length of pull is adjustable from 13¾”-15” with the purchase of the recoil pads and stock spacers above. See page 30 for details on Inflex pads.*
BROWNING QUALITY AT ITS BEST. When it comes to performance and durability, dollar-for-dollar there isn’t a better single-barrel trap gun than the rugged BT-99. These no-nonsense guns are built for the long haul, and are always ready to put you at the top of your game.

VECTOR PRO™ LENGTHENED FORCING CONE
Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformation for more uniform patterns and reduced felt recoil. The Vector Pro forcing cone is over 2” longer than the competitor’s. Vector Pro’s gradual taper minimizes shot deformation for maximum pattern uniformity, consistency and density and more shot right where it needs to be to smoke clays.

INVECTOR -PLUS™ CHoke TUBE SYStem
The Invector-Plus interchangeable choke tube system provides consistent, dense shot patterns in the constriction needed for your shooting situation. The longer choke taper inside an Invector-Plus choke tube works with Back-Bored Technology to produce patterns with more uniform densities and fewer fliers. The superior design eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel. See pages 146 to 149 for a complete listing of choke tubes.

CHROME CHAMBERS
The BT-99 features a chrome-plated chamber to resist the toll thousands of shells can take on lesser quality guns. Corrosion resistance is also greatly improved.

VECTOR PRO™ LENGTHENED FORCING CONE
Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformation for more uniform patterns and reduced felt recoil. The Vector Pro forcing cone is over 2” longer than the competitor’s. Vector Pro’s gradual taper minimizes shot deformation for maximum pattern uniformity, consistency and density and more shot right where it needs to be to smoke clays.

INVECTOR -PLUS™ CHoke TUBE SYStem
The Invector-Plus interchangeable choke tube system provides consistent, dense shot patterns in the constriction needed for your shooting situation. The longer choke taper inside an Invector-Plus choke tube works with Back-Bored Technology to produce patterns with more uniform densities and fewer fliers. The superior design eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel. See pages 146 to 149 for a complete listing of choke tubes.

CHROME CHAMBERS
The BT-99 features a chrome-plated chamber to resist the toll thousands of shells can take on lesser quality guns. Corrosion resistance is also greatly improved.

BROWNING GROWTH INSURANCE PROGRAM

It’s a fact, kids grow. Which makes purchasing a firearm for them a difficult decision. Should you buy an inexpensive “youth” model with questionable quality that they will soon grow out of? Or should you buy a well-made, but ill-fitting, full-size firearm that won’t let them shoot to their potential because of poor fit? Fortunately, Browning offers the perfect solution for both now and later with the Growth Insurance Program. For a limited time, with the purchase of a new Browning Micro Midas or Micro firearm, you are eligible to purchase a full-size stock at 50% off the retail price. That’s a big savings for you, and allows them to enjoy a firearm of the highest quality that is sure to fit and maximize their shooting performance and enjoyment for years to come. Visit browning.com for complete details.
BROWNING QUALITY AND LASTING VALUE.
The name Browning will forever be associated with the best autoloading shotguns you can buy. Dollar-for-dollar, there is not a better deal than a Silver. These value-added guns give you the highest levels of craftsmanship, handling and versatility and are priced within everyone’s budget.

BACK-BORED BARREL TECHNOLOGY
Back-boring reduces friction between the shot cup and the bore for increased shot pellet velocity, minimized pellet deformity for more uniform patterns and reduced felt recoil. Browning was the first manufacturer to put back-boring and its advantages into production shotguns. Through intense research, our back-bore specifications have been perfected and represent the ideal bore diameter needed to minimize shot deformation and maximize pattern uniformity, consistency and density. Any larger and gases slip by the shot cup, resulting in reduced pellet velocity and blown patterns. Any smaller, and the forcing cone will deform pellets and result in poor ballistic performance, fliers and uneven, spotty pellet coverage on the target.

INVECTOR-PLUS™ CHOKE TUBE SYSTEM
The proven Invector-Plus interchangeable choke tube system comes on every Silver shotgun to provide consistent, dense shot patterns in just the constriction needed for your shooting situation. The longer choke taper inside an Invector-Plus choke tube works hand-in-hand with Back-Bored Technology to produce consistent patterns with more uniform densities and fewer fliers. The superior design of the Invector-Plus system is far more durable than the choke systems found in competitors’ guns, especially when shooting steel shot loads. Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel. See pages 146 to 149 for a complete listing of choke tubes.

STEEL SHOT PERFORMANCE
The strength of a Browning barrel is legendary, and built to handle the punishment of steel shot. Unlike some manufacturers’ barrels that show pitting after shooting steel, Browning has pioneered construction that maximizes steel shot performance and barrel durability. Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications. With proper care, a Browning Silver barrel will last a lifetime.

MAGAZINE CAPACITY
2¾": Four in magazine, one in chamber.
3": Three in magazine, one in chamber.
3½": Three in magazine, one in chamber.
(A three-shot magazine adapter plug is included.)

TRIGGER
The trigger guard is large and has carefully rounded edges to accommodate gloved fingers. Additionally, the Silver’s entire trigger assembly can be removed in just seconds for thorough cleaning.

MAXIMUM GRIP
Composite Silver models combine checkered gripping surfaces and proven Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate conditions.
LESS RECOIL WITH THE ACTIVE VALVE
The self-adjusting Active Valve gas system in Silver autoloaders diverts gases from fired shells to operate the action instead of adding to recoil. When shooting light loads, most of the gases operate the action. With magnum loads, only a small amount of gas is necessary to operate the action, while the remaining gases are vented through the Active Valve and out the top of the forearm and away from the receiver for clean, reliable operation. The gas piston and Active Valve operate independently, putting less pressure on the gas piston for greater longevity and more efficient operation than the competitors’ gas-operated autoloaders. Because the Active Valve expels unnecessary gases, it reduces recoil before it ever strikes your shoulder — without the need for heavy hydraulic recoil dampers, sticky gel pads and gimmicky gel stock inserts. Superior recoil reduction from the Active Valve also equals faster, more accurate follow-up shots and all-day shooting comfort regardless of the loads you shoot.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.

LOAD VERSATILITY
The Active Valve-equipped gas piston efficiently adjusts to reliably fire a wide range of loads. 12 gauge 3” models fire everything from light, 1 oz., 2¾” target loads to the heaviest 3” magnums. The larger 3½” version is built to handle a similar range, from 1¼ oz., 2¾” field loads up to hard-hitting 3½” magnums. Competitors’ guns can’t match this versatility.

SILVER HUNTER MICRO MIDAS

**GAGE:** 12 (SHOWN), 20 | **FINISH:** SATIN

**RECEIVER:** Strong, lightweight aluminum alloy - Semi-humpback design - Silver finish

**BARREL:** Lightweight profile - Ventilated rib

**ACTION:** Gas-operated autoloader - 5” chamber - Active Valve reliably cycles a wide range of loads

**STOCK:** Satin finish walnut stock and forearm - Compact 13” length of pull for smaller shooters

**FEATURES:** Three Invector-Plus™ choke tubes - Ivory front bead sight - One ¼” stock spacer

*BROWNING.COM
BPS® EVERYTHING YOU NEED IN A SHOTGUN ... AND MORE.

You won’t find a more rugged, faster handling pump shotgun than the stalwart Browning BPS. The BPS has proven itself reliable in the rain, snow, dust and mud. They’ve seen tough duty in marshes, cornfields and on trap ranges. Through it all, count on the BPS to load and eject shells with ease in spite of the conditions.

BACK-BORED BARREL TECHNOLOGY

We were the first manufacturer to recognize the advantages of a back-bored barrel. Back-boring increases the bore diameter to reduce friction between the shot cup and the bore to maximize shot velocity and reduce felt recoil. Through intense research, our back-bore specifications have been perfected and represent the ideal bore diameter needed to minimize shot deformation and maximize pattern uniformity, consistency and density. Any larger and gases slip by the shot cup, resulting in reduced pellet velocity and blown patterns. Any smaller, and the forcing cone will deform pellets and result in poor ballistic performance, fliers and uneven, spotty pellet coverage on the target.

INVECTOR™ CHOKE TUBE SYSTEMS

The proven Invictor™ (.28 gauge, .410 bore) and Invictor-Plus™ (12, 20 gauge) interchangeable choke tube systems come on every BPS shotgun for consistent, dense shot patterns in just the constriction needed for your shooting situation. The longer choke taper inside an Invictor-Plus choke tube works hand-in-hand with Back-Bored Technology to produce consistent patterns with more uniform densities and fewer fliers. The superior design of the Invictor systems are far more durable than the choke systems found in competitors’ guns, especially when shooting steel shot loads. The Invictor systems eliminate gases slipping between the choke tube and barrel that could damage the choke tube and the barrel. See pages 146 to 149 for a complete listing of choke tubes.

STEEL SHOT PERFORMANCE

The strength of a Browning barrel is legendary, and built to handle the punishment of steel shot. Unlike some manufacturers’ barrels whose guns face an uncertain future after shooting steel, we have long been at the forefront of dependable steel shot performance and durability. Our barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications. With proper care, Browning BPS barrels will last a lifetime.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
BOTTOM EJECTION AND LOADING
Unique bottom ejection provides operating convenience by throwing empty shells straight down, out of your line of sight, making the BPS the best pump shotgun choice for both right- and left-handed shooters.

SAFETY
The thumb-operated, top-tang safety on the BPS can easily be operated with the right or left hand, even with gloved fingers.

MAGAZINE CAPACITY
2½": Four in magazine, one in chamber.
3": Three in magazine, one in chamber.
3¼": Three in magazine, one in chamber.
(A three-shot magazine adapter plug is included.)

MAXIMUM GRIP
Camo composite BPS models combine in-molded checkered gripping surfaces and our proven Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate conditions.

RELIABLE PUMP-ACTION
The proven pump-action design of the BPS is sound and reliable. All components are durably constructed of solid steel and housed inside a receiver machined from a solid block of forged steel. Rigid double slide bars are made from heat-treated steel and eliminate twisting and binding for faster, more efficient operation. The BPS offers smooth operation in all conditions and gives you the ability to stay on target while delivering rapid follow-up shots. A convenient serrated slide release is located at the rear of the trigger guard.
### BPS Hunter

**BPS HUNTER**  
- **Gauge:** 12, 20, 28, 410  
- **Finish:** Satin finish and forearm

**Features:**  
- Forged and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety

**Stock:** Satin finish walnut  
- Three Invector-Plus™ choke tubes with 12 and 20  
- Three Standard Invector™ with 16

**Dimensions:**  
- Compact 22" length  
- Dual steel action bars  
- Top-tang safety  
- Forged and machined steel  
- Three Invector-Plus™ choke tubes  
- Satin finish walnut stock and forearm

**Action:**  
- Forth and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety

**Weight:**  
- Approximate weights listed

**Price:**  
- $619.99

### BPS Upland Special

**BPS UPLAND SPECIAL**  
- **Gauge:** 12, 16, 20  
- **Finish:** Satin finish and forearm

**Features:**  
- Forged and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety  
- Three Standard Invector™ with 16

**Action:**  
- Forth and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety

**Weight:**  
- Approximate weights listed

**Price:**  
- $619.99

### BPS Micro

**BPS MICRO**  
- **Gauge:** 20  
- **Finish:** Satin finish and forearm

**Features:**  
- Forged and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety

**Action:**  
- Forth and machined steel  
- Ventilated rib  
- Bottom ejection  
- Dual steel action bars  
- Top-tang safety

**Weight:**  
- Approximate weights listed

**Price:**  
- $619.99

**BROWNING GROWTH INSURANCE PROGRAM**

It's a fact, kids grow. Which makes purchasing a firearm for them a difficult decision. Should you buy an inexpensive “youth” model with questionable quality that they will soon grow out of? Or should you buy a well-made, but ill-fitting, full-size firearm that won't let them shoot to their potential because of poor fit? Fortunately, Browning offers the perfect solution for both now and later with the Growth Insurance Program. For a limited time, with the purchase of a new Browning Micro Midas or Micro firearm, you are eligible to purchase a full-size stock at 50% off the retail price. That's a big savings for you, and allows them to enjoy a firearm of the highest quality that is sure to fit and maximize their shooting performance and enjoyment for years to come. Visit browning.com for complete details.

3" chambered barrels With 3½" receiVers.


TOTAL ACCURACY. There are scores of bolt-action rifles available, yet none match the Browning X-Bolt in terms of innovative features, quality and straight-from-the-box accuracy. Unlike competitors’ rifles, the X-Bolt is designed as an integrated system of features that come together to deliver the most important aspect of any rifle — total, dependable, pinpoint accuracy.

60° BOLT LIFT Short 60° bolt lift is fast cycling and allows you to work the bolt quickly without the scope getting in the way. The bolt is machined from solid steel bar stock for strength and custom rifle precision. Three locking lugs provide exceptional bolt strength.

BOLT UNLOCK BUTTON Conveniently located on top of the bolt handle, the bolt unlock button allows the bolt to be unlocked and opened with the safety in the on safe position. The bolt unlock button works in conjunction with the top-tang safety to provide an extra margin of safety when checking and unloading the chamber. The safety blocks the trigger sear and features a firing pin block for added security.

For precise shooting there is absolutely no substitute for a crisp, predictable trigger. The X-Bolt’s three-lever Feather Trigger™ provides a clean, crisp pull with no take-up or creep and minimal overtravel. The trigger is screw adjustable from 3 to 5 lbs., and factory pre-set at approximately 3 1/2 lbs. An alloy trigger housing contains hard chromed steel components that are highly polished on all critical contact surfaces. Precise engagement angles mean the X-Bolt Feather Trigger feels light and stays that way through many thousands of rounds. Unlike competitors’ triggers that rely on a secondary fingerpiece lever, the Feather Trigger is designed right, from the very start.
**Inflex Technology Recoil Pad**

The Inflex Technology recoil pad is standard on every X-Bolt rifle. This ultra-soft pad offers the best recoil absorption available on any rifle. The proprietary construction and material promote a directional deflection of recoil forces, pulling the stock comb away from your face to reduce felt recoil and muzzle climb.

**Maximum Grip**

Composite X-Bolt models combine molded textured gripping surfaces and Browning’s proven Dura-Touch™ Armor Coating for a sure hold and sleek feel in all climate conditions.

**X-LOCK™ Scope Mounting System**

Securely mounted optics are essential for accuracy and precision on any rifle. To ensure the X-Bolt has the most stable scope mounting system possible, X-Lock mounts feature a four screw per base design that replaces the traditional two screw system. With the bases secured at all four corners of the base you get more accurate placement and more secure attachment to the receiver. See page 137 for more details on the new X-Lock Scope Mounting System.

**Magazine**

The X-Bolt is fed from a detachable rotary magazine constructed from durable, lightweight polymer. Cartridges are picked up from the center of the magazine, directly in-line with the bolt, instead of offset as with traditional leaf-spring magazines, for a straight shot right into the chamber. An ergonomic magazine-mounted release lets the magazine rotate directly downward and into your hand. The magazine sits flush with the bottom of the rifle for a sleek appearance. Additional magazines can be kept loaded and carried for easy access.

**Barrel**

A free-floating barrel is essential for utmost accuracy. The X-Bolt is free-floated by bedding the front and rear of the action for stability. This maintains barrel to stock spacing for consistent accuracy. A recessed muzzle crown helps protect the rifling from damage. Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.
**X-BOLT MICRO MIDAS**  
SATIN FINISH STOCK

**RECEIVER**  
- Steel · Low-luster blued finish · Glass bedded · Drilled and tapped for scope mounts

**BARREL**  
- Low-luster blued finish · Free-floating · Hand chambered · Target crown

**ACTION**  
- Bolt-action · 60° bolt lift · Adjustable Feather Trigger™ · Detachable rotary magazine · Top-tang safety · Bolt unlock button

**STOCK**  
- Satin finish checkered walnut stock · Compact 12¼" length of pull for smaller shooters

**FEATURES**  
- Sling swivel studs installed · Inflex Technology recoil pad

THE STAR OF THE SHOW

The Browning X-Bolt is proven to be reliable and accurate in far-flung destinations around the globe. Just ask Stephen LeBlanc, host of “Browning Expeditions” and Kristy Lee Cook, host of “Goin’ Country.” Here, Kristy shows off a monster red stag taken with her X-Bolt in New Zealand.

X-BOLT MEDALLION  GLOSS FINISH STOCK

**RECEIVER** - Steel · Engraved with blued finish · Glass bedded · Drilled and tapped for scope mounts

**BARREL** - Blued finish · Free-floating · Hand chambered · Target crown

**ACTION** - Bolt-action · 60° bolt lift · Adjustable Feather Trigger* · Detachable rotary magazine · Top-tang safety · Bolt unlock button

**STOCK** - Gloss finish · checkered walnut stock · Rosewood fore-end grip and pistol grip cap

**FEATURES** - Sling swivel studs installed · Inflex Technology recoil pad

**NOTE:** *Total capacity includes one round in the chamber. **Weights listed are approximate. ***Measured from centerline of bore.
### X-Bolt Hunter

- **Stock**: Satin Finish checkered walnut stock
- **Features**:
  - Inflex Technology recoil pad
  - Hand chambered
  - Target Crown
  - Bolt action - 60° bolt lift
  - Adjustable Feather Trigger
  - Detachable magazine
  - Top-tang safety - Bolt unlock button

### Features
- **Scope and mounts not included**
- **Inflex Technology recoil pad**
- **Top-tang safety**
- **Bolt unlock button**

NOTE: *Total capacity includes one round in the chamber. **Weights listed are approximate. ***Measured from centerline of bore.
All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.

A REPUTATION OF DEPENDABILITY.

Outstanding accuracy and reliable performance are within your reach with a versatile Browning A-Bolt rifle. These proven rifles include groundbreaking features like an easy-to-reach tang safety and 60° bolt lift, both of which allow for faster, more convenient shooting. The A-Bolt is also available with the BOSS® System that dials-in barrel harmonics to precisely match the ammunition used for unequalled accuracy on the range or from your stand.

THE BOSS® SYSTEM

The Ballistic Optimizing Shooting System is designed to squeeze maximum accuracy from the A-Bolt. The tunable BOSS System easily dials-in barrel harmonics to precisely match the specific ammunition being fired, resulting in amazingly tight groups. The BOSS System is available as an option on the Medallion, Composite Stalker, Stainless Stalker, M-1000 Eclipse and Stainless M-1000 Eclipse. An interchangeable, non-ported BOSS-CR is also included.

