Hunters were first introduced to the Browning Buckmark in the 1978 Centennial Catalog. Back then, we had no idea that this graphic representation of a whitetail deer would come to epitomize not just a great brand, but so much more.

The Browning Buckmark is easily the most recognizable logo in the hunting and shooting industry. Naturally, you’ll find it on Browning products like guns and hats, but it’s also commonplace to see a Buckmark proudly displayed on the window of a vehicle. There are also Browning loyalists that have a tattoo of the Buckmark permanently inked into their skin. From our perspective, if individuals want to wear our logo for life, then it must be pretty special.

We believe that over the years the Buckmark has taken on a life of its own and grown into more than just the symbol of a great brand — it has come to represent a lifestyle. No longer does it solely represent The Best There Is in guns, technical clothing, safes and outdoor gear; today the Buckmark stands on its own for hunting, shooting, good times, fond memories, the great outdoors, family and freedom. Welcome to 2018.

GAME-CHANGING SHOTGUN TECHNOLOGY

With its introduction in 1903, John M. Browning’s Auto-5 shotgun put all other firearm manufacturers on notice that nothing in this business would ever be the same. While the Auto-5 ranks among his greatest inventions, John Browning developed many other shotgun designs — including over and unders, pump-actions and lever-actions — because he knew something better was always around the corner. His ingenuity and constant push for improvement kept his work at the forefront of the industry.

Today, Browning engineers continue to advance technology to new heights both with new shotguns and by improving performance in other areas. Whether we are combining metals to make a strong, lightweight over and under or developing a new kick-taming recoil pad or tweaking bore dimensions to optimize shot pattern performance, Browning leads the way in changing the game.

FEATHER TECHNOLOGY

• Browning Feather technology significantly reduces the weight of an over and under shotgun, by about one pound, using a high quality alloy for the receiver rather than steel.
• Steel components are added to high wear areas, ensuring durability.

STEEL BREECH FACE

• A steel breech face is dovetailed into the alloy receiver.

STEEL HINGE PIN

• The full-width, steel hinge pin provides maximum strength and endurance.

INPLEX TECHNOLOGY RECOIL PAD

• Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
• The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

FLOATING RIB

• The floating rib allows the rib and barrel to expand at different rates and move independently of each other.
• Prevents point of impact shifts caused by the barrel heating.

MICRO AND MICRO MIDAS FIREARMS

• Micro and Micro Midas firearms are specifically designed to give younger or smaller shooters a high quality, great fitting firearm.
• Micro and Micro Midas firearms are constructed with the same quality components and attention to detail as all Browning firearms.
• Visit browning.com for complete details.

BROWNING GROWTH INSURANCE PROGRAM

• Micro and Micro Midas models are eligible for the Growth Insurance Program that allows new owners to purchase a full-size stock at 50% off the retail price.
• Growth Insurance allows Micro and Micro Midas firearms to grow with the shooter to offer a higher rate of return on your firearm investment.
TOTAL BARREL DYNAMICS

Total Barrel Dynamics is a system of technologies that function together to reduce shot deformation and improve pattern consistency and performance. Each component of Total Barrel Dynamics plays a part in keeping shot patterns whole and pellets on your target. To ignore any single part of the system weakens performance. Look for Total Barrel Dynamics on A5, Maxus, BT-99 and 12 and 20 gauge Citori and Cynergy models.

VECTOR PRO LENGTHENED FORCING CONE

- The forcing cone is the tapered transition between the chamber and the bore that constricts the shot column. The longer the forcing cone is, the more gradual the constriction. Vector Pro is better than the competitors’ forcing cone designs because it has a more gradual constriction.
- The Vector Pro forcing cone reduces stress on the shot column as it moves into the bore, reducing pellet deformation for more uniform patterns and more pellets in the center of the pattern.
- Lengthening forcing cones is a popular and expensive aftermarket practice done to increase shot pattern performance but it comes standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori and Cynergy models.

BACK-BORED TECHNOLOGY

- Back-boring enlarges the bore to the maximum diameter to increase shot velocity and minimize pellet deformity for more uniform patterns and a reduction in felt recoil.
- Extensive testing has shown that Back-Bored Technology reduces the friction between the shot cup and the bore, but does not allow gases to slip past the shot cup that would result in reduced pellet velocity and blown patterns.
- Back-Bored Technology specifications minimize shot deformation and maximize pattern uniformity, consistency and density. Back-Bored Technology is standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori, Cynergy, BPS and Silver models.

INVECTOR-DS

- “DS” stands for double-seal, our proprietary differential-banded brass seal. It compresses against the barrel wall to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- Muzzle threads minimize the flare at the end of the barrel for improved shotgun appearance. A slightly lighter overall barrel weight is achieved for faster swinging and improved balance.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard-hitting performance.
- Invector-DS is standard on A5 and Citori 725 models.
- View the full line of Invector-DS choke tubes on pages 179, 181 and 182.

INVECTOR-PLUS

- Invector-Plus started the long choke tube revolution. An ever-growing collection of world, national and local championships is proof of its patterning performance.
- The Invector-Plus choke tube system works with Vector Pro and Back-Bored Technology to offer consistent, dense shot patterns with the constriction needed depending on the shooting situation.
- The long choke taper inside an Invector-Plus choke tube produces consistent patterns with more uniform densities and fewer flyers.
- Threads on the breech end help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- View the full line of Invector-Plus choke tubes on pages 180 through 182.

STANDARD INVECTOR

- The Standard Invector Interchangeable Choke Tube System offers consistent, dense shot patterns with the right constriction needed for the shooting situation.
- Threads on the breech end help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Standard Invector is standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- See pages 179 through 182 for our complete line of choke tubes.
THE BROWNING HIGH GRADE PROGRAM GOES AFIELD.
Finely-crafted and exquisitely appointed over and under shotguns shouldn’t be limited to just the shooting range. This Browning High Grade Citori 725 Field Grade VI shotgun exudes class and workmanship — from the detailed and gold enhanced receiver engraving to the expertly fitted wood. Its beauty runs more than skin deep. These models share the same long-wearing action and mechanical trigger design of the proven Citori 725 line, ensuring the gun you order today will be a valued part of your collection for years to come.

ROBBIE PURSER
Robbie Purser is a shooting legend and a force to be reckoned with on the skeet and sporting clays circuits. In addition to winning more than 200 tournaments during his career, he also holds a World Championship in skeet. Read more about Robbie on page 305.
CITORI 725 FIELD GRADE VI
(12 GAUGE, 28 INCH MODEL SHOWN)

RECEIVER • Steel • Low-profile (12 gauge) • Silver nitride finish • Gold accented engraving
BARREL • Ventilated top rib
ACTION • Fire Lite Mechanical trigger system
• Hammer ejectors • Top-tang barrel selector/safety
STOCK • Gloss oil finish Grade V/VI walnut with close radius pistol grip • Inflex recoil pad
FEATURES • Vector Pro lengthened forcing cones • Three Invector-DS choke tubes • Ivory front and mid-bead sights

IDEAL USAGE • Hunting/Sporting Clays

FEATURES AND BENEFITS

LOW PROFILE RECEIVER
- Improved recoil control and less muzzle jump are two of the biggest benefits of a low profile receiver. There is also the “one with the gun” feeling that makes the Citori 725 feel like an extension of your body.
- Places the front hand closer to the bore line for superior hand-eye coordination and pointability.

TRIPLE TRIGGER SYSTEM
- The Triple Trigger System fine tunes finger-to-trigger reach on target models.
- Includes three trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

PRO FIT ADJUSTABLE COMB
- The Browning Pro Fit Adjustable Comb makes it easy to find the perfect comb position.
- Pro Fit offers single bolt adjustment for both cast and drop. The revised design allows the stock to be professionally fit for shorter length of pull.
- Easy to read markings allow the shotgun to be dialed-in and easily replicated should the comb be removed.

PRO BALANCE SYSTEM
- The Pro Balance System allows you to fine-tune the balance point for a perfect mount and swing.
- Adding weights to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil.
- Stock weights reduce muzzle jump for more accurate follow-up shots and allow a smoother follow through.
- Pro Balance weights are easy to install.

PALM SWELL
- Aids in control.
- Optimizes finger-to-trigger placement.
- Provides a comfortable, secure grip.

FLOATING RIB
- The floating rib allows the rib and barrel to expand at different rates.
- Prevents changes to point of impact due to barrel heating.

INVECTOR-DS CHOKE TUBE SYSTEM
- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard hitting performance.
- The “DS” stands for double-seal. Our proprietary differential-banded brass seal compresses against the barrel wall to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.

ABS CASE (INCLUDED)
- The sturdy, lockable ABS case is perfect for storage and transportation.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

LESS IS MORE.
The Citori 725 is proof that often less can be more. The lighter, lower-profile receiver retains the features that give the Citori its reputation for toughness and reliability, and adds benefits designed to make you “one with the gun” by improving recoil control, balance and swing. The mechanical Fire Lite Mechanical Trigger makes the Citori 725 further stand out from the pack.

FEATURES AND BENEFITS

TRIPLE TRIGGER SYSTEM
- The Triple Trigger System fine tunes finger-to-trigger reach on target models.
- Includes three trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

FIRE LITE MECHANICAL TRIGGER
- Exclusive mechanical trigger design.
- Unlike an inertia trigger, Fire Lite does not rely on recoil to set the next shot; instead, it offers immediate second shot capability.
- Features less take-up, a crisp break and shorter overtravel.

ERGO BALANCED
- Incredibly balanced in the hands from pad to muzzle.
- Facilitates a light feel and fast swing.
- Promotes follow through.

HIGH RIB
- Offers increased visibility — the barrels don’t cover up the target.
- Improved cooling helps prevent heat waves from distorting visibility.

FLOATING RIB
- The floating rib allows the rib and barrel to expand at different rates to eliminate stress.
- Prevents changes to point of impact due to barrel heating and the rib staying cool.

TAPERED LOCKING BOLT
- Unlike other low-profile over and unders, the Citori 725 features a transverse-mounted, full-width tapered locking bolt and full-width hinge pin just like other Citori models for maximum strength and longevity.
- The locking bolt engages a full-width tapered recess in the monoblock. Tapering the bolt and recess allows the bolt to seat deeper over time, accommodating for wear.

FULL-WIDTH HINGE PIN
- The Citori 725’s full-width hinge pin provides maximum strength and long-lasting endurance.

COMPETING TRUNNION DESIGNS
- Competitors’ trunnions provide only a fraction of the bearing surface that the Citori 725’s full-width hinge pin provides.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
## RECEIVER
- Steel • Low-profile (12 gauge) • Silver nitride finish • Gold accented engraving

## BARREL
- Ventilated top and side ribs • Ported • Low or high post floating top rib

## ACTION
- Fire Lite Mechanical trigger system • Hammer ejectors • Top-tang barrel selector/safety

## STOCK
- Gloss oil finish Grade III/IV walnut with close radius pistol grip and palm swell • Available with adjustable comb • Inflex recoil pad

## FEATURES
- Vector Pro lengthened forcing cones • Five extended choke tubes included (Invector-DS with 12 and 20, Standard Invector with 28 and .410) • Triple Trigger System • HiViz® Pro-Comp sight and ivory mid-bead

## IDEAL USAGE
- Sporting Clays/Skeet

FEATURES AND BENEFITS

TRIPLE TRIGGER SYSTEM

Citori target shotguns come equipped with the Triple Trigger System, which fine tunes finger-to-trigger length of pull. Choose a wide checkered, narrow smooth or wide smooth canted trigger shoe.

LOCKING BOLT AND HINGE PIN

The Citori features a heavy-duty, transverse-mounted, full-width tapered locking bolt that engages a full-width tapered recess in the rear barrel lugs. Tapering the bolt and recess allows the bolt to seat deeper, accommodating for wear. The hinge pin extends across the width of the receiver for maximum strength. Engineering like this ensures the Citori wears in, not out.

HAMMERS AND HAMMER EJECTORS

For positive primer ignition, Citori hammers are driven by powerful coil mainsprings. The convenient barrel selector allows you to choose which barrel fires on the first pull of the single trigger, and the second pull fires the remaining barrel. Ejectors are fired by a sharp hammer blow for more positive ejection than the push imparted by competitors’ ejectors. The automatic ejectors eject fired hulls when the breech is opened and elevate unfired shells for easy removal.

POINT OF IMPACT

A big part of what makes Citori shotguns so versatile is the available points of impact (POI). CXS models feature a 50/50 POI that is preferred when a target presentation can come from anywhere, like a clay target soaring above you or a pheasant erupting from the brush. CXT models feature a 70/30 POI that is more suited to trap, where targets rise. The higher POI allows the target to be visible when the trigger is pulled.

BACK-BORED TECHNOLOGY

For increased durability and corrosion resistance, all Citori shotguns have hard chrome-plated chambers to resist the toll that thousands of shells can take on lesser quality guns.

TOTAL BARREL DYNAMICS

The strength of Browning barrels is legendary, and they are built to handle the punishment of steel shot. Unlike some manufacturers’ barrels that show pitting after shooting steel, Browning pioneered construction that maximizes steel shot performance and barrel durability.

Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, reamed and honed to exacting specifications.

VECTOR PRO™

VECTOR PRO LENGTHENED FORCING CONES ON 12 AND 20 GAUGE CITORI SHOTGUNS

Browning was the first manufacturer to recognize the performance advantages of a back-bored barrel and to make it a standard feature on shotguns. Longer, tapered Vector Pro forcing cone dimensions minimize shot deformation and maximize pattern uniformity, consistency and density. Back-boring increases bore diameter specifications and decreases friction between the shot cup and the bore to maximize shot pellet velocity and to reduce felt recoil. Reducing constriction from the forcing cone on the shot column results in fewer deformed pellets for more uniform patterns, and keeps more pellets in the central part of the pattern where they’re needed to bag more upland birds, waterfowl and clay targets.

Browning back-bore specifications represent the ideal bore dimensions. A larger bore diameter can let gases slip by the shot cup, resulting in both reduced pellet velocity and blown patterns. A smaller bore diameter means the forcing cone can deform pellets, leading to flyers and poor ballistic performance.

INVECTOR CHOKE TUBE SYSTEMS

The proven Invector-Plus interchangeable choke tube system is featured on every 12 and 20 gauge Citori shotgun and provides consistent, dense shot patterns in the constriction needed for a specific shooting situation. The longer choke taper inside an Invector-Plus choke tube works with back-bored barrels and Vector Pro lengthened forcing cones to produce dense patterns with uniform densities and fewer flyers. The superior designs of the Invector systems are far more durable than the choke systems found in competitors’ guns, especially when shooting steel shot loads. The Invector systems eliminate gases slipping between the choke tube and barrel that could damage both the choke tube and the barrel. See pages 179 to 183 for our complete line of choke tubes and wrenches.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

CROSSOVER VERSATILITY.

For most of us, owning one over and under shotgun — or even just one shotgun — is our reality. When looking for your next shotgun, put a focus on versatility and pick up a gun that will allow you to shoot your best trap, sporting clays, pheasants and even ducks. Cynergy CX models combine a 60/40 point of impact (POI), a low-profile receiver for recoil control and a light, nimble feel to succeed both on the range and in the field.

FEATURES AND BENEFITS

REVERSE STRIKER MECHANICAL TRIGGER
- The Reverse Striker is a striker-based, mechanical trigger system that does not use the inertia from recoil to set the hammers.
- Reverse Striker offers the benefits of a crisp feel, reduced locktime and less overtravel than other over and under shotguns.
- Because inertia is not needed for the hammers to set, the design eliminates the possibility of the second barrel not firing.
- Cynergy target models are equipped with the Triple Trigger System, allowing finger-to-trigger length adjustment and the ability to switch between styles of trigger shoes: Wide checkered, narrow smooth or wide smooth canted.

MONOLOCK HINGE
- The strong MonoLock Hinge design is the engineering behind the Cynergy’s low profile receiver.
- Integrates the monobloc and the hinge for up to 300% more surface area to pivot on than traditional trunnion-style hinges.
- Rectangular locking pins provide extra strength and feature a “Wear-In Relief” that keeps the action tight.

ADJUSTABLE COMB
- Composite models include an adjustable comb system that allows the fit of the gun to be customized.
- Drop at comb adjustments are made in 1/8” increments.
- For cast on/cast off customizing, we offer accessory combs that are shown below.

SUPERIOR GRIPPING SURFACES
- Composite Cynergy models feature molded-in rubberized gripping surfaces for a secure hold in every situation.

CHROME CHAMBERS
- Cynergy shotguns feature hard chrome-plated chambers.
- Increased durability and corrosion resistance.

IMPACT EJECTORS
- Impact Ejectors are aided by the punch of a secondary striker spring for positive, reliable ejection of fired hulls from the chambers.
- Unfired shells are elevated for easy removal.

POINT OF IMPACT
- A big part of what makes the Cynergy CX guns so versatile is the 60/40 point of impact (POI).
- The slight upward bias of the 60/40 POI makes for an excellent general use shotgun that is equally capable both in the field and on the range.
- The higher bias makes rising targets, as encountered in trap, easier to hit.

SPECIALIZED SPECIMENS.

The Cynergy platform lends itself to every sort of shotgun sport. Even a turkey gun? Absolutely. The low profile receiver and long travel Inflex recoil pad helps soak up the hit of 3-1/2" shells for an accurate second shot. For trap, again the receiver is the star. The rugged MonoLock Hinge is engineered to keep you shooting long after other shotguns have been sent back to the factory.

C CYNERGY COMPOSITE ULTIMATE TURKEY, MOSSY OAK® BREAK-UP COUNTRY®

RECEIVER Steel • Mossy Oak® Break-Up Country® camo finish • Ultra-low profile BARREL Lightweight profile • Ventilated top and side ribs • Mossy Oak Break-Up Country camo finish ACTION Reverse Striker ignition system • Impact Ejectors • Top-tang barrel selector/safety STOCK Composite with black rubber overmolding in grip areas • Mossy Oak Break-Up Country camo finish • Adjustable comb FEATURES Vector Pro lengthened forcing cones • Five Invector-Plus choke tubes (Extended Ultimate Full Turkey, Spreader and flush fit F, M, IC) • Inflex recoil pad • 1/4" stock spacer • Marble Arms® Bullseye rear sight • Fiber-optic front sight • Short Picatinny rail to mount red dot optics IDEAL USAGE Turkey/Hunting

Weaver DYNAMICS • INVECTOR-Plus • INVECTOR-Plus

Measurements in inches, pounds, ounces, etc.
FEATURES AND BENEFITS

FOREARM • A beavertail forearm helps control recoil and assists hand-eye coordination.

FLOATING RIB • The floating rib allows the rib and barrel to expand at different rates and move independently of each other.
• Prevents point of impact shifts caused by the barrel heating.

CHROME CHAMBER • The chrome-plated chamber resists wear and corrosion.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

THE TRAP RANGE STANDARD.
Decades of shooters of every ability have put their faith in the mighty Browning BT-99. The single barrel can be had in a variety of lengths to keep the weight manageable for smaller shooters or to allow a proper swing through the target. With a stunning record of reliability and durability, there is a BT-99 shotgun with the features needed to help you excel.

BUILDING ON THE LEGEND.
John M. Browning had many wildly successful firearms. The original Browning Auto-5 is arguably the greatest among his shotgun offerings. In homage to this legendary design, we bring you the A5. This modern take on the classic shares the name and humpback receiver profile made so famous by that original autoloader.

FEATURES AND BENEFITS

KINEMATIC DRIVE SYSTEM
- Kinetic energy is defined as the energy of motion.
- The A5 uses kinetic energy to power the recoil-operated Kinematic Drive System.
- Simplicity of design for consistent, reliable function with any load and under the full extremes of weather, temperature, moisture and grime.
- Kinematic Drive is so reliable that the A5 is the first ever autoloading shotgun to carry a 100,000 round or five-year guarantee.
- Clean operation because gases are sent out the barrel and away from the action.
- Extreme load versatility for reliable performance with virtually all loads down to one ounce field with no adjustments.

ERGO BALANCED
- Balances in the hands from pad to muzzle.
- Facilitates a light feel and fast swing.
- Promotes smoother follow through.
- Places front hand closer to the bore line for superior hand-eye coordination and pointability.

RECEIVER
- The Humpback Acquisition Advantage extends the sight plane for faster, more natural sight alignment.
- Speeds target acquisition.

TURNKEY MAGAZINE PLUG
- The patented TurnKey Magazine Plug is easily removed in seconds using just a car key.

SPEED LOAD PLUS
- Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

ERGONOMIC BOLT LATCH
- Conveniently located just ahead of the trigger guard.
- Locks the bolt to the rear when the magazine is unloaded and releases a shell from the magazine when the bolt is closed for faster loading.
- Oversized shape makes the bolt latch easy to locate and operate with or without gloves.