BOSS-CR

This accessory is also included with all BOSS-equipped A-Bolt rifles and offers all the accuracy advantages of the original BOSS without the muzzle brake feature.
**BOLT-ACTION**

With a fast 60° lift that doesn’t have you banging your hand on the scope, the bolt incorporates a non-rotating sleeve that runs the full length of the bolt. When unlocked, three guide ribs on the bolt sleeve align with the three locking lugs to allow the bolt to slide smoothly. When locked, the three lugs provide massive bolt strength. The A-Bolt feeds smoothly because of its unique, patented cartridge depressor. This cartridge depressor stays in position, independent of the bolt rotation, as the bolt slides gently over the cartridges in the magazine. The bolt face is recessed, completely surrounding the cartridge base.

**BEDED ACTION AND FREE-FLOATED BARREL**

The barrel is free-floating and the action is glass bedded at the recoil lug and at the front of the receiver to maintain the proper spacing around the barrel for consistent accuracy. Every A-Bolt features a recessed muzzle crown to protect the rifling. Barrels are hand chambered and triple checked for interior finish, straightness and air-gauged for uniformity.

**MAGAZINE**

Hinged floorplate with detachable box magazine makes it simple and fast to load a spare magazine.

**MAGAZINE CAPACITY**

Three in magazine, one in chamber. Standard calibers: Four in magazine, one in chamber. 223 Rem.: Five in magazine, one in chamber.

**PERSONALIZED ENGRAVING**

The bolt of the A-Bolt rifle can be personalized with your name. Call (800) 333-3288. Not available on the Mountain Ti model.

---

A-BOLT TARGET RIFLES. TACK-DRIVING ACCURACY STRAIGHT FROM THE BOX.

Producing nothing short of jaw-dropping performance, Browning A-Bolt Target rifles feature a precise target-style, single-set trigger that is factory-adjusted to approximately 9-14 ounces (250-400 grams) of pull weight in the set mode, and also operates as a conventional trigger with an adjustment range of 4-6 lbs. Fitted with a 28” target barrel, the action is carefully bedded into a beautiful laminated stock with a wide fore-end for exceptional stability on sandbags or from a bench rest. A fully adjustable comb allows you to dial-in perfect eye-to-scope alignment, even with large objective target optics. Lastly, a close-radius pistol grip ensures an easy reach to the trigger, so you squeeze the most out of an A-Bolt Target rifle’s accuracy.

</tbody>
</table>

NOTE: *Total capacity includes one round in the chamber. **Weights listed are approximate. ***Measured from centerline of bore.
The BOSS-CR accessory offers all the accurate and tunable advantages of the original BOSS device without the muzzle brake feature. By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, no-hole BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed. The BOSS-CR accessory is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.

**NOTE:** Magazines that are not listed above may be available only through the Browning Parts Department at (800) 322-4626.
A Modern Twist on a Classic Style. John M. Browning designed many of the best lever-action rifles ever made. We're certain that the modern Browning BLR would have his nod of approval. The BLR features a rugged rack and pinion-driven bolt that locks tight to the barrel and gives the BLR accuracy potential that rivals many bolt-actions. A reliable box magazine protects bullet tips and gives the BLR magnum ability.

Action
Advanced, lightning fast, glass-smooth rack and pinion lever-action. Strong rotating head, multiple-lug breech bolt with a recessed bolt face and side ejection.

Trigger
Wide groove design trigger with short, smooth pull. The trigger travels with the lever to avoid pinching your fingers when cycling.

Receiver
Lightweight, sturdy machined aircraft-grade aluminum. Drilled and tapped to accept scope mounts.

Sights
Low profile, square notch, screw adjustable rear sight aligns easily with a highly visible gold bead on raised ramp front sight.

Magazine
The flush-mounted detachable box magazine has a capacity of three magnum or four standard rounds in the magazine, plus one in the chamber.

Scope Mounts
A scout-style scope mount is available as an accessory for the BLR Takedown models. This one-piece alloy base mounts forward of the receiver and stays attached to the barrel half of the rifle when disassembled to retain the scope's zero. A long eye relief scope is required (not included). The receiver is also drilled and tapped for conventional scope bases and rings (not included). Three scout-style scope mounts are available for BLR Scout models, depending on the caliber (see chart on page 63).

Hammer
The fold-down hammer has two positions at half-cock so the status of the rifle is readily seen. The folding hammer provides an added measure of safety when the hammer is at half-cock. The hammer has four basic positions: full-cock, half-cock, folded hammer position and dropped, or fired position.

Takedown Features
BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store. The rifle is easily and quickly assembled without tools by simply sliding the barrel half into the receiver half and locking them together with the flip of a lever. The lever mechanically engages a stout locking lug into a recess in the bottom of the receiver. The system is rugged, precise and blends seamlessly into the styling of the rifle.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
BLR LIGHTWEIGHT STAINLESS WITH PISTOL GRIP • GLOSS FINISH STOCK AND FOREARM

RECEIVER - Aircraft-grade alloy • Satin nickel finish • Drilled and tapped for scope mounts
BARREL - Matte stainless steel finish • Crowned muzzle • Adjustable sights

(Scope and mounts not included)
BAR MEANS AUTOLOADER ACCURACY.

There was a time when accuracy was often marginal from autoloading rifles. Those days ended the day the Browning BAR was introduced. The accurate, fast handling and dependable BAR features a multi-lug rotary bolt that secures the bolt to the barrel for superb accuracy and offers the strength to fire magnum cartridges. The piston-operated gas system softens felt recoil and reduces muzzle climb.

RECEIVER

The Safari model uses a richly blued one-piece ordnance steel receiver with scroll engraving. Stalker, ShortTrac™ and LongTrac™ models have an aircraft-grade aluminum alloy receiver. All BAR rifles are drilled and tapped for scope mounts. The bolt release lever is incorporated into the receiver.

ACTION

The BAR is a gas-operated autoloader with a high-strength, multiple-lug rotating bolt that locks directly into the barrel. Every cartridge loaded into the chamber of the BAR is surrounded by a recessed bolt face, which is encircled by the barrel and then surrounded by the receiver. A seven-lug bolt and precise breech-to-chamber relationship give the BAR exceptional accuracy and the strength to handle magnum loads. The strong and very rigid action bar/inertia block link-up improves accuracy by reducing barrel vibration. The buffering system reduces wear and stress on the rifle’s mechanism.
MAGAZINE
Detachable box magazine with a unique hinged floorplate allows you to lower the floorplate, detach the empty magazine and snap in a full magazine in seconds.

ADJUSTABLE SHIM SYSTEM
ShortTrac® and LongTrac® BAR rifles include six shims that let you customize the drop at comb and cast on/off of the rifle to your ideal dimensions.

MAXIMUM GRIP
Camo composite BAR models combine checkered or overmolded gripping surfaces and Browning’s proven Dura-Touch® Armor Coating for a sure hold and a sleek feel in all climate conditions.

THE BOSS® SYSTEM
The Ballistic Optimizing Shooting System is designed to squeeze maximum accuracy from the BAR. The tunable BOSS System easily dials in barrel harmonics to precisely match the specific ammunition being fired to deliver amazingly tight groups. The BOSS System is available as an option on the BAR Mk II Safari.

BOSS-CR
The BOSS-CR offers all the accuracy advantages of the original BOSS without the muzzle brake feature.

THE BROWNING BAR. THE AUTOLOADER YOU DEMAND.

With more than ten calibers and ten models to choose from, there is a flat-shooting Browning BAR autoloader built for you. From elegant guns with a satin nickel receiver finish to rugged models with composite stocks that are fully camouflaged for better concealment, all share the same reputation for accuracy and durability that has made the BAR a favorite for decades.

TOP RIMFIRE PERFORMANCE. The T-Bolt is a one-of-a-kind rifle that is elegant and fun to shoot. Built to the highest standards of quality, these flat-shooting rimfires feature a slick straight-pull bolt that cycles fast and locks-up snug to the barrel for unmatched accuracy. Experience a higher level of rimfire performance with each squeeze of the trigger from the Browning T-Bolt.

STOCK
Available in both right- and left-hand models, T-Bolt rifle stocks are full-size to comfortably fit adults. Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock. Walnut stocker Sporter models feature trim dimensions with a satin finish and cut checkering. Walnut Target/Varmint models feature a Monte Carlo comb and wide forearm for stability on the bench. All models include dual action screws for solid attachment, sling swivel studs and a synthetic buttpad.

SAFETY
Top-tang, thumb operated two-position safety can be operated without changing from a shooting grip.

BARREL
Target/Varmint models feature a 22” heavy varmint profile. T-Bolt Sporter models feature a 22” medium sporter profile. All are free-floating and have a semi-match chamber and target muzzle crown.

SIGHTS
Receiver is drilled and tapped for scope mounts (scope not included). See page 136 for scope rings and bases for T-Bolt rifles.

TRIGGER
The three-lever trigger design combined with a short-travel firing pin give a crisp break, quick lock time, no take-up and minimal overtravel. It is also externally adjustable for pull weight.

ACTION
Receiver is machined from steel barstock. Features crossbolt lockup and an enlarged bolt handle pivot point moved forward for smoother action. The mainspring runs directly through the massive pivot pin. Cocking effort is split between opening and closing for ease of operation. The bolt features dual extractors and a red cocking indicator band. Right-side ejection on both right- and left-hand models.
T-BOLT COMPOSITE SPORTER NON-GLARE COMPOSITE FINISH STOCK

RECEIVER - Steel - Blued finish
- Drilled and tapped for scope mounts

**BUCK MARK RIFLE**

**SIGHTS**  The Sporter model features a TRUGLO®/Marble’s® fiber-optic sight system.

**BARREL**  Sporter model features lightweight, tapered sporter-weight barrel. Target models feature a steel bull barrel. The chamber in every Buck Mark Rifle barrel is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

**FRAME**  Machined to exacting tolerances from a solid billet of 7075-T6 aluminum. The stock structure is a part of the pistol frame, reducing weight and the number of parts.

**SLIDE**  Built-in recess and raised side panels for an improved cocking grip. The convenient manual slide release is easily operated with the shooting or support hand.

**ACTION**  The straight blowback design offers enhanced simplicity and reliability.

**SAFETY**  Large manual thumb safety.

**MAGAZINE RELEASE**  Positioned adjacent to the trigger guard for convenient operation.

**MAGAZINE**  Magazines are interchangeable with the Buck Mark pistol. The magazine body is heat treated for long-term feeding reliability and long life. Our coil spring provides a consistent follower angle, 10-round capacity.

**TRIGGER**  The trigger is light, crisp and has less creep before it breaks and far less overtravel after breaking than other rimfires.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
COMPAKT RIMFIRE FUN.
The Buck Mark Rifle is Made in the USA and always ready for an afternoon hunting squirrels, rabbits or X-rings. These handy rifles are lightweight, easy to shoot and always reliable. They look neat, too. The proven coil spring magazine feeds ten cartridges and makes reloading a cinch. Get your hands on a Buck Mark rifle today.

**NOTE:** *Total capacity includes one round in the chamber*  
*Weights listed are approximate  
**Measured from centerline of bore.*
In celebration of the 100th anniversary of the classic 1911, Browning is pleased to introduce a scaled-down, 22 L.R. version of this great firearm. The new Browning 1911-22 is proudly made in the USA and will include a special first year of production collector's certificate plus a free limited edition commemorative canvas and leather zippered pistol case (a $49.99 retail value) with 1911-22 pistols shipped during 2011.

**COLLECTOR'S CERTIFICATE**
Each pistol made during the first year of production will include a beautiful collector's certificate of authenticity that commemorates the 100th anniversary of the US Military's adoption of the Browning 1911, the world's most legendary autoloading pistol.

**AFTER 100 YEARS, YOUR WAIT IS FINALLY OVER.**

**1911-2011 COMMEMORATIVE LIMITED EDITION ZIPPERED PISTOL RUG – INCLUDED FREE!**
It's durably constructed with a supple waxed cotton canvas shell, top-grain leather trim, plush green flannel lining and a nylon coil zipper, along with John M. Browning's signature and a special 1911-2011 logo adorning the outside. A solid brass hanging ring and a keyed brass padlock are included. This special commemorative pistol rug is a $49.99 retail value and will only be available with the purchase of the new Browning 1911-22 made during 2011.

All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.
You will find a familiar friend in the 1911-22 pistol. All controls operate just as those on the original John M. Browning-designed Model 1911.

**ACTION**
The straight blowback design offers enhanced simplicity and reliability.

**FRAME**
Machined to exacting tolerances from aluminum.

**SLIDE**
Vertical serrations provide an improved cocking grip. The convenient manual slide release is easily operated with the shooting or support hand.

**SAFETY**
Large manual thumb safety and grip safety.

**MAGAZINE**
The steel magazine body is heat treated for long-term feeding reliability and long life. Our coil spring provides a consistent follower angle. 10-round capacity.

**MAGAZINE RELEASE**
Positioned adjacent to the trigger guard for convenient operation.

**FRAME** - Alloy - Matte blued finish

**SLIDE** - Machined aluminum - Matte blued finish

**BARREL** - Stainless steel barrel block
- Matte blued finish · Target crown

**ACTION** - Blowback · Single-action trigger

**GRIPS** - Brown composite

**FEATURES** - Fixed sights - Detachable 10-round magazine · Manual thumb safety · Grip safety
MADE IN THE USA TO A HIGHER STANDARD OF QUALITY.

Precision, accuracy, reliability and pure enjoyment are all features you get in the Browning Buck Mark. These affordable pistols are Made in the USA and offer plenty of bang for your buck with a machined aluminum frame, precision rifled barrel, smooth trigger and fully-adjustable sights.

**ACTION**
The straight blowback design offers enhanced simplicity and reliability.

**SLIDE**
Built-in recess and raised side panels for improved cocking grip. The convenient manual slide release is easily operated with your shooting or support hand.

**BARREL**
Most models have bull barrels for improved stability. Lite models have a steel barrel liner inside an ultralight aluminum sleeve. The chamber is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

**REAR SIGHT**
16-click per revolution adjustable Pro-Target™ sight is standard on all models. This sight provides a finer range of adjustment over the industry’s standard of 12-clicks per revolution.

**FRONT SIGHT**
Plus models feature a TRUGLO®/Marble’s® fiber-optic front sight. The .22 Target models include hooded target sights.

**FRAME**
While many popular .22 pistols are cast or fabricated from sheet metal stampings, each Buck Mark frame is CNC machined from 7075-T6 aluminum to exacting tolerances.

**MAGAZINE**
The magazine body is heat treated for long-term feeding reliability. Coil spring provides more consistent follower angle. 10-round capacity.

**MAGAZINE RELEASE**
Positioned adjacent to the trigger guard for convenient operation.

**TRIGGER**
Compare it to the competition and feel its light, crisp break with less creep and overtravel.

**SAFETY**
Large, manual thumb safety. The trigger is disconnected when the magazine is removed for added safety.

**GRIPS**
Several wood, laminate and composite styles are available. Soft nitrile rubber Ultragrip RX® (URX) and wood Ultragrip Deluxe® (UDX) ambidextrous grips have ergonomic finger grooves for enhanced control.

THE BEST OF THE BEST.

More than a decade in development and refinement, the ground-breaking Browning Hi Power was the product of two of the greatest gun designers ever — John M. Browning and FN’s Dieudonne Saive. Its magazine capacity, durability, accuracy and perfect ergonomics have placed the Hi Power on a pedestal, revered as one of the finest firearms ever produced.

SAFETY

A large, ambidextrous manual thumb safety is conveniently located on the frame just above the grip.

SIGHTS

Hi Power pistols are available with fixed, low-profile three-dot sights. The Hi Power Standard is also available with optional low-profile target sights that are adjustable for windage and elevation.

MAGAZINE CAPACITY

Double-stack magazine design. A 13-round magazine is standard in 9mm. 10-round models in 9mm are available where required by law. Follow state and local laws regarding magazine capacity.

TRIGGER

The light single-action trigger breaks clean and crisp. This is the system preferred by professionals around the world.

FRAME AND SLIDE

The frame and slide are built from solid steel, yet remain lightweight. The heft of the Hi Power keeps recoil light and manageable for accurate firing, even at a rapid rate. The Hi Power’s balance in your hand is impeccable.
HI POWER MARK III (FIXED SIGHTS)

RECEIVER - Steel - Polished blued finish
BARREL - 4¾" - Polished blued finish on slide - Low profile fixed or adjustable rear sights with ramped front post
ACTION - Locked breech - Single-action trigger - Ambidextrous thumb safety
GRIPS - Select walnut - Cut checkering
FEATURES - Extra magazine

OWN A PIECE OF BROWNING HISTORY. STRAIGHT FROM THE BELGIAN CUSTOM SHOP.

John M. Browning’s relationship with Fabrique Nationale began in the late 1800s, with the factory turning many of the fabled designer’s most famous firearms. Today, hand-crafted firearms from the Browning Custom Shop in Belgium are revered as functional pieces of art, embellished to your preferences. Choose from time-honored Browning designs such as the legendary Superposed, BAR® and Hi Power™, carefully manufactured and hand-assembled to ensure your investment will be enjoyed and shared for generations. For information, call (801) 876-2711 or visit browning.com/custom to download the Custom Shop brochure to view the options available.

The most requested Custom Shop model is the legendary Superposed, the last design undertaken by John M. Browning before his death in 1926 and the culmination of his firearms ingenuity and wisdom. The Superposed is the finest and most respected over and under design ever. As in all of Browning’s work, the Superposed delivers perfect balance, economy of proportion and eye-appealing design. As beautiful as a custom Superposed is, it demands to be carried afield and used, just as Mr. Browning intended.
A solid action frame with a reinforced lock, thickened barrels and a pistol grip stock make a Browning Express rifle the perfect firearm for dangerous game hunting and African safaris. Available in 270 Win., 30-06 Sprg., 30R Blaser, 7x65R, 8x57JRS, 9.2x62 or 9.3x74R calibers.

Detailed hand engraving, high-grade wood and expert assembly at the Custom Shop place these BAR rifles in a league of their own. Please contact the Custom Shop for a complete list of engraving options. It is available in 243 Win., 25-06 Rem., 30-06 Sprg., 270 Win., 308 Win., 300 Win. Mag., 7mm Rem. Mag. or 338 Win. Mag. calibers.
The Browning Hi Power is one of the greatest pistol designs of all time. A custom Hi Power offers all the engineering genius of John M. Browning embellished with the beauty and craftsmanship provided by the Browning Custom Shop. A Hi Power Luxus pistol must be held to be fully appreciated.

The most widely sold and most imitated .22 autoloader. This rimfire is particularly light and efficient. The barrel and receiver can be separated in an instant. It is available in numerous versions, including the deluxe models, which continue to be made in the Custom Shop.
BROWNING PROSTEEL SAFES — SECURITY AND CONVENIENCE.