ABS CASE (INCLUDED)
- Sturdy, lockable ABS case is perfect for storing and transporting the A5.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
RECEIVER: Strong, lightweight aluminum alloy • Ceramic Burnt Bronze camo finish
BARREL: Lightweight profile • Flat, ventilated rib • Fully chromed bore for corrosion resistance
ACTION: 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive
STOCK: Composite with close radius pistol grip • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® Shadow Grass Blades camo finish • 1/4” and 1/2” stock spacers for length of pull adjustment
FEATURES: Vector Pro lengthened forcing cone • Three extended Invector-DS Banded choke tubes • Briley® oversize bolt release • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case

IDEAL USAGE: Hunting

Fred Zink is the man behind Zink Calls, a successful hunting DVD series and the popular TV program, Avian-X. This exciting show brings viewers along on waterfowl and turkey hunts across North America. Read more about Fred on page 303.
ALL WEATHER, ANYTIME.
With a synthetic forearm and stock and ultra-reliable Kinematic Drive recoil-operation, these A5 models are ready for whatever you, and nature, can throw at them.

Tommy Thacker is ranked among the best 3-Gun competitors in the USA. With back-to-back championships in the 3-Gun Nation Pro Series in 2011 and 2012, Tommy has his pick of autoloaded shotguns from any manufacturer. He chooses the Browning A5. Read more about Tommy on page 306.
### A5, MOSSY OAK® SHADOW GRASS BLADES
(26 INCH MODEL SHOWN)

- **Receiver**: Strong, lightweight aluminum alloy
- **Barrel**: Lightweight profile • Flat, ventilated rib
- **Action**: 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive
- **Stock**: Composite with close radius pistol grip • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® camo finishes or Matte Black • 1/4” and 1/2” stock spacers for length of pull adjustment
- **Features**: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case

### A5, MOSSY OAK® BREAK-UP COUNTRY
(30 INCH MODEL SHOWN)

- **Receiver**: Strong, lightweight aluminum alloy
- **Barrel**: Lightweight profile • Flat, ventilated rib
- **Action**: 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive
- **Stock**: Composite with close radius pistol grip • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® camo finishes or Matte Black • 1/4” and 1/2” stock spacers for length of pull adjustment
- **Features**: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case

### A5 STALKER
(26 INCH MODEL SHOWN)

- **Receiver**: Strong, lightweight aluminum alloy
- **Barrel**: Lightweight profile • Flat, ventilated rib
- **Action**: 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive
- **Stock**: Composite with close radius pistol grip • Textured gripping surfaces • Shim adjustable for length of pull, cast and drop • Mossy Oak® camo finishes or Matte Black • 1/4” and 1/2” stock spacers for length of pull adjustment
- **Features**: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case

Measurements in inches, pounds, ounces, etc.
Chambered for classic 16 gauge ammunition, the A5 Sweet Sixteen is the ultimate upland autoloader. The Sweet Sixteen is built on a smaller, lighter receiver than 12 gauge models to reduce weight and provide a sleeker, more nimble feel that gets the gun to your shoulder faster to match the speed of rising birds.

**UPGRADE YOUR UPLAND HUNT.**

**A5 SWEET SIXTEEN**

(28 INCH MODEL SHOWN)

**RECEIVER**
- Strong, lightweight aluminum alloy
- Black anodized bi-tone finish
- Flat, ventilated rib
- Gloss finish walnut with close radius pistol grip
- Sharp 18 lines-per-inch checkering
- Shim adjustable for length of pull, cast and drop
- 1/4" and 1/2" stock spacers for length of pull adjustment

** Barrett**
- Lightweight profile
- Flat, ventilated rib
- Invector-DS choke tubes
- Inflex recoil pad
- Fiber-optic front sight

IDEAL USAGE: Hunting/Sporting Clays

**FEATURES**
- Vector Pro lengthened forcing cone
- Three Invector-DS choke tubes
- Ivory mid-bead sight
- Includes ABS case

**MSRP**
- A SWEET 16: 0118005004, 1,699.99
- A SWEET 16: 0118005005, 1,699.99

**Measurements in inches, pounds, ounces, etc.**
B: A5 HIGH GRADE HUNTER
RECEIVER: Strong, lightweight aluminum alloy • Gloss black • Engraving pattern depicts pheasants on the left side and mallards on the right side, all surrounded by intricate scrollwork
BARREL: Lightweight profile • Flat, ventilated rib • Gloss blued finish ACTION 3” chamber • Recoil-operated Kinematic Drive
STOCK: Grade 2.5 gloss varnish finish walnut with close radius pistol grip • Sharp 18 lines-per-inch checkering • Shim adjustable for length of pull, cast and drop • 1/4” and 1/2” stock spacers for length of pull adjustment
FEATURES: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight
• Ivory mid-bead sight • Includes ABS case
IDEAL USAGE: Hunting/Sporting Clays

C: A5 HUNTER
RECEIVER: Strong, lightweight aluminum alloy • Satin finish with brushed accents • Engraving pattern depicts pheasants on the left side and mallards on the right side, all surrounded by intricate scrollwork
BARREL: Lightweight profile • Flat, ventilated rib ACTION 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive STOCK: Gloss finish walnut with close radius pistol grip • Sharp 18 lines-per-inch checkering • Shim adjustable for length of pull, cast and drop • 1/4” and 1/2” stock spacers for length of pull adjustment
FEATURES: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case
IDEAL USAGE: Hunting/Sporting Clays

D: A5 ULTIMATE
RECEIVER: Strong, lightweight aluminum alloy • Black anodized bi-tone finish • Engraving pattern depicts pheasants on the left side and mallards on the right side, all surrounded by intricate scrollwork
BARREL: Lightweight profile • Flat, ventilated rib ACTION 3” and 3-1/2” chamber models • Recoil-operated Kinematic Drive STOCK: Grade III gloss oil finish walnut with close radius pistol grip • Sharp 22 lines-per-inch checkering • Shim adjustable for length of pull, cast and drop • 1/4” and 1/2” stock spacers for length of pull adjustment
FEATURES: Vector Pro lengthened forcing cone • Three Invector-DS choke tubes • Inflex recoil pad • Fiber-optic front sight • Ivory mid-bead sight • Includes ABS case
IDEAL USAGE: Hunting/Sporting Clays
MAXUS®
SHOTGUNS

RELIABILITY COMES FIRST.
From its inception, the Maxus was designed for one thing: Maximum reliability. That it also ended up being super-fast cycling and incredibly soft shooting are bonuses. An incredibly versatile shotgun, the Maxus excels in all shooting disciplines from the range to the marsh to the field.

FEATURES AND BENEFITS

POWER DRIVE GAS SYSTEM
- Extensive research has produced the most reliable gas piston design ever.
- The gas piston features oversized exhaust ports that dump gases faster with heavy loads to reduce recoil.
- 20% longer piston stroke travel increases reliability with light loads.
- An enclosed seal keeps residue out of the action for cleaner operation.

LIGHTNING TRIGGER
- The Lightning Trigger is the finest fire control system ever offered in an autoloading shotgun.
- Offers a smooth, crisp feel with minimal travel.
- Lock times average .0052 seconds, 24% faster than the nearest competing autoloader.
- Easy to remove for cleaning.

INFLIX RECOIL PAD
- The Power Drive Gas System works with the Inflex Technology recoil pad.
- Reduces muzzle jump up to 44% compared to the competition.

THE SOFTEST SHOOTING AUTOLADER EVER
- Felt recoil is more than an instantaneous peak force; it is the total energy absorbing experience felt when a shell is fired.
- The Power Drive Gas System, Inflex Technology recoil pad, back-boring and natural Browning balance combine to transfer up to 18% less total felt recoil force to the shoulder than other autoloaders on the market.

TURNKEY MAGAZINE PLUG
- The patented TurnKey Magazine Plug is easily removed in seconds using a standard car key.

SPEED LOCK FOREARM
- The patented Speed Lock Forearm replaces the traditional screw-on magazine cap.
- Makes taking down the Maxus for cleaning or storage fast.
- Makes attaching or removing the sling a snap.

SPEED LOAD PLUS
- Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

MAGAZINE CUT-OFF
- The magazine cut-off (not available on Sporting models) allows the chamber to be unloaded to change loads without cycling a shell from the magazine.
- Useful when hunting different bird species and different loads are instantly required.

OPTIMAL DIMENSIONS
- The Maxus features a trim forearm and close radius pistol grip to maximize control.
- An externally relieved steel magazine tube reduces weight for a faster swing while retaining durability.
- Drop and cast can be tuned using the included stock shim kit.
- A low rib is in line with the top of the receiver and translates into dead-flat point of impact.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
A MAXUS ULTIMATE
(28 INCH MODEL SHOWN)

RECEIVER: Strong, lightweight aluminum alloy • Durable satin nickel finish • Laser engraving (pheasants on the right, mallards on the left) BARREL: Lightweight profile • Flattened, ventilated rib ACTION: Gas-operated auto-loader • 3” chamber • Power Drive Gas System reduces recoil and cycles a wide range of loads • Polished, engine-turned bolt finish STOCK: Gloss oil finish Grade III walnut with close radius pistol grip • Sharp 22 lines-per-inch checkering • Speed Lock Forearm • Shim adjustable for length of pull, cast and drop • Two 1/4” stock spacers for length of pull adjustment FEATURES: Vector Pro lengthened forcing cone • Three Invector-Plus choke tubes • Inflex recoil pad • Magazine Cut-Off • Steel front bead sight • Includes ABS case IDEAL USAGE: Hunting/Sporting Clays

Measurements in inches, pounds, ounces, etc.
MORE BANG FOR THE DOLLAR.

With a value-packed Silver shotgun you’ll get legendary Browning cycling speed, handling, pointability and reliability without sacrificing The Best There Is quality.

FEATURES AND BENEFITS

LESS RECOIL WITH THE ACTIVE VALVE GAS SYSTEM

- The self-adjusting Active Valve Gas System in Silver autoloaders diverts gases from fired shells to operate the action instead of adding to recoil.
- When shooting light loads, most of the gases operate the action.
- With magnum loads, only a small amount of gas is necessary to operate the action, while the remaining gases are vented out the top of the forearm and away from the receiver for cleaner, more reliable operation.
- Superior recoil reduction from the Active Valve means faster, more accurate follow-up shots and all-day shooting comfort regardless of the loads being fired.

MAXIMUM GRIP

- Composite Silver models feature checkered gripping surfaces for a sure hold and a sleek feel in all climate conditions.

TRIGGER

- The trigger assembly can be removed in just seconds for a thorough cleaning.
- The trigger guard is large and has carefully rounded edges to accommodate gloved fingers.

LOAD VERSATILITY

- The Active Valve gas piston efficiently adjusts to reliably fire a wide range of loads. The piston automatically vents less gas with light loads ensuring reliability and more gas with heavy loads to mitigate felt recoil.
- 12 gauge 3” models fire everything from light, 1 oz., 2-3/4” field loads to the heaviest 3” magnums. The 3-1/2” version is built to handle a similar range, from 1-1/8 oz., 2-3/4” field loads up to hard-hitting 3-1/2” magnum loads.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
A. SILVER FIELD COMPOSITE
RECEIVER Aluminum alloy • Semi-humpback design • Black/Charcoal bi-tone finish
BARREL Lightweight profile • Ventilated rib
ACTION Gas-operated autoloader
• 3-1/2" chamber • Active Valve System reliably cycles a wide range of loads
STOCK Composite • Gloss black finish
FEATURES Three Invector-Plus choke tubes • Brass front bead sight
IDEL USAGE Hunting/Sporting Clays

B. SILVER FIELD, MOSSY OAK SHADOW GRASS BLADES
RECEIVER Aluminum alloy • Semi-humpback design • Black/Charcoal bi-tone finish
BARREL Lightweight profile • Ventilated rib
ACTION Gas-operated autoloader
• 3-1/2" chamber • Active Valve System reliably cycles a wide range of loads
STOCK Composite • Mossy Oak® Shadow Grass Blades camo finish
FEATURES Three Invector-Plus choke tubes • Brass front bead sight
IDEL USAGE Hunting/Sporting Clays

C. SILVER BLACK LIGHTNING
RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Gloss black finish
BARREL Lightweight profile • Ventilated rib
ACTION Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads
STOCK Composite • Mossy Oak® Black Lightning-style, gloss finish Grade 2.5 Turkish walnut
FEATURES Three Invector-Plus choke tubes • Brass front bead sight
IDEL USAGE Hunting/Sporting Clays

D. SILVER FIELD MICRO MIDAS
RECEIVER Strong, lightweight aluminum alloy • Semi-humpback design • Silver/matte black bi-tone finish
BARREL Lightweight profile • Ventilated rib • Matte black finish
ACTION Gas-operated autoloader • 3" chamber • Active Valve System reliably cycles a wide range of loads
STOCK Composite • Satin finish walnut • Micro Midas comes with Inflex recoil pad and one 1/4" stock spacer
FEATURES Three Invector-Plus choke tubes • Brass front bead sight
IDEL USAGE Hunting/Sporting Clays

THROW DOWN WITH A BPS.

For 40 years the Browning BPS has been the pump shotgun shooters have trusted to go bang every time they pull the trigger — regardless of weather or temperature — and do it year after year after year. If you’re ready for the ultimate in reliability, put the steel framed BPS at the top of your shopping list.

FEATURES AND BENEFITS

BOTTOM EJECTION AND LOADING 1
- Unique bottom ejection throws empty hulls straight down, out of the line of sight.
- The BPS is the best pump shotgun choice for both right- and left-handed shooters.

RELIABLE PUMP-ACTION 2
- The proven pump-action features rugged steel components.
- The receiver is machined from a solid block of forged steel.
- Rigid double action bars are made from heat-treated steel to eliminate twisting and binding for faster, more efficient slide-action operation.
- Reliable in all conditions.
- A convenient serrated slide release is located at the rear of the trigger guard.

MAXIMUM GRIP 3
- Camo composite BPS models have in-molded checkered gripping surfaces for a sure hold.

TOP-TANG SAFETY 4
- The thumb-operated, top-tang safety on the BPS can easily be operated with the right or left-hand, even with gloves on.

MAGAZINE CAPACITY
- 2-3/4": Four in the magazine, one in the chamber.
- 3": Three in the magazine, one in the chamber.
- 3-1/2": Three in the magazine, one in the chamber.
- A three-shot magazine adaptor plug is included.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

THE SHOTGUN FOR EVERYONE.

With an easy to reach tang-mounted thumb safety and bottom loading and ejection, the BPS pump is an excellent choice for right- and left-handed shooters. Multiple configurations — including compact Micro Midas models — ensure there is a high quality BPS shotgun to meet your size and need.

NEW 2018

C BPS TRAP

D BPS MICRO TRAP
### BPS MICRO MIDAS

**Receiver** Forged and machined steel • High polish blued finish
**Barrel** Ventilated rib
**Action** Bottom ejection • Dual steel action bars • Top-tang safety
**Stock** Satin finish walnut
**Features** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector choke tubes with .410
• Inflex recoil pad on 12 gauge model • Silver colored front bead sight
**Ideal Usage** Hunting/Sporting Clays

### BPS TRAP

**Receiver** Engraved • Forged and machined steel • High polish blued finish
**Barrel** Ventilated rib
**Action** Bottom ejection • Dual steel action bars
**Stock** Satin finish walnut • Raised comb
**Features** Magazine cut-off • Three Invector-Plus choke tubes • HiViz® Pro-Comp fiber-optic sight • Mid-bead sight
**Ideal Usage** Trap

**Micro Trap is eligible for the Growth Insurance Program** See page 4 for details

### BPS FIELD

**Receiver** Forged and machined steel • Matte blued finish
**Barrel** Ventilated rib
**Action** Bottom ejection • Dual steel action bars • Top-tang safety
**Stock** Satin finish walnut
**Features** Three Invector-Plus choke tubes with 12 and 20 • Three Standard Invector choke tubes with .410
• Inflex recoil pad • Two 1/4” stock spacers • Silver colored front bead sight
**Ideal Usage** Hunting/Sporting Clays

### BPS MICRO TRAP

**Receiver** Forged and machined steel • Matte blued finish
**Barrel** Ventilated rib
**Action** Bottom ejection • Dual steel action bars
**Stock** Matte blued finish walnut
**Features** Three Invector-Plus choke tubes • HiViz® Pro-Comp fiber-optic sight • Mid-bead sight

Browning shotguns are renowned for their prowess at bringing down game birds of every kind. Their natural pointability, quality and reliability also make them the ideal foundation for a slug gun. Featuring a cantilever optics mount and a rifled barrel designed to optimize modern slug and sabot performance, these slug guns are ideal for deer, bear and boar.

**Silver Slug Shotguns**

EXTREME PRO-FORMANCE.

Every hunter wants to own a custom bolt-action rifle they can pack high into the clouds to make that once-in-a-lifetime shot. But the looks and performance of the new Browning X-Bolt Pro now give them a third option. Designed to fill the gap between custom and production rifles, the Pro starts as a proven X-Bolt stainless and is enhanced to reduce weight, improve accuracy and add weather resistance. Most notable is the exclusive Generation 2 carbon fiber stock that has been designed to offer unmatched stability and rigidity.
**Ergonomic Spiral Fluted Bolt Handle**

**Spiral Fluted Bolt Body**

</table>
With rifles, optics, range finders and ammunition now more precise and better than ever, taking varmints, big game and even hitting steel targets from longer distances has become more commonplace. The Hell’s Canyon Speed Long Range McMillan® rifle most notably includes the McMillan Game Scout stock. This stock features integrated aluminum pillars, a comfortable vertical pistol grip with thumb shelf and a stable medium width fore-end, making it the ideal platform for a long range hunting rifle.

**NEW 2018**

**FEATURES AND BENEFITS**

**FEATHER TRIGGER**
- For precise shooting there is absolutely no substitute for a crisp, predictable trigger.
- The X-Bolt’s three-lever Feather Trigger provides a clean, crisp pull with no take-up or creep and minimal overtravel.
- The trigger is screw adjustable from 3 to 5 lbs. and factory pre-set at approximately 3-1/2 to 4 lbs.
- An alloy trigger housing contains hard chromed steel components that are highly polished on all critical contact surfaces.

**X-LOCK SCOPE MOUNTING SYSTEM**
- X-Lock mounts feature a four screws-per-base design that replaces the traditional two screw system.
- Offers more accurate placement and more secure attachment to the receiver.

**FREE-FLOATING BARREL**
- Every X-Bolt action is individually bedded into the stock for a true free-floating barrel, not bedded using a master receiver like the competition.
- The barrel is free-floated by bedding the front and rear of the action to maintain barrel to stock spacing and consistent accuracy.
- The recessed muzzle crown helps protect the rifling from damage.
- Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.

**60° BOLT LIFT**
- Short 60° bolt lift is fast cycling and the hand easily clears the scope.
- The bolt is machined from solid steel bar stock for strength and custom rifle precision.
- Three locking lugs provide exceptional bolt strength.

**BOLT UNLOCK BUTTON**
- The bolt unlock button works in conjunction with the top-tang safety to provide an extra margin of safety when checking and unloading the chamber.
- Located on top of the bolt handle, the bolt unlock button allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- The convenient tang safety blocks the trigger sear and features a firing pin block for added security.

**ROTARY MAGAZINE**
- The unique rotary magazine is removable, durable, easy to load and feeds rounds from the center line, not off to the side like other rifles, for straight to the chamber feeds.
- Unique design holds U.S. patent numbers: 8,156,675; 8,484,875 and 8,745,912.

**TOP-TANG SAFETY**
- Top-tang safety is easy to reach with the thumb.

**RATE OF TWIST**
- Select X-Bolt Long Range models incorporate faster rates of twist to better stabilize heavier bullets.

**PERSONALIZED ENGRAVING**
- The bolt can be personalized with your name. Call (800) 333-3288.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**
X-BOLT HELL’S CANYON SPEED LONG RANGE MCMILLAN® (300 WSM SHOWN)

**PRODUCT**

(300 WIN. MAG. SHOWN)

B  X-BOLT HELL’S CANYON SPEED
(6.5 CREEDMOOR SHOWN)

HEAD FOR THE HILLS.
Browning Composite and Stainless Stalker models have been stalwarts of the rugged X-Bolt line, handily proving their mettle and accuracy in demanding hunting conditions. The tough new Hell’s Canyon models build on that proven performance with enhancements like a durable Cerakote Burnt Bronze finish, a removable muzzle brake, barrel fluting and high-tech A-TACS AU Camo® on a lightweight composite stock.

MICRO SIZE. MAXIMUM FEATURES.

Give younger and smaller shooters their best shot at success with a Browning X-Bolt Micro model. These fine guns are built with all the features of their full-size counterparts. In fact, the only difference with a Micro is the stock, which is shortened to a more manageable length of pull. Micro guns are eligible for the Growth Insurance program that allows the rifle to grow with the shooter.

NEW 2018

A Utah native, Chad Glauser knew that real adventure was to be had in Alaska. *Alaska Outdoors Television* chronicles his adventures as he hunts, cooks and shares the tips and tricks of hunting the Last Frontier. Read more about Chad on page 512.

Measurements in inches, pounds, ounces, etc.
Gloss finished, intricately checkered walnut has long been a Browning trademark and that signature feature carries on with the Browning White Gold Medallion models. Beneath the handsome pomp and polish, these high class X-Bolts feature a free-floated barrel and are bedded at the recoil lug and rear action screw to help ensure consistent accuracy.

STOCK Laminated gray satin varnish finish • Thumbhole grip • Monte Carlo cheekpiece • Checkered FEATURES

Measurements in inches, pounds, ounces, etc.
FEATURES AND BENEFITS

LARGE BOLT SURFACE 1
- The robust bolt offers additional rigidity.
- The bolt is machined from solid steel bar stock and machined internally to keep weight low.
- Three locking lugs provide exceptional bolt strength.
- Super smooth chrome bolt finish is great looking, quieter and offers smooth cycling.

INFLEX RECOIL PAD
- Inflex recoil pad softens recoil and allows faster, more accurate second shots.
- Internal structure is designed to pull the rifle down and away from the face to reduce felt recoil.

BOLT LOCK OVERRIDE BUTTON 2
- The bolt lock override button provides an additional margin of safety when checking and unloading the chamber.
- Located behind the bolt handle, the bolt lock override allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- The convenient tang safety blocks the trigger sear and sear.

DETACHABLE MAGAZINE 3
- Polymer and steel construction is lightweight and extra tough.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.

FREE-FLOATING BARREL
- Free-floating maintains barrel-to-stock spacing for consistent accuracy.
- Recessed muzzle crown helps protect the rifling from damage.
- Precision button-rifled barrel is triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.

60° BOLT LIFT 4
- Short 60° bolt lift is fast cycling, allowing the hand to easily clear the scope.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

---

Catch Chris Denham and Nate Simmons on Western Hunter TV. This exciting program is committed to teaching and entertaining viewers about the unique hunting opportunities available to those who seek trophies in the vast American West. From peaks in the Rockies to the arid desert lands of Arizona, follow along with this pair as they search the wilds for mule deer, elk, antelope and more. Learn more on page 302.
GET ON TARGET WITH THE AB3.

Now you can get legendary Browning rifle technology and accuracy, plus have plenty of cash left over for great optics. The AB3 is the newest bolt-action from Browning and shares many of the same features as the flagship X-Bolt. Most importantly, it retains the longevity and trusted reliability Browning is known for.

Measurements in inches, pounds, ounces, etc.
WORK IT.
You've never felt a lever-action like the BLR. The BLR is nimble and fast handling and you still get that satisfying lever action stroke. The BLR’s rack and pinion driven bolt offers silky smooth cycling and tight lock up.

FEATURES AND BENEFITS

RECEIVER
- Lightweight, sturdy machined aircraft-grade aluminum. Drilled and tapped to accept scope mounts.

ACTION
- Lightning fast, glass-smooth rack and pinion lever-action.
- Strong rotating head, multiple-lug breech bolt with a recessed bolt face and side ejection.

HAMMER
- The folding hammer provides an added measure of safety when the hammer is at half-cock.

- The fold-down hammer has four basic positions: Full-cock, half-cock, the folded hammer position, and the dropped, or fired position. The two positions at half-cock readily indicate the status of the rifle.

TAKEDOWN FEATURES
- BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store.
- The rifle is easily and quickly assembled by simply sliding the barrel half into the receiver half and locking them together with the flip of a lever. The lever mechanically engages a stout locking lug into a recess in the bottom of the receiver. The system is rugged, precise and blends easily into the styling of the rifle.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

Autoloading rifles are more popular now than ever before. While most of them fall out of the same mold, there’s still one that stands out from the crowd, offering a familiar appearance and reliable, magnum power — the Browning BAR. Available in a range of calibers and models, the soft-shooting, gas-operated BAR combines excellent accuracy with the sweet handling and handsome appearance of a Browning rifle.

**FEATURES AND BENEFITS**

**ACTION**
- The BAR is a gas-operated autoloader with a high-strength, multiple-lug rotating bolt that locks directly into the barrel.
- The seven-lug bolt and precise breech-to-chamber relationship gives the BAR exceptional accuracy and the strength to handle magnum loads.
- The strong and rigid action bar/inertia block link-up improves accuracy by reducing barrel vibration.
- The buffering system reduces wear and stress on the rifle’s mechanism.

**THE BOSS DEVICE**
- The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy.
- The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups. The BOSS device is available as an option on the BAR Mark II Safari.

**MAGAZINE**
- Detachable box magazine with a unique hinged floorplate allows the shooter to lower the floorplate, detach the empty magazine and snap in a full magazine in mere seconds.

**RECEIVER**
- The BAR Mark II Safari uses a blued one-piece ordnance steel receiver with scroll engraving.
- The BAR MK 3 is built on an aircraft-grade aluminum alloy receiver.
- All BAR rifles are drilled and tapped for scope mounts. The bolt release lever is incorporated into the receiver.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**
BAR MK 3

RECEIVER
- Aircraft-grade alloy
- Satin nickel finish
- High-relief engraving
- Drilled and tapped for scope mounts

BARREL
- Blued finish
- Hammer-forged

ACTION
- Gas-operated autoloader
- Multi-lug rotary bolt
- Detachable box magazine
- Composite trigger guard and floorplate
- Crossbolt safety

STOCK
- Oil finish Grade II walnut
- Checkered
- Shim adjustable for cast on/off and drop at comb

FEATURES
- Sling swivel studs installed
- Recoil pad

- Drop at Heel: 1-1/8

**Measurements:**
- Measurements in inches, pounds, ounces, etc.
The BOSS-CR accessory offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature. By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, non-ported BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed.

The BOSS-CR accessory is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS. GLOSS BLUED for BAR Safari; A-Bolt models: Medallion and Gold Medallion

MATTE BLUED for A-Bolt models: Composite Stalker, Hunter, Euro-Bolt, Varmint, Eclipse Hunter and M-1000 Eclipse

STAINLESS for A-Bolt models: Stainless Stalker, White Gold, Medallion and M-1000 Eclipse

It is important that the correct BOSS-CR be selected for a specific caliber and model of rifle.
T-BOLT RIFLES

STRAIGHT UP QUALITY.
T-Bolt rifles are made to the highest standards of Browning quality. The straight-pull bolt-action design is fast to operate and locks up tight for excellent accuracy. Lightweight and nimble, the T-Bolt is always ready for fun.

FEATURES AND BENEFITS

STOCK
- Stocks are full-size to more comfortably fit adults.
- Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock.
- Walnut stocked Sporter models feature trim dimensions with a satin finish and cut checkering. Walnut Target/Varmint models feature a Monte Carlo comb and wide forearm for stability on the bench.
- All models include a bedded action and dual action screws for solid attachment.
- Sling swivel studs included.

TRIGGER
- The three-lever trigger design combined with a short-travel firing pin give a crisp break, quick lock time, no take-up and minimal overtravel.
- Adjustable for pull weight.

ACTION
- Receiver is machined from steel barstock.
- Features crossbolt lockup for strength and smooth operation.
- The mainspring runs directly through the massive pivot pin. Cocking effort is split between opening and closing for ease of operation. The bolt features dual extractors and a red cocking indicator band.
- Right-side ejection on both right- and left-hand models.

TOP-TANG SAFETY
- Top-tang, thumb operated two-position safety can be operated without changing from a shooting grip.

BARREL
- Target/Varmint models feature a 22” medium target profile.
- T-Bolt Sporter models feature a 22” medium sporter profile.
- Barrel is free-floating with a semi-match chamber and target muzzle crown.

OPTICS READY
- Receiver is drilled and tapped for scope mounts (not included). See pages 164-165 for scope rings and bases for T-Bolt rifles.

BUTTSTOCK MAGAZINE STORAGE
- Composite stock models offer a convenient location to securely store an extra magazine.

DOUBLE HELIX MAGAZINE
- 10-round capacity.
- The patented Double Helix rotary box magazine uses torsion spring driven interlocking gears for added reliability and easy loading and unloading.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

THE LEVER FOR A LIFETIME.

In a market saturated with entry-level rimfire rifles, the steel and walnut Browning BL-22 exudes quality. A Browning in every sense, the BL-22 features an easy to work, quick-throw lever action that makes shooting fun, and inspires confidence with its accuracy, making it ideal for shooters of all ages.

FEATURES AND BENEFITS

LEVER 1
- The BL-22 features smooth, quick-cycling 33° lever throw.

TRIGGER 2
- The trigger travels with the lever to prevent finger pinch.

AMMUNITION 3
- The versatile BL-22 fires 22 Short, Long and Long Rifle ammunition.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

A BROWNING ORIGINAL.
John M. Browning was a prolific gun designer and developed many time-honored firearms that are still produced today. Among his legacy models, the SA-22 is one of his most highly regarded. On inspection, it is apparent that this rifle is from a different era, one where ingenuity was brought to life with bare hands and steel, not computer programs. The SA-22 is well balanced, easy to load, accurate and thoughtfully designed with a takedown feature for compact storage.

FEATURES AND BENEFITS

TAKEDOWN FEATURE
• The Semi-Auto 22 can be quickly taken down to a compact length of only 19-3/8” for storage or packing.

BARREL ADJUSTMENT
• The knurled knob allows play to be adjusted out of the barrel to ensure accuracy.

IN-STOCK MAGAZINE
• The magazine is located in the stock to maintain the trim dimensions of the rifle.

BOTTOM EJECTION
• Bottom ejection makes the Semi-Auto 22 ideal for right- or left-handed shooters alike.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
### SEMI-AUTO 22 GRADE I

Measurements in inches, pounds, ounces, etc.
HIT THE MARK.
The easy-to-shoot Buck Mark Rifle is perfect for an afternoon at the range and hunting small game. Easy to load, operate and shoot, the accurate Buck Mark Rifle is fun for shooters of all ages.

FEATURES AND BENEFITS

SAFETY AND SLIDE RELEASE 1
- Large manual thumb safety.
- The convenient manual slide release is easily operated with the shooting or support hand.

SIGHTS 2 3
- Sporter model features a TRUGLO®/Marble Arms® fiber-optic sight system.
- The rear sight is adjustable for windage and elevation.

MAGAZINE RELEASE 4
- Located adjacent to the trigger guard for convenient operation.

ACTION 5
- The straight blowback design offers enhanced simplicity and reliability.

FRAME 6
- Machined to exacting tolerances from a solid billet of 7075-T6 aluminum. The stock structure is a part of the pistol frame, reducing weight and the number of parts.

BARREL 7
- Sporter model features lightweight, tapered sporter-weight barrel.
- Target models feature a bull barrel.
- The chamber in every Buck Mark Rifle barrel is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

SLIDE 8
- Serrated for an improved cocking grip.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

PRECISION CONSTRUCTION AND PERFORMANCE.

Made in the USA on a precision machined aluminum frame, the Browning Buck Mark is built to maximize your performance in pistol competition or just a day at the range. The Buck Mark includes a precision-rifled barrel with target crown, crisp trigger, easy to load magazine and adjustable rear sight.

FEATURES AND BENEFITS

EASY TO REACH CONTROLS

- Large manual thumb safety.
- The convenient manual slide release is easily operated with the shooting or support hand.
- The magazine release is positioned adjacent to the trigger guard for convenient operation.

ACTION

- The straight blowback design offers enhanced simplicity and reliability.

FRAME

- Machined from aircraft grade aluminum alloy.

SIGHTS

- The 16-click per revolution adjustable Pro-Target™ sight is standard on all models.
- This sight provides a finer degree of adjustment over the industry’s standard of 12-clicks per revolution.
- A fiber-optic TRUGLO®/Marble Arms® front sight (shown) is available on select models.

ABS CARRY CASE

- The Buck Mark ships in a sturdy ABS case or padded pistol rug.

BARREL

- Most models have bull barrels for improved stability. Lite models have a steel barrel liner inside an ultralight aluminum sleeve.
- The chamber is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

GRIPS

- Several wood, laminate and composite styles are available. Overmolded Ultragrip FX (UFX), soft nitrile rubber Ultragrip RX® (URX) and wood Ultragrip Deluxe® (UDX) ambidextrous grips have ergonomic finger grooves for enhanced control.

MAGAZINE

- The steel magazine body is heat treated for long-term feeding reliability and long life. The coil spring provides a consistent follower angle. 10-round capacity.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

FUN FOR EVERYONE.
Shrunk to 85% of the size of the original 45 ACP models and super light, the 1911-22 is designed to comfortably fit the hands of every size shooter. The straight blowback action offers extra reliability to keep the fun going. For plinking, hunting and target shooting a 1911-22 is tough to beat.

FEATURES AND BENEFITS

SAFETY 1
• Large manual thumb safety and grip safety.

SLIDE 2
• Vertical serrations provide an improved cocking grip.
• The convenient manual slide release is easily operated with the shooting or support hand.

FRAME 3
• Aircraft grade aluminum alloy or engineering grade composite.
• Walnut grip panels on select models.

ACTION 4
• The straight blowback design offers enhanced simplicity and reliability.

MAGAZINE 5
• The steel magazine body is heat treated for long-term feeding reliability and long life.
• The coil spring provides a consistent follower angle.
• 10-round capacity.

MAGAZINE RELEASE 6
• Positioned adjacent to the trigger guard for convenient operation.

ABS CARRY CASE 7
• 1911-22 pistols are shipped in a sturdy ABS case.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

FULL FEATURED FUN.
Black Label Model 1911-22 handguns include a number of upgrades that improve the functionality and shootability of these top-quality pistols. Accurate, reliable and fun to shoot, the lightweight 1911-22 is great for training and fun at the range.

FEATURES AND BENEFITS

EXTENDED AMBIDEXTROUS SAFETY
- Ambidextrous thumb safety is easy to operate for both right- and left-handed shooters.
- Extended design is easier to reach with the strong hand and ensures secure thumb engagement.

BEAVERTAIL GRIP SAFETY
- The beavertail design prevents the hand from being pinched between the grip safety and the hammer.
- Raised bump ensures positive operation.

FRAME
- Engineering grade composite.
- Laminated grip panels.

FLAT MAINSPRING HOUSING
- Makes the grip more comfortable for a wider range of shooters.

MAGAZINE
- The steel magazine body is heat treated for long-term feeding reliability and long life.
- The coil spring provides a consistent follower angle.
- 10-round capacity.

COMBAT-STYLE SIGHTS
- Combat-style sights offer rapid target acquisition.

STEEL 3-DOT SIGHTS
- Sturdy steel construction.
- Three-dot style for easy alignment.

FIBER-OPTIC SIGHTS
- Speeds target acquisition.
- Sturdy steel construction.
- Three-dot style for easy alignment.
- Adjusts brightness based on surrounding light.

ABS CARRY CASE
- Black Label 1911-22 pistols are shipped in a sturdy ABS case.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

1911 380
PISTOLS

THE RIGHT 380 FOR EVERY SHOOTER.

Big hands or small, for concealed protection or a trip to the range, the Browning 1911-380 is the ideal choice. With an easily manageable, single-action trigger pull and familiar controls, this gem operates in the same manner as the larger models.

FEATURES AND BENEFITS

EXTENDED AMBIDEXTROUS SAFETY 1
- Ambidextrous thumb safety is easy to operate.
- Extended design is easier to reach with the strong hand.

BEAVERTAIL GRIP SAFETY 2
- The beavertail design prevents bite to the hand from the grip safety.
- Raised bump ensures positive operation.

FRAME 3
- Engineering grade composite.
- Composite grip panels.

FLAT MAINSPRING HOUSING 4
- Makes the grip more comfortable for a wider range of shooters.

MAGAZINE 5
- The steel magazine body is heat treated for durability.
- Reliably feeds all types of factory ammunition.
- 8-round capacity.

COMBAT-STYLE SIGHTS 6
- Combat-style sights offer rapid target acquisition.

STEEL 3-DOT SIGHTS 7
- Sturdy steel construction.
- Three-dot style for easy alignment.

STEEL BAR-DOT NIGHT SIGHTS 8
- Provides superior visibility in low light situations.
- Sturdy steel construction.
- Stacking the dot on the bar is the fastest, simplest system to use in low light to acquire a target.

ABS CARRY CASE 9
- The Black Label 1911-380 pistol is shipped in a sturdy ABS case.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

Extended Ambidextrous Safety
Beavertail Grip Safety
Frame
Flat Mainspring Housing
Combat-Style Sights
Steel 3-Dot Sights
Steel Bar-Dot Night Sights
ABS Carry Case
FRAME: Composite with machined 7075 aluminum subframe and slide rails
SLIDE: Stainless steel • Satin silver finish
BARREL: Rust-resistant • Full Size: 4-1/4”, Compact: 3-5/8” length • Target crown
ACTION: Locked-breech action • Single-action trigger
GRIPS: G-10 composite
FEATURES: Available with steel three-dot combat sights or night sights dovetailed into slide • Eight round magazine capacity • Extended, ambidextrous manual thumb safety • Extended slide release • Beavertail grip safety • Skeletonized hammer • Two magazines included • ABS carry case included • Models available with or without accessory rail on dust cover

Measurements in inches, pounds, ounces, etc.
ONE MAN, MANY INVENTIONS.

John M. Browning not only designed the revered Model 1911 pistol, he also developed the 380 ACP cartridge. At 85% of the size of the original, 1911-380 models proportionately complement the 380 ACP cartridge and, being slightly larger than a subcompact handgun, better handles the 380 ACP round with manageable recoil and improved accuracy.

**Black Label 1911-380 Pro**

- **Frame:** Composite with machined 7075 aluminum subframe and slide rails
- **Slide:** Blackened stainless steel • Matte black finish
- **Barrel:** Rust-resistant • Full Size: 4-1/4", Compact: 3-5/8" length • Target crown

Measurements in inches, pounds, ounces, etc.
JOHN M. BROWNING

Born in 1855, John M. Browning dedicated his life to creating firearms of exceptional quality and revolutionary construction.

It is Belgium, however, that is home to his most lasting legacy: The B25.

First manufactured by Fabrique Nationale d’Herstal in 1925, the B25 was the world’s first successful over and under shotgun. It was the result of Browning’s creative genius and experience combined with more than 400 years of manufacturing expertise.

Often copied, the B25 has never been equalled, and remains an icon for shooting experts everywhere.

John M. Browning was a tireless innovator and a legend in the truest sense; so it’s befitting that his name should grace a range of exquisitely crafted hunting and sporting guns.

The John M. Browning Collection is the very best of what we do.

Please contact your Browning Dealer for ordering information.
Other models like this B25 Sporter New Generation are available with custom touches like an Olympic trigger, vented top and side ribs and exquisite, deeply figured walnut stocks with your choice of a fixed or adjustable comb.

The B-25 is the epitome of over and under shotguns, and you can still have John M. Browning’s original design crafted to your personal specifications. For example, the full sideplate design of this B25 Sideplate Trap creates a stunning canvas for traditional engraving and precious metal inlays.

John M. Browning’s Hi Power is a timeless classic and is widely considered to be his finest handgun design. It naturally becomes the pistol of choice for anyone wanting to showcase the unmatched skill and craftsmanship of our artisans in their personal firearm collection.
Introducing the B15

THE NEXT GREAT BROWNING OVER AND UNDER SHOTGUN

Unveiled in 2015, the B15 Beauchamp is the latest addition to the John M. Browning Collection.

This is the shotgun that Browning aficionados have been waiting for ever since the B25’s groundbreaking debut.

Like its companion, the B15 has been exquisitely enhanced by the world-renowned gunsmiths of Fabrique Nationale de Herstal. This ensures balance, reliability, precision engineering and the finest of aesthetic finishes.

The B15 is available in four grades with a choice of exceptional engravings and wood quality. Buttplates and fore-end styles are also included.

At the heart of the B15 is the locking system and technical features shared with the legendary B25, plus new and innovative elements such as performance enhancing mechanical triggers. This blend speaks volumes to those who truly know their shotguns.

The new B15 is the only choice for those who appreciate style, but prize function.

TECHNOLOGY
SAFES

REST EASY.

Browning is committed to ensuring that your guns and valuable possessions are protected from theft and the ravages of fire. A leader in the industry for decades, Browning ProSteel safes are constructed using security measures based on proven and proprietary designs, using dependable materials, top-quality construction and hands-on testing procedures to ensure our safes are ultra-tough and able to withstand the onslaught of drill, punch and pry attacks. Rest easy knowing that Browning has you and your family covered.

**DUO-FORMED DOOR**

The best Browning ProSteel safe door is made from multiple layers of steel formed together to provide superior strength, pry resistance and attack protection. Full second panel for outstanding strength. The door face is 1-11/16” thick.

**UNI-FORCE™ LOCKING SYSTEM**

The finest Browning ProSteel safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.

**REINFORCED DOOR FRAME**

The door opening of the safe is strengthened by an integrated return flange to create added pry and attack resistance.

**FORCE DEFLECTOR™ LOCKING SYSTEM**

The Force Deflector Locking System (U.S. patent #7,665,405) prevents bolt or handle forces from reaching the lock by using a rotating cam device. It prevents energy transfer to the lock better than most systems used in the safe industry.

**180° HEAVY DUTY Hinges**

Rugged exterior hinges allow the door to swing open 180° for unhindered access to the safe interior. Door locking bolts maintain security if the hinges are cut off. Fire protection is better with internal hinges because no insulation is removed to accommodate the hinges.
Browning ProSteel safes feature ThermaBlock fire protection technology. ThermaBlock combines external door hinges and thicker sheets of fire insulation that are arranged in an interlocking pattern to eliminate gaps where heat can migrate into a safe and raise the internal temperature. Our fire testing begins where the other brands’ testing ends. The chart below shows that a Browning ProSteel safe with ThermaBlock offers two to three times the fire protection of a comparable safe with internal hinges.