For nearly 30 years, owners of Browning ProSteel safes have slept well knowing that their most prized possessions are safe and secure from fire, theft and untrained hands. In addition to security, Browning ProSteel safes lead the way in convenience, with more gun storage and easier access to safe contents than the competition. This tradition continues in 2011 — just take a look inside to see why Browning is The Best There Is.
A safe is capable of securing more than firearms. Jewelry, documents, cameras, coin collections and other valuables — plus shooting gear — can easily fit inside a safe. The trick is maximizing storage capacity to accommodate many different items of varying size. Browning ProSteel Safes have led the industry for years in terms of safe storage solutions, and for 2011 we take the concept to the highest level yet with our innovative Axis Adjustable Shelving (patent pending). Unlike shelves in other safes that are either fixed in position or only offer vertical adjustment, Axis shelves can be adjusted both vertically and horizontally to accommodate nearly any size item while working around long guns. The new Axis Adjustable Shelving comes standard on all Platinum Plus® and Gold® Series safes. It is also available as a factory installed option on Medallion® and Silver® Series safes. Check it out today and see how much more you can store in your Browning ProSteel safe.

**AXIS ADJUSTABLE SHELVING SYSTEM**

**THE MOST VERSATILE SAFE INTERIOR. EVER.**

A vertical track mounted to the back of the safe interior allows the horizontal rail to be repositioned up or down along the vertical axis.

The cantilevered design of the Axis Adjustable Shelving can be placed anywhere left or right along the horizontal axis. Shelving can also be combined to make one long shelf.

From all gun to all shelves and all points in between, Axis Adjustable Shelving offers more versatility than any safe shelving available.

**AXIS ADJUSTABLE SHELVING FACTORY INSTALLED OPTION**

Axis Adjustable Shelving comes standard on all Platinum Plus and Gold Series safes. It is also available as a factory-installed option on Medallion and Silver Series safes.

Suggested Retail: $149.00
It is said that imitation is the sincerest form of flattery. When it comes to the Browning ProSteel patented DPX® storage system (U.S. patent #7,409,790), consider us flattered. While other safe companies have begun adding storage options that make better use of unused space on the back of their safe doors, none can match the convenience, versatility, or style of our original DPX® Storage System. In addition to being able to store items in the pouches and pockets, long guns can be stored on the door back giving you two, three, even four times the number of quickly accessible long guns compared to the competition. Up to four handgun pouches (included) can also be positioned using the loop system. No other safe company offers as many versatile storage options on so many of their safe models.

**DPX STORAGE SYSTEM**

**OFTEN IMITATED. NEVER DUPLICATED.**

Flexible polymer wings on the Quick Access DPX Barrel Rack hold the barrel in place, yet bend to allow the firearm to easily be pushed into or pulled out of the rack. It’s standard on Platinum Plus, Gold, Medallion and Silver Series safes.

**DPX STORAGE SYSTEM**

The patented Duo-Plus Extra (DPX) Storage System includes:

- Long gun storage on the door back
- A system of pouches and pockets to store small valuables on the door back
- DPX Handgun Pouches to store handguns on the door back or inside the safe
- A convertible Duo Interior system inside the safe with both shelves and long gun capacity

The DPX System is standard on the following safe series:

- Platinum® Plus
- Gold®
- Medallion®
- Silver®
- Bronze®
- Theftgard® (top half only - select models)
- Select™
- Tactical

**QUICK ACCESS DPX BARREL RACKS**

Flexible polymer wings on the Quick Access DPX Barrel Rack hold the barrel in place, yet bend to allow the firearm to easily be pushed into or pulled out of the rack. It’s standard on Platinum Plus, Gold, Medallion and Silver Series safes.

**HOW MANY GUNS CAN I STORE IN MY BROWNING PROSTEEL SAFE?**

The gun capacity description is a series of three numbers, for example 11/22+7. The first number is the long gun capacity of the main interior portion of the safe, with part of the space used for shelves (11 in the example). The second number is the interior long gun capacity if the shelves are removed for an all gun interior (22 in the example). The “plus” number (+7 in the example) is the long gun capacity on the back of the door. The door back capacity can be used to store long guns whether or not shelves are used in the interior. Since capacity is determined by safe size and features, each safe will have different interior capacities.
FAIL-SAFE SECURITY.
For fail-safe security, look no further than the leaders in the safe industry, Browning and ProSteel. Our safes are manufactured with innovative, reinforced design features that ensure strength, security and protection for your firearms and valuables. It’s good to have a back-up plan. That’s why you’ll find anti-pry bolt supports, diversion bars and extra lock protection on every safe we build.

Four key design areas contribute to superior pry resistance: (1) A rigid door, (2) A rigid safe body, (3) A stiff locking bolt assembly and (4) Superior bolt engagement in the door frame. All four have been designed into Browning ProSteel Safes for better protection against pry attacks.

Safe corners are vulnerable to a pry attack, and great efforts have gone toward addressing the corners to make them nearly impenetrable to pry attack. Our Pry-Stop Corner Bolts (Platinum®, Gold®, and Medallion® Series safes) and Pry-Stop End Bolts (Silver®, Bronze®, Select™ and Tactical) plus Anti-Pry Tabs and extension arms in the Uni-Force™ Locking System make corners and crucial moving parts more pry-resistant. Tight-tolerance door fit makes it more difficult to get a prying tool into the door gap, while thicker doors make it harder to get a pry tool behind the door.

FIRE RESISTANCE.
There are no industry standards for rating gun safe fire protection. This leads to confusing ratings that vary by manufacturer, and you are left to trust the manufacturers’ claims. A Browning ProSteel safe backs up your trust with advanced fire protection features and a proven record of providing quality products for over 100 years. Browning ProSteel Safes are tested for fire resistance beyond much of the competition, only then a label is applied with an honest fire protection rating. Extensive testing, industry-leading engineering and decades of experience go into building Browning ProSteel Safes in order to provide excellent fire resistance.

When comparing fire ratings, remember, the overall thickness of the insulation is the most important element in fire protection, and more insulation means better protection. Be confident that Browning ProSteel Safes offer excellent fire protection to protect your valuables in case of fire. Different ratings are useful for comparing fire protection in each Browning ProSteel safe series.
PROTECTION YOU CAN RELY ON.

With a reputation for quality, innovative, reliable and beautiful firearms, Browning is one of the most respected names in the outdoor industry. Browning ProSteel Safes uphold those same values by offering high-quality attack- and fire-resistant safes designed to protect your possessions, and look good doing it. Our safes not only look fantastic on the outside, the security and fire protection features inside of the safes are equally as impressive. While the looks of a safe matter, they only accent the features and construction that protect your belongings. A safe is a long-term investment, so be sure to invest in a Browning, The Best There Is®.

COMPETITIVE COMPARISON

BROWNING PROSTEEL SAFES

1. STORAGE SYSTEM

Every Browning ProSteel Safe includes a Storage System to maximize capacity, organization and location of your valuables. The pockets, pouches and racks mounted on the back of the door provide amazing flexibility to store a variety of items.

2. SAFE LOCKING MECHANISM

Uni-Force® Locking System – Our premier locking mechanism (shown) uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, creating protection unmatched by any other locking system.

3. DOOR CONSTRUCTION

For better security, the door must be designed and built to protect against multiple types of attack, and must engage the safe body in a manner that prevents break in. Browning ProSteel safe doors provide extra protection in the areas most susceptible to attack and are more resistant to pry, drill and punch attacks.

4. FIRE INSULATION / PALUSOL® FIRE SEAL

Browning ProSteel Safes have up to five layers of ½” insulation. Thickness of insulation is the most important factor in fire protection.

The Palusol seal used on Browning ProSteel fire-resistant safes extends around the door so it is completely sealed in case of a fire. When heated, the Palusol expands to seal the door frame.

5. REINFORCED DOOR FRAME

Browning ProSteel Safes have an integrated reinforcement bent into the door frame of every model. The reinforcement is the actual steel thickness of the body with no welds for superior strength and makes the safes more pry-resistant.

6. CONTINUOUS WELDS

Browning ProSteel Safes are constructed with continuous welds for optimal strength.

LESSER SAFES

1. INTERIOR

Other safes simply come with an “interior” that doesn’t maximize the storage capacity of the safe. The door back is wasted space. In some cases you must even assemble the shelves yourself. Interior hinges may only allow the door to open part way.

2. SAFE LOCKING MECHANISM

A lesser locking mechanism allows force from the bolts or handle to reach the critical lock. The only protection for the safe is an after-the-fact relocking device.

3. DOOR CONSTRUCTION

Other safe doors may have weak points at the corners, and the locking bolts may be attached to a bar that is easily bent, both making the safe easier to pry open.

4. FIRE INSULATION / FIRE SEAL

Some manufacturers claim high temperature or long duration fire ratings with as little as ½” of insulation, and they may not want to tell you how much (or little) insulation is in the safe. Lesser safes have gaps in the insulation and the fire seal, and may use a lesser quality fire seal. Internal hinges may create large gaps in the insulation.

5. NON REINFORCED DOOR FRAME

Some safe manufacturers cut costs by not reinforcing the door frame. This fails to protect against prying or pounding, making the door itself a prime target for attack.

6. INTERMITTENT WELDS

Some lesser safes have intermittent welds, which create weak points in the safe body. Gaps in welds can also create the perfect pry point for a burglar. Gaps filled with auto body putty and painted over are weak, even if you can’t see them.
SAFE FEATURE ICONS

The icons below highlight key features of Browning ProSteel Safes, and help you quickly identify and compare the features of different safe models.

<table>
<thead>
<tr>
<th>Icon</th>
<th>Feature Guide</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Force Deflector Locking System" /></td>
<td>Force Deflector Locking System – The Force Deflector Locking System (patent pending) prevents bolt or handle forces from reaching the lock by using a rotating cam device. It prevents energy transfer to the lock better than most systems used in the safe industry.</td>
</tr>
<tr>
<td><img src="image" alt="Uni-Force Locking System" /></td>
<td>Uni-Force Locking System – Our finest safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cam and diversion bars, not the lock, for protection unmatched by other locking systems.</td>

<tr>
<td><img src="image" alt="1 Inch Formed Door" /></td>
<td>1&quot; Formed Door – The 1&quot; Formed Door is engineered with a rugged steel face, back and reinforcement panels to provide excellent strength and attack protection compared to the competition.</td>
</tr>
<tr>
<td><img src="image" alt="Duo-Formed Door" /></td>
<td>Duo-Formed Door – The best safe door we offer is formed from multiple layers of steel, carefully formed together to provide superior strength, pry-resistance and attack protection. Full second panel for outstanding strength. The door face is 1½&quot; thick.</td>
</tr>
<tr>
<td><img src="image" alt="OmniBarrier Lock Protection System" /></td>
<td>OmniBarrier Lock Protection System – A carefully engineered structure of steel hard plate and steel components designed to protect the safe lock from drill, punch and push attacks.</td>
</tr>
<tr>
<td><img src="image" alt="FIRE RATING" /></td>
<td>FIRE RATING – A laboratory measurement of time and temperature (in Fahrenheit) used to compare the relative amount of fire resistance provided by a safe. Safes with a longer fire rating time provide more fire protection than a safe with a shorter time.</td>
</tr>
<tr>
<td><img src="image" alt="LAYERS OF INSULATION" /></td>
<td>Layers of Insulation – The most important factor in fire protection is the total thickness of the insulation in the safe. More insulation means more protection from fire. Our safes use ½&quot; thick gypsum panels, so the number of layers multiplied by ½&quot; shows the total insulation thickness in inches.</td>
</tr>
<tr>
<td><img src="image" alt="Reinforced Door Frame" /></td>
<td>Reinforced Door Frame – The door opening of the safe is strengthened by a U-shaped steel channel around the entire perimeter to create added pry and attack resistance.</td>
</tr>
<tr>
<td><img src="image" alt="180° Heavy Duty Hinges" /></td>
<td>180° Heavy Duty Hinges – Rugged hinges are machined from solid steel bar stock for strength. The hinges allow the door to swing open 180° for unhindered access to the safe interior. Hinge-side locking bolts maintain full security even if the hinges are cut off. The door is removable to simplify moving of the safe.</td>
</tr>
<tr>
<td><img src="image" alt="UL Security Container Rating" /></td>
<td>UL Security Container Rating – The industry standard test and rating for home/personal safes. Requires minimum construction specifications and passing a laboratory attack test. Our premium safes far exceed the minimum requirements for the UL Residential Security (Tool Attack) listing.</td>
</tr>
<tr>
<td><img src="image" alt="Pry-Stop Corner Bolts" /></td>
<td>Pry-Stop Corner Bolts – Pry-Stop Corner Bolts provide better protection than other pry-defense designs. Innovative long locking bolts extend diagonally from a reinforced support at the corners of the door to protect against pry attack at the vulnerable corner areas.</td>
</tr>
<tr>
<td><img src="image" alt="Pry-Stop End Bolts" /></td>
<td>Pry-Stop End Bolts – Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over 2½ times longer and attach to a high-strength steel angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.</td>
</tr>
<tr>
<td><img src="image" alt="Locking Bolts" /></td>
<td>Locking Bolts (Variable Size) – The rugged steel pieces that move behind the door frame to actually hold the safe door locked and closed. Bigger bolts, and more of them, provide greater security.</td>
</tr>
<tr>
<td><img src="image" alt="Bolt Direction" /></td>
<td>Bolt Direction – Better safes have locking bolts extending from all four sides of the door for extra resistance to pry attack. Safes with bolts on three sides have them on both sides of the door and on the top edge.</td>
</tr>
<tr>
<td><img src="image" alt="Body Thickness" /></td>
<td>Body Thickness (Variable Measure) – The thickness of the steel that comprises the safe body. A smaller gauge number means thicker steel, which provides more security than thinner steel. The thickest Browning ProSteel Safe body is ¾&quot; (on Platinum® Plus) and this specification is not shown in gauge measurement.</td>
</tr>
<tr>
<td><img src="image" alt="Drill-Resistant Deflector Plate" /></td>
<td>Drill-Resistant Deflector Plate – A hardened steel plate strategically positioned at an angle in the door which causes drill bits to bend or break, providing additional protection for the lock.</td>
</tr>
<tr>
<td><img src="image" alt="Light Package / Mirror" /></td>
<td>Light Package / Mirror – The interior light package includes two light modules to illuminate the safe interior. A mirror covers the top half of the rear wall of the safe. Combined, they make it easier for you to find items inside the safe.</td>
</tr>
<tr>
<td><img src="image" alt="DPX System" /></td>
<td>DPX System – The patented Duo-Plus Extra Storage System includes a rack to store long guns on the door back. There is also a variety of pouches and pockets to store other valuables on the door back. See page 91 for a complete description.</td>
</tr>
<tr>
<td><img src="image" alt="Axis" /></td>
<td>Axis – New Axis Adjustable Shelving is the most versatile on the market. By combining multiple, moving shelves and an array of tracks, small and large items alike now fit in the safe and take up only the minimum amount of shelf space. See page 90 for a complete description.</td>
</tr>
</tbody>
</table>

FIRE/SECURITY RATINGS

Fire and Security thermometers make it easier to compare the level of protection Browning ProSteel Safes provide in these two important areas. The “F” indicates fire protection and the “S” indicates security level. Higher numbers mean better protection.

WHY STEP UP?

Starting with the flagship Platinum Plus Series, there is a “Why Step Up?” section at the top of the description area for each series. This section is a list of just the features that distinguish that series from the series below (to the next page or pages) in the safe line up. ‘Why Step Up?’ is an easy comparison between Browning ProSteel Safe series.
WHAT YOU SHOULD KNOW BEFORE BUYING A GUN SAFE.

Not all gun safes are the same. Different safes offer more or less protection, depending on the features included in the safe. This quick guide helps explain different feature areas and the comparative protection offered by individual features. You can determine the level of protection you want and need, and choose a safe that best meets those needs.

SECURITY

LOCKING SYSTEM
The locking system connects the lock with the handle and the locking bolts. Better systems are engineered to protect against differing types of criminal attack.

**BEST** — Uni-Force™ System — Ultimate protection against pry and side bolt attacks. Includes the OmniBarrier® System that encases the lock in steel and hard plate, protecting it against drill and punch attack.

**BETTER** — Force Deflector™ System — Better than most industry systems protecting against side bolt attack. Includes a secondary re-locker, hard plate and hardened pin lock protection to defend against attacks on the lock.

**GOOD** — Standard Locking System — Does not provide protection against side bolt attack. All Browning ProSteel Safes feature either the Uni-Force or Force Deflector Systems to defend against side bolt attack.

DOOR THICKNESS
A thicker, more rigid door is better able to resist pry attacks. A door formed from multiple pieces of steel is more rigid because strategic bends in the metal add strength. A formed door also includes fire insulation, and therefore provides more fire protection.

**BEST** — Duo-Formed® Door — 1¾” thick door face. Full steel interior panel.

**BETTER** — 1” Formed Door — 1” thick door face. Steel reinforcement panels.

**GOOD** — Plate Door — ¾” thick solid steel door face. All Browning ProSteel Safes have a Best or Better type door.

STEEL THICKNESS
Thicker steel means more protection from any type of criminal attack and from fire.

**BEST** — ¾” Steel — Equivalent to about 6.5 gauge, 0.1875” thick.

**BETTER** — 10 gauge or 11 gauge — 0.155” or 0.12” thick.

**GOOD** — 12 gauge — 0.105” thick.

LOCKING BOLT DESIGN, NUMBER AND PLACEMENT
Better designed locking bolt structures and bigger bolts provide more pry resistance. Top, bottom and corner placement also improve protection against prying.

**BEST** — Pry-Stop Corner Bolts, four-sided coverage — 1½” or 1¾” bolts.

**BETTER** — Pry-Stop End Bolts, three- or four-sided coverage — 1¾” or 1” bolts.

**GOOD** — Standard Locking Bolts, two-sided coverage — 1” bolts.

FIRE PROTECTION

INSULATION THICKNESS
More insulation means more protection. Insulation acts as a barrier and has a cooling effect. Thicker insulation is a better barrier.

**BEST** — Five layers of ½” thick insulation — So thick it is very visible.

**BETTER** — Three or four layers of ¼” insulation.

**GOOD** — One or two layers of ½” insulation.

DOOR SEAL
The door seal activates during a fire to seal the interior of the safe from the fire on the outside. It prevents heat from getting in around the perimeter of the door and keeps the inside cooler. Works by expanding intumescent action in response to heat.

**BEST** — Premium 3-in-1 Palusol® seal — Palusol is the industry standard expanding door seal. Includes triple-fin protection for a tighter seal and protection against cold smoke damage.

**BETTER** — Palusol® seal — Industry standard expanding door seal. Expands five to nine times its original size.

**GOOD** — Simple rubber seal — All Browning ProSteel Safes use a Palusol® seal for better protection.

CONVENIENCE

INTERIOR CONFIGURATION
A safe should allow maximum storage within its interior, and make it easy for the owner to access the items stored inside.