**ThermaBlock: Up to 3 Times the Protection.**

Browning ProSteel safes provide 2-3 times the fire protection of competitors.

**Internal Hinges vs. External Hinges**

Internal hinges allow up to eight times more heat to radiate inside the safe through gaps in the fire insulation.

External hinges offer several advantages over the internal hinges found on other safes, most notably in fire protection. To accommodate an internal hinge, fire protection material must be removed where the hinges attach.

In a fire, these two unprotected areas allow the internal temperature of a safe to rise to a significantly higher temperature, than in a Browning ProSteel safe with external hinges and no gaps in the fire protection.

**THERMABLOCK: UP TO 3 TIMES THE PROTECTION.**

This graph compares a Browning ProSteel safe with ThermaBlock and external hinges to a pair of comparable safes from leading competitors with internal hinges.

External hinges eliminate gaps in the fire insulation to block heat from entering the safe.

Our external hinges:

- External hinges are designed to block heat from entering the safe.
- They eliminate gaps in the fire insulation, providing superior fire protection.

Competitors’ internal hinges:

- Internal hinges allow up to eight times more heat to radiate inside the safe through gaps in the fire insulation.
- They create unprotected areas where heat can migrate, leading to higher internal temperatures.

**Browning ProSteel Safe**

(Rated 100 min. at 1680° F)

**COMPETITOR A**

(Rated 90 min. at 1650° F)

**COMPETITOR B**

UNMATCHED CONVENIENCE AND STORAGE SOLUTIONS.

A gun safe is more than long gun capacity. Handguns, cameras, jewelry, documents, laptops and external hard drives with thousands of digital memories will be safe and secure. Browning ProSteel safes have the most versatile interiors in the industry to store more of your valuables.

Beginning in 2018, Axis and CMS shelves and accessories are interchangeable for Browning ProSteel safes greater than 20 cubic feet in size.

ONE-OF-A-KIND AXIS ADJUSTABLE SHELVING

When it comes to maximizing safe interior storage, Browning ProSteel safes lead the industry with unmatched versatility. The exclusive Axis Adjustable Shelving (U.S. patent #D662341) is a completely customizable system with an array of shelves that can be configured to meet virtually every need.

Unlike shelves in the competitors’ safes that are either fixed in position or only offer vertical adjustment, Axis shelves can be adjusted up and down, side to side, added and removed to accommodate items over a broad range of sizes. Axis maximizes the interior storage of long guns, handguns and other valuables. Several different shelves and options are available to further customize the interior to meet specific needs. The Axis shelf is made from a single piece of sturdy steel. Shelves are clad in a soft, protective silicone rubber that is highly durable and designed to protect guns and valuables. It also adds a sleek appearance to the safe interior.

Axis accessories, featured on page 109 are designed to easily mount to the solid steel shelf or barrel rack. (Compatible with safes that feature Axis Adjustable Shelving built in 2013 or later.)

CANTILEVERED MODULAR SHELVING (CMS)

Creative interior storage solutions don’t end with Browning ProSteel Custom Collection models. CMS shelves are constructed of wood, covered in soft carpet and built upon a tough steel frame. CMS borrows essential components from the patented Axis Adjustable Shelving (U.S. patent #D662341) to retain much of the adjustability of the higher-end system. Like Axis, CMS shelving can be adjusted up and down, side to side, added and removed to fit a wide range of valuables.

Beginning in 2018, Axis and CMS shelves and accessories are interchangeable for all Browning ProSteel safes greater than 20 cubic feet in size.

THE BEST THERE IS WARRANTY PROTECTION.

Differences among gun safes are difficult to see on a sales floor, but be confident that you won’t find another brand that lives up to the high standards set by Browning. Our safes combine quality construction, proprietary technology and patented interior designs to elevate them above the rest. In addition to groundbreaking features, all Browning ProSteel safes carry the UL RSC (Underwriters Laboratories Residential Security Container) rating — the industry standard that defines a home security safe. The UL RSC rating ensures that a safe meets construction specifications and has passed a series of independent laboratory test attacks. Confidence in Browning ProSteel product leads to the best warranty in the gun safe industry — a lifetime warranty that covers attempted break in, break in, or fire. If one of our safes is involved in one of these situations and your homeowner’s insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. (Safe contents are not covered.)
UP TO 43% MORE LONG GUN STORAGE.

THE DPX ADVANTAGE
The patented DPX storage system (U.S. patent #7,409,790) is available exclusively on Browning ProSteel safes. This unequalled organizational tool allows long guns, handguns, shooting gear and more to be stored on the back of the safe door. The DPX gun rack creates as much as 43% more long gun capacity inside the safe, and makes the guns on the door easy to access. The Scope Saver increases storage and protects optics. DPX pouches and pockets hold valuables and gear where they are easy to find and free up shelf space for even more items.

HOW DO BROWNING PROSTEEL SAFES HOLD 43% MORE GUNS?
• The long gun capacity is a series of three numbers, for example 13/26+7 on a 26 Cu. Ft. safe.
• The first number is the long gun capacity in the safe body with a Half Shelf interior (13 in the example).
• The second number is the long gun capacity in the safe body with an All Gun interior (26 in the example).
• The “plus” number is the long gun capacity on the back of the door (+7 in the example).
• Total capacity grows up to 43% in the Half Shelf configuration because there is a full rack of long guns on the door back.
• “Fast Access Guns” increase in both Half Shelf and All Gun configurations. These are guns on the front row of the safe body and the door gun rack and can be quickly accessed.

Due to the varying sizes of firearms and optics, actual gun capacity may vary.

THE QUICK ACCESS DPX BARREL RACK
Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

MESH POCKETS
See-through mesh pockets hold smaller items and make valuables fast and easy to visually locate.

DPX HANDGUN POUCHES
The military-style MOLLE system straps on the DPX panel allowing handgun pouches and other MOLLE items to be placed virtually anywhere.

DPX SCOPE SAVER
Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

WHY STEP UP TO A PLATINUM SAFE?
Stepping up to a Platinum model gives you the advantage of thicker 3/16” (7-Gauge) steel for added mass and rigidity, and larger (1-1/2”) locking bolts on all four sides offer greater security and protection. A superior ThermaBlock 1750°/120 minute fire rating keeps valuables protected longer. A handsome Grade VI Cedar interior, Axis Drawer with Multipurpose Insert and File Box are also featured. Platinum safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK 1
- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS FILE BOX 2
- Important, irreplaceable documents can be conveniently stored in the File Box.

GRADE VI INTERIOR/LED LIGHTING 3
- A fragrant cedar interior adds a rich quality to the safe. Interior LED lighting along the door frame makes locating items inside the safe much easier.

AXIS DRAWER AND MULTIPURPOSE INSERT 4
- The Axis Drawer mounts beneath an Axis steel shelf and includes a Multipurpose Insert that keeps small items organized, easy to locate and protected.

ELECTRICAL OUTLET 5
- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

 Pry-Stop Corner Bolts 6
- Innovative long bolts extend diagonally from the corners of the door to protect against pry attack at the crucial corner areas.

WHY STEP UP TO A MEDALLION SAFE?

Stepping up to a Medallion safe gives additional security features including Pry-Stop Corner Bolts, Uni-Force™ Locking System and OmniBarrier® Lock Protection System. Thicker steel (10-Gauge vs. 11-Gauge) reduces flex. A higher fire rating (ThermaBlock 1700°/110 min. vs. 1680°/100 min.) affords even greater protection. Medallion safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK 1
- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

INTERIOR LIGHT PACKAGE 2
- LED lighting adds even more value to the Medallion safe line. A sensor turns on the lights when the door is opened.

UNI-FORCE LOCKING SYSTEM 3
- Robust cam locks and a multiple diversion bar system divert pressure from reaching the lock.

OMNIBARRIER LOCK PROTECTION 4
- Steel hard plate and steel components protect the lock from drill, punch and push attacks.

ELECTRICAL OUTLET 5
- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

PRY-STOP CORNER BOLTS 6
- Innovative long bolts extend diagonally from the corners of the door to protect against pry attack at the vulnerable corner areas.

WHY STEP UP TO A SILVER SAFE?
Stepping up to the Silver safe provides you with heightened security courtesy the Duo-Formed door, which features a full 10-Gauge inner plate. A higher fire rating (ThermaBlock 1680°/100 min. vs. 1680°/90 min.) and locking bolts on all four sides of the door improve protection from disaster. An elegant five-spoke handle and a full selection of finishes, colors and options are also available. A convenient Interior Light Package is included. Silver safes are made in the USA.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK
- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

DPX SCOPE SAVER
- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

AXIS ADJUSTABLE SHELVING
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe, taking up minimum space.

ELECTRICAL OUTLET
- The Electrical Outlet allows electrical accessories to be added without taking apart power cords.

INTERIOR LIGHT PACKAGE
- A sensor turns on the LED lighting when the door is opened.

LOCKS

**S&G® Mechanical**
The S&G® Mechanical Lock is the industry standard for security. Manufactured by the leader in the lock industry.

**S&G® Top Lit Electronic**
With many technical security features, the S&G® Top Lit Electronic Lock is an advanced security system manufactured by the leader in the lock industry. Includes LED lighting for easy access in the dark.

**SecuRam™ ScanLogic Biometric**
The SecuRam™ ScanLogic Biometric Lock uses the uniqueness of an individual fingerprint as the combination in this advanced security solution. The lock opens with either a fingerprint or a multi-digit code. It is highly secure and operates very quickly.

STORE MORE AND FIND IT EASIER.

Exclusive Axis Adjustable Shelving (U.S. patent #D662341) uses an array of shelves that can be configured to meet virtually any need imaginable. Axis accessories are now compatible with safes built in 2018 that feature CMS Adjustable Shelving and are greater than 20 cubic feet in size.

**Axis Bow Hanger**  Lock up and protect expensive archery equipment while taking up minimal space.

**Axis Scooped Pistol Rack**  With a deeper drop and heavy-gauge rods, handguns with optics are easier to store.

**Axis Vertical File Holder**  This file holder makes it easier to locate and organize important documents.

**Axis Deep Drawer**  The Deep Drawer is the perfect home for larger or oddly shaped items.

**Axis High Capacity Barrel Rack**  Make room for more long guns with this high capacity barrel rack.

**Axis Pistol Rack**  With a five handgun capacity, the pistol rack stores the pistols under the shelf, leaving the shelf available for possessions and gear.

**Axis Barrel Rack**  With 11 slots for long guns, the barrel rack can be raised or lowered to accommodate rifles, shotguns, carbines and modern sporting rifles.

**Axis Steel Shelf**  The most basic shelf is made from tough steel with a protective polymer skin that protects your valuables.

**Axis Pistol Shelf**  Holds up to 12 handguns. The soft surface protects handguns from damage.

**Axis Steel Sheet**  The most basic shelf is made from tough steel with a protective polymer skin that protects your valuables.

**Axis Drawers**

- **Axis Drawer**  The sturdy drawer is perfect for all sorts of goods that need to be separated.
- **Axis Drawer With Jewelry Insert**  This insert protects and organizes valuables such as watches, rings, bracelets and necklaces.
- **Axis Drawer With Foam Insert**  Isolate your most prized possessions from potential damage. Pick and pluck foam is easily customized to fit nearly any item.
- **Axis Drawer With Money/Passport Insert**  Compartments are sized to organize cash, passports and other documentation.

**Axis File Box**  Important documents may be irreplaceable or valuable or both. Keep them easy to find in this handy file box.

WHY STEP UP TO A HELL’S CANYON SAFE?
Stepping up to a Hell’s Canyon safe offers the kind of cavernous storage capacity that a large collection requires. But if size isn’t enough, the Hell’s Canyon safe offers a great mix of security and fire protection features to keep its valuable contents protected. Focus has also been placed on interior convenience features, with easy access to guns being a priority.

FEATURES AND BENEFITS

AXIS HIGH CAPACITY BARREL RACK
- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS ADJUSTABLE SHELVING
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimal space.

DPX SCOPE SAVER
- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

QUICK ACCESS DPX BARREL RACK
- Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

**HAWG CORE COLLECTION SAFES**

**WHY STEP UP TO A HAWG SAFE?**

Stepping up to the Hawg gives you a safe designed to handle everything you throw at it and provide ferocious protection against theft and fire, with storage for both long guns, handguns and copious amounts of irreplaceable valuables. The 1400°F/60 minute fire protection rating stands ready to protect. The new hammer gloss exterior finish is both striking and super tough.

**FEATURES AND BENEFITS**

**CMS HIGH CAPACITY BARREL RACK 1**
- The CMS High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

**CMS ADJUSTABLE SHELVING 2**
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe, taking up minimum space.

WHY CHOOSE A CLOSET/COMPACT SAFE?
A Closet or Compact safe gives you a real safe that is loaded with fire protection and security features. These smaller safes are perfect for modest gun collections, handgun collections or just valuables. Additionally, their small dimensions make them ideal to tuck away inside a closet or even a cabinet for additional security against prying eyes.

FEATURES AND BENEFITS

OUT OF SIGHT
- Closet/Compact safes feature trim dimensions that make it ideal for placing into a closet to keep the safe hidden from curious eyes.

INTERIOR
- Closet/Compact safes feature adjustable interiors designed to maximize adjustability.

**NEW 2018**
WHY STEP UP TO A HUNTER SAFE?
Stepping up to a Hunter safe adds a heavy 11-Gauge steel body that combats flex from break-in attempts and heat, and offers larger diameter locking bolts for greater security. A ThermaBlock 1680°F/90 min. rating elevates fire protection and Axis Adjustable Shelving adds convenience. Hunter safes are made in the USA.

FEATURES AND BENEFITS

QUICK ACCESS DPX BARREL RACK
- Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

DPX SCOPE SAVER
- Store long guns with optics on the DPX door rack with the Scope Saver. The recessed panel protects scopes and increases gun capacity.

AXIS HIGH CAPACITY BARREL RACK
- The High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

AXIS ADJUSTABLE SHELVING
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimal space.

WHY STEP UP TO A HEAVYWEIGHT SAFE?
Stepping up to a Heavyweight safe adds a tough 11-Gauge steel body and Pry-Stop End Bolts for improved break-in protection. The excellent 1550° F/80 min. fire rating offers additional protection. A full DPX door storage rack adds storage for valuables, handguns and long guns, while improving access to more long guns. Black chrome hardware adds a rugged appearance.

FEATURES AND BENEFITS

QUICK ACCESS DPX BARREL RACK

- Flexible polymer wings secure the barrel and allow firearms to easily be pushed into or pulled from the rack.

PRY-STOP END BOLTS

- More than two and one-half times longer than door bolts, they attach to angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door secure the critical door corners.

CMS ADJUSTABLE SHELVING

- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe taking up minimum space.

CMS HIGH CAPACITY BARREL RACK

- The CMS High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

WHY CHOOSE A SPORTER SAFE?
With 20% greater storage capacity and Cantilevered Modular Shelving (CMS), Sporter safes are better than ever before. Constructed with great security features, the Sporter line offers top-notch build and finish quality at an excellent value. The class-leading 12-Gauge steel body and 1400° F/60 minute fire protection rating protects against disaster.

FEATURES AND BENEFITS

CMS ADJUSTABLE SHELVING
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe, taking up minimum space.

QUICK ACCESS DPX BARREL RACK
- Flexible polymer wings protect the barrel finish, secure the barrel in place and allow firearms to easily be pushed into or pulled from the rack. (U.S. patent #D643500)

CMS HIGH CAPACITY BARREL RACK
- The CMS High Capacity Barrel Rack stores up to 13 long guns and offers instant access to 7 (per rack).

CMS PISTOL RACK
- The CMS (Cantilevered Modular Shelving) Pistol Rack stores pistols under the shelf, leaving the shelf available for possessions and gear.

WHY STEP UP TO A BLACK LABEL MARK IV SAFE?
Stepping up to a Black Label Mark IV safe gives you top notch security, fire protection features and your choice of two bold tactical-inspired finishes. The Axis Adjustable Interior opens up space for more guns of all sizes inside and the included carbine barrel loops make retaining shorter rifles and shotguns on the DPX Door panel a breeze.

FEATURES AND BENEFITS

AXIS ADJUSTABLE SHELVING
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe using the minimum amount of space. Individual shelves can be adjusted to accommodate modern sporting rifles, carbines and shotguns.

EXTERIOR GEAR LOFT
- Tactical and hunting gear can be stored within easy reach on top of the safe, in the semi-enclosed exterior Gear Loft.

AXIS PISTOL RACK
- With a five handgun capacity, the pistol rack stores the pistols under the shelf, leaving the shelf available for possessions and gear.

CARBINE BARREL LOOPS
- Lower mounted barrel loops secure shorter rifles and shotguns to the DPX door panel.

WHY CHOOSE A SELECT SAFE?
A Select safe offers a custom blend of features that includes added security with Pry-Stop End Bolts and a big increase in convenience and capacity thanks to the Quick Access Barrel Rack with Scope Saver and full DPX Storage System. The factory-installed LED Interior Light package makes locating items inside the safe easy.

FEATURES AND BENEFITS

CMS ADJUSTABLE SHELVING 1
- Multiple shelf styles are available and can be moved to allow small and large items to fit in the safe using the minimum amount of space. Individual shelves can be adjusted to accommodate modern sporting rifles, carbines and shotguns.

 Pry-STOP END BOLTS 2
- More than two and one-half times longer than standard door bolts, they attach to angle iron which prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

LED INTERIOR LIGHT PACKAGE 3
- LED lighting around the door frame adds value and makes locating items in the safe easier. A proximity sensor turns on the lights when the door is opened.

CMS PISTOL RACK 4
- The CMS (Cantilevered Modular Shelving) Pistol Rack stores pistols under the shelf, leaving the shelf available for possessions and gear.

WHY CHOOSE A VAULT DOOR?

When a gun safe just isn’t big enough, the next step is a dedicated, walk-in gun room and a Vault Door is the best way to finish off that magnificent bit of architecture. To protect your collection, Vault Doors offer high-end security features and fire insulation. Vault Doors are available in a variety of handsome finishes to perfectly complement your home.

FEATURES AND BENEFITS

INTERNAL LOCK RELEASE

- Allows the door to be opened from inside the vault to prevent accidentally being locked inside.

WHY CHOOSE A SECURITY DOOR?
If you have a built-in gun room or storage closet and need to finish it off with a top notch door that doesn’t scream “guns inside” the Security Door is just the ticket. Made to match a common six-panel door, the Security Door can easily be painted to match other doors in your home. In addition to the incognito appearance, Security Doors feature excellent security and fire protection features.

SECURITY DOOR DIMENSIONS - TOP VIEW

PISTOL VAULTS
SAFES

BIG SECURITY, SMALL PACKAGES.
A Browning ProSteel pistol vault is ideal for keeping a handgun, cash and small valuables secure, yet readily available. Built with twice the steel found in competitors’ models and featuring rugged safe-style bolts that outperform common latch-style locks, these pistol vaults are more than a match for would be thieves.

FEATURES AND BENEFITS

**ELECTRONIC 4-BUTTON TOUCH PAD**
- Easily program your personal code that provides you ready access to handguns and small valuables. Uses eight AA batteries. (Not included.)

**BIOMETRIC PAD**
- Grants you instant access with the touch of a fingertip.

**LED LIGHTING**
- Bright LED lighting illuminates the interior, making it easy to locate the pistol vault’s contents at night or in a closet.

**LOCKING BOLTS**
- A pair of tough 1/2” diameter locking bolts secure the lid.

**EXTERNAL ELECTRICAL CONTACTS**
- Should the batteries fail or if the key is lost, pistol vaults include external electrical contacts that power the touch pad. (9V back-up battery not included.)
## PV Portable Specifications

**Security**
- 16-Gauge steel
- Secure key lock
- Cable included for added protection against theft

**Appearance**
- Hammer gloss gray finish
- Flexible pistol grippers secure and protect contents

## PV Pistol Vault Specifications

**Security**
- 14-Gauge steel with 10-Gauge in door
- Two 1/2” diameter chromed locking bolts
- Electronic programmable 4-Button key pad
- Optional biometric touch pad

**Appearance**
- Hammer gloss gray finish
- Padded interior

**Convenience**
- Interior LED light
- External electrical contacts (Touch Pad models)
- Manual Key Lock

LED SAFE LIGHTING KIT
The LED Safe Lighting Kit is the best aftermarket lighting solution available today • The expandable, linear design places bright, long-lasting LED lighting anywhere in the safe • A motion sensor turns on the lights when the door opens and automatically shuts them off after 30 or 60 seconds with no motion or when the door closes • Each kit comes complete with six LED light tubes with six LEDs per tube, three flexible connectors, mounting clips with hook and loop tape, A/C adaptor and a motion sensor power module

CASE STUDIES IN PROTECTING A CLASSIC BROWNING.

Having a fitted luggage case for your favorite Browning is one of the grand traditions of the shooting sports. Constructed with solid wood frames and plush padded interiors, their sturdy brass fittings serve to accent a myriad of handsome exterior materials. In addition to providing a place for everything from choke tubes to shooting gloves, these cases become the perfect backdrop for showing off a fine Browning firearm and will provide decades of tasteful protection.
VCI GUN SOCK

Vapor Corrosion Inhibitor (VCI) penetrates into the smallest crevices and drives out moisture where oils cannot reach • Provides full protection by forming a vapor enclosure around the firearm from muzzle to butt • Gives additional protection to all metal items in an enclosed area such as a gun safe or cabinet • One- or two-piece models fit most firearms • Drawstring closure • Fits rifles and shotguns 48” to 56” • Firearms shown not included

SHOW OFF AND STASH AWAY WITH BROWNING.

Browning Euro Mounts are tailor-made for your traditional European-style bleached skull and antler trophies. Fully adjustable, they create the perfect setting for your trophies with a graceful interplay of light and shadow. Keep ammo, trail cameras, GPS units and other items clean, dry and well organized with lockable Browning Dry Storage boxes. They give you a place to stash your stuff so it’s ready for your next outdoor adventure.

EURO MOUNT

The ideal way to display a European style trophy skull in the home, office, store or hunting cabin • Rugged and durable all steel construction • Mounts securely to wall stud • Ball and socket design is fully adjustable for display angle • Pivoting arm design allows trophy to be swung into position • Expanding jaws insert into the back of the trophy skull without damage • Skull can be easily removed for cleaning and storage • Large size is ideal for elk, caribou and moose • Small size is ideal for deer and antelope • Mounting hardware, installation and display instructions are included

GLASSING FOR GAME — BROWNING STYLE.

Keep your glass clear, dry and right at your fingertips with Browning’s binocular harnesses and scope covers.

BINO CHEST PACK
Adjustable double strap harness system spreads the weight of binoculars over both shoulders to help prevent neck fatigue • Protective foam padding around main compartment • Full-coverage top flap is secured with an elastic cord for quick access • Two zippered storage compartments are ideal for a cell phone, wallet, topo maps and hunting license • Elastic lanyard for rangefinder clips into either side pocket • Binocular attachment allows for tension-free movement • Chest strap has two zippered side pockets and quick release buckle • Two stretchable mesh side pouches with lanyards are ideal for keeping game calls, GPS units or other small accessories at the ready • Main compartment is 7” L x 3-1/2” W x 7-1/2” H • Binoculars and accessories shown not included

BINO SUPPORT HARNESS
Adjustable double strap harness system spreads the weight of binoculars over both shoulders to help prevent neck fatigue • Mesh backing provides all weather comfort • Center cushion helps protect spine • Two quick release snaps in vertical web straps hold binoculars securely on the chest where they are instantly accessible • Adjustable elastic side straps improve fit and provide full motion comfort • Accommodates most binoculars • Binoculars shown are not included

BINO HARNESS
Keeps binoculars accessible and holds them securely on the chest to prevent bouncing • Elastic straps allow the binoculars to slide up and down the harness • Accommodates most binoculars • Binoculars shown are not included

SCOPE COVER
Waterproof stretch neoprene material helps protect your gun’s expensive optics from adverse weather and bumps in the field • Elastic bound bottom edge for quick one-handed attachment and removal • Semi-rigid objective end reinforcement disk helps protect delicate optics • Sizes to fit most popular 40mm or 50mm hunting-style optics

RANGE PRO SHOOTING MAT
Heavy duty nylon ripstop • Padding Type: Heavy closed-cell foam padding won’t absorb moisture • Closure: Roll-up design secures with quick release buckles • Trim and Binding: Non-slip shooting surface overlay • Web carry handle • Special Features: Fold-out flaps accommodate both right- and left-handed shooters in virtually any shooting position • Sewn-in web barrier creates a solid foundation for bipod • Eyelets allow mat to be staked into position • Web shoulder strap • Firearms, ammunition and accessories shown not included
SLINGS
LIGHTEN YOUR LOAD WITH BROWNING SLINGS.

Our full line of slings serve to lighten a hunter’s load, and are designed to blend in with the surroundings or make a subtle style statement. Whichever rifle or shotgun you own, there’s a quality Browning sling that will complete the package.

ALL SEASON
Padded shoulder strap with textured back prevents the sling from slipping off the shoulder • Molded logo • Elastic ammo loops • Thumb loop for comfort and ease of adjustment • Metal sling swivels are included • Ammunition shown not included

ALL SEASON WEB
All-web design • Molded logo • Innovative design can be positioned as either a shoulder-style or a backpack sling • Provides a wide range of adjustment plus a generous 1-1/4" width • Metal sling swivels are included

PARACORD
Constructed using 36’ of rugged, contrasting color 550 paracord and durable webbing • Shoulder pad sleeve for added comfort • Adjustable for length • Available in colors to match both wood and synthetic stocks • Looks great on modern sporting rifles and tactical guns • Metal sling swivels are included

SLINGS

NOTHING ADDS STYLE TO A BROWNING LIKE A TOOLED LEATHER SLING.

When you add a tooled leather sling to a fine Browning rifle or shotgun, you’re making a statement that you understand what style and tradition are all about.

**SANTA FE**

Upper portion is padded for added comfort • Brass hardware • Crazy Horse distressed leather model has full-length contrasting side stitching and an oval Buckmark patch • Brown model offers top grain, silicone-treated leather with leather ties and embossed Buckmark logo • Adjustable length • Fits most rifles • Swivels are not included

**WESTERN STITCH**

Traditional Western stitch design is sewn freehand with contrasting thread • Adjustable length • Fits most rifles • Swivels are not included

**ANTIQUE BASKETWEAVE**

Classic embossed basketweave design with full-length contrasting side stitching • Adjustable length • Fits most rifles • Swivels are not included

**SIX MILE II**

Top grain leather construction • Classic Western stitch design in contrasting thread • Sliding shoulder adjustment with embossed logo • Adjustable length • Metal sling swivels are included • Fits most rifles and shotguns

**BIG BUCKMARK SERIES**

Top grain vegetable tanned leather • Large Buckmark embossing • Quality brass hardware • Fits most rifles and shotguns • Swivels are not included

HIVIZ® COMP SIGHT
- Metal base threads directly into the bead of shotguns for a more permanent sight picture.
- Allows the shooter to know exactly where the barrel is in relation to the target.
- Interchangeable LitePipes allow shooter to match light pipe diameter and color to shooting conditions.
- Includes two white, three green and three red LitePipes.
- Used by top professional shooters.
- Metal base.
- Five screw sizes, 3/56, 3x.5, 3x.6, 5/40 and 6/48 to fit most shotguns.
- LitePipe changing key and custom carrying case are included (not shown).

BUCK MARK REFLEX SIGHT
- Four reticle patterns: Circle-Dot-Cross Reticle, 3 MOA Dot Reticle, Cross-Dot Reticle, Circle-Dot Reticle.
- Seven-position brightness rheostat.
- Field-of-view: 15.7m/100m.
- Unlimited eye relief.
- Powered by one #2032 lithium battery.
- Mounts to any standard Weaver-style base.
- Rugged aluminum housing with matte black finish.
- Recommended for Buck Mark rimfire pistols or rifles only.
- A great performance upgrade for the Buck Mark Plus Camper, Standard and Micro pistol models without optics rails.

HIVIZ® BUCK MARK PISTOL SIGHT
- A great performance upgrade for the Buck Mark Plus (without optics rail), Camper, Standard and Micro pistol models.
- Speeds target acquisition and provides better low-light accuracy.
- No batteries required.
- Easy single screw installation to replace factory front sight.
- No gunsmithing required.
- Includes three LitePipes: one green, one red and one white.

HIVIZ® COMP SIGHT
- Metal base threads directly into the bead of shotguns for a more permanent sight picture.
- Allows the shooter to know exactly where the barrel is in relation to the target.
- Interchangeable LitePipes allow shooter to match light pipe diameter and color to shooting conditions.
- Includes two white, three green and three red LitePipes.
- Used by top professional shooters.
- Metal base.
- Five screw sizes, 3/56, 3x.5, 3x.6, 5/40 and 6/48 to fit most shotguns.
- LitePipe changing key and custom carrying case are included (not shown).

HIVIZ® BIRD BUSTER MAGNETIC SHOTGUN SIGHT
- HiViz Bird Buster magnetic sights come with four interchangeable LitePipes of different diameters to match different lighting conditions.
- Includes three sizes of magnetic bases to fit the rib of virtually any shotgun.
- Mounts easily with no gunsmithing required.
- Fits all Browning shotguns with vent ribs.
SCOPE MOUNTS

DISCOVER BROWNING’S INTEGRATED SCOPE MOUNT SYSTEM.

Our Integrated Scope Mount System eliminates alignment problems and the possibility of a loose connection between the base and ring. The ring and base become a single, ultra-rigid unit machined from 7000 series aluminum alloy and are available in .400” Standard height, .500” Intermediate height and .600” High height versions to fit many popular Browning firearms.

SCOPES

SCOPE BASES

Browning scope bases are machined from solid steel. Double recoil shoulder design holds rings securely, even under magnum recoil. T-Bolt two-piece and SA-22 one-piece bases are alloy and are only compatible with Browning rimfire rings (Code 12365). These bases are only compatible with Browning scope rings listed below.

SCOPE RINGS

Ultra-rigid vertically split rings use oversize hardware for extra strength and ease of installation. Standard, Intermediate and High rings are available for both 1” and 30mm diameter scopes. Compatible with the two-piece scope bases for A-Bolt, BAR, BLR and the X-Lock bases for X-Bolt rifles listed at left. T-Bolt and SA-22 mounts use rimfire rings. Rimfire rings do not have Buckmark engraving.

WEAVER-STYLE SCOPE BASES

Browning one- and two-piece Weaver-style scope bases are machined from aircraft grade alloy. X-Bolt bases feature a four screw per base mounting platform for a secure fit. Compatible with Browning Weaver-style scope rings listed at right. BLR Takedown bases are Weaver-type, one-piece scout-style bases for forward mounting a long eye-relief scope. Maxus, Gold, Silver, BPS, Buck Mark two-piece bases and BLR Takedown one-piece bases are Weaver-style and not compatible with the Browning rings listed above.

WEAVER-STYLE SCOPE RINGS

Standard, Intermediate and High rings are available for both 1” and 30mm diameter scopes. Compatible with the one- and two-piece Weaver-style scope bases for AB3, A-Bolt, X-Bolt, BLR and Buck Mark rifles, and for Maxus, Gold, Silver shotguns as listed at left. Weaver-style rings will fit most Picatinny bases.

BASES AND RINGS
MOA MODULAR SHOOTING REST SET
Ballistic nylon construction • Four modular components allow you to quickly configure the rest for ideal height • Polymer pellet fill in top and bottom modules allow for easy repositioning and provide a solid rest • Foam filled height adjustment modules absorb recoil and vibration • Hook and loop panels quickly lock modules together • Long V-shaped trough in top module holds rifle or shotgun forearm securely • Will not mar delicate surfaces • Web carry strap • 11” W x 11” H x 7-1/2” D

MOA UTILITY SHOOTING REST
Ballistic nylon construction • Rubberized top and bottom to hold both gun and bag in place while shooting • Polymer pellet fill allows for easy repositioning and provides a solid rest • Perfect for sighting-in rifles or handguns or when patternning shotguns • 11” W x 7-1/2” H x 6-1/2” D

MOA WINDOW MOUNT
Ballistic nylon construction • Rubberized top and bottom to hold both gun and bag in place while shooting • Polymer pellet fill allows for easy repositioning and provides a solid rest • Polymer filled wings provide a stable position in a shooting house window frames • V-frame rest provides a solid platform to support firearm without lateral movement • 6-3/4” W x 10-1/2” H x 3-1/4” D

MOA RAIL REST
Ballistic nylon construction • Rubberized top holds gun in place while shooting • V-shaped ears provide a solid platform to support your firearm without lateral movement • Polymer pellet fill allows for easy repositioning and provides a solid rest • Filled lower pouches with retaining buckle fit easily over most treestand top rails to provide a more stable shooting position • Bag may be easily shifted along the treestand rail to quickly align firearm with the target • 6-3/4” W x 10-1/2” H x 3-1/4” D

MOA TWO-PIECE SHOOTING REST
Ballistic nylon construction • Rubberized top and bottom to hold both gun and bag in place while shooting • Polymer pellet fill allows for easy repositioning and provides a solid rest • D-ring and snap hook keep bags together while storing • Heel/toe design provides stable shooting platform • Front Rest 7” W x 7-1/2” H x 6” D Rear Rest 5-1/2” W x 5” H x 5” D

CODE MSRP
129104 84.99
129100 54.99
129103 44.99
129101 44.99
129105 44.99
FINE-TUNE YOUR ACCURACY AT FULL POWER WITH THE BROWNING BOSS.

Extracting maximum accuracy from your rifle is the name of the game. Historically that meant finding a factory load that gave acceptable accuracy, or developing custom handloads that offered great accuracy, but often at less than maximum velocity. Eliminate this expensive and time-consuming process with the Browning BOSS. Select the right ammo for that important hunt or long-range match. Then dial up maximum accuracy for the load on the BOSS. Now you can have outstanding accuracy without sacrificing maximum velocity or downrange stopping power.

BOSS-CR ACCESSORY

The BOSS-CR accessory offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature. By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, non-ported BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed.

The BOSS-CR accessory is designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.

GLOSS BLUED
for BAR Safari; A-Bolt models: Medallion and Gold Medallion

MATTE BLUED
for A-Bolt models: Composite Stalker, Hunter, Euro-Bolt, Varmint, Eclipse Hunter and M-1000 Eclipse

STAINLESS
for A-Bolt models: Stainless Stalker, White Gold, Medallion and M-1000 Eclipse

IT IS IMPORTANT THAT THE CORRECT BOSS-CR BE SELECTED FOR A SPECIFIC CALIBER AND MODEL OF RIFLE.

EASY SPOT PAPER TARGETS

High-visibility 12” x 12” paper targets produce a high-contrast halo around each bullet hole that’s 2-3 times the size of the hole itself • Makes spotting shot holes easy, even without a spotting scope • Works with any cartridge at any distance • Target sheets are self-adhesive for easy application to almost any surface • Includes color matched bullet hole repair pasters to help extend the life of the target • 6 target sheets per package
HEARING PROTECTION

**CADENCE ELECTRONIC HEARING PROTECTOR**
Omnidirectional microphone amplifies ambient sound
• Amplification cuts off when noise reaches harmful levels above 82dB
• Adjustable volume control
• Textured headband with soft cushion
• Low profile, compact earcup design
• Requires two AAA batteries (not included)
• 24dB NRR passive protection
• Meets ANSI S3.19 standards

**CODE** | **MSRP**
--- | ---
12690 | 64.99

**HDR HEARING PROTECTOR**
Our best earmuff provides a noise reduction rating of 37dB
• Soft, comfortable foam earcups
• Padded and adjustable headband

**CODE** | **MSRP**
--- | ---
12699 | 44.99

**JUNIOR BUCKMARK HEARING PROTECTOR**
Adjustable-fit earmuff with padded headband for added comfort
• Meets ANSI S3.19 noise reduction standards
• Reduced size to better fit smaller heads
• Light weight makes them ideal for all day wear
• NRR 19dB
• High Visibility Green color

**CODE** | **MSRP**
--- | ---
126372 | 24.99

**BUCKMARK II HEARING PROTECTOR**
Pick the color or pattern on earcups for a great look with any gun or gear
• Soft, comfortable foam earcups
• Foldable padded headband
• Meets ANSI S3.19 noise reduction standards
• NRR 26dB

EYE PROTECTION + HEARING PROTECTION

GOT YOUR EYES AND EARS? WITH SOUND SHIELD, THE ANSWER IS YES.

Browning’s Sound Shield offers a unique solution to the everyday problem of fumbling around to find individual earplugs when you’re at the range or working around the shop. The cap on the end of each earpiece instantly pops open to reveal a soft, comfortable polymer earplug on a retractable cord. When you’re finished, they slip right back into their compartment where they stay clean. No more poking around in pockets, shell pouches or gear bags for individual foam earplugs.

SOUND SHIELD
• Tall lens profile and frameless design help eliminate visual distractions and blind spots
• Choice of yellow or lightly tinted indoor/outdoor lens
• Lenses exceed ANSI Z87.1 impact standards
• Soft rubber standoff nosepiece reduces slipping and fogging
• Color accented rubberized temples help prevent slipping in hot or humid conditions
• End of each earpiece opens to release a corded retractable earplug
• Earplugs have an NRR of 25dB
• Earplugs are washable and replaceable

DESCRIPTION(COLOR) CODE MSRP
A Men’s, Yellow 12744 29.99
B Men’s, Indoor/Outdoor 12743 29.99
C For Her, Indoor/Outdoor, Fuchsia 12745 29.99
D Replacement Earplugs (12 Pack) 12749 19.99

Sound Shield is the perfect solution to the problem of having to search for both eye and ear protection items in a crowded shooting gear bag.

The end of each earpiece opens to release a corded retractable earplug, so you never have to fumble in your pocket or pouch for earplugs.

User-replaceable earplugs have a noise reduction rating of 25dB.

Sound Shield eyewear offers a full wrap lens design that helps eliminate blind spots or target blocking sometimes found on center-frame designs.
ON-POINT SHOOTING GLASSES
High-grade wrap-around lenses exceed ANSI Z87.1 impact standards • Lens profile offers a wide field of vision • Matte black frame with color accents • Adjustable nosepiece ensures a secure fit for virtually every facial shape • Vented temples with flexible tips and lanyard eyelets • Extreme styling for versatile wear • Also provides great protection when working in the yard, garage or shop • Microfiber storage bag included (not shown)

X-BOLT RIFLE MAGAZINES
Detachable rotary magazine constructed from a durable lightweight polymer • Feeds cartridges directly in line with the bolt, instead of offset as with traditional leaf-spring magazines for a straight path right into the chamber • Ergonomic magazine-mounted release • Magnum caliber holds three cartridges • Standard caliber holds four cartridges • Unique design holds U.S. patent numbers: 8,156,675; 8,484,875 and 8,745,912 • Also available with a Burnt Bronze Cerakote (BBCK) finish

T-BOLT RIFLE MAGAZINES
10-round capacity • Metal and polymer body • The patented Double Helix rotary box magazine uses torsion spring-driven interlocking gears for added reliability • Easy loading and unloading • Cartridges shown not included

1911-380 MAGAZINE • 1911-22 MAGAZINE
8-round detachable box magazine for the 1911-380 • 10-round detachable box magazine for the 1911-22 • Heat treated steel body for long life • Steel coil spring for maximum feeding reliability with all types of factory ammunition including modern defensive hollowpoints

BUCK MARK RIFLE AND PISTOL MAGAZINE
10-round detachable box magazine • Heat treated steel body for long life • Steel coil spring for maximum feeding reliability • Fits both Buck Mark pistols and rifles

HI POWER PISTOL MAGAZINES
Double-stack magazine design • Available in 13-round or 10-round capacity
CHOKE POINTS — HOW TO SELECT THE RIGHT CHOKE TUBE.

Selecting the right choke tube for a specific hunting situation or a challenging target presentation is the key to making a successful shot. Here’s important information that will help you make the best choice from the wide selection of Browning choke tubes. Choose from Extra-Full constrictions for turkey, coyote and goose hunters to pattern-spreading Timber n’ Teal tubes for close-in flooded timber waterfowling. You can trust that every Browning choke tube is made to exacting standards to provide a perfect, dense and even shot pattern and many years of dependable service.

FEATURES AND BENEFITS

INVECTOR-DS CHOKE SYSTEM
- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradual taper that produces extremely consistent, dense shot patterns that tighten consistently in reliable, evenly scaled steps.
- Muzzle threads minimize the flare at the end of the barrel for improved appearance, a faster swing and improved balance.
- A proprietary differential-banded brass seal compresses against the barrel wall when tightened to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- Invector-DS is standard on A5 and Citori 725 models.
- View the full line of Invector-DS choke tubes on pages 179, 181 and 182.

INVECTOR-PLUS CHOKE SYSTEM
- The Invector-Plus interchangeable choke tube system works with Vector Pro and back-boring to offer consistent, dense shot patterns.
- The longer choke taper inside an Invector-Plus choke tube produces consistent patterns and is far more durable than choke systems in competitors’ guns, especially with steel shot.
- Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- See pages 179 through 183 for our complete lineup of choke tubes and choke tube wrenches.

STANDARD INVECTOR
- The Standard Invector interchangeable choke tube system is for Browning’s non back-bored barrels and offers consistent, dense shot patterns. It’s far more durable than the choke systems found in competitors’ guns, especially with steel shot.
- Standard Invector eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel and it’s standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- See pages 179 through 183 for our complete lineup of choke tubes and choke tube wrenches.

INVECTOR-DS CHOKE TUBES VS. COMPETITORS’ CHOKE TUBES
- Invector-DS tubes have even pattern percentage increments, offering just the right pattern for any shooting situation.
- Competitors’ choke tubes show little pattern difference between choke constrictions.

Browning’s Invector choke tube is still flawless after 500 rounds of steel shot.

The competitor’s choke tube is grooved and pitted after shooting 500 rounds of steel shot.
INVECTOR-DS EXTENDED CHOKE TUBES

Extended length tubes are easy to change and add approximately 3/4” to the overall length of the barrel. Proprietary differential banded brass gas seal eliminates residue buildup and makes chokes easy to remove and install. Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke. Gas is controlled at the interface between choke and where it seats in the bore. From Skeet to Full choke, patterns tighten consistently and reliably. Choke tube wrenches are listed on page 183. Flat choke tube wrench is not compatible with Invector-DS choke tubes.