**BEST** — AXIS™ with DPX® Storage System — New Axis Adjustable Shelving combined with the DPX Storage System provides the most versatile safe interior available, allowing you to customize your safe to meet your specific and always changing storage needs.

**BETTER** — DPX® Storage System — Store long guns, handguns and many small items on the door back in a system of pouches, pockets and loops. Long gun and shelf storage inside the safe, convertible to all long gun.

**GOOD** — Convertible long gun/shelf storage inside the safe — No long gun storage on the door back.

OTHER IMPORTANT FEATURES

All Browning ProSteel Safes also include: 180° Opening External Hinges for easy access to safe interior (except Compact Series). A steel reinforced door frame for superior pry resistance. Industry-standard mechanical or electronic locks. All Browning ProSteel Safes carry the UL® Residential Security Container rating.
**PLATINUM PLUS SERIES**

**THE HEIGHT OF PROTECTION AND QUALITY**

**WHY STEP UP TO A PLATINUM PLUS SERIES SAFE?**
- Heavy \( \frac{3}{16} \) steel body
- 1200°F/120 min. fire protection
- Grade VI interior package

**ANTI-PRY FEATURES**
- Ultra-heavy \( \frac{3}{16} \) steel body
- Pry-Stop Corner Bolts at all four corners of the door
- \( \frac{1}{2} \) chromed locking bolts, four-sided door coverage
- Extended throw locking bolts
- Uni-Force™ Locking System with Anti-Pry Tabs and extension arms
- Fully reinforced integrated door frame
- Tight-tolerance door fit
- \( \frac{1}{16} \) thick Duo-Formed® door

**ADDITIONAL SECURITY FEATURES**
- Uni-Force Locking System with four cams (three on PP39F)
- OmniBarrier® Lock Protection System
- Drill-resistant deflector plate
- UL® tool attack listed
- S & G® Group II lock with key lock dial and five-year limited warranty

**INTERIOR/CONVENIENCE AND APPEARANCE FEATURES**
- New Axis™ Adjustable Shelving
- Premium DPX® Storage System
- Quick Access DPX Barrel Rack
- Four DPX Handgun Pouches
- Integrated Jewelry Box
- Knurled five-spoke Buckmark handle
- Metallic Elk scene bonded to the safe door
- Elevated floor makes removing guns easier
- Baked-on, high-gloss finish

**GRADE VI INTERIOR FEATURES**
- Premium DPX Storage System with simulated leather trim
- Quick Access DPX Barrel Rack
- Interior cedar sides and ceiling
- Interior light package and full length mirror
- Worn leather look microfiber interior covering

**1200°F / 120 MIN. STANDARD FIRE PROTECTION**
- 1200°F / 120 min. fire protection
- Five layers of \( \frac{1}{2} \) fire-resistant insulation in the body
- Four layers of \( \frac{1}{2} \) fire-resistant insulation in the door
- Premium 3-in-1 Palusol® fire seal for added fire protection

**AVAILABLE FINISHES**

Hunter Green Metallic | Gloss Black | Black Cherry | Sand Metallic | Silver Metallic

**INTERIOR COLOR**

Worn Leather Microfiber

NOTE: Black Cherry and Silver Metallic finish safes feature silver/chrome handle, dial ring and graphics. The handle, dial ring and graphics for all other finish colors are gold-colored. Scenes are not available on Sand Metallic colored safes.
Platinum Plus Series safes feature the stunning Grade VI Interior Package. The Grade VI Interior creates interesting visual appeal with a full-length mirror on the back and cedar paneling on the sides and ceiling. The shelves are lined with distressed leather-look microfiber, and the DPX® system on the door back panel is trimmed in simulated leather. The new Axis™ Adjustable Shelving and DPX Barrel Racks offer the ability to store more than ever before.
GOLD SERIES

To combat drill attacks, some Browning ProSteel safes feature Hardened Steel Pin Lock Protection strategically placed directly in front of the locking mechanism. The smooth, rounded edges of the hardened steel pins are more difficult to drill through than additional steel plate reinforcement. The pins also rotate freely and, should an attack attempt be made, are likely to bend or break drill bits.

GREAT VALUE FROM PREFERRED DEALERS

HERITAGE GRAPHICS

Now it is possible to show allegiance to these great organizations that work to preserve our rights and hunting heritage. The Heritage Graphics option can be ordered to replace the game scene on many safes. You can support your favorite organization by proudly showing its logo and graphics on a gorgeous Browning ProSteel safe.

Browning makes a donation to the respective organization for each Heritage Graphics option sold. Available on all safes in the Platinum®, Gold®, Medallion® and Silver™ Series models (except Sand Metallic finishes).

GAME SCENE SELECTION

AVAILABLE ON PLATINUM®, GOLD®, MEDALLION® AND SILVER® MODELS

Each series (Platinum, Gold, etc.) has a standard metallic game scene. These scenes are permanently bonded to the door and can be applied only at the factory.
UNIVERSAL VAULT DOOR

**TURN AN ENTIRE ROOM INTO A VAULT**

- Designed to fit a variety of wall types and installation requirements
- The minimum rough door opening for the Vault Door is 83" x 36".
- External L-frame with 1/4" diameter steel J-bolt anchors (included) can be poured in place in new construction or installed in an existing door frame by using expansion anchors or lag bolts (not included).

**UNIVERSAL VAULT DOOR FEATURES**

- Door frame “L-flange” will fit any wall with a minimum thickness of 5½”.
- 1½" thick Duo-Formed® door
- 22 1¼" chromed locking bolts
- OmniBarrier® Lock Protection System
- Uni-Force™ Locking System
- 1½" of fire-resistant insulation in the door
- Knurled five-spoke Buckmark handle
- External ball-bearing hinges
- Palusol® expanding fire seal
- UL® Listed S & G® Type I Electronic Lock
- Also available with a black primed finish, allowing you to paint to match any decor
- Internal lock release to open the door from within the vault

**NOTE:** Black Cherry and Silver Metallic finish safes feature silver/chrome handle, dial ring and graphics. The handle, dial ring and graphics for all other finish colors are gold-colored.

**SECURITY DOOR**

**BUILT-IN CONCEALMENT AND SECURITY**

The Browning ProSteel Security Door has taken in-home security to a new level. With the appearance of a standard residential door, the Security Door is the perfect option for the consumer who prefers to be more discreet about the presence and location of valuables. The Security Door includes a UL® Listed S & G® Type I Electronic Lock with a keypad that can be mounted and concealed up to seven feet from the vault to further hide the true nature of the door. The Security Door features a six-panel door style to help blend in with other residential doors and can be painted to match. The minimum rough door opening for the Security Door is 83" x 36".

**SECURITY DOOR FEATURES**

- 1½" thick Duo-Formed® type door
- 1½" chromed locking bolts
- 1" of fire-resistant insulation in the door face
- Residential interior straight brass handle
- UL® Listed S & G® Type I Electronic Lock
- Concealed hinges
- Internal lock release to open the door from within the vault
- Door swings out a full 180° when open

**AVAILABLE FINISH**

- White Primer
The safe accessories shown on this page are easily installed by the user. New Browning ProSteel safes are shipped pre-drilled with a molded fire-resistant electrical pass-through sleeve installed in the safe to accommodate the power cord for a light kit or dehumidifier.

**EVERDRY™ ELECTRIC DEHUMIDIFIER**

The EverDry Electric Dehumidifier removes humidity from the interior of a safe and protects against rust. The 18” long EverDry should be used on safes 30” wide and larger. Cord is removable for installation.

Suggested Retail: $29.95

**FLEXIBLE EVERDRY™ ELECTRIC DEHUMIDIFIER**

The Flexible EverDry is flat and easily bends to take up less space and makes installation easier, especially in small safes. Removes humidity from the interior of a safe and protects against rust. Plug is removable for installation. LED indicates unit is operating.

Suggested Retail: $39.95

**DRI-ZONE**

Absorbs moisture without electricity, and is rechargeable in an oven. It can be reactivated indefinitely. One 500-gram box protects up to 37 cubic feet of enclosed space, about the volume of a standard 30” wide safe.

Suggested Retail: $19.95

**PISTOL RACK**

Store handguns more efficiently and increase storage space on shelves. Access to handguns is made easier by placing them in an upright position. 4 or 6 capacity gun models available.

Suggested Retail: $24.95 — 6-Gun

Suggested Retail: $18.95 — 4-Gun

**DPX® HANDGUN POUCHES**

Store more handguns in your safe with the versatile DPX Handgun Pouches. These versatile pouches include snap-straps to allow use on the MOLLE System used on the DPX and also hook and loop fasteners for use on carpeted interior surfaces. Set of two. Brown box package. Not intended for use as a holster.

Suggested Retail: $24.95

**ZERUST® PROTECTANT**

Small capsule emits an invisible vapor that forms a corrosion- and rust-resistant barrier on metal surfaces. Volatile Corrosion Inhibitors (VCIs) have been used for years to protect metal parts in industrial and commercial applications. One capsule protects a standard 30” wide safe for one year.

Suggested Retail: $7.99

**VCI GUN SOCKS**

Browning’s VCI (Vapor Corrosion Inhibitor) Gun Sock seals out moisture. VCI penetrates into the smallest crevices where oils cannot reach, driving out moisture. Provides full protection by forming a vapor enclosure around firearm from muzzle to butt. The VCI Sock, when used in a safe or cabinet, will offer additional protection to all metal items in the enclosed area. One size fits most firearms.

Suggested Retail: $14.95
FACTORY-INSTALLED ACCESSORIES

JEWELRY BOX
The Jewelry Box option makes storing and finding jewelry inside a safe much easier and convenient. The elegant Jewelry Box conveniently holds jewelry and small items inside the safe in an organized, protected manner. Exterior is synthetic leather; interior is lined with jeweler's velvet. Mounted on half shelf below gun rack on most safe models.
Optional on Gold®, Medallion® and Silver® Series safes.
Standard on Platinum® Plus Series safes.
Factory installed only.
Suggested Retail: $59.95

MEDALLION/SILVER SERIES LIGHT PACKAGE OPTION
This integrated lighting package makes locating objects on shelves or identifying the right firearm convenient and easy. The two included light modules are wired to a door activated switch and illuminate when the door is opened. Factory installation adds a seamless look with no exposed wiring.
Optional on Medallion and Silver Series safes.
Factory installed only.
Suggested Retail: $129.00

FILE HANGER
The file hanger attaches easily to the side of any shelf allowing you to store documents. Can even be mounted above gun storage to take advantage of unused space. Includes one file hanger and 2 box-bottom hanging file folders.
Suggested Retail: $19.95

MEDALLION/SILVER SERIES MIRROR OPTION
Located on the top half of the back wall, the mirror option looks great and brightens the interior of the safe to make objects, especially those on the rear of the shelves, easier to find. Constructed of break-resistant material for durability.
Optional on Medallion and Silver Series safes.
Standard on Platinum Plus (full length) and Gold Series safes.
Factory installed only.
Regular (Fits 28 or 26 cubic foot models)
Suggested Retail: $49.00
Wide (Fits 39 or 35 cubic foot models)
Suggested Retail: $59.00
Wide/Tall (Fits 56 or 42 cubic foot models)
Suggested Retail: $69.00

LOCK OPTIONS

The locks below are available as factory-installed options. Availability by series is described in the information for each lock.

S & G® ELECTRONIC LOCK
The S & G Electronic Lock is an advanced security system manufactured by the leader in the lock industry. Includes many technical security features.
Available on all models.

SECURAM BIOMETRIC LOCK
The SecuRam Biometric Lock uses the uniqueness of an individual fingerprint as the combination in this advanced security solution. The lock opens with either a fingerprint or a multi-digit code. It is highly secure and operates very quickly. Simple programming instructions. LCD Screen.
Not available on TheftGard, Bronze, Compact, Tactical Series safes and the Security Door.

INTERIOR OPTIONS

ALL SHELF INTERIOR
The All Shelf Interior adds extra shelves so that the entire interior portion of the safe can be used for small items on the shelves. The long gun rack from the DPX® remains on the door, so some long gun storage remains even when the interior is all shelves. The All Shelf Interior is available only as a factory-installed option on Gold, Medallion and Silver Series safes.
Suggested Retail: $65.00

DPX® MOSSY OAK® BREAK-UP® CAMO
If your favorite color is camo, then you will love the Mossy Oak Break-Up DPX Storage System. With a background of Break-Up and complementary color pouch and strap materials, the Camo DPX is an outdoor lover’s dream. Available only to replace the DPX Storage System used standard on Platinum Plus, Gold, Medallion and Silver Series models. (Not available on Bronze, Tactical or Select.)
Suggested Retail: $49.00

GUN SAFE WARRANTY

ProSteel offers a Gun Safe Warranty equal to the best in the industry. Browning ProSteel safes manufactured after January 1, 2006 include a generous warranty that covers:

- ATTEMPTED BREAK IN
- BREAK IN
- FIRE

If a safe has one of these situations and your homeowner’s insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. Contents are not covered. Shipping costs for new safe, if necessary, are included.

Some restrictions apply. See Safe Owner’s Manual or Browning.com for complete warranty information. Workmanship warranty information is included.

TRADITIONAL CASES

There is no better way to protect and transport your firearm than within a fitted gun case. These handsome cases are available in a variety of styles and feature rugged construction, water-repellent coatings, brass corner accents, deep pile fleece linings, rigid framing, secure locks and comfortable handles. Some cases even include accessory compartments for small items such as choke tubes. Most cases have moveable padded blocks that can be customized to precisely fit your firearm. Show your appreciation for your firearm with a Browning fitted case.

Bruiser gun cases offer exceptional protection for your valuable firearms during airline travel and transportation. The high-density, double wall polyethylene construction makes this case one tough “Bruiser.” For added protection, foam inserts can be extended outward to keep guns separated or pushed inward if not needed. An O-ring sealed tongue and groove lid provides excellent weather resistance. Recessed wheels offer easy mobility. Corrosion-inhibiting Zerust® inserts are added to each case to help protect your firearms from rust. Bruiser gun cases are offered in double gun and single takedown models.

**SHELL** - Double wall high-density polyethylene with diamond plate texturing
**PADDING TYPE** - High-density foam with extendable foam insert barriers
**HINGE** - Tough Lock™
**LATCH** - Three locking points for padlocks
**SPECIAL FEATURES** - Rounded corners · Recessed handles · Purge valve · Tongue and groove lid with O-ring seal · Corrosion-inhibiting Zerust® inserts · Recessed wheels · Airline approved · Available in double gun or single takedown models

---

**MIRAGE CASES**

**SHELL** - Copolymer material
**PADDING TYPE** - Double convoluted foam
**HINGE** - Piano-style hinges
**LATCH** - Four locking points
**SPECIAL FEATURES** - Single gun holds one scoped firearm · Oversize double case holds two scoped firearms · Airline approved · Corrosion-inhibiting Zerust® inserts

**VCI GUN SOCKS**

**VCI (Vapor Corrosion Inhibitor) Gun Sock**

**CLOSURE** - Drawstring

The VCI (Vapor Corrosion Inhibitor) Gun Sock seals out moisture. VCI penetrates into the smallest crevices where oils cannot reach, to drive out moisture. Provides full protection by forming a vapor enclosure around firearm from muzzle to butt. The VCI Sock, when used in a gun safe or cabinet, will offer additional protection to all metal items in the enclosed area. One size fits most firearms.

SAWTOOTH MOUNTAIN BAGS

Sawtooth Mountain bags are built for rugged adventures. From the Ballistic Nylon and heavy-duty 900 denier poly shell fabric, to the oversized zippers, durable molded bottoms and reinforced stress points, these bags are designed to withstand the abuse of traveling to hunting camps with heavy loads. Anvil-style openings on both duffle bags provide a wide mouth to quickly pack or locate clothing, while the separate bottom compartments are perfect for separating dirty boots and other gear. The conveniently-sized Gear Bag is ideal for knives, flashlights and ammo and the zip open top makes everything fast and easy to grab. Each bag has been designed by the famed Fishpond® company to be The Best There Is®.

LARGE DUFFLE
- Anvil-style opening
- Cavernous main compartment
- Two huge side compartments
- Two pockets under buckle-down flap
- Large bottom pocket for boots or parkas
- Hidden pocket for a handgun
- Mossy Oak® New Break-Up®
- Dimensions: 26” L x 16” W x 16” D

MEDIUM DUFFLE
- Anvil style opening
- Big main compartment
- Two side pockets
- Two pockets under buckle-down flap
- Large bottom compartment for boots or a parka
- Mossy Oak® New Break-Up®
- Dimensions: 18” L x 12” W x 12” D

GEAR BAG
- Ideal for ammo, flashlights, knives and other small items
- Slick dual-entry top for quick access to ammo or gear
- Accessory pocket on the end
- Removable dividers to customize interior
- Hard molded bottom
- Mossy Oak® New Break-Up®
- Dimensions: 15” L x 7” W x 7” D

</table>
The Salt Creek meanders through some of the West’s finest waterfowl marshes, so it’s only fitting that the Browning waterfowl bags that bear its name are the finest on the market. As any duck hunter knows, waterfowl gear must stand up to the harshest conditions. Salt Creek bags are built out of the finest and most rugged materials like wear-resistant Ballistic Nylon, heavy-duty 900 denier poly, rust-proof pewter zipper pulls, oversized heavy-coil zippers, reinforced stitching, rigid foam liners and molded waterproof bottoms. These are just some of the construction features that make these bags the top-of-the-line gear for waterfowl hunting. Couple the durable construction with functional design and handsome aesthetics and it’s hard to imagine a better built, better looking, more functional line of waterfowl bags anywhere. Designed and engineered by the famed Fishpond company, these bags are built with the sole purpose to be the best.

**Large Duffle**
- Cavernous main compartment
- Large outer lid pocket
- Two end pockets, one rear pocket
- Rigid lid has buckle, zippered and magnetic closures for easy access and protection from the elements

- Crazy Horse sling features distressed leather and includes metal swivels
- Swivels not included on Santa Fe (Brown) and Rio Lobo models

Cartridges shown are not included with slings.
GUNSLINGER

No matter how light your rifle or shotgun is, packing it around all day can wear you down and make your shoulder sore. The new Browning Gunslinger system gives you the option of changing all that. By mounting the Gunslinger Holster on your belt or the available Rifle Belt, and strapping your firearm’s pistol grip into the Holster, you share the weight of the firearm with your waist, and secure the rifle to your body. Add the optional Backpack Accessory to further secure your firearm, and have the ability to unbble and immediately shoulder your gun should a quick shot arise.