**MIDAS GRADE EXTENDED CHOKE TUBES**

Extends beyond the end of barrel for easy removal and installation. Stainless steel with black oxide finish. Laser-etched gold accent band. Minimum gap geometry plus high-resolution “RMS” finish reduce plastic buildup in bore. Invector-Plus long taper choke tube technology in 12 and 20 gauge. Produces tighter patterns than Browning Invector-Plus flush choke tubes. 28 gauge and .410 bore are Standard Invector chokes. Choke tube wrenches are listed on page 183. Flat choke tube wrench is not compatible with Midas Grade Extended Choke Tubes.

**INVECTOR-DS FLUSH CHOKE TUBES**

Standard tubes fit flush with the end of the barrel but are longer than competitors’ tubes. Proprietary differential banded brass gas seal eliminates residue buildup and makes chokes easy to remove and install. Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke. Gas is controlled at the interface between choke and where it seats in the bore. From Skeet to Full choke, patterns tighten consistently and reliably. Choke tube wrenches are listed on page 183. Flat choke tube wrench is not compatible with Invector-DS choke tubes.

SPECIALTY EXTENDED CHOKE TUBES

Constructed of stainless steel for the ultimate in performance and durability • Knurled portion extends beyond the end of the barrel for easy removal and installation • Full Strut Turkey tube has directional porting, a camo front band and is optimized for tight patterns with #4, #5 and #6 shot sizes • Express Sabot Rifled tube has a red front band and is rifled to produce optimal accuracy from both Foster and sabot slugs • Invector-DS Turkey tube has a black accent band and an extra full constriction for improved long range patterning • Choke tube wrenches are listed on page 183 • Flat choke tube wrench is not compatible with Specialty Extended Choke Tubes

WICKED WING EXTENDED CHOKE TUBES

Invector-Plus Wicked Wing choke tubes are available in three constrictions for close, medium and long range shooting • Specifically designed for steel shot, particularly Winchester® Blind Side® ammunition • Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels • Constructed of 17-4 stainless steel for the ultimate in performance and durability • Long Range tube produces a 70% pattern • Medium Range tube produces a 50% pattern • Close Range tube produces a 30% pattern • Two pack includes both Long and Close Range tubes • Choke tube wrenches are listed on page 183 • Flat choke tube wrench is not compatible with Wicked Wing Extended Choke Tubes

GRAND PASSAGE EXTENDED CHOKE TUBES

Mossy Oak® camo band • Stainless steel with black oxide finish • Superior patterning with steel shot • Threaded for 12 gauge Invector-Plus back-bored barrels only • Produces tighter patterns than Browning Invector-Plus flush choke tubes • Timber n' Teal model is helically spun to spin shot, making it excellent for tight timber, teal and close range shooting • Choke tube wrenches are listed on page 183 • Flat choke tube wrench is not compatible with Grand Passage Extended Choke Tubes

* Helically rifled to spin the shot charges and spread the pattern
**INVECTOR-PLUS CHOKE TUBES**

- Available in constrictions ranging from Cylinder to Extra-Full
- Longer choke taper inside
- Invector-Plus tubes for use with back-bored barrels
- Produces excellent patterns with uniform densities
- Made to industry constriction standards
- Flush fit tubes do not extend beyond end of barrel (Except X-Full Turkey and X-Full Trap models)
- Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability
- Choke tube wrenches are listed on page 183

**STANDARD INVECTOR CHOKE TUBES**

- Available in constrictions ranging from Cylinder to Extra-Full
- Produces excellent patterns with uniform densities
- Made to industry constriction standards
- Flush fit tubes do not extend beyond end of barrel (Except X-Full Trap and X-Full Turkey models)
- Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability
- Choke tube wrenches are listed on page 183

**CHOKE TUBES**

**GOOSE BAND EXTENDED CHOKE TUBES**

- Polished stainless steel constriction with waterfowl leg band motif
- Identical to the factory Invector-DS choke tubes included with the Wicked Wing A5 and the factory Invector-Plus choke tubes included with the Wicked Wing Maxus
- Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus back-bored barrels only
- Choke tube wrenches are listed on page 183

THE FASTEST BLADES ARE IN BROWNING’S SPEED LOAD SERIES.

With a Browning Speed Load in your hand, you’re holding some serious cutting edge knife technology. Its innovative patent-pending quick change blade design, versatile performance and great looks make Speed Load knives and saws the must-have cutting tools for 2018.

FEATURING AND BENEFITS

SECURE BLADE LOCK 1
- The Speed Load blade lock is the essence of simplicity. Just press in on the release button while pressing down on the back of the blade spine and lift the blade up and out of the frame.
- Insert a new blade by reversing the process and making sure the release button fully engages the slot in the blade.
- Folding blade models have a rugged liner lock that keeps the blade securely in position when open.

TASK-SPECIFIC BLADES 2
- Speed Load blades come in a variety of blade profiles, contours and edge treatments. Just pick the blade that best suits the cutting task at hand.
- Speed Load knives are available in your choice of stainless steel or ceramic blade models.
- The Speed Load Tactical and Hunting models also accept standard utility knife blades that are readily available in any hardware store or home improvement center.
- Blades are not interchangeable between all models.

COMFORTABLE GRIP 3
- Speed Load knives are offered with a variety of handle materials including G-10 laminate and rugged injection molding composites with soft rubber inserts for improved grip.
- The handle’s grip is further improved by adding attractive sculpting and texture patterns to help prevent slipping, even when wet.

BLADE STORAGE 4
- The Speed Load Tactical, Hunting and Fixed Blade knives and the Speed Load Saw come with rugged nylon belt sheaths that help keep the knife secure and provide a hard polymer insert case for storage of additional blades.

SPEED LOAD REPLACEMENT BLADES
Replaceable high carbon steel, stainless steel or ceramic blades for Speed Load knives and saws • Choose from single saw blades, multi-blade variety packs and bulk packs • Bulk pack contains 50 drop point blades (Style B) and 5 blade storage boxes for sheath • Blades are not interchangeable between all models

FEATURES: Anti-skid grooves on blade spine • Mossy Oak® Break-Up Infinity®

BROWNING FOR HER
TYPE: Folding locking liner
BLADE: Swedish Sandvik® 12C27 stainless steel
HANDLE: Aluminum with pink camo and Dura-Touch Armor Coating • Anodized aluminum bolsters
FEATURES: Rugged nylon sheath and pocket clip

TAKING THE SHORT CUT THROUGH HELL'S CANYON.
Our Hell's Canyon knife embodies everything a rugged, no-nonsense hunting knife should be. With outstanding balance and real heft, they deliver a precise, smooth cut and make quick work of any hellacious field dressing, caping or skinning chore. When it says Browning Hell's Canyon on the blade, you know you're working with one helluva knife.
TWO DISTINCTIVE KNIVES YOU’VE BEEN HUNTING FOR.
All too many of today’s knives are ho-hum, me-too designs that lack any flavor, personality or style. Not so with this pair of beauties. Crafted with mirror polished blades and fitted with scales made from two distinctive and contrasting varieties of hardwoods accented with a brass Buckmark, they’ll turn heads every time they come out of a pocket or sheath.

BUCKMARK HUNTER FOLDER
TYPE: Folding drop point
BLADE: Mirror polished 8Cr14MoV stainless steel • Anti-slip grooves on blade spine
HANDLE: Two-tone hardwood handle scales with flush fit brass accents and pins • Brass Buckmark inlay

LIKE A GOOD DOG, THESE KNIVES WILL HUNT.

Regardless of what game you pursue, once it’s on the ground, a reliable, well-balanced knife becomes essential for field dressing. Browning knives excel at these demanding game preparation tasks, and will accomplish them with ease.

HAVING A GOOD KNIFE IS A CRITICAL PART OF GOOD TACTICS.

In the real world, there is no substitute for good planning, proper preparation, situational awareness, action instead of reaction and having the right tools readily at hand. That’s why we created Black Label Tactical Blades — cutting edge tools to accomplish the mission.

RARE AND TIMELESS TUSKS GLORIFY THESE BROWNING KNIVES.

For eons woolly mammoths ranged across Africa, Europe, Asia and North America. These giants became extinct near the end of the last Ice Age, and in time their tusks, teeth and bones were covered by sediments, thus protecting them from decay. Over millennia dissolved minerals replaced these animal tissues to become the fossils from which these unique handles are crafted. These magnificent knives are made in Italy, with the handles made in the USA.

VISUAL EFFECTS MAMMOTH

**TYPE** Folding liner lock **BLADE** Hollow ground, mirror polished 440C stainless steel • Ambidextrous thumb stud **HANDLE** Highly polished petrified mammoth tusk or tooth **FEATURES** By using genuine prehistoric materials each knife becomes a unique work of the knifemaking arts • Mirror polished stainless steel bolster • Steel pocket clip

LOOK SHARP OUT THERE.
In days gone by, a true gentleman carried a fine knife in his pocket or belt pouch for chores like trimming the point on a goose quill pen before he signed an important document. While today’s personal digital device has replaced the old quill pen, nothing will ever replace the pure satisfaction of owning and carrying an absolutely exquisite folding knife.

SECOND CHANCE
TYPE Folding lock back
BLADE Hollow ground Damascus steel
HANDLE Ebony or Zebrawood with stag horn bolster accent
FEATURES Flush finish handle hardware

STORM FRONT DAMASCUS

Laser Etched Blade
Laminated Hardwood Scales
EVERYDAY CARRY
KNIVES

YOU’LL WANT TO CARRY A HANDY BROWNING KNIFE 24-7-365.

Mention “everyday carry” in the context of pocket knives and you’ll get 100 different thoughts from 100 people. For some carrying a knife is a matter of patriotism, pride and tradition, and for others simply a handy tool. And for others it brings greater peace of mind to have a little something extra in their pocket. If you carry a knife day-in and day-out, make sure it says Browning on the side.

EDC CAMO (EVERYDAY CAMO)

LIGHTS

BLACKOUT 3V USB RECHARGEABLE FLASHLIGHT PG. 211

RUCKUS USB RECHARGEABLE LANTERN PG. 210

KINGPIN RECHARGEABLE FLASHLIGHT PG. 212

TRAILMATE RECHARGEABLE KEYCHAIN/CAP LIGHT PG. 211
SELECTING THE BROWNING LIGHT THAT'S RIGHT FOR YOU.

Browning leads the industry in portable battery-powered lighting for hunters and shooters with more than 30 styles in our product line. Here are some bright ideas for picking the best light for your needs.

SIZE, WEIGHT AND POWER

When choosing a light, smaller, brighter and lighter are better. Today's high-output LEDs are so powerful and efficient they achieve the same light output as the old multi-cell C and D lights. The new Trak USB keychain light is no bigger than a magnum pistol cartridge yet it shines with a powerful 121 lumens.

LED VS. XENON BULBS

LEDs are preferred over traditional Xenon bulbs for most uses, thus all of our lights are now LED designs. LEDs use batteries more efficiently, illuminate at greater distances, emit a clean, even beam and will never burn out under normal use. Like most technology, LEDs keep getting better every year. For 2018 several of our lights offer upgraded LEDs with 15% - 250% more output.

HAND-HELD OR HANDS-FREE

Headlamps and cap lights allow the use of both hands for tasks like dressing a deer, fixing a truck or finding a path through the woods. Modern technology makes many headlamps as powerful as larger hand-held flashlights. The Blackout SV headlamp puts out 730 lumens and is brighter than all but four of our Browning hand-held flashlights.

LONG RUN TIME

By using advanced digital circuitry, highly efficient LEDs and low-resistance switches, we are able to offer extra long run times on many lights. Many flashlights and headlamps will run for 20-46 hours on the low setting. The High Noon 3C spotlight will run for 4 days at the low setting. These extended run times could be the difference between getting home safely and spending a night in the woods.

WATERPROOF AND SUBMERSIBLE

Because the great outdoors doesn’t always have great weather, we have redesigned most flashlights to be waterproof and submersible to 3 feet for 30 minutes (ANSI IPX7). Most of our other lights are O-ring sealed for greater water resistance (IPX4). The High Noon LED spotlight is submersible and it floats.

BATTERIES

Lithium batteries are used in many of our highest-performing lights, such as the Kingpin, Blackout SV and High Noon Rechargeable spotlight. Lithium batteries pack twice the power of alkaline batteries for their weight, and operate well at very cold temperatures. Other lights in the line use AA and AAA alkaline batteries because they cost less than lithium and are readily available anywhere in the world. The latest lithium-ion (Li-ion) rechargeable batteries in the new USB Charge series offer high energy density with no memory effect and minimal power loss during storage.

SWITCH SETTINGS

Multiple switch settings (high, low and in-between) help preserve battery life and allow selection of colors and flashing options. The lock-out switches found on most of our lights keep the light from accidentally turning on in a pack or pocket. A disorienting Fast Strobe setting is available on some of our lights, and it has proven useful for self-protection and for signaling during an emergency.

RED, GREEN AND BLUE LEDS

Colored LEDs help preserve night vision and are great for map reading. They are less obvious than white light to many types of game animals.

ANSI FL 1 FLASHLIGHT PERFORMANCE STANDARDS

We proudly participate in the ANSI FL 1 flashlight performance standards for measuring and stating performance claims for all portable lights. This includes Brightness (Lumens), Distance, Run Time, Water Resistance and Impact Resistance. FL 1 provides the only reliable apples-to-apples comparison between models and is used by most major manufacturers. Look for these FL 1 symbols on our light packaging.*

LUMENS = BRIGHTNESS

The output of a traditional 2D cell flashlight is approximately 15 - 20 lumens. The latest LED flashlights can have an output of more than 3500 lumens.

BATTERY LIFE

Battery Life (Run Time) is defined as the time elapsed from when the batteries are new to when the light reaches 10% of the original brightness.

MAXIMUM DISTANCE

Maximum Distance is calculated as the distance from the light source to where it decreases in brightness to 0.25 lux -- about the brightness of the full moon on a clear night.

WATER RESISTANCE

Water Resistance (FL 1 Standard IPX4) is tested by spraying water onto the light from multiple directions. This simulates a heavy, all-day rain.

IMPACT RESISTANCE

Impact Resistance (FL 1 Standard IM) measures how well the light resists damage when dropped repeatedly from a height of 1 meter (about 39”) onto concrete.

* On lights with multiple settings, the lumens, battery life and distances are stated at the highest setting (100% power), unless otherwise indicated.
IT'S NOT ANY LIGHT. IT'S A BROWNING LIGHT.

Our lights are designed from the beginning to be the most robust and efficient lights on the market. It starts with basic flashlights and headlamps and moves right up to higher-performance lights including those with the latest USB charging capabilities. If you need a small pocket flashlight or headlamp for everyday use, or prefer a high-output unit capable of throwing a blinding beam for hundreds of yards, Browning is the brilliant brand you should always have in your pocket, purse or pickup.

FEATURES AND BENEFITS

MULTI-MODE OPERATION
• Many of our lights offer a choice of continuous full output, continuous low output and a rapid strobe mode.
• Many models also offer multi-color LEDs for specialized tasks, to extend run times, prevent spooking game animals and preserve night vision.

PUSH-BUTTON TAILCAP SWITCH
• The multi-mode push-button tailcap switch allows partial depression, giving you a quick flash for search or identification, plus a full depression click to provide a continuous beam for task illumination.
• The textured rubber-covered switch prevents finger slippage during activation.
• The rotating lock-out tailcap prevents accidental activation in a pocket or pack, and a quick twist enables the light.

USB RECHARGEABLE
• The USB interface has become the modern standard for recharging portable electronic devices. That’s why we have a complete line of USB compatible lights and power stations.

POWER BANK
• For 2018, in addition to the standard Power Bank Charging Station, there is a “USB power out” feature built into the Skyway flashlight, the Ruckus lantern, the High Noon and High Noon Pro rechargeable spotlights.
• The Browning Power Bank USB charging station is built around a 4400 mAh battery that has plenty of juice to keep all your USB lights and other electronic devices topped off and running at peak performance.

ALL-WEATHER SEALS ON USB PORTS
• The flexible rubber seals on USB charging ports help keep moisture out of your Browning light or power station, preventing damage during rain or snow and from an unexpected splashing.

BUILT-IN USB CHARGERS
• All 15 of our USB charge lights are equipped with built-in chargers. To top off the battery you simply plug your light into a USB port, just like you do with your mobile phone or tablet.
• The indicator light monitors your battery status — red for charging, green for fully charged, and several models have a yellow indicator to remind you it’s time to recharge.

DUAL FUEL OPERATION
• What if you’re out in the woods when your rechargeable battery runs out of power? Seven of our USB charge lights are designed to run on standard single-use AA, C, D or CR123A batteries or on USB rechargeable batteries.

FL 1 1-METER WATERPROOF CERTIFICATION
• The majority of our lights are certified to meet the latest international FL 1 Flashlight Performance Standards to operate after being submerged in 1 meter (about 39”) of water for 30 minutes. It can be a real lifesaver in a water survival situation.

## USB Rechargeable Spotlights and Lanterns

### NEW 2018

#### HIGH NOON USB RECHARGEABLE SPOTLIGHT WITH POWER BANK
- **Length:** 5-3/4”
- **Brightness:** 50 to 915 lumens depending on mode
- **Features:**
  - Powerful white LED that never needs replacing
  - 3000 mAh capacity USB rechargeable Li-ion battery rated for 500 charging cycles
  - Recharges in just 4-5 hours from most AC power sources
  - USB charging port with waterproof cover
  - USB Power Bank design allows charging other USB devices like mobile phones
  - Dual Fuel design allows use of three standard D-cell batteries (not included)
  - Color coded battery status and charging status indicators
  - Waterproof to 33 feet
  - Floats
  - Lock-out switch on handle
  - Rubberized soft touch finish
  - Rugged polycarbonate housing and flexible rubber lens ring
  - Built-in adjustable stand for hands-free use
  - Lanyard included
  - Long run times on high output and low output settings
- **Includes:** USB charging cable

### NEW 2018

#### HIGH NOON PRO USB RECHARGEABLE SPOTLIGHT WITH POWER BANK
- **Length:** 6-3/4”
- **Brightness:** 100 to 1400 lumens depending on mode
- **Features:**
  - Powerful white LED that never needs replacing
  - Modes include full power white light, low power white and emergency strobe
  - 5000 mAh capacity Rechargeable Li-polymer battery is rated for 300 charging cycles
  - Recharges in 5 hours from most AC power sources
  - USB charging port allows the light to be used as a power source for charging other USB electronic devices
  - Dual Fuel design also allows use of one standard CR123A battery (included) as a back up
  - Easy quick access to USB ports through waterproof rubber flap
  - Color coded battery status and charging indicator
  - Ultralight 23 ounce weight
  - Waterproof
  - Submersible to 3 feet for 30 minutes
  - Floats
  - Lock-out switch on handle
  - Rubberized soft touch finish
  - Rugged polycarbonate housing and flexible rubber lens ring
  - Built-in adjustable stand for hands-free use
  - Lanyard included
  - Long run times on high output and low output settings
- **Includes:** USB charging cable

### NEW 2018

#### HIGH NOON USB RECHARGEABLE LANTERN
- **Height:** 7-1/2”
- **Brightness:** Up to 1000 lumens depending on mode
- **Features:**
  - Powerful white LED that never needs replacing
  - Weighs only 23 ounces
  - Rugged polymer design with rubberized coating and on/off switches
  - Modes include full power white light, warm area light, stealth green and emergency strobe
  - Li-ion battery is rated for 500 charging cycles
  - Recharges in just 4-5 hours from most AC power sources
  - USB charging port with waterproof cover
  - USB Power Bank design allows charging other USB devices like mobile phones
  - Dual Fuel design allows use of three standard D-cell batteries (not included)
  - Color coded battery status and charging status indicators
  - Waterproof to 33 feet
  - Floats
  - Holds a battery charge for 1.5 years, making it ideal for long-term storage
  - Drop tested from 16 feet without functional damage
- **Includes:** USB charging cable

USB RECHARGEABLE LIGHTS

LIGHT UP THE NIGHT, OVER AND OVER AGAIN.

Everyone wants the brightest lights available for their late night tasks. The downside is always buying new batteries. Rechargeable individual batteries are a partial solution, but then you have to buy an external charger and a spare set of batteries or two to keep in the charger and swap them out. With Browning USB rechargeables you just plug the whole light in between uses and they will always begin at 100% brightness and be ready to go when you need them. And you can always top off your other USB devices from specific models of Browning lights.

NEW 2018
BLACKOUT 3V USB RECHARGEABLE FLASHLIGHT
LENGTH 4" BRIGHTNESS 700 lumens MAXIMUM DISTANCE 215 yards FEATURES Powerful white LED that never needs replacing • Turbo 1 hour, high 1.5 hour and low 12 hour white light output modes • 16340 Li-ion battery has built-in USB charging port • Rated for 300 charging cycles • Color coded battery charging indicator • Dual Fuel design also allows use of one standard CR123A battery (not included) as an alternate power source • Lock-out tailcap switch with momentary and continuous modes • Non-slip ribbed body • Pocket clip • All-aluminum body construction • Waterproof • Submersible to 3 feet for 30 minutes • Drop tested from 1 meter (about 39") • Includes USB charging cable

TRAK 1 AAA FLASHLIGHT/CAP LIGHT
Length: 3" Brightness: 101 lumens Maximum Distance: 44 yards
Features: One of the smallest and brightest 1 AAA lights ever • Powerful white LED that never needs replacing • High 45 minute and low 4.5 hour white light output modes • Uses 1 AAA battery (included)
• Tailcap switch with momentary and continuous modes • Rotate head 1/4 turn to lock-out battery connection • Trak cap clip • All-aluminum body construction with polycarbonate lens • Waterproof • Submersible to 3 feet for 30 minutes • Drop tested from 2 meters

GET YOUR HEAD IN THE GAME.

Many outdoor tasks such as reading a map and compass or field dressing a deer require that you have both hands free. Since at least half of every day happens at night, having a quality Browning headlamp or cap light means that you don’t have to choose between being able to see what you’re doing and having both hands free to do it.

BLACKOUT 6V HEADLAMP
BRIGHTNESS: 35 to 730 lumens
MAXIMUM DISTANCE: 40 to 185 yards
FEATURES:
- Powerful white LED never needs replacing
- Three brightness settings plus soft green LED for stealth, safety, and better night vision
- Silent Tilt Hinge for added stealth
- Soft rubber headplate for added comfort
- Ultra tough anodized all-aluminum body construction
- Waterproof
- Submersible to 3 feet for 30 minutes
- Drop tested from 1 meter
- Incredible 48 hour run time on low output
- Uses two CR123A batteries (included)

EPIC
BRIGHTNESS: 55 or 225 lumens
MAXIMUM DISTANCE: 22 or 100 yards
FEATURES:
- Single battery power source
- Rugged matte black polymer body with Vista® or A-TACS camo® front
- LED life of 100,000 hours
- Low-profile lamphead design
- Soft elastomer headplate for added comfort
- Silent Tilt angle adjustment allows beam to be moved up or down
- 1AA Model uses two white LEDs to produce 20 lumens for general use around camp
- Two green LEDs provide stealth and maintain user’s night vision
- Hold down switch for 3 seconds to activate fast strobe with white LEDs
- 3V model has super-bright white LED producing 225 lumens that reaches out to 100 yards
- Two lower output white LEDs are ideal for general use around camp
- Two green LEDs offer stealth and maintain user’s night vision
- Both models are water-resistant

MAXUS
BRIGHTNESS: 200 lumens
MAXIMUM DISTANCE: 70 yards
FEATURES:
- Zoom lever adjusts the focus of the main LED from spot to flood
- Powerful LED puts out 200 lumens for an effective range of 70 yards
- Three light output levels (high, medium, low) and flash mode
- Two green and two red LEDs offer maximum stealth, safety and help maintain user’s night vision
- Maximum run time on low of 48 hours
- Memory switch returns to the most recent setting when the light is turned on
- Black front panel with charcoal accents

NITRO
BRIGHTNESS: 255 lumens
MAXIMUM DISTANCE: 150 yards
FEATURES:
- Advanced digital circuitry delivers maximum light output using a single CR123A lithium battery
- Powerful white LED plus two red and two green LEDs are rated for 100,000 hour service life
- Lock-out switch with settings for high and low output
- Battery operates to -40° F
- Glass-fiber reinforced polycarbonate housing with aluminum lens ring
- Silent Hinge minimizes unwanted noise
- Body and headstrap in Vista® camo

Innovation in the outdoor clothing industry moves at a rapid pace, and if you aren’t paying attention to the changes in technology, it’s easy to get left in the dust. From our earliest days selling clothing made from then cutting-edge materials like down, oiled canvas, and wool, we’ve recognized this fact and moved swiftly to develop new products that keep us ahead of the competition. Fortunately, gone are most of the natural products from the old days, replaced by man-made creations that are lighter, warmer, more durable, more weather resistant and all-round more comfortable.

We are at the forefront of the clothing field, with a host of new styles and technology. Fast-moving Hell’s Canyon Speed sees the biggest improvements with the addition of proven Gore® technologies. Gore has led the outdoor industry in water/windproof, breathable protection for decades, and the addition of Gore-Tex® and Windstopper® will elevate Hell’s Canyon Speed to the next level of backcountry performance.

Hell’s Canyon also sees its share of improvements to make this superb lineup the best performing, fitting and looking that it’s ever been. Legendary Wasatch features a new, lighter weight cotton fabric that will appeal to bow hunters and anyone looking for durable gear for warm weather.

The Best There Is in outdoor clothing is among these pages. Welcome to 2018.
APPAREL GORE® TECHNOLOGIES

THE BEST THERE IS — NOW BETTER WITH GORE.

For nearly 50 years Gore® has been in the business of keeping active people warm, dry and comfortable in the outdoors. Gore technologies have passed the test at every corner of the globe, from Himalayan mountain peaks to Amazon jungles; from the North Pole to the South, adventurers have put their faith and success in Gore products.

For 2018, Browning is partnering with Gore to increase the performance of the overhauled Hell’s Canyon Speed technical outerwear line, making it the very best gear that hunters can buy. The improved waterproof and windproof properties of Gore-Tex® will better protect hunters from the extreme and unpredictable elements that often occur in the backcountry. Of course, the hallmark of Gore-Tex is the enhanced breathability of the membrane, which speaks directly to the highly mobile, athletic nature of Hell’s Canyon Speed and to the hard core hunters for whom it is tailored.

Flip through these pages to view all of the killer new Hell’s Canyon Speed clothing styles featuring Gore fabric technologies.

FEATURES AND BENEFITS

PRODUCT ENGINEERED WITH 3-LAYER GORE-TEX® TECHNOLOGY

- The Gore-Tex® membrane is bonded to both the outer material and the inner lining.
- Zero movement between the layers reduces wear and tear for greater durability.
- Reduces excess bulk and weight to a minimum.
- Provides breathable comfort and durable waterproof and windproof protection over a wide range of outdoor activities.

PRODUCT ENGINEERED WITH 2-LAYER GORE-TEX® TECHNOLOGY

- The Gore-Tex® membrane is bonded to the outer material and protected on the inside by a separate lining.
- The separate lining inside ensures comfort, freedom of motion and versatility.
- Provides breathable comfort and durable waterproof and windproof protection over a wide range of outdoor activities.

HOW DOES GORE-TEX® WORK?

- The Gore-Tex® membrane is an extremely thin layer of expanded polytetrafluoroethylene (ePTFE) with over 9 billion pores per square inch. The pores in the Gore-Tex membrane are too small to allow water droplets and wind to pass through.
- The pores are, however, large enough to “breathe,” allowing moisture vapor from evaporating perspiration to pass through the membrane.
- With Gore-Tex, you are protected from the elements and your own perspiration, even when hiking. Because your skin stays dry, even under exertion, you stay warm and comfortable.
- This breathable comfort and durable waterproof and windproof protection is perfect for hunters of all activity levels.

- Every stitch is a potential leak, that is why every seam in Browning Gore-Tex garments is taped.
- Every Browning Hell’s Canyon Speed piece not only meets our standards, they meet the standards of Gore. All new Gore-Tex product prototypes are put through a battery of tests in Gore labs. Only if they meet their strict weatherproof performance standards are they approved for production.
- And with Gore-Tex, it isn’t just about short-term waterproofness; there is an emphasis on the long-term durability and protection you get from the fabric. Gore-Tex is designed to effectively deliver the goods, keeping you dry and warm for many years to come.

THE GORE RAIN ROOM

The Gore Rain Room is more impressive than it may sound. This two-storm room can mimic nearly any style of precipitation, with water plunging from the ceiling and also from ports in the walls.

To meet the minimum rain rating, a garment must bear 30 minutes of rain at a rate of 3” per hour.

To earn the maximum storm rating, garments must withstand 60 minutes of rain at a monsoonal rate of 22” per hour. If a garment has a weakness to water, the Rain Room is sure to expose it.

Browning Gore-Tex garments pass the rigors of the Rain Room with flying colors.
THE GORE® ENVIRONMENTAL CHAMBER.

- The Gore® Environmental Chamber is a state-of-the-art testing laboratory that is capable of recreating between 85 to 95 percent of the environments on the earth’s surface.
- The range of conditions is achieved through accurate control of temperature (-50°C to +50°C), relative humidity (5-98%), wind speed (0-10 m/s), and natural solar radiation (0-1100 W/m²) that can replicate a complete solar cycle from sunrise to sunset.
- This high-tech room allows Gore to evaluate the performance of its products in a variety of conditions and collect data on the protection provided and comfort of the wearer.
- As the wearer exercises and begins to perspire, wind speed and temperature can be adjusted to check for the windproofness and breathability of the fabric.

TOTAL WINDPROOFNESS. MAXIMUM BREATHABILITY.

- Garments made with Gore® Windstopper® are totally windproof and deliver maximum breathability to keep you comfortable in cool and windy conditions.
- The Windstopper membrane blocks the wind and allows moisture vapor from perspiration to escape. This combination of protection and breathability minimizes the wind’s chilling effect while reducing the risk of overheating when you are active.
- A durable outer fabric treatment (DWR*) provides you with the additional protection of water repellency.

RIGOROUS PRODUCT TESTING.

A battery of laboratory tests have been developed to ensure that products that wear the Gore® name are up to their standards. Manufacturers using Gore technologies, like Browning, are required to send samples to Gore labs where they are put through the ringer, literally, guaranteeing that survival indoors translates into dry comfort outdoors.

FLEX TESTING

The Gelbo Flex test is designed to check how well a fabric will perform in high stress areas such as the knee and elbow. Repeat motion checks for holes, cracking and excessive wear of the fabric.

TOUGHNESS TESTING

Our fabrics undergo the Martindale Abrasion test that measures the abrasion resistance of the fabric. The Puncture, Propagation and Tear (PPT) test measures how resistant the fabric is to penetration by sharp objects and how the fabric reacts if compromised.

BREATHABILITY TESTING

The Moisture Vapor Transfer Rate test measures breathability. Body temperature water is separated by a Gore-Tex® membrane. A cup with a Potassium Acetate salt solution is placed on the membrane. The cup is weighed before and after the test to determine how much water vapor passes through the membrane.

WASHING MACHINE TESTING

Washing clothing usually wears it out faster than wearing it does. Rows of washing machines, without timed cycles, stress Gore® products and enable longevity testing. They also confirm that normal washing won’t result in decreased performance.
**BROWNING SIZING CHART**

1. **SLEEVE**
   Starting from the center of the back of the neck, measure along the shoulder and down the elbow to the wrist bone.

2. **CHEST**
   Measure under the armpits, around the widest part of the chest and shoulder blades.

3. **WAIST**
   Measure around the waist where pants are normally worn. Tape should be a little loose, enough to get one finger between the tape and the body.

4. **INSEAM**
   While standing, measure from the crotch to the point pants normally end. This should be approximately at the top of the shoe and just above the heel in the back.

5. **GLOVE**
   Close hand slightly and measure around the knuckles, excluding thumb.

---

**Built for agile hunters. Trim dimensions eliminate extra bulk and weight. Tough, stretchable fabrics maximize mobility.**

**A traditional, full cut fit that offers maximum freedom of movement and comfortably fits a wider range of hunters.**

**Tailored specifically to fit the shape and needs of today's huntress.**

**Sized to easily fit the needs of active kids with full cut comfort.**
THE BEST THERE IS FOR HUNTERS.

At Browning, we take pride in being at the forefront of clothing development for hunters. From the most cutting edge camo patterns, to the finest in waterproof/breathable technology, to the warmest insulations, we utilize the best technology our partners have to offer to improve your outdoor experiences.

3-LAYER PRE-VENT FABRIC TECHNOLOGY

- Many of Browning’s clothing products feature 3-Layer Pre-Vent fabric. Once you experience the comfort and quiet of this fabrication for yourself, everything else is just something less.
- The outer layer is a quiet, tightly woven soft shell that reduces snagging on branches and brush to help minimize game-spooking noise. This fabric creates a soft drape that looks good and feels great in all conditions.
- Bonded to the outer layer is a membrane layer that is breathable, yet remains windproof and highly water-resistant to keep out rain, snow and wind while breathing away perspiration to keep you warmer and drier.
- An embossed tricot lining adds warmth without extra bulk.

HARNESS ACCESS

- Select Browning outerwear offers convenient Harness Access.
- Allows a treestand safety harness to be comfortably worn underneath a parka or jacket.
- Improves concealment as the harness does not interfere with the camouflage pattern on the garment.

RUGGED SLIDER BUTTONS

- These large, low-profile buttons are easy to fasten and undo, even in cold, wet conditions.
- Unlike buttons that are simply sewn on, the Slider Button is held in place by a durable loop of webbing that laces through two slots and is then securely sewn right into the seam. This military-style button is more secure.
- These durable buttons won’t come off in the laundry or in the field.

SILENTSNAPS

- Browning’s SilentSnaps use a quiet polymer interface that won’t spook game, yet are easy to use in any condition.

ADVANCED SCENT CONTROL

- Outwitting the keen noses of easily spooked game in order to close in on a perfect shot is a challenge every hunter faces. ADVANCED Scent Control is the next generation of odor management technology and changes this critical aspect of hunting to put the odds in your favor.
- Attacks the bacteria that causes human odors.
- Captures and degrades human scent before it escapes into the environment.
- Lasts for the life of the garment.

PRIMALOFT® INSULATION

- PrimaLoft is a premium performance insulation that is engineered for superior warmth, water-resistance, loft and compressibility.
- PrimaLoft has the best warmth-to-weight ratio in the industry. The fibers are more densely packed and retain heat better than other insulations for improved thermal efficiency.
- Water-resistant PrimaLoft fibers are permanently treated to repel water and prevent absorption, making PrimaLoft faster drying than other synthetic insulations.
- The fine-fiber, high-loft insulation keeps you warmer in extreme conditions, even if it gets wet.
- PrimaLoft is the choice of the U.S. Military. Over 1,000,000 PrimaLoft military garments are deployed in active service around the world.

TEMPERATURE/CONDITIONS ICONS

- Browning makes clothing for all weather conditions. Look for the temperature and water resistance icons to determine what garments are best suited to your hunting conditions.

HELL’S CANYON SPEED. KILLER CLOTHING.

Today's backcountry hunters are evolving. For them, hunting has transformed from a sport into a lifestyle. Their preparation for the hunt begins in the gym and on the trails, priming their bodies all year long to handle the stress and effort they’ll encounter later. They pay closer attention to their gear, spending extra time zeroing their rifle at the range and building confidence and skill just in case a longer shot is their only shot. When hunting season finally rolls around, they are ready to work harder, travel farther and move faster than ever before. We build Hell’s Canyon Speed to meet the technical clothing requirements of those willing to go the extra 10 miles to take their trophy.

Hell’s Canyon Speed is, from the ground up, built to satisfy the needs of the modern hardcore backcountry hunter. It’s designed to breathe away sweat and be comfortable, especially when moving. Garment weight has been made a priority with Hero Fit tailoring, whittling away excess material and grams to create a lighter, easier to wear and more fitted silhouette. The fabrics used are hand selected and field tested to ensure that they provide the necessary combination of stretch to maximize mobility, comfort and durability for the long haul, and deliver superior protection from the elements. The addition of Gore® technologies to the 2018 Hell’s Canyon Speed line is proof positive that this gear is ready to take on whatever comes its way.

When you need extreme gear that’s built to take on the toughest country, get your hands on Hell’s Canyon Speed.

Catch Chris Denham and Nate Simmons on Western Hunter TV. This exciting program is committed to educating and entertaining viewers about the unique hunting opportunities available to those who seek trophies in the vast American West. From peaks in the Rockies to the arid desert lands of Arizona, follow along with this pair as they search the wilds for mule deer, elk, antelope and more. Learn more on page 302.
INTRODUCING THE NEW A-TACS TD-X CAMO®, BROWNING’S EXCLUSIVE, NEW HUNTING PATTERN.

The Science of Concealment — Now for hunters.

A-TACS Camo® produces the most effective, versatile camouflage patterns available. Until recently, the majority of their offerings have been in the realm of tactical products for military and law enforcement. That changed in 2015, when they entered into an exclusive deal with Browning to bring their patent pending approach to camouflage development to the hunting market. Now, for the first time, A-TACS and Browning have joined forces to bring The Science of Concealment to hunters with new TD-X camo.

Nearly three years in development, TD-X camo is a part of the new Extreme line of A-TACS patterns. This new design was developed to meet the needs of treestand and deep woods hunters, where the appearance of limb-like features in the pattern helps hunters melt into the tree line.

Unlike traditional “limb and leaf” camo patterns that rely on a realistic image of nature for concealment, TD-X is constructed using the same technology that makes other A-TACS camouflage designs so effective. Beginning with accurate, correctly lit and color-accurate photographs taken in nature, a mathematical algorithm takes the colors and patterns from the photos and re-writes them into abstract shapes comprised of organically-shaped pixels. The organic pixels eliminate the unnaturally angled shapes common in other digital patterns. The end result is a pattern that is highly effective at shorter distances and minimizes the “blobbing” effect that is noticeable at greater distances in other patterns.

Look for new A-TACS TD-X camo on Hell’s Canyon Speed and Women’s and Youth Wasatch clothing.

In 2018 A-TACS AU® and TD-X® camo patterns are available exclusively in Hell’s Canyon Speed as well as the women and youth line of clothing.
RAIN SLAYER-FM GORE-TEX® JACKET
WATERPROOF/BREATHABLE

HELL’S CANYON: DEVILISHLY TOUGH.

Big game hunters looking for gear that is tougher than Hell need look no further than Browning Hell’s Canyon. This year’s Hell’s Canyon lineup is more complete than ever before, from base layers to insulation layers to waterproof shells, we provide the right combination you need for the weather you might encounter on your hunting adventure. It’s even easier to piece together the styles that will ensure your protection from the elements is optimized.

Cool, early fall mornings covering mile after mile hunting elk might easily be handled with just a base layer and AYR-WD jacket and pant. Hunkering down in an icy shooting blind after midwest whitetails might call for base layers and the super-versatile BTU-WD insulated jacket and pant.

In addition to a flurry of new styles, the tailoring of Hell’s Canyon has also been changed to our Regular Fit profile. Regular Fit is made to fit a broader array of body sizes and, when paired with the advanced stretch fabrics used, makes Hell’s Canyon more comfortable than ever.

Even though words like comfortable and tailoring keep popping up, make no mistake that Hell’s Canyon is some of the toughest, most abrasion-resistant gear you’ll find. It has been built to survive where you hunt and keep you warm and dry whether in motion or sitting still.

When you are ready for technical clothing designed to keep you comfortable in any field and in any conditions, your path will lead you to Hell’s Canyon.

HELL’S CANYON® BIG GAME

2018 is the year we herald the return of the most durable and comfortable fieldwear money can buy — Browning Wasatch. From spring turkey to summer dove to fall deer hunts and every trip to the range in between; Wasatch is the basic gear every hunter needs for the majority of their time in the field. Warm weather archers will appreciate the full cut that maximizes range of motion and breathability, plus the comfort of the rugged, lightweight six ounce cotton fabric. As always, Wasatch is built tough to have your back on nearly every adventure.
WASATCH-CB SHIRT
- Lightweight 6 oz. cotton
- Seven-button front with long tails
- Double pleated back for full range of motion
- Button-down collar
- Double-needle side seam construction
- Adjustable button cuffs and longer sleeve plackets for easier roll-up
- Regular Fit

WASATCH-CB PANT
- Lightweight 6 oz. cotton
- Deep front pockets
- Oversized side cargo pockets with flap and button closure
- Drawcord cuffs for snug fit around boots
- Adjustable waist tabs for comfortable fit
- Rear flap button-through pockets
- Regular Fit

EXTRA COMFORT FOR THE LONG HAUL.

Made from durable materials with heavy-duty construction. Browning upland gear is ready for the long haul. Bird’n Lite vests offer the load carrying capacity of a backpack with the look of an upland hunting vest. Like a backpack, the integrated load bearing system evenly distributes weight between the shoulders and hips, and stabilizes the load to reduce fatigue and increase comfort.

**BIRD’N LITE VEST**
- Weight distribution system secures the load
- Rugged cotton/polyester shell fabric
- Blaze shoulder overlays
- Front-loading bloodproof game bag with zip-top opening and load stabilizing strap
- Oversized shell pockets with internal shell loops and snap closures
- Built-in rucksack
- Zipper front
- Transmitter pocket with antenna loop
- REACTAR G2 pad pockets behind each quilted shoulder patch (pad sold separately)
- Lined handwarmer pockets
- Water bottle pockets
- D-rings for accessories
- Available with or without Pheasants Forever embroidery
- License tab
- Regular Fit

**DESCRIPTION** | **CODE** | **MSRP** | **SIZE**

Khaki/Blaze without PF Embroidery | 30068858 | 129.99 | XL/2XL

**APPAREL UPLAND**

- Wide nylon shoulder straps transfer the load to the shoulders; yet still allows you to swing through the bird naturally.
- Quick-release sternum strap helps keep the weight centered between your shoulders for improved balance and less fatigue.
- Fully-adjustable load bearing straps place the load’s center of gravity where it’s most comfortable to carry.
- Ergonomically-contoured, padded adjustable waist belt offers added support to your lower back and allows part of the load to be carried on your hips for greater comfort.
- Quick-release composite buckle allows for quick on and off.
## CROSS COUNTRY UPLAND SHIRT
- 100% polyester fabric moves moisture away from the body
- Blaze or loden overlays and shoulder patch
- REACTAR G2 pad pocket (pad sold separately)
- Angled front pocket
- Regular Fit

PRO STAFF

From world-class shooters to the hardest of the hardcore hunters to unique personalities, the members of the Browning Pro Staff all share a love of the outdoors, the shooting sports and the greatest gun brand in the world. Pro Staff members are chosen for their skill, professionalism and enthusiasm in promoting the Browning brand. Look for these faces at major shooting events and on your television screen.