</table>
A stable rest is essential to making accurate rifle shots. Unfortunately, the terrain you are in dictates the quality of the rest you have at hand, and can mean the difference between a clean shot or a miss at a once-in-a-lifetime trophy. Give yourself an edge with a set of new Browning MOA Shooting Sticks. Ultra-light, ultra-strong 6061-T6 aircraft aluminum construction minimizes flex. Collapsible MOA Shooting Sticks take down into a compact bundle small enough to carry in a backpack and internal shock cords put the sticks into action fast and keep the pole sections connected. A durable powder coat finish reduces glare. Long-wearing carbide steel tips provide positive footing. Textured rubber sleeves protect your firearm, yet allow easy repositioning. Never miss an opportunity with a set of new MOA Shooting Sticks.

**COLLAPSIBLE SHOOTING STICKS**
- Easy to carry, quick to deploy
- Extends to 40" length for sitting or kneeling shooting positions
- Lightweight 9mm aluminum legs collapse into three segments of 14½"
- Leg segments are secured by heavy-duty elastic shock cord
- 1½” internal ferrule quickly guides poles together for tight, rigid fit
- AB-terrain gripper feet with carbide steel tips
- Rubber coated yoke secures gun, but allows for easy repositioning
- Textured, powder-coated poles minimize reflections

**FIXED LEG SHOOTING STICKS**
- Lightweight and easy to carry
- Ultra stable, large diameter 13mm one-piece aluminum legs
- Gripper yoke secures lower legs when hiking
- Approximately 40” length
- AB-terrain gripper feet with carbide steel tips are easily removed to add leg extensions
- Rubber coated yoke secures gun, but allows for easy repositioning
- Textured, powder-coated poles minimize reflections

**EXTENSION LEGS**
- Large diameter, one-piece 13mm aluminum extensions
- Easy to install
- Textured, powder-coated poles minimize reflections
- Large diameter 13mm one-piece aluminum legs
- Sold per individual leg
**INTEGRATED SCOPE MOUNT SYSTEM**

- Integrated Scope Mounts unitize the ring and base into a single, ultra-rigid unit
- Machined from 7000 series aluminum
- Eliminates alignment problems and the possibility of a loose connection between bases and rings

* Barrel contour, optic size and preferred eye relief all affect the fit of the scope on a rifle.
SCOPE RINGS AND BASES  |  EXTRA MAGAZINES  |  GUN ACCESSORIES

X-LOCK™ MOUNTING SYSTEM SCOPE RINGS AND BASES FOR X-BOLT™ RIFLES

- Integrated Scope Mounts unitize the ring and base into a single unit
- Machined from 7000 series aluminum
- Eliminates alignment problems and loose connections between bases and rings
- Choose from integrated mounts in Standard, Intermediate and High rings
- Will accommodate both 1" and 30mm diameter scopes in gloss, matte and nickel finishes
- X-Lock™ bases also use standard Browning rings (See page 136)

![X-Lock Mounts](image)

SOLID X-LOCK™ MOUNTS

Securely mounted optics are essential to the accuracy and precision of any rifle. To ensure the X-Bolt has the most stable mount possible, it features the X-Lock scope mounting system that uses four screws per base, replacing the traditional two-screw standard. The benefits mean the scope bases are secured at all four corners rather than only held at the center of the base, and offers more accurate placement of the bases on the receiver. The revolutionary X-Lock system holds the base tighter to the rifle than any other system.

![X-Bolt Extra Magazines](image)

The X-Bolt uses a detachable rotary magazine constructed from a durable lightweight polymer. The magazine is designed to feed cartridges directly in line with the bolt, instead of offset as with traditional leaf-spring magazines, for a straight path right into the chamber. An ergonomic magazine-mounted release lets the magazine rotate directly downward and into the hand. The magazine sits flush with the bottom of the rifle for a sleeker appearance. Additional magazines can be kept loaded and carried in your pocket or pack for easy, safe access.

</table>
The BOSS-CR accessory offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature. By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, no-hole BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed. The BOSS-CR accessory is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.

Flat choke tube wrench is not compatible with Diamond Grade choke tubes.
**DIANA™ GRADE EXTENDED CHOKE TUBES**

- Longer choke taper inside Invector-Plus™ choke tubes for use with back-bored barrels on 12 and 20 gauge shotguns.
- Stainless steel barstock is heat treated prior to machining.
- Titanium nitride surface with 72HRC hardness for excellent wear and reduced plastic buildup.
- Absolutely perfect concentricity for superior patterning.
- Extends beyond the barrel for easy removal and installation.
- Browning Diana™ Grade choke tubes produce tighter patterns than Browning Invector-Plus flush choke tubes (28 gauge are Standard Invector™ chokes).

**INVECTOR-PLUS™ EXTENDED CHOKE TUBES**

- Invector-Plus™ extended tubes are constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability.
- Available in constrictions ranging from Skeet to Full.
- Knurled portion extends beyond the end of the barrel for easy removal and installation.
- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels.
- Produces excellent patterns with uniform densities.
- All Browning tubes are set to industry constriction standards.

**SPECIALTY EXTENDED CHOKE TUBES**

- **FULL STRUT TURKEY TUBE**
  - Stainless steel with black oxide finish.
  - Camo band.
  - Directional porting.
  - Designed for optimal performance with #4, #5, and #6 shot.
  - Threaded for 12 gauge Invector-Plus™ back-bored barrels only.

- **EXPRESS SABOT™ RIFLED CHOKE TUBE**
  - Stainless steel with black oxide finish.
  - Rifled design is extremely effective with both sabot and Foster slugs.
  - Threaded for 12 gauge Invector-Plus™ back-bored barrels only.
GOOSE BAND CHOKE TUBES

- Unique extended design resembles a waterfowl leg band
- 17-4 stainless steel construction
- Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus™ back-bored barrels only
- Produces tighter patterns than Browning Invector-Plus flush choke tubes
- Friction wrench is designed specifically for Goose Band choke tubes

The knife is one of the oldest, most basic of tools and can be used for a variety of chores. Whether hunting, backpacking, fishing or working at home, keeping a sharp knife handy should be essential. We offer a wide selection of blades to meet nearly every use you can imagine. From dressing big game to cleaning a fish to slicing an apple, Browning has the knife you want.
There was a time in the not so distant past when nearly everything you purchased was built in America, and the term Made in the USA stood for the highest quality. Made in the USA still means something special to many people, and that is why we are proud to offer the new Independence knife series. This collection was designed in the USA by famed knifemaker Russ Kommer. All the materials are sourced from American companies, and the knives themselves are also built in the USA. Their quality is evident from first glance. Functional designs have been tried and tested in real-world hunting situations to make certain their balance is perfect and their blades stay sharp. Get your hands on a new Independence Series knife and take a bit of homegrown Browning quality into the field on your next hunting trip.

WHITETAIL LEGACY KNIVES

This special Whitetail Legacy Limited Edition presentation-grade knife honors the cagey whitetail deer and makes an excellent gift for the dedicated hunters who pursue them. The handsome handles are shaped from exquisite mesquite burl and feature pronounced finger grooves for a secure grip. Highly polished, the drop point, semi-skinner blade is hollow ground and carefully crafted from high-quality Swedish Sandvik® steel. The full-length tang is tapered to provide perfect balance. Polished bolsters dovetail neatly. A whitetail deer lithograph is included and suitable for framing. This deluxe limited edition knife includes a felt-lined, hand-crafted walnut presentation box for display. Only 3,000 of the Whitetail Legacy Limited Editions will be made, so get yours today.

**SERIES FEATURES**

**TYPE** - Fixed blade

**BLADE** - Swedish Sandvik® 12C27 stainless steel

**HANDLE** - Mesquite burl

**FEATURES** - Limited Edition knife includes walnut presentation box and lithograph

Without question, the whitetail deer is the most popular big game species in North America. To honor them, we offer the Whitetail Legacy series knives. Don’t let their beauty fool you, these rugged knives have been extensively field tested by Alaskan guides and Midwestern bowhunters and used for every task imaginable. The unique mesquite burl handles offer natural beauty with a warm texture and exceptional durability. Hollow ground blades are razor sharp and an ideal length for field dressing.

SCRIMSHAW KNIVES

Long ago, when ships with sails ruled the waves, ivory carving was a popular hobby for sailors who spent months at sea with little to do except swab decks. While not carved from real ivory, Browning Scrimshaw knives feature richly detailed game scenes skillfully crafted into replica handles.

Years of extensive field research have culminated with the ultimate three-piece hunting set, the Hard Core Hunter. Demanding hunters are sure to appreciate the hand saw with its 4½” high carbon steel push/pull blade that makes fast work of wood or game. The custom handle shape minimizes hand fatigue. The knife has a semi-skinner drop point main blade and a unique canoe-shape handle with Dura-Touch® Armor Coating for complete comfort and control. A small caping knife offers precision for delicate field chores from caping a hide to peeling an apple. All blades fit into a slim, one-of-a-kind compact carry system with a unique swivel belt clip that makes the saw and knives easily accessible.

Straight from the demands of hunters comes the new Guide's Choice knives. These sleek pairs are constructed from tough Sandvik® 12C27 stainless steel. The modified drop point style blade of the larger knife is ideal for general field dressing, while the smaller caping knife makes skinning easier and more precise than ever. Full-length tangs afford impeccable balance and strength. Canoe-shaped handles with finger grooves give ample grip. When a single knife just won’t do the job, reach for the Guide’s Choice.

While a skilled individual can properly fillet a fish with most any knife, the rest of us require the aid of a sharp, flexible fillet knife. Browning Outdoorsman fillet knives are made to easily cut fillets with veteran-like ease. The razor-sharp German X50CrMoV15 steel blade provides just the amount of flex and feedback needed to glide over bones and carve perfect fillets every time. Tough, canoe-shaped molded handles provide a secure non-slip grip even when wet, for added control.

## SERIES FEATURES

**TYPE** - Fixed blade fillet

**BLADES** - German X50CrMoV15 steel

**HANDLES** - Durable injection molded handles with inlaid metal Buckmark

**FEATURES** - Nylon sheath included

### WOODSMAN BIRD AND TROUT KNIVES

Incredibly versatile, Browning’s Woodsman Bird and Trout knives are ideal for wingshooters and fishermen alike. The unique blade shape offers superb balance and ease of handling that enables intricate cuts in tight places like wing joints. Choose from a resin-impregnated linen handle with mirror-polished blade and bolsters or a utilitarian Mossy Oak® Duck Blind® handle with satin-finished blade for comfort and sure control. Sandvik® 12C27 stainless steel is used in the blade production.

Knives similar to the Classic Series first appeared way back in the 1969 Browning catalog. Today’s Classic Series knives have all the features, and more, that made the original models so prized. Razor sharp blades are fancy scroll etched and embellished with a gold Buckmark. Precision construction means the blade locks open with a snap. Folding models are thin enough to hardly notice in a pocket or purse, and make excellent gifts. Select from a variety of handle materials including stainless, wood, stag or mother-of-pearl scales. Leather sheath included with fixed blade models.

**SERIES FEATURES**
- Type: Fixed blade and folding lockbacks
- Blades: 5CR13MOV stainless steel with engraving
- Handles: Stainless, Wood, Stag or Mother-of-Pearl

**TACTICAL HUNTER SERIES KNIVES**

The new Tactical Hunter Series knives offer a unique addition to every outdoorsman’s arsenal. Precision crafted, these high-quality knives feature a unique flipper design that assists in the speedy opening of the knife, and doubles as a finger guard when the blade is extended. The VG-10 stainless steel drop point blade is of the highest quality and holds an incredible edge. Lightweight, durable, corrosion-resistant titanium bolsters and liners. The attached pocket clip keeps the knife secure and easy to locate.

Extreme Mountain Hunter knives are designed for performance and reliability in extreme conditions and circumstances. With no scales to break or come loose part way through a job, the handles provide a secure grip with comfortable, rounded edges and are easy to clean after dressing game. Four models include two different sized drop point blades, one with a modified drop point and one with a deep belly, semi-skinner shape. Each knife is built from tough Sandvik® 12C27 stainless steel with a Rockwell hardness of 58c-59c for the razor-sharp, edge-holding ability hunters demand. Each knife comes complete with a lightweight, injection molded sheath that complements the knives’ rugged, no-nonsense construction. If you push yourself and your gear to the limit, an Extreme Mountain Hunter is your knife.

Don't be fooled by the name because these knives are big on performance. Lil' Bit series knives are a tried and true drop point blade design cut from Swedish Sandvik® 12C27 stainless steel that is renowned for superior edge holding ability. Ideally balanced to minimize hand fatigue, Lil' Bit knives are available with genuine stag or desert ironwood, a rare and beautiful exotic wood that resists wear and has a unique grain. All of the Lil' Bit knives come with a top grain leather tie and sheath (shown at right).

Designed by experienced guide and knifemaker Russ Kommer, Packer Series knives were conceived on the unforgiving frontiers of Alaska. The unique handle design and blade shapes maximize the cut efficiency and reduce wrist fatigue. Packers come in three different blade designs: A multi-use modified drop point, a big belly semi-skinner and a modified drop point with a guthook. The knives feature genuine stag handles and a beautiful leather sheath. Browning has also teamed up with the Rocky Mountain Elk Foundation to offer knives with highly figured burl handles and a laser engraved RMEF logo on the bolsters, along with a nylon sheath.

**SERIES FEATURES**

**TYPE** - Fixed blade  
**BLADES** - Sandvik® 12C27 stainless steel  
**HANDLES** - Genuine stag or highly grained burl wood  
**FEATURES** - Top-grain sheath included with stag models · Nylon sheath included with RMEF models

BROWNING 111 FOLDING KNIVES

The Buck stops here! Designed by Russ Kommer, the Browning 111 lockbacks improve upon a popular folding design with a finger-grooved, canoe handle constructed from rugged G-10 or cocobolo wood. Hefty bolsters add to the beauty and balance. Modern materials and design ensure the Model 111 knives are one up on the “competition.”

CONVENIENT TO TAKE ALONG NEARLY EVERYWHERE, LIGHTWEIGHT PRISM II FOLDERS OPEN EASILY WITH ONE HAND TO REVEAL A RAZOR-SHARP MODIFIED CLIP POINT BLADE. COLORFUL ANODIZED HANDLES WITH LASER-CUT BUCKMARKS MAKE THESE KNIVES LOOK AS SHARP AS THEIR BLADES.

Lightweight and rugged, Mountain Ti knives feature a razor-sharp, highly versatile drop-point style folding blade design. The contrasting finish on the stainless steel handles is striking, while the titanium-coating on the blade adds to corrosion resistance. A pocket clip keeps the knife at the ready and easy one-hand opening puts the knife quickly into action. The frame lock offers excellent security.

**CROWELL/BARKER COMPETITION KNIFE**

This unique knife is a joint design effort between James Crowell and Reggie Barker, the only two men to have won an American Bladesmith Society (ABS) World Cutting Championship. Jim Crowell is well known in the knife industry and the first to win the ABS World Championship. Reggie Barker is known as “The Sharpest Man in Texas,” and won the ABS World Champion title for the third time at the 2007 BLADE Show. He’s also won the 2004 and 2005 ABS World Championship Cutting Competition. The Browning Crowell/Barker Competition Knife includes a top-grain leather sheath and a Certificate of Authenticity, signed by both Jim Crowell and Reggie Barker.

This unique knife is approved for select International Cutting Competition Trail (ICCT) events. To learn more about this exciting new action sport, visit cuttingcompetition.com.

OUTDOORSMAN | KNIVES | CHINOOK

Nothing is used more in the kitchen than a good set of sharp knives. Kitchen knives must be durable, have a variety of blade shapes for specific tasks and remain sharp, especially when used for processing wild game. The 14-piece Outdoorsman Kitchen Cutlery set has everything necessary for the home or cabin, including a hollow-ground boning knife that holds a razor edge, game shears and a sharpening steel. The set also includes standard kitchen cutlery and a uniquely designed carving fork with a pigtail twist so it won’t bend when lifting a 10-pound roast from the pan. The set has a standard chef’s knife with an innovative scalloped blade to reduce friction for carving meat, and six elegant steak knives for table use. Another favorite will be the bread knife, with large serrations, to make slicing warm homemade bread easy. The knives are made from quality German steel to ensure the Outdoorsman Set will last. A metal Browning Buckmark is set in the durable injection molded handles.

** SERIES FEATURES **  
** TYPE ** - Steak knives/Kitchen cutlery  
** BLADES ** - German X50CrMoV15 steel  
** HANDLES ** - Durable injection molded handles with inlaid metal Buckmark  
** FEATURES ** - 480: Black wood block · 480C: Bamboo block
**CAMPMATE KNIFE**

There are many folding saws on the market, but none can match a Browning. The canoe-shaped rubber handle has finger grooves and a large tail radius to ensure a rock solid grip and fatigue-free comfort in your hand. The high-carbon stainless steel push/pull blade maximizes cutting efficiency on wood and when dressing game. The unique sheath can be worn in both horizontal and vertical positions. Compact, lightweight and durable, this saw is the ultimate at a price that can’t be beat. Camp Saw Combos include a folding knife with a secure liner lock and thumbstud.

**HOW TO CHOOSE A FLASHLIGHT**

Browning is a leading manufacturer of portable battery-powered lighting. For 2011, we have expanded our line to more than 50 styles. So, how do you choose the light that best meets your needs?

**SIZE, WEIGHT AND POWER**

Smaller and lighter are better. New high-output LEDs from manufacturers like Luxeon® and Cree® are incredibly powerful and efficient, and don’t require the size and weight of the old C and D battery lights to achieve the same light output. Our Alpha and Alpha Max flashlights, with a single AA battery, are brighter than the flashlights of the past and are no bigger than a shotgun shell.

**LED VS. XENON BULBS**

LEDs are now preferred over Xenon and other types of filament bulbs for most uses. LEDs use batteries more efficiently, illuminate at equal or greater distance, emit a clean white versus a dull yellow beam and will not burn out under normal use. LEDs are also nearly unbreakable.

**HAND-HELD OR HANDS-FREE**

Headlamps and cap lights allow the use of both hands for other tasks like dressing a deer, fixing the truck or finding a path through the woods. With modern technology many headlamps are as powerful as a large hand-held flashlight. Several Browning headlamps, such as MicroBlast and Phantom can be worn either as a headlamp or clipped to the brim of a hat.

**BATTERIES**

Lithium batteries are used in many of our highest-performing lights, such as the Catalyst, Hunt Master and Nitro. Lithium batteries pack about twice the power of alkaline batteries for their weight, and operate at very cold temperatures. Convenient AA and AAA alkaline batteries are also used extensively because they cost less than lithium and are more readily available. The latest integrated circuit designs in our Hi Power, Pro Hunter, Zeta and Alpha Max flashlights boost the performance of alkaline batteries to approach the performance of lithium batteries.

**SWITCH SETTINGS**

Single-action switches (on/off) are preferred for self-defense and tactical applications. Multiple switch settings (high, low and in-between) preserve battery life and allow selecting between colors and flashing options. Lock-out switches on many Browning lights keep the light from accidentally turning on.

**RED, GREEN AND BLUE**

Colored LEDs help preserve night vision, are great for map reading and are less obvious than white light to many types of game animals when walking to a tree stand in the dark.

---

**BROWNINGadopts ANSI FL-1 PERFORMANCE STANDARDS**

Beginning in 2010, many top flashlight manufacturers agreed to use the same standards (ANSI-FL1) for measuring performance, so you can make an apples-to-apples comparison between models. We are proud to endorse and participate in these standards for portable lighting.*

- **Lumens** = Brightness. A traditional 2D flashlight is approximately 15 - 20 lumens.
- **Battery Life (Run Time)** is defined as the time elapsed when the batteries are new to when the light reaches 10% of the original brightness.
- **Maximum Distance** is measured as the distance in meters from the light to where it decreases in brightness to 0.25 lux — about the brightness of the full moon on a clear night.

---

* For Browning lights with multiple settings, the Lumens, Battery Life and Distance are stated in the specifications at the highest setting (100% power), unless indicated otherwise.
The Browning Control Point is as powerful as any two battery light we've ever offered. This wonder combines the latest Luxeon® LED with a pair of 3V Lithium batteries and advanced electronics for a flashlight that outperforms all other flashlights in its class. In addition to tremendous light output and superior battery life, Control Point flashlights now offer five brightness levels to provide just the light you need (high [100%], medium-high [80%], medium [60%], medium-low [35%], low [10%]) and three flashing modes (fast strobe, normal strobe and S.O.S.). A rotating selector switch on the tailcap controls the electronics and a tactical, push button on/off switch on the end of the light makes it easy to turn the light on in a momentary function. Try a Control Point and it is clear to see why this light outshines all the rest in the portable lighting market.

### Tactical Hunter Control Point Flashlights

**NEW Tactical Hunter Control Point, Black**
- Luxeon Rebel
- 3711240
- 023614080541
- (2) CR123A Lithium
- Bright. 2.5 hours
- 175 lumens
- $74.99

**NEW Tactical Hunter Control Point, MONBU with Dura-Touch Armor Coating**
- Luxeon Rebel
- 3711241
- 023614080565
- (2) CR123A Lithium
- Bright. 2.5 hours
- 175 lumens
- $79.99

- All-aluminum construction and O-ring sealed for water resistance
- Advanced digital circuitry delivers maximum power
- Rugged Tactical Hunter design with lock-out switch and Deep Pocket™ carry clip
- Length: 5.6"
- Brightness: 175 lumens
- Effective distance: 150 meters

**NOW WITH 4 MODES AND 10 SETTINGS!**

- L = LIGHT
- 5 Settings, High to Low
- O = OFF
- F = FLASHING
- S.O.S. Slow or Fast Strobe
- M = MOMENTARY

HI POWER FLASHLIGHTS

With great looks and the potential to squeeze every last drop of energy from a pair of common, easy-to-find AA alkaline batteries, our award winning Hi Power flashlights blend innovative technology with a striking appearance. The latest advancements in circuitry allow the AA-powered LED Hi Power to rival most lithium-powered lights for both lumen output and battery life. Protecting this leading-edge technology is a precision-machined aluminum housing available with tough resin inlays or the same American walnut used for our firearms set into the grip for a great new look. The side located, push-button switch is simple to use and includes a lock-out to keep the switch from accidentally turning on. One thing is for certain, when it comes to looks, convenience, battery life and sheer lumen output, the Hi Power flashlight is sure to be the first light you reach for.

- All-aluminum construction with walnut or black resin handle inlays
- Latest generation Cree® XP-E LED is rated for 50,000 hours use
- High-low electronic switch with lock-out
- O-ring sealed for water resistance
- Includes lanyard and two AA batteries
- Length: 5.25"
- Brightness: 145 lumens
- Effective distance: 150 meters

NITRO HEADLAMP

Our brightest, most-powerful headlamp - Luxeon Rebel LED shines 100 meters on high setting; plus two red and two green LEDs - Lock-out switch with settings for high and low - Unbreakable LEDs are rated for 100,000 hours use - CR123A battery operates to -40°F - Includes headstrap, or use with hat clip - Glass-fiber reinforced polycarbonate housing with aluminum lens ring - Silent Hinge™ for stealth - Brightness: 110 lumens - Effective distance: 100 meters

Martin Buser and his Happy Trails Kennels sled dog teams have won the grueling 1,161 mile Iditarod Trail Sled Dog Race an impressive four times. Their 1997 victory still holds the course record for the fastest finish time. Martin has relied on the Browning Nitro headlamp since 2008 to steer his team through the darkest Alaskan nights. “I am always searching for durable, unique products to give me an edge. The long-reaching, focused beam of the Nitro stretches past 80 feet of the sled team and makes finding trail markers easier. The lithium batteries are great because they last longer and are less affected by the cold than alkaline batteries.”

— MARTIN BUSER

ALPHA, ALPHA MAX AND ZETA FLASHLIGHTS

Powerful Browning flashlights offer more illumination with innovative new LED bulbs that provide more lumens and make excellent use of battery life. Compact and powerful, these flashlights use standard AA alkaline batteries and fit easily in a pocket. A lock-out tailcap switch features a momentary function, and single-action on/off for simplicity and maximum control. Rugged aircraft aluminum construction protects the high-tech circuitry and the LEDs. The Deep Pocket™ carry clip holds the light securely in your pocket where it’s easy to find and is removable if it is not needed. Check out the latest innovations in handheld lighting technology, available from Browning.

HUNT MASTER

HUNT MASTER VXT

The new Hunt Master VXT features a powerful new green LED for maximum stealth and enhanced night vision. The new Cree® XP-C green LED is a bright 70 lumens — about 15 times more powerful than a standard 4-5 lumen green LED — to send the beam past 60 meters. Two Cree XP-E LEDs emit 225 lumens of clean white light. The VXT also features an adjustable spot-to-flood lens design and a memory feature that returns the light to the last setting you used.

- Powerful 70 lumen green LED
- Focusable lens for flawless spot beam
- Smaller than a 2D flashlight
- CR123A batteries operate to -40° F
- All-aluminum construction with unbreakable lens
- High-power LEDs are rated for 100,000 hours use
- Length: 6.6’
- Brightness: 225 lumens
- Effective distance: 100 meters

NEW

Hunt Master VXT, Black

With three Luxeon® Rebel LEDs and an awesome 300 lumen output, the Hunt Master is the brightest flashlight in the Browning line-up. The Hunt Master utilizes advanced circuitry to manage power from three CR123A batteries to leave larger, heavier flashlights in the dust. The Hunt Master also features an adjustable spot-to-flood lens design to focus light to your needs. Precision aluminum housing.

- Focusable lens for flawless spot beam
- Smaller than a 2D flashlight
- CR123A batteries operate to -40° F
- All-aluminum construction with unbreakable lens
- High-power LEDs are rated for 100,000 hours use
- Length: 6.6’
- Brightness: 300 lumens
- Effective distance: 150 meters

NEW

Hunt Master Olive Drab

- Our brightest two battery flashlights
- Rugged, tactical-style thumb switch with lock-out switch
- MONBU models have a single-action on/off switch, while Catalyst Olive Drab and Digital Camo models have an electronic high-low switch and a rapid strobe function
- Features the brightest available LEDs for maximum distance and lumens
- Deep Pocket™ carry clip keeps the light secure in your pocket
- Max View™ focused square beam for instant area illumination
- Three colored filters (red, blue, green) for maximum stealth and night vision
- All-aluminum construction with unbreakable lens
- Camo models feature Dura-Touch® Armor Coating
- Length: 5”
- Brightness: 175 lumens
- Effective distance: 150 meters

Hunt Master, Olive Drab

NEW

NEW

NEW

NEW
PRO HUNTER LED FLASHLIGHTS

PRO HUNTER FLASHLIGHTS

Pro Hunter flashlights feature long-running, powerful LEDs, rugged lightweight polymer bodies with rugged aluminum lens rings, and the very latest in circuit and switch design. The new Classic Pro and Twin Beam+ are among the most powerful lights in their class. Both sport a screaming Cree® XP-C LED for maximum lumens and distance. The Twin-Beam+ includes a new “Mean Green” LED rated at 70 lumens, and a new Soft-Sunshine LED for blood tracking. Affordable and easy to find AAA batteries are included with all models. A tactical-style lock-out end cap disables the switch to assure the light is not turned on accidently. A carrying lanyard and ribbed body provide maximum grip in wet or cold weather. ANSI rated for water resistance. LEDs are rated for 50,000 to 100,000 hours and will not burn out under normal use.

RGB FLASHLIGHT

The Pro Hunter RGB features a pair of high-intensity LEDs for long distance, one wide view LED for maximum peripheral vision and one red-green-blue LED that enhances night vision and is stealthier around game animals. The RGB is a bright 40 lumens on the high setting. Black with matte aluminum lens ring. Three AAA alkaline batteries (included). All this, and the RGB is easy on your wallet too.

PRO HUNTER LED

The original Pro Hunter flashlight features unbreakable, long-running LEDs. The center 0.5W LED pushes 25 lumens out to 50 meters and two red and two green LEDs provide improved night vision and safety, and are stealthy around game animals. Dura-Touch® Armor Coating enhances grip in all conditions.

CLASSIC PRO

Pure power is what these lights are all about. The Classic Pro is rated at 100 lumens, out to 100 meters and beyond. A tactical end-cap switch with high, low and flashing settings is simple to use and includes a lock-out that disables the switch to protect the batteries. The Classic Pro is certain to become a favorite for performance, good looks and cost-efficiency.

TWIN BEAM+

With 100 lumens in the main beam, the new Twin Beam+ is the ultimate hunting flashlight. The main beam uses a Cree® XP-C LED to throw 100 lumens of light out to 100 meters. A new green Cree® XP-C LED emits 70 lumens — easily 15 times more powerful than other green LEDs that give off 4-5 lumens — for the maximum in stealthy brightness without disturbing the animals nearby. A new Soft-Sunshine LED limits glare for better up-close map reading and tracking. The light flashes in any setting (including green) by holding down the switch for 2 seconds. Memory feature returns to the most recent setting when you turn the light back on. Three AAA batteries are included.

- Ultra-light, ultra-tough polymer construction with rugged aluminum lens ring
- Textured non-slip body for secure grip in wet weather
- O-ring sealed for water-resistance
- Length - 5.1"
**SPITFIRE FLASHLIGHT**

- Powerful Cree® XP-C LED for bright, reliable illumination
- LEDs are rated for 50,000 hours and will never need to be replaced
- Ultralight, ultratough machined aluminum construction
- Textured non-slip body for secure grip in wet weather
- O-ring sealed for water resistance
- Length: 6”
- Brightness: 20 lumens
- Effective distance: 125 meters

Now 12% brighter, the value-packed, super bright LED Spitfire flashlight operates on two AA batteries. This tough, reliable flashlight is water-resistant and easily passes demanding “drop-tests” onto concrete from a height of 1 meter and higher. The highly-focused LED beam is tuned for long distances and shines out to 125 meters. A tactical-style tailcap switch is easy to operate and features a momentary on/off or lock-on.

**DUCK CALL LANYARD LIGHT**

- Designed to clip to a call lanyard
- Nichia® 5mm LED is brighter than many larger flashlights
- Digital circuitry delivers maximum power using a single AAA battery
- Twist-switch prevents accidental activation
- Rugged aircraft aluminum housing with unbreakable LED and lens
- Extra-strong metal lanyard with spring clip
- Brightness: 20 lumens
- Effective distance: 35 meters

Enjoy hands-free lighting with the new Night Seeker pocket light. A flexible clip attaches the light to a pocket, sleeve or strap. The head pivots 360° and tilts up and down to aim the beam right where you need it. Also great as a free-standing spotlight. Two high-intensity Nichia® 5mm LEDs offer maximum brightness and distance. Two 2032 batteries included.

</table>
Browning is proud to introduce a new line of powerful, rugged and sensibly-priced Pro Hunter headlamps for 2011. Each headlamp features the latest in LED technology and circuit design to give the brightest output and longest run times. The three common, inexpensive AAA Alkaline batteries used to power Pro Hunter headlamps are interchangeable with many other devices such as GPS and walkie-talkies. Durable lightweight polymer housings feature easy-to-use switch buttons. All headlamps tilt up and down to direct the light where needed, and come with adjustable, snug-fitting elastic headstraps.

**PRO HUNTER RGB HEADLAMPS**

Based on the best-selling Pro Hunter RGB flashlight, the new RGB headlamp features the same extremely functional LED set with two high-intensity LEDs for long distance, a wide-view LED for maximum peripheral vision and one Red-Green-Blue LED. Colored LEDs enhance night vision and safety, and are more stealthy around game animals. Black front with charcoal accents.

**PRO HUNTER ESCAPE HEADLAMPS**

Escape headlamps feature three high-intensity LEDs for maximum brightness and long distances (up to 45 lumens and 40 meters) and one Soft-Sunlight LED for up-close lighting. The Soft-Sunlight LED is helpful when examining leaves, bark and grass at close distances for a blood trail, because it reduces glare and shadows. Also perfect for reading books and maps. Escape has three light settings, plus flashing. Maximum run time 32 hours.

In Mossy Oak® camo patterns: Break-Up® Infinity™, Duck Blind® and Blaze®.

**PRO HUNTER MAXUS HEADLAMP WITH FOCUS-CONTROL**

Maxus is a versatile, technically-advanced, powerful headlamp worthy of the name. Zoom lever on front adjusts the focus of the main LED from spot to flood. Powerful Cree® LED sends 85 lumens to 80 meters or more. Three light levels (High, Medium, Low) and Flashing setting extend the maximum run time on Low to 24 hours. Memory switch returns to the most recent setting when you turn the light on. Plus two green and two red LEDs offer maximum stealth, safety and protect night vision. Black front with charcoal accents.

PHANTOM HEADLAMP

The Phantom headlamp is the smallest, most powerful AA headlamp in our line-up. It is lightweight and compact, featuring a flip-down diffuser that softens light into a flood beam for up close tasks. A comfortable elastic headstrap and easy-to-use hat clip are included.

- Our brightest, lightest weight headlamp
- Only 2.4 oz. including single AA battery
- Choose between red, green or blue LEDs, plus a powerful Luxeon® white LED for distance
- Pivoting optical diffuser for flood lighting
- Clips to a cap or use with headstrap
- Brightness: 50 lumens
- Effective distance: 70 meters

### NIGHT SEEKER RGB CAP LIGHT

The Night Seeker™ RGB cap light features two white LEDs plus a cool RGB LED which shines first red, then green, then blue — all from a single LED — just by pushing the switch. Like other Night Seeker Lights, the RGB is made from lightweight polymer with an integrated clip that swivels to allow the light to be directed easily.

- Adjustable tilt allows the light to pivot up and down to aim the light where it is needed
- Two white LEDs for all-purpose use
- One RGB LED offers night vision, safety and stealth
- Wear on the brim of a cap, as a pocket light or on a pack strap
- LEDs are rated for 100,000 hours use
- Brightness: 15 lumens
- Effective distance: 20 meters

### NIGHT SEEKER PRO CAP LIGHT

- Adjustable tilt allows the light to pivot up and down to aim the light where it is needed
- One Nichia® 0.5 Watt LED for distance illumination
- Two green LEDs for night vision, safety and stealth
- Wear on the brim of a cap, as a pocket light or on a pack strap
- LEDs are rated for 100,000 hours use
- Brightness: 20 lumens
- Effective distance: 35 meters

### NIGHT SEEKER CAP LIGHT

- Adjustable tilt allows the light to pivot up and down to aim the light where it is needed
- Two white LEDs are ideal for all-purpose use; one red LED for night vision and stealth
- Wear on the brim of a cap, as a pocket light or on a pack strap
- LEDs are rated for 100,000 hours use
- Brightness: 15 lumens
- Effective distance: 20 meters

Cap lights are one of the best ideas ever, and we have the best executed designs available. Night Seeker™ cap lights are durably constructed from a lightweight polymer to keep weight to a minimum. An integrated clip swivels to allow the light to be directed easily. The unique clip is also highly versatile. In addition to attaching to the brim of a cap, the clip can be attached to your shirt pocket, backpack strap or folded out to allow the light to stand on its own.

CHOKED TUBE LED KEYCHAIN LIGHTS

- Nichia® high-intensity white LED
- O-ring sealed for water resistance
- Rugged aircraft-grade aluminum construction
- Twist-switch for easy lock on and off
- Length: 1 3/8"
- Includes four LR41 batteries
- Metal clip
- Brightness: 12 lumens
- Effective distance: 20 meters

Stylish after Browning choke tubes, these handy keychain lights are small enough to go anywhere with you. A bright LED offers suitable light for small tasks and offers up to 8 hours of continuous run time.

There isn’t a better camp lantern than the Buck Mark 6D. The light source is a replaceable fluorescent bulb which puts out 350 lumens for 12 hours, perfect for use around camp and general purpose lighting, or turn it on to the economy setting (140 lumens / 20 hours). The second light source is a 0.5 watt white LED that will run for 168 hours (7 days) when long-term lighting, such as in an emergency situation, is needed. The third light source is a pair of 5mm red LEDs that will run for 264 hours (11 days) for stealth lighting or reading a map and long-term use as a marker, a night light or hanging in the tent. The red LEDs can also be set to blinking mode in an emergency.

- Bright fluorescent and LED lantern
- Steady on and flashing modes
- Durable polymer and metal construction with rubber accents for durability
- Brightness: 350 lumens (Fluorescent)
- Height: 9.25”

**NEW HMX BI-COMPONENT WATERPROOF BREATHABLE FABRIC TECHNOLOGY IS HERE**

For 2011, Browning introduces new high performance, Bi-Component HMX waterproof and breathable fabrics. HMX is different because it combines the advantages of the two most widely used technologies. Hydrophilic Monolithic systems do not transport perspiration vapor, but only the liquid perspiration formed when the vapor condenses. Hydrophobic Microporous systems transport vapor, but do not transport condensed perspiration. By using a Bi-Component System we utilize the advantages of both technologies to move both water vapor and condensed water to the outside of the garment keeping you protected from internal moisture. At the same time, HMX totally prevents water entry from the outside. The revolutionary Bi-Component technology found in HMX fabrics provides the level of protection and comfort you have come to expect from Browning Technical Clothing, The Best There Is.

**STAY WARMER WITH NEW PRIMALOFT® SPORT INSULATION**

Being cold is a thing of the past with the addition of PrimaLoft® Sport insulation to the Browning Technical Clothing line-up. PrimaLoft Sport is a premium performance, fine-fiber, high-loft insulation engineered to keep you warmer, drier and more comfortable in extreme conditions — even if it gets wet. PrimaLoft is so good, it was chosen by the US Military with over 1,000,000 PrimaLoft military garments deployed in Iraq and Afghanistan.

**WHAT MAKES PRIMALOFT® SO GOOD?**

- PrimaLoft® Sport is a premium performance insulation engineered for superior warmth, water resistance, loft, softness and compressibility.
- PrimaLoft fibers are the finest in the industry and are densely packed to retain heat better for improved thermal efficiency.
- PrimaLoft fibers are specially treated to repel water molecules and absorb less water to make PrimaLoft more water-resistant and faster drying than other polyester insulations.
- The tightly compressed fibers make PrimaLoft highly wind-resistant.
- The smaller, finer fibers compress more and are lighter, less bulky, more breathable and extremely compressible.

---

**NEW**

**THE NEXT GENERATION OF WATERPROOF/BREATHABLE**

**WHAT MAKES PRIMALOFT® SO GOOD?**

- PrimaLoft® Sport is a premium performance insulation engineered for superior warmth, water resistance, loft, softness and compressibility.
- PrimaLoft fibers are the finest in the industry and are densely packed to retain heat better for improved thermal efficiency.

THE RETURN OF BROWNING® HYDRO-FLEECE — THE BEST THERE IS.

When Browning Hydro-Fleece was first introduced in 1993, it was a game changer, totally different than anything else in the hunting clothing market. Hydro-Fleece was the first truly technical outdoor gear offered in the hunting industry with the ideal combination of quiet, waterproof, windproof and breathable protection. Hunters clamored for it and Hydro-Fleece quickly became the standard by which all other hunting garments were compared to.

For 2011 we’ve put some new twists on this favorite with the re-introduction of Hydro-Fleece, now updated and better than ever to make it the go-to hunting clothing when you’re looking for the ultimate in quiet, waterproof protection. Hydro-Fleece now includes innovative new technology that provides improved performance.

These innovations not only make new Browning Hydro-Fleece better than before, they make it better than anything else on the market. Now add fully-taped seams that reliably waterproof critical areas, gear-swallowing pockets, adjustable hoods and cuffs, sturdy zippers and a performance fit that won’t restrict your range of motion. If you are seeking the ultimate technical hunting clothing, look no further than Hydro-Fleece from the most trusted name in the technical clothing business, Browning.

HYDRO-FLEECE — THE BEST IS BACK... AND BETTER THAN EVER.

2-layer Hydro-Fleece with PrimaLoft® Sport insulation models are the warmest hunting parkas, jackets and pants we offer. The combination of the loftier soft shell fabric and thermally efficient PrimaLoft insulation provide a level of protection and comfort never before possible. Four pieces are available including a parka and matching bib and a lighter weight jacket and pant. 3-layer Hydro-Fleece Soft Shell models add a new dimension with a form-fitting design to minimize weight and bulk. The 3-layer fabric features new Hydro-Fleece fabric on the outside with a smooth, fully-taped knit lining on the inside for ease of movement. Jacket and matching pant available.

HYDRO-FLEECE PRIMALOFT PARKA

New HMX™ waterproof, breathable, bi-component 2-layer shell fabric • Fully-taped seams • OdorSmart™ anti-microbial lining helps control the bacteria that causes human odors • PrimaLoft® Sport insulation • Two laser cut chest pockets with zipped closures • Two oversized bellows pockets with magnetic flap closures • Two handwarmer pockets behind bellows pockets • Two inside pockets • Waist drawcord • Laminated watertight cuff closures with hook and loop adjustment • Detachable hood with drawcord adjustment and molded brim • Full-length front closure using 2-way Waterguard™ zipper • Laminated internal zipper flap • Stand-up, zip-through collar • License tab • Sizes: S-3XL

WHAT DOES IT MEAN TO BE WATERPROOF?

Here’s what makes Browning waterproof and breathable clothing different from many of our competitors:

- Waterproof fabrics: HMX™ and Pre-Vent® fabrics have been specially created to meet our very high standards for waterproofness and breathability. Since shell fabrics are your first defense against the elements, we don’t cut corners on quality.
- Taped Seams: Every seam is taped or we don’t call it “waterproof.” End of story. We are very involved in developing the correct tape and using only manufacturers who have years of experience taping garments.
- Construction: Browning waterproof garments are designed and constructed to resist water entry at all closures including cuffs, hoods, pockets and zippers. The Browning name is your assurance that corners are not cut for the sake of cost. When you see the HMX or Pre-Vent labels in Browning garments you know you can rely on them to perform to the highest standards.

**HYDRO-FLEECE PRIMALOFT® JACKET**

TRANSITIONS — AWARD WINNING PROTECTION

Since its introduction in 2008, the Browning Transitions series has won two prestigious awards for design excellence and performance in the field: “Best of the Best” from Field and Stream and the “Award of Excellence” from Sporting Classics. We are proud of these accomplishments, but we won’t sit back on our laurels. We have overhauled many Transitions models for 2011 to keep them on the leading edge of performance, plus we’ve added new models that bring even more versatility and excitement to the line.

For 2011, all waterproof, breathable models in the Protection Layer feature HMX™ bi-component fabrics for extreme waterproofness and high breathability for maximum comfort. We have also added a new Primaloft Liner Jacket to the insulation category for a new dimension of warmth in the Insulation Layer. The great layering concept represented by the Transitions models continue to make it one of the most versatile apparel assortments available by combining Base, Insulation and Protection layers, all utilizing leading-edge technology.
NTS ™ PRO | CLOTHING | 193

NTS PRO BASE LAYER — A SOLID FOUNDATION FOR WARMTH.

Featuring VisaEndurance® anti-microbial fabric, NTS (Next To Skin) Pro Base Layer gear with OdorSmart™ technology is designed to provide advanced odor control. OdorSmart features patented encapsulated silver ion technology that inhibits the growth of odor-causing bacteria to help prevent body odors. Encapsulated silver ions work for the life of the garment, with no loss of effectiveness even after repeated washings. The wicking fabric effectively transports moisture away from the body where it quickly evaporates to keep you dry and comfortable. A lighter weight fabric under the arm enhances breathability. NTS is a solid foundation for controlling human odor and maintaining comfort on your next adventure.

NTS PRO TOP

Midweight 100% microdenier polyester fabric · Trim fabric under the arms and down the sides is constructed of bird’s-eye mesh for added breathability · OdorSmart™ technology featuring VisaEndurance® silver ion anti-microbial fabric to help control human odor · Perfect where odor control is a must · Excellent moisture transfer · Dries quickly · Loose fit · Double-stitch neck for comfort · Sizes: S-2XL

COMFORT FLEECE — WARMTH ANYTIME.

Designed as a base layer, Comfort Fleece is so soft and warm you’ll want to wear it while lounging at home. The lightweight, 200 gram fleece offers a tremendous amount of warmth with minimal bulk and breathes like it has its own set of lungs. The mock neck top snugs up to seal in heat, and the bottoms have a tapered fit with stirrups to keep them in place when putting on waders. Make Comfort Fleece your foundation layer for protection from the cold.

### COMFORT FLEECE TOP

Lightweight 200 gram fleece is brushed on both sides for additional warmth and comfort

ILLUSION — PURSUING PERFECTION.

Illusion combines the ruggedness, quietness and comfort of a soft shell with our new HMX™ bi-component waterproof, breathable fabric for the ultimate in hunting gear. Every seam has been sealed with matching 3-layer tape to make Illusion models truly waterproof for reliability and protection in the nasty conditions you often hunt in. OdorSmart™ anti-microbial treatment keeps human scent to a minimum. The form-fitting jacket minimizes bulk and weight and is backpack friendly, allowing you to access the pockets when wearing a pack. The pant moves easily with you, making it ideal for stalking game.

**WHAT DOES IT MEAN TO BE WINDPROOF?**

This is what you should know about Browning windproof clothing that makes us different:

- WindKill™ clothing is made from laminated fabric that blocks the passage of wind through the fabric while breathing away perspiration.
- Browning windproof clothing is designed and constructed to prevent wind from sneaking in through cuffs, zippers and hoods. This combination of laminated fabric and design features ensures our clothing is totally windproof, not just wind-resistant.

---

Deluge™

Deluge — ultralight, heavyweight protection.

Imagine carrying a full rain suit in your pack and forgetting it’s there until the raindrops start falling. Then you’ll experience the protection afforded by the lightweight HMX™ 2.5-layer fabric in the new Deluge rain gear. Deluge is so light and stuffs away into such a small package, it easily goes anywhere in a backpack. It can be worn alone in warmer weather, or layered over Base or Insulation Layer garments when the rain or snow starts to fly.

**DELUGE JACKET**

Ultra-light HMX™ 2.5-layer fabric · Seams are sealed with matching 2.5-layer tape · Zippered handwarmer pockets · Set-in sleeve construction · Attached hood with drawcord adjustment and molded brim · Elasticized cuffs with hook and loop adjustment · Full-front zipper closure with WaterGuard™ zipper and chin guard · Inside security pocket with zipper closure · Bottom drawcord adjusts from inside pockets · License tab · Stuff bag included · Sizes: S-3XL

MAXUS JACKET. THE FINEST WATERFOWL GEAR AVAILABLE.

For 2011 the Maxus jacket has been redesigned with even more features like our revolutionary new HMX™ fabric that provides maximum waterproof protection while transferring perspiration buildup to the outside where it can evaporate. As a stand-alone jacket, it provides protection from rain, sleet and snow with ease. In colder weather it can be layered over a fleece, down or PrimaLoft® liner jacket for insulation from the cold and elements. The lightweight, rugged 3-layer soft shell fabric resists the pokes and sticks with minimal weight. All seams are taped using 3-layer tape to insure total 100% waterproof protection. Serious waterfowlers will appreciate all the features that make this the ultimate waterfowl jacket.

New HMX™ waterproof, breathable, bi-component 3-layer fabric · Seams are sealed with matching 3-layer tape · Detachable hood · Bottom drawcord adjusts from inside lower handwarmer pockets · Call pocket on the left chest with zipper closure · Articulated elbow and freedom sleeve design · Two upper chest handwarmer pockets with zipper closures · Two lower bellows pockets with hook and loop secured pocket flaps and handwarmer pockets · Inside security pocket with zipper closure · License tab · Sizes: S-3XL

ADDHEAT – TURN IT ON AND GET HEATED UP!

The new AddHeat Soft Shell Jacket and Vest take heating technology to the next level of performance. The new 2-layer soft shell fabric features a mesh lining with OdorSmart™ anti-microbial technology to help control human odor. The jacket features three individual heating panels for maximum warmth, while the vest has one heating panel to maximize battery life. Either piece functions as an insulating mid-layer, or as an outer layer in less demanding weather.

For 2011 we have also trimmed away excess weight and bulk by combining the compact, rechargeable Li-ion battery pack with the control module into a single unit. The battery pack/control module is sold separately, so you may purchase a single battery pack/control module to use with both AddHeat garments without having a separate AddHeat System for each. The AddHeat System still provides up to 5.5 hours of continuous heat and is controlled by a simple-to-use “intelligent” Micro-CPU controller and 110-220 VAC charger or with an optional 12VDC vehicle charger. Care of an AddHeat garment is simple. Just remove the battery pack/control module and hand wash and line dry the garment as often as necessary. No worries and no hassles.

Note that the battery pack/control module is not included with AddHeat garments and must be purchased separately.

**XPO — EXCEPTIONAL COMFORT AND PERFORMANCE.**

Browning XPO (eXtended Performance Outerwear) is designed to be affordable, tough, comfortable and functional in all types of weather conditions. XPO features Pre-Vent®, a waterproof, windproof, breathable laminate that ensures protection from the most severe conditions you are likely to encounter in the field, yet remains breathable to let perspiration escape. Importantly, Pre-Vent does all this at a very competitive price, without skimping on other features that matter like abundant pockets, quality zippers and rugged construction.
XPO FOR HER AND XPO JUNIOR – BIG GAME OUTDOOR WEAR FOR YOUR WHOLE FAMILY.

A cold and wet experience can make or break a day hunting, even for your hunting partners. Fortunately, every member of your family can enjoy the same protection with XPO For Her and XPO Junior outerwear. XPO For Her and XPO Junior maximize comfort, warmth and mobility without the performance downgrades common in the other makers’ hunting clothes. Make the outdoors more comfortable and more fun for everyone with XPO For Her and XPO Junior.

**XPO FOR HER BIG GAME JACKET**

Pre-Vent® waterproof, breathable shell fabric · Specifically cut and designed for women · Insulated for warmth without bulk · Adjustable hood · Differential cut · Front wind flap · Two zippered bellows pockets plus inside security pocket · Adjustable Lycra® cuffs · Drawcord waist · Quiet, direct-attach zipper pulls · Sizes: S-XL

ODORSMART™

HELL’S CANYON FULL THROTTLE — GO TOP SPEED.

Lighter weight Hell’s Canyon Full Throttle gear brings a level of performance to your hunt with a 2-layer fabric featuring a rugged water- and wind-resistant woven outer shell bonded to moisture-wicking OdorSmart™ featherweight fleece on the inside. Because there is no lamination layer, there is less resistance to airflow through the fabric for increased breathability. You will stay dry and comfortable in warmer weather and higher activity levels as perspiration is quickly moved away from your body. Crank up the intensity of your next hunt with Hell’s Canyon Full Throttle.

HELL’S CANYON FULL THROTTLE JACKET

Woven 2-layer bonded fabric is highly water- and wind-resistant and extremely breathable
- Lightweight moisture wicking fleece lining with OdorSmart™ anti-microbial technology
- Differential cut (longer in the back) - Stand-up, zip-through collar with double-pull closure
- On-seam handwarmer pockets - Extra large zippered chest pockets - Bottom drawcord

The specialized Grand Passage Layout Bib has features specifically designed to maximize your comfort in the layout blind. The bib is highlighted by a waterproof, breathable Pre-Vent® laminate and is uninsulated, yet easily layered, for multi-season versatility. The back of the bib is double-padded to increase comfort and protection from the ice-cold ground. An oversize bellows pocket on the chest keeps oft needed gear at the ready and a pass-through handwarmer pocket keeps your hands warm and dry.
WING-SET JACKET—RUGGED PERFORMANCE FOR RUGGED CONDITIONS.
Weighing a mere 26 oz., the rugged soft shell Wing-Set jacket provides heavyweight protection from gouging sticks, thorns and the paws of an excited retriever. The rugged 3-layer fabric combines a rugged nylon outer shell, waterproof, windproof and breathable Pre-Vent® lamination plus a soft inner fleece layer to provide warmth and protection over a wide range of conditions. Unlike other soft shell jackets that only claim to be waterproof, the Wing-Set jacket truly is, with external taping on every seam. Freedom sleeve construction and articulated elbows allow you unrestricted movement to swing and follow through on fast flying birds. Discover how comfortable hunting can be with the lightweight, minimal bulk and mega protection of the Wing-Set jacket.

WING-SET JACKET
Lightweight soft shell 3-layer fabric features Browning Pre-Vent® waterproof, windproof and breathable laminate · Fully-taped seams · Water-resistant laminated cuffs with hook and loop closures · Freedom shoulder design and articulated elbow for unrestricted movement · Two upper call pockets with zipper closures · Two lower pockets with zipper closures · Detachable hood with drawcord adjustment · Full-length front zipper with inner and outer storm flaps · Drawcord bottom adjusts from inside lower pockets · Sizes: S-3XL

WINDKILL & WARM FRONT — VERSATILE PROTECTION.

Chilly mornings often become sunny and warm afternoons that require a versatile mid-layer. WindKill outerwear features a fleece lining and a highly wind- and water-resistant outer shell, making it perfect as an insulation layer on cold days or an outer layer on blustery days. Lightweight Warm Front layers are ideal in drier, cooler weather. These protective shells are easily worn over additional layers to fend off the wind and light rain or snow.

WINDKILL WATERFOWL PULLOVER

Waterfowl soft shell 3-layer, 4-way stretch laminated fabric with an abrasion-resistant and highly water-resistant polyester outer face, middle layer is a WindKill™ laminate that blocks wind and provides water resistance in all but the most extreme weather, inner layer is a soft fleece · Two chest pockets: one zippered, one magnetic closure · Upper handwarmer pockets are positioned above the wader line · Side panel construction features breathable tricot for a comfortable fit inside waders · Half-length zipper · Stand-up collar · Sizes: S-3XL

4X MICROFLEECE — THE RIGHT FLEECE.

4X Microfleece has four times the wind resistance of regular fleece. It is ideal for nearly all hunting situations. Under fair skies, in warmer temperatures, 4X adds just the right amount of insulation and wind protection. When layered underneath a waterproof parka, it offers excellent insulating performance with little bulk.

**4X MICROFLEECE JACKET**

Highly constructed microfiber fleece is wind-resistant and extremely quiet. Backpack friendly design eliminates bulk and weight and provides easy access to pockets. Duplex handwarmer pockets feature upper and lower section separated by internal zipper. Set-in sleeves are fully lined for easy on/off and feature Lycra® cuff opening. Two zippered handwarmer pockets and internal zippered security pocket. Contrasting side stripe. Sizes: S-3XL.

SANTA FE DOWN — HEAVY DUTY WARMTH.
Santa Fe down jackets are designed to withstand the use and abuse that might destroy a lesser down garment. The heavy-duty, highly-constructed Repel-Tex™ fabric is treated with a revolutionary new wax finish that sheds water and makes Santa Fe jackets extremely water-resistant. This new treatment adheres to the jacket significantly better than traditional waxing and remains unchanged over time and multiple washings. Santa Fe jackets are also cut longer to give you additional protection from the cold. Knit cuffs seal out drafts. Check out the next generation of down with new Santa Fe jackets.

SANTA FE DOWN JACKET
Water- and wind-resistant Repel-Tex™ shell fabric - 650 fill-power goose down insulation - Downproof nylon lining - Full-length front zipper flap - Fleece-lined, down-filled zip-through collar - Drawcord adjustable bottom - Two lower slash pockets and single inside pocket with zippered closure - Knit cuffs - Sizes: S-3XL

THE STAPLE FOR EVERY HUNTER — 650 DOWN.

Down is the ultimate insulator. It is light, compact and extremely warm. For these reasons you should have down as a staple in your gear collection, and you need look no further than Browning. Our 650 Down jackets and vests make ideal layering garments in frigid conditions and are excellent as a stand-alone piece as well. Their stylish look also makes them suitable to wear around town when the temperatures drop.

FULL CURL WOOL — THE EVOLUTION OF NATURE’S MOST FUNCTIONAL FABRIC.

First there was wool, supremely versatile yet itchy. Then came non-itch wool blends that were just as versatile but more comfortable to wear. Now, we have taken wool to an even higher level with Full Curl Wool, and this wonder fabric has never been more comfortable and effective against the elements. Full Curl combines a durable 7 oz. wool blend outer fabric a new WindKill™ windproof and water-resistant lamination and soft tricot lining for the ultimate wool fabrication. Fleece side panels are added to increase breathability. The 3-in-1 Parka relies upon another of nature’s wonders — goose down — to provide insulation in the removable liner. The rugged, time-honored performance of wool makes the new Full Curl ideal for nearly all conditions, terrains and activity levels.

FULL CURL WOOL 3-IN-1 PARKA

7 oz. wool blend · WindKill™ laminate blocks wind and provides water resistance in all but the most extreme weather · Removable down vest · Soft tricot lining · Breathable fleece side panels · Washable · Two upper zippered slash pockets · Two lower bellows pockets with snap closures · Two handwarmer pockets · Zip-off hood · Zip-through collar · Longer parka length · Adjustable cuffs · External storm flap · Browning AllTerrain camouflage pattern · Sizes: S-2XL

HIGHLANDS II — THE BEST GETS BETTER.

The insulating advantages of wool in cold, wet weather are well known. For time-proven performance combined with today’s technology, look to Browning’s Highlands II wool. Highlands II offers additional versatility by taking a wool blend and adding a soft tricot lining for extra warmth and comfort, without the itch usually associated with wool. These versatile products are also machine washable. 11 oz. wool blend makes up the parka and bib, offering the same rugged performance in cold weather. The shirt and pant feature lighter weight 7 oz. wool blend to increase their versatility in warmer temperatures and as layering pieces. There is no substitute for the performance of Highlands II wool.

HIGHLANDS II PARKA

Durable, quiet and breathable 11 oz. wool blend outer · Soft tricot lining · Washable · Two upper zippered slash pockets · Two lower bellows pockets with snap closures · Two hand warmer pockets · Zip-off hood · Zip-through collar · Longer parka length · Adjustable cuffs · External storm flap · Browning AllTerrain camouflage pattern · Sizes: S-2XL

WASATCH — RUGGED COMFORT.

Wasatch Fieldwear is much more than just another line of camo clothing. Multiple pockets, a loose cut for freedom of movement and a durable cotton-rich fabric that breathes freely are notable additions that break Wasatch out of the crowd. Wasatch Fieldwear is a value-packed addition to your gear collection.

WASATCH SHIRT

7 oz., 55% cotton, 45% polyester twill fabric · Seven-button front with long tails · Action back · REACTAR™ pad pocket behind right shoulder (pad sold separately) · Button-down collar · Double-needle side seam construction · Mossy Oak® camo patterns · Adjustable button cuffs and longer sleeve plackets for easier roll-up · Sizes: S-3XL

For 2011, OdorSmart™ anti-microbial treatment is available in a Wasatch shirt and pant. OdorSmart helps control human odors to give you the edge on the keen noses of wary game. Wasatch Chamois is so soft, breathable and quiet, it will be the first thing you reach for when you hunt. But don’t be fooled by the comfort it provides, the 9 oz. cotton chamois fabric is rugged and more than capable of handling the use and abuse that you can dish out.
WASATCH — RUGGED COMFORT FOR ALL.

Wasatch Fieldwear is the most comfortable, best-built camo clothing available. For 2011, it’s available for the whole family. Now ladies and young hunters alike can enjoy the same rugged, easy-wearing Wasatch Fieldwear as men, complete with all the conveniences that make Wasatch Fieldwear better than the rest.

Without the conservation efforts of Pheasants Forever, millions of acres of prime pheasant habitat would be lost. Pheasants Forever chapters all over the United States work to protect, restore and enhance wildlife habitat by establishing and maintaining local and regional projects. From encouraging farmers to leave longer wheat stubble, to the purchase of upland habitat land, Pheasants Forever continues to work to preserve America’s favorite game bird. To become a member or volunteer, please call toll free (877) 773-2070. With every purchase of a Browning Pheasants Forever product, Browning proudly makes a contribution to this most worthy conservation organization.

BIRD’N LITE — WHERE TRADITION AND INNOVATION COME TOGETHER.

Upland hunters are immersed in tradition. It’s all about being afield with a good dog, a well-traveled Citori® and feeling the heft of shells and birds swinging in your favorite vest. Now’s the time to upgrade your upland gear and check out Browning’s new Bird’n Lite series. Bird’n Lite jackets and vests feature an integrated load-bearing system that lifts the load higher and balances it between your shoulders and hips for more comfort and stability, all without sacrificing the look of traditional upland hunting gear. With Bird’n Lite, you can carry more, with less effort, for far longer than you would ever have wanted to with your old hunting vest. Start a new tradition with Browning’s new Bird’n Lite jackets and vests.
BIRD’N LITE JACKET — YOU’LL NEVER GO AFIELD WITHOUT IT.

Now you can have the best of both worlds - a state-of-the-art load carrying system built right into a traditional looking jacket you’ll be proud to wear afield. Bird’n Lite jackets lift your load higher and let you select the ideal balance point between your shoulders and hips for both comfort and stability. The blaze orange shoulder and sleeve overlays let other hunters know exactly where you are, while the traditional khaki body helps hide the smudges and scuffs that are part of every upland hunt. The blood proof game bag is easy to access, and there are pockets galore for every item you might want to take into the field. When you’re ready to load up and move out on your next upland hunt, you’re ready for a Browning Bird’n Lite jacket.

BROWNING BIRD’N LITE JACKET

Browning Bird’n Lite Technology weight distribution system secures your load · Rugged, lightweight cotton/polyester shell fabric · Blaze shoulder overlays · Front-loading blood proof game bag with zip-top opening and load stabilizing strap · Oversized shell pockets with internal shell loops and snap closures · Built-in rucksack with elastic top and buckle strap closure · Zipper front · Transmitter pocket with antenna loop · REACTAR™ pad pockets behind each quilted shoulder patch (pad sold separately) · Lined handwarmer pockets behind shell pockets · Water bottle pockets · D-rings for accessories · Hook and loop adjustable elastic cuffs · Available with Pheasants Forever embroidery · Zip-through collar · License tab · Sizes: S-5XL

BIRD’N LITE VEST — THE FINEST FOR THE FIELD.

If covering miles of open ground laden with shells, birds, water, lunch, a jacket, training transmitters and all the sundry items you need in the field make you think you need a backpack instead of an upland vest, take a gander at the new Browning Bird’n Lite Strap Vest. This innovative vest utilizes the patented Bird’n Lite Technology load bearing system that secures and distributes the weight of heavy loads, making walking all those miles much more comfortable. Gone are the days of heavy, swinging game bags, picking wet feathers off of your water bottle and rubbing sore shoulders. Hitch up a Bird’n Lite Strap Vest and enjoy hunting all over hill and dale.

BROWNING BIRD’N LITE STRAP VEST

Browning Bird’n Lite Technology weight distribution system secures your load · Rugged, lightweight cotton/polyester shell fabric · Padded blaze shoulder straps · Front-loading blood proof game bag with load stabilizing strap · Oversized shell pockets with internal shell loops and snap closures · Built-in rucksack with elastic top · Adjustable belt · Lined handwarmer pockets behind shell pockets · Water bottle pockets · D-rings for accessories · Available with Pheasants Forever embroidery · License tab · M/L, XL/2XL

BIRD’N LITE VEST AND PANT — COMPLETE YOUR HUNTING OUTFIT.

Complete your ensemble with the Bird’n Lite Vest and Pant. The vest offers all the latest Bird’n Lite features in a comfortable, more traditionally-styled upland bird vest. The pants have a relaxed fit for all-day comfort and are constructed of rugged poly/cotton twill with brier-resistant nylon overlays front and back. A zipper fly and snap-button flaps on the rear pockets make them perfect pair of pants for upland game.

NEW
CLOTHING | PRAIRIELANDS UPLAND SHIRTS | POLO DOVE

UPLAND SHIRTS — COMFORTABLE FIT FOR DAY-LONG PERFORMANCE.

Countless hours in the field have yielded a lineup of shirts designed to take comfort and durability to the next level. Browning Upland shirts provide you with easy mobility and a bind-free fit when shouldering a shotgun and swinging on game. Of course, these shirts are also stylish and look great when worn at your range or club.

PRAIRIELANDS CANVAS OVERLAY SHIRT

100% cotton sandwashed canvas · Bi-swing action back for comfort and mobility · Flap-closure pleated chest pocket · 100% cotton Mossy Oak® camo overlays · REACTAR™ pad pocket (pad sold separately) · Antique brass logo snaps · Spread collar · Sizes: S-3XL

NEW REACTAR™ G2 PAD—NOW WITH IMPACT GEL™ FOR BETTER PERFORMANCE.

Shooting all day can take a heavy toll on your shoulder. Take the sting out of shooting with the REACTAR G2 pad. Our newest REACTAR G2 pad features a totally new, ultra-flexible recoil absorption material called Impact Gel™ that absorbs recoil forces better than any other pad on the market. Most amazingly, the REACTAR G2 pad with Impact Gel performs so well at a thickness of only 8mm, it won’t change your length of pull or affect your point of aim. To reap the benefits of greater comfort and less fatigue, try a new Made in the USA REACTAR G2 Pad today.

**REACTAR Pad G2 and Shooting Harness**

ReACTAR Shooting Pad: Browning’s exclusive REACTAR™ pad (Recoil Action Restor) absorbs recoil on the inside of vest, jacket or shirt without altering appearance or increasing length of pull.
- Uses patented, environmentally-friendly Impact Gel™ which reduces peak recoil
- Only 8 mm thick
- Lightweight
- Flexible to form to the body
- Dimensions: 3¾” W x 7” L

Harness: Updated for better fit
- Includes REACTAR pad
- Heavy-duty 500 denier Cordura®
- Reversible for use by right- or left-handed shooters
- Elastic strap with buckle size adjustment
- Sizes: One size fits most

“There is no better endurance test on shooting gear than an Argentina dove hunt. After 3,300 shells fired in just three short days, I found Browning’s new REACTAR Shirt really performs. It’s comfortable to wear, the pad is soft and molds right to your shoulder. The generous pad is oversized to cover a larger area on your shoulder so you are protected no matter where you shoulder your gun. The pad is thin enough that it doesn’t affect mounting the gun or the length of pull. Best of all, I had no bruising or soreness. It’s a must-have for anybody planning a full day of shooting, and it lives up to our motto, The Best There Is.” — Rafe Nielsen, Browning Product Manager
DUSTY MESH VESTS — STAY COOL.

When temperatures soar and the competition heats up, keep your cool in a new Browning Dusty Mesh Vest. Constructed from lightweight polyester mesh and cotton stonewash twill, the Dusty Mesh Vest lets air circulate over your torso to evaporate perspiration, making you more comfortable and helping keep your mind on the clays. Large front pockets hold your shells and the large rear pocket gives you a place to carry those valuable empties. REACTAR™ pad (pad not included) pockets sit behind both shoulders so you can enjoy added recoil control as another feature of your soon to be favorite shooting vest.

**DUSTY MESH VEST**

100% cotton, 10 oz. stonewash twill full-length shooting patches on right and left shoulders with sewn-in REACTAR™ pad pockets (pad sold separately) • 100% polyester mesh body for ventilation • Two-way front zipper • Bellows shell pockets • Side tab adjustments • Large back pocket for empties or other gear • Inside security pocket • Sizes: S-3XL

BALLISTIC INSULATED SHOOTING JACKET.
Stay ahead of your shooting competitors by dusting targets year-round in the Ballistic Shooting Jacket. The waterproof, windproof, breathable Pre-Vent® fabric keeps hardcore shooters dry and protected from the wind while the Thermolite® insulation adds warmth. Oversized shell pockets feature magnetic closures that hold the pocket flaps open or closed.

SAFETY BLAZE CAPS — A SMART CHOICE IN THE FIELD.
A little visibility goes a long way, and wearing a Blaze cap in the field is a good idea. When upland hunting, a Blaze cap helps communicate to your hunting partners where you are in a corn field or tall grass. When big game hunting, Blaze lets other hunters see you from hundreds of yards away. But don’t think for a second that a Blaze cap has to be boring. Browning offers several styles of Blaze caps that are both highly visible and look cool enough to wear to the mall and make it easier for your significant other to find you there, too.

- High-quality vinyl resists cracking and fading
- Easy to apply and remove
- Wide variety of colors and styles
- Three sizes
MATT HUGHES is a nine-time UFC® World Welterweight Champion and was inducted into the UFC Hall of Fame in 2010. Matt’s toughness and work ethic are legendary in the UFC, something he attributes to growing up on a farm in rural Illinois. Matt spent a good portion of his early years hunting and shooting — passions that have never left him. Matt is now the frontman for Browning’s Double Barrel Militia.

JOHNNY MEITZEN started shooting competitively in 1987 and is currently an NSCA Level III instructor. He has won a number of shooting titles including two-time NSCA Nationals Vet Champion and two-time NSCA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. Johnny is a die-hard Citori® man. His current model of choice is the Citori 625 Sporting.

DEEANN MASSEY was introduced to sporting clays shooting by her husband Jeff, who taught her to shoot in their backyard. She shot in her first tournament in the summer of 1996. In 1997, ten days before the Sporting Clays National Championship, she purchased her first 12 gauge Browning Gold. She used the Gold to tie for Ladies High Overall. Since then she has won two National Championships and has been a five-time runner-up. She has been on the 1st All American Team twelve times and Team USA seven times. She has also won the Michigan State Ladies Championship twelve times, the Zone Three Ladies Championship ten times and has numerous other wins in local and regional competition. She has been a member of the Browning Pro Staff Team for twelve years. DeeAnn currently shoots the Cynergy® over and under.

RICK CAMUGLIA is a long-time Browning shooter with multiple sporting clays titles, nearly all won with Browning autoloading shotguns. A short list of his victories includes multiple National and Regional FITASC Championships, nine-time New Mexico State Champion, two-time HOA Arizona State Champion and two-time HOA Colorado State Champion. He is also an eight-time NSCA All-American Team member. Rick prefers to shoot the new Maxus® autoloader.

ANDY DUFFY is the only shooter to win three NSCA National Championships with back-to-back wins in 1994 and 1995. He has been on the NSCA All American Team 17 times, Team USA 20 times and won more world, national and local sporting clays championship titles than he can shake a stick at. In 2005, he was honored by being inducted into the NSCA Hall-of-Fame. When Andy isn’t dusting clays with his Citori®, you will find him instructing others in the ways of shotgunning.

JOHNNY METZEN started shooting competitively in 1987 and is currently an NSCA Level III instructor. He has won a number of shooting titles including two-time NSCA Nationals Vet Champion and two-time NSCA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. Johnny is a die-hard Citori® man. His current model of choice is the Citori 625 Sporting.

When Zac Cooper was born, his parents decided that instead of giving up hunting for a while, they would adapt to new ways of hunting. And at four months of age, Zac was on a plane to Iowa for a whitetail hunt. He took his first two deer at age five, and hunting has since become a way of life for Zac. Now thirteen, Zac has gained national recognition for his speaking ability. He has been a guest speaker at such events as the 2009 QDMA National Convention, the University of Florida’s Field Day, the Sportsman’s Spectacular, and Florida’s National Field Day. Zac is also a leader in school, serving in student government while maintaining straight-A grades. Zac has two long-term goals: To be a positive influence on today’s youth and to help get them into the sport of hunting. See him in his debut hunting DVD titled “Little Man, Big Dreams.”

Robbie Purser started shooting skeet at the tender age of six. Over the years he has accumulated an impressive list of shooting titles including 1980 World Skeet Champion, 1991 and 1998 NSCA Champion, Zone 4 Champion, Quail Unlimited Champion, four-time Ducks Unlimited Champion, 2002 Sportsman Team Challenge Champion and an ESPN Great Outdoor Games gold medalist. He is also a twelve-time All-American Team member, a member of Team USA and a ten-time Georgia State Champion. All told, Robbie has more than 200 tournament wins to his credit — all with Browning autoloaders.

Fred Zink is the newest Browning Pro Staff member. Fred founded Zink Calls™ in 2001 primarily to fulfill the needs of waterfowlers and professional callers who demanded high-end calls. A nationally-recognized goose caller in his own right, Zink’s business continues to grow and set new standards in the call industry. Zink’s high-octane 24/7 DVD series is designed to speak to hunters with exciting footage that shares the hunting experience with the viewers. In 2011, look for Fred to be shooting the Browning Maxus™ as he continues his quest to bring new hunters into the sport and grow the outdoor industry.

Stephen Le Blanc is a man of many talents. He has a degree in wildlife biology, is a master taxidermist, an award-winning wildlife sculptor and an avid hunter. His impressive list of talents, coupled with an easy-going, personable demeanor made him the perfect candidate to host our new television program “Browning Expeditions.” His impressive hunting résumé includes a North American Grand Slam of sheep and the Africa Big Five that consists of elephant, white rhino, cape buffalo, lion and leopard.

Kristy Lee Cook brought her amazing voice to the TV screen on the 9th season of “American Idol™.” Now Kristy is a rising country music singer and hosts the Browning-sponsored TV show “Goin’ Country.” Kristy’s husband Andy introduced her to hunting and she has since become a fanatic. Kristy possesses an infectious passion for everything she does, whether it is performing, hunting or saving horses through the Kristy Lee Horse Heaven Foundation.

Brody Sikes is a rising star on the clay target scene, recently winning the 2010 North American Grand Prize FITASC event at Claythorne Lodge. Just 20 years old, Brody shoots a Browning Citori® for clay targets and a Silver® in the blind. A product of the popular SCTP development program, Brody and his Citori will be in the winner’s circle for years to come.
Now you can satisfy that urge to be a master Dutch oven chef. The Browning cast iron starter kit has everything you need to be a black pot professional. This kit is the perfect accessory for whatever you are cooking, at home or in the back country, and will help to make sure every meal is a masterpiece.

WWW.BROWNINGFISHING.COM
Browning has a rich tradition of providing exceptional products for the avid outdoorsman, and the Browning Camping line is no exception. Our furniture is wider and stronger, our pads and mats are thicker and more comfortable, and our tents and sleeping bags use larger zippers and better fabric. Along with all the other new and exciting products Browning Camping has to offer for 2011, we now have products designed specifically “for her.” Be sure to check out the Pink Browning items listed on our website.
POLARIS® AND BROWNING®, MASTERS OF THE HUNT.

Polaris offers hunt-ready machines with premium features worthy of the Browning name. To see the complete line of Browning Limited Edition Polaris ATVs and Side x Sides, visit BrowningOffRoad.com.
BE A SAFE SHOOTER: Read and follow all safety information in the owner’s manual provided with each firearm before using the firearm. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible, however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.

BROWNING IS COMMITTED TO SERVING YOU! Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice. If you have any questions regarding Browning products, please write to Browning, One Browning Place, Morgan, UT 84050-9326.