CHRIS DENHAM, NATE SIMMONS

Chris Denham and Nate Simmons are the hosts of Western Hunter TV, a program committed to teaching and entertaining viewers hunting in the vast expanse of the American West.

Chris brings notable credentials to the program. He is the publisher of Western Hunter Magazine and has spent the better part of 30 years in the hunting industry. As a passionate hunter and guide, he possesses a great deal of knowledge about the region and its game animals. One of his most important endeavors is the group Outdoor Experience 4 All, which helps children with terminal or life-limiting illnesses get into the field on a hunting trip of their own.

Nate Simmons is an accomplished outdoor writer and the producer and co-host of The Western Hunter TV. As a bowhunter, Nate is known to take extreme to a new level with his hardworking, do-it-yourself style.

CHAD GLAUSER

In his younger days, Utah native Chad Glauser spent his time in the backcountry in search of monster deer. Hunting eventually became a big enough passion that, in 2008, he and his wife packed up and moved north to Alaska.

Now Chad spends his time in the field hunting as host of Alaska Outdoors TV. Here he brings viewers along on his adventures, showcasing the bounty and beauty of the Last Frontier.

MIKE CARNEY

Bowhunter TV strives to educate, entertain and demonstrate to viewers how they can become better archers and more effective hunters, and to inspire their print, digital and TV audiences to enjoy bowhunting as a year-round pursuit and family lifestyle.

Host Mike Carney has worked on Bowhunter TV since the program’s inception in 2005. A hardcore equipment junky, Mike loves testing and evaluating bowhunting gear on the program’s popular Tech Talk segment.

Living in Illinois, Mike is a whitetail fanatic with a tremendous understanding of property management. When he isn’t hunting, his fingers are in the dirt, improving the local herd health and potential of the ground he manages.
JASON MATZINGER

Travel Into High Country with TV host Jason Matzinger as he travels across the Western United States on big game hunting adventures. As a Montana native, big mountains come naturally to Jason, where he grew up hunting and eventually guiding other hunters.

Featuring stunning imagery and useful tips and tricks to help hunters be more successful, Into High Country offers viewers an in-depth glimpse into the Western hunting experience.

Into High Country

ANDREW VAVRA, LOGAN HINNERS, ANTHONY HAUCK

Andrew Vavra, Logan Hinners and Anthony Hauck are the hosts of Pheasants Forever’s Rooster Road Trip, an exciting online program that takes hunters road tripping across the country, hunting exclusively on public land, in pursuit of America’s most popular upland game bird.

Their dedication to hunting and conservation goes well beyond the entertainment industry. Andrew is a published writer, accomplished blogger and serves as the Marketing Manager for Pheasants Forever. Logan is a die-hard hunter and designer. Anthony also works at Pheasants Forever as the Director of Public Relations.

Go to pheasantsforever.org to view episodes of Rooster Road Trip. While there, join Pheasants Forever and help ensure the future of the pheasant and its habitat.

Rooster Road Trip

FRED ZINK

As host of the popular TV series, Avian-X, Fred Zink shares the excitement of waterfowling as he embarks on hunts throughout the U.S. and Canada. Along the way he shares the secrets of his highly successful calling tactics and strategies.

Fred founded Zink Calls™ in 2001 as a way to put exceptional calls into the hands of waterfowlers and professionals who demanded high-end calls. A nationally-recognized goose caller in his own right, Zink’s business continues to grow and set new standards in the industry.

Zink’s high-octane 24/7 DVD series is designed to speak to hunters with exciting footage that shares his hunting experiences with his viewers.

Pro Staff
WILLI SCHMIDT

Once mired in the corporate world, Willi Schmidt took the leap to pursue his passion for the outdoors as a host on outdoor TV. This new pursuit led him on the path to showcase the way he loved to hunt, with the challenge of succeeding and failing on his own.

As the host of Pure Hunting, Willi takes you on his do-it-yourself adventures and shows that pure hunting opportunities still exist for those willing to put in the effort. Pure Hunting explores the training, nutrition and gear that goes into the preparation of a self-sustained hunt. Willi appreciates the journey leading up to the hunt, not just the result, and the friendships made and camaraderie experienced along the way.

DEREK DIRNBERGER

Derek Dirnberger is the chief hunter of The Break — an exciting new program that follows a group of hunters with families and real jobs that use every “break” they get to head into the field.

Derek grew up near Benton, a small town in southeast Missouri. He’s been an avid hunter since childhood, and laid the foundation for the show when he was a teen, spending all of his free time hunting whatever was in open season.

Now, Derek’s main passion is the year-round obsession with bowhunting whitetails, shed hunting, food plots, checking trail cameras and hopefully finishing up with a mature buck. Derek is also pulled into the woods every spring to chase Missouri longbeards.

WILLIAM & MCLEAN RUSSELL

William and McLean Russell grew up on the family ranches in Texas and have had a gun in their hands since they could walk. Taking full advantage of the wealth of hunting and shooting possibilities offered in their home state, the brothers have put their passion for the outdoors into Boundless Hunting TV.

This exciting show takes the Russell brothers across the globe in search of life-changing hunting adventures. While they may be brothers, the pair are quite different. William prefers to take extreme hunting to the next level with his knowledge of tracking and survival techniques, and McLean uses his interests in photography, cooking and game management to bring a unique twist to the program.

What really sets Boundless Hunting apart from other hunting shows is its message of family and the bonds created by being outdoors.

BOUNDLESS HUNTING

William and McLean Russell grew up on the family ranches in Texas and have had a gun in their hands since they could walk. Taking full advantage of the wealth of hunting and shooting possibilities offered in their home state, the brothers have put their passion for the outdoors into Boundless Hunting TV.

This exciting show takes the Russell brothers across the globe in search of life-changing hunting adventures. While they may be brothers, the pair are quite different. William prefers to take extreme hunting to the next level with his knowledge of tracking and survival techniques, and McLean uses his interests in photography, cooking and game management to bring a unique twist to the program.

What really sets Boundless Hunting apart from other hunting shows is its message of family and the bonds created by being outdoors.

DEREK DIRNBERGER

Derek Dirnberger is the chief hunter of The Break — an exciting new program that follows a group of hunters with families and real jobs that use every “break” they get to head into the field.

Derek grew up near Benton, a small town in southeast Missouri. He’s been an avid hunter since childhood, and laid the foundation for the show when he was a teen, spending all of his free time hunting whatever was in open season.

Now, Derek’s main passion is the year-round obsession with bowhunting whitetails, shed hunting, food plots, checking trail cameras and hopefully finishing up with a mature buck. Derek is also pulled into the woods every spring to chase Missouri longbeards.
ROBBIE PURSER

Robbie started shooting skeet at the age of six. Over the years he has accumulated an impressive list of shooting titles including 1980 World Skeet Champion, 1991 and 1998 NSCA Champion, Zone 4 Champion, Quail Unlimited Champion, four-time Ducks Unlimited Champion, 2002 Sportsman Team Challenge Champion and an ESPN Great Outdoor Games gold medalist. He is also a twelve-time All-American Team member, a member of Team USA and a ten-time Georgia State Champion. All told, Robbie has more than 200 tournament wins to his credit.

JASON BOWERS, ERIC HALES

Grab your buddies and head outdoors in search of whitetails with the boys from Red Rising. Jason Bowers and Eric Hales are Virginia natives who had the fortune of spending their early years in the outdoors chasing whitetail deer.

Red Rising follows Jason and Eric's exploits as they move from hunt to hunt, sharing with viewers the thrill, and sometimes the disappointment, they experience on their hunting adventures.

Unlike many shows, you won’t find far-flung trips to exotic lands. Instead, Red Rising focuses on the most important aspects of hunting: Time with family, camaraderie and enjoying the hunt as much as a successful result.

JOHNNY MEITZEN

Johnny Meitzen has been a Browning Pro Staffer for years and is a member of the Texas Sporting Clays Hall of Fame.

Johnny started shooting competitively in 1987 and has shot over 100,000 competitive matches, winning a number of shooting titles including two-time NSCA Nationals Vet Champion and two-time NSCA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. He is an NSCA Level III instructor and a die-hard Citori man who currently shoots a Citori 725 Sporting.
ALEX WAMPLER
Californian Alex Wampler began shooting sporting clays in 2004 and by 2007 had earned her way onto the All-American Team. In addition to winning the 2013 US Open Lady FITASC Championship, she has been National Lady Sub Gauge HOA champion, regional champion and California Ladies Champion each on several occasions.
Her shooting interests also go beyond the range. She is a guide at Birds Landing Hunting Preserve, an NRA Range Safety Officer and attends the University of California Davis with aspirations to become a veterinarian.

RALPH & VICKI CIANCIARULO
Ralph and Vicki Cianciarulo have spent the past 30 years educating and entertaining bow and rifle hunters as outfitters, video producers and TV personalities. This award winning pair has traveled around the globe in search of hunting adventures.
Originally hailing from Chicago, Illinois, Ralph grew up with a bow in his hands. He eventually opened Archer’s Choice, an archery pro shop. It was here the pair met when Vicki, who had caught the outdoor bug herself, strolled through the front door looking for her first bow. The rest is history.
Browning is honored to be the clothing sponsor of The Choice and Archer’s Choice, and to put products to the test in the hands of one of the biggest power couples in the hunting industry.

TOMMY THACKER
With a nickname like “Tommy Gun,” you had better be fast on the trigger — especially if you are competing on the 3-Gun Nation tour.
Tommy Thacker is ranked among the best 3-Gun competitors in the nation, amassing an impressive list of victories and top finishes that includes winning the 3-Gun Nation Pro Series Championship in 2011 and 2012. With his success, Tommy has his pick of autoloading shotguns — and he chooses to get it done with his Browning A5.
SHILOAH MATTOON

Born in the small town of Kamiah, Idaho, Shiloah Mattoon fondly recalls that firearms have always been a part of his life. His competitive shooting career began in 2011, and his early experiences ignited a passion for 3-Gun competition. Now he competes against the best shooters in the 3-Gun Nation tour.

In addition to having a full-time job, Shiloah spends hours practicing and takes an athletic approach to the sport, training daily in the gym.

Shiloah shoots a Browning A5 with absolute faith in its unwavering reliability and Speed Load Plus feature.

LEVI & SAMANTHA MORGAN

Born in North Carolina, Levi Morgan began competing and hunting with a bow when he was six years old. Since then, he has amassed an impressive list of archery results, including eight World Championships and 40 National Championships. Now you can follow along with Levi, and wife Samantha, on Bow Life TV.

Bow Life TV brings you along as Levi and Samantha divide their time between chasing trophies in archery competition and harvesting game in the field. On air, their love and knowledge of the sport and the surroundings helps to immerse viewers in each episode.

TENNILLE CHIDESTER

Hailing from Salt Lake City, Utah, Tennille Chidester began shooting competitively in the USPSA ranks in her mid teens. Now she has found her true passion as a competitor in the 3-Gun Nation Pro Series, with her reliable Browning A5 speeding her through the shotgun events. You may also recognize Tennille as the winner of the fourth season, and now host, of Ammo and Attitude.

In addition to the fast-paced competition, it is the amazing people and camaraderie that draws Tennille to the exciting sport of 3-Gun shooting. She especially enjoys introducing others to the sport and encouraging their development.
GREG JORDAN
What began in 2007 as shooting in a few local USPSA matches has become a full-fledged career for Greg Jordan. Like many shooters, Greg caught the bug and his new hobby soon turned into a passion. Two short years later he earned the title of USPSA Grand Master and found a new interest, 3-Gun competition. Greg’s hard work and commitment to practice, training and equipment continues to pay off. In 2014 he became 3-Gun Nation Champion with his Browning A5.

RICK & JULIE KREUTER
Husband and wife hunting duo Rick and Julie Kreuter host *Beyond the Hunt*. This unique program follows this dynamic pair on more than just their hunting adventures; it also focuses on wildlife conservation and land management.

Rick grew up in the outdoors of Wyoming and adventure has been a part of his life from an early age. After graduating from college, Rick received his guide license and soon became an outfitter full time. Julie has also had a love of the outdoors from her earliest days in Nebraska. She and Rick were married after she received her degree in Physical Therapy. As their outfitter business grew, so did their success and popularity, and after 16 years of guiding hunters, *Beyond the Hunt* has become their own adventure.

JARED WIHONGI
Originally from New Zealand, home of the legendary Maori warriors, Jared Wihongi has more than 25 years of martial arts experience and is trained in the Filipino blade-fighting system of Pekiti-Tirsia Kali.

As a sought after instructor, Jared has worked with the U.S. Army Special Forces Groups, the DEA, Philippine National Police Academy, Special Action Force commandos, Marine Force Recon and Germany’s GSG-9 to name a few.

Jared works closely with expert Browning knife designer Russ Kommer on the development of every Browning Black Label Tactical knife to make sure they are up to his demands and meet the real world needs of discerning users like you.
RUSS KOMMER
Russ Kommer is the man responsible for most of our lineup of world-class knives.
Russ grew up in the north woods of Minnesota, hunting, fishing, trapping and logging. His career as a guide took him to Idaho in search of big game in the formidable Selway-Bitterroot Mountains and eventually led him to guide hunters in the wilds of Alaska.
Having to dress big game as a hunting guide, Russ learned the meaning of the word quality, and how important it is in a knife. His experiences quickly taught him what he needed in his knives and, when he couldn’t find what he wanted, started making his own knives to meet his requirements.
Now a world renowned name in the knife industry, Russ spends much of his time on his ranch in North Dakota developing new designs.

KRYSTY LEE COOK, JESS HULL, JESSI JO STANFILL
Girls will be girls — and hunting and being outdoors shouldn’t change that. Country music singer Kristy Lee Cook and her friends Jess Hull and Jessi Jo Stanfill embark on a bucket list of adventures in Most Wanted List.
Kristy brought her amazing voice to the TV screen on the 7th season of American Idol®. Now Kristy is a country music singer and possesses an infectious passion for everything she does, whether it is singing, hunting or working actively with her sister’s foundation, Heavenly Hope Ministries.

FOSTER & MATT BARTHOLOW
Foster and Matt are stars on the ATA trapshooting circuit, and both shoot Browning trap shotguns. The brothers came up through the Scholastic Clay Target Program and have made their mark within the pro ranks. Matt has earned several Grand American Championship titles, holds the 2nd longest recorded singles run at 1840, achieved his Grand Slam (and Grand American Grand Slam), owns several South Dakota State Champion titles and is a three time All-American Team member.
Foster is also a Grand American Champion and set a shoot off record at the Grand with 200 targets in program and 900 in shoot off. He is a two time All-American Team member, achieving his Grand Slam (and Grand American Grand Slam) shooting 200 singles, 100 doubles and 100 handicap from the 27 yard line. He too holds multiple South Dakota State Champion titles.
BOB REDFERN
Bob Redfern’s experience as an outdoor TV personality extends back more than 35 years. With his lifelong devotion to promoting hunting, shooting sports, fishing, and conservation efforts, Bob ventured out on his own in 2001 to begin the highly successful outdoor series, Bob Redfern’s Outdoor Magazine.

Bob enjoys bringing the outdoors and the best it has to offer to the screen each week, featuring real-life hunting and fishing adventures with featured segments on how to succeed at hunting, shooting, and fishing as well as the award-winning Sportsman’s Table weekly cooking segment. Each week Bob features hunting and fishing destinations around the country for the sportsman who seeks the best places to enjoy the outdoors year round.

CRAIG MORGAN
Craig Morgan has a resume as varied as it is impressive. His journey to become one of country music’s most renowned artists began as an 18-year-old EMT, followed by ten years in the U.S. Army, where he took up performing and songwriting. After the Army, he moved to Nashville to hone his craft. Now, Craig performs frequently for military audiences and is a frequent guest at the Grand Ole Opry.

All parts of his life come together on his television show, Craig Morgan’s All Access Outdoors, now in its eighth season. The hit reality show gives viewers an all access, backstage pass to Morgan’s travels as he and his crew pursue big thrills and big laughs across the globe in a quest for the ultimate adventure.

KYLE BARFIELD,
COLE BARTHEL

All Things Hunting is an all action, real-as-it-gets hunting series hosted by Kyle Barefield, Cole Barthel, and their family and friends.

Kyle lives in Monroe, Louisiana and grew up hunting with his father and grandfather, and would hunt everyday of his life if possible. Most of Kyle’s hunts are self-produced from the field to the editing booth and he strives to improve the quality of outdoor TV, constantly looking to sharpen his edge on creating a truly entertaining hunting film.

Cole Barthel is from Rayville, Louisiana. His obsession for hunting comes from being introduced to the great outdoors at a very young age by his father. To Cole, hunting means enjoying all of nature and creation, while making lifelong memories with family and friends.

All Things Hunting takes viewers on hunting journeys across North America, grinding day in and day out, chasing after big game and birds. Produced in a format that is certain to keep you on the edge of your seat and waiting for what’s next, the boys take no shortcuts to provide you with a thrilling hunting series that pays homage to their families’ hunting traditions while keeping the cameras rolling.

BOB REDFERN
Bob Redfern’s experience as an outdoor TV personality extends back more than 35 years. With his lifelong devotion to promoting hunting, shooting sports, fishing, and conservation efforts, Bob ventured out on his own in 2001 to begin the highly successful outdoor series, Bob Redfern’s Outdoor Magazine.

Bob enjoys bringing the outdoors and the best it has to offer to the screen each week, featuring real-life hunting and fishing adventures with featured segments on how to succeed at hunting, shooting, and fishing as well as the award-winning Sportsman’s Table weekly cooking segment. Each week Bob features hunting and fishing destinations around the country for the sportsman who seeks the best places to enjoy the outdoors year round.

KYLE BARFIELD,
COLE BARTHEL

All Things Hunting is an all action, real-as-it-gets hunting series hosted by Kyle Barefield, Cole Barthel, and their family and friends.

Kyle lives in Monroe, Louisiana and grew up hunting with his father and grandfather, and would hunt everyday of his life if possible. Most of Kyle’s hunts are self-produced from the field to the editing booth and he strives to improve the quality of outdoor TV, constantly looking to sharpen his edge on creating a truly entertaining hunting film.

Cole Barthel is from Rayville, Louisiana. His obsession for hunting comes from being introduced to the great outdoors at a very young age by his father. To Cole, hunting means enjoying all of nature and creation, while making lifelong memories with family and friends.

All Things Hunting takes viewers on hunting journeys across North America, grinding day in and day out, chasing after big game and birds. Produced in a format that is certain to keep you on the edge of your seat and waiting for what’s next, the boys take no shortcuts to provide you with a thrilling hunting series that pays homage to their families’ hunting traditions while keeping the cameras rolling.

BOB REDFERN
Bob Redfern’s experience as an outdoor TV personality extends back more than 35 years. With his lifelong devotion to promoting hunting, shooting sports, fishing, and conservation efforts, Bob ventured out on his own in 2001 to begin the highly successful outdoor series, Bob Redfern’s Outdoor Magazine.

Bob enjoys bringing the outdoors and the best it has to offer to the screen each week, featuring real-life hunting and fishing adventures with featured segments on how to succeed at hunting, shooting, and fishing as well as the award-winning Sportsman’s Table weekly cooking segment. Each week Bob features hunting and fishing destinations around the country for the sportsman who seeks the best places to enjoy the outdoors year round.
RACK UP SOME POINTS.
The Buckmark is so much more than an emblem of the Browning brand, it is a representation of a lifestyle spent in the great outdoors. The companies shown on pages 312 and 313 share our commitment to you, our customers, and the outdoor industry. These businesses have partnered with Browning to offer high quality products designed to help you bag a trophy buck, reel in a monster bass and keep you cozy in the woods or home.

**AUTOMOTIVE**
Automotive accessories that showcase the iconic Buckmark, with a full line of quality interior and exterior products designed to provide protection and personalization, and complement the outdoor lifestyle.

**CASUAL SPORTSWEAR**
Our lifestyle sportswear includes outdoor and casual belts, rugged work wear, plus performance and classic casual pieces that provide style and comfort day in and day out. You’ll appreciate the unique details and thoughtfully selected colors.

**FOOTWEAR**
Tradition meets innovation through a commitment to exploring the latest technologies and developing lightweight, durable and innovative designs for the dedicated hunter. Browning footwear delivers uncompromising quality and performance that is both built-to-hunt, and built-to-last.

**PET PRODUCTS**
When your best friends and favorite hunting buddies happen to have four legs, treat them right with the full line of Browning pet products. Both you and they will enjoy their time afield when they’re outfitted with Browning pet products.

**SOCKS**
From hunting in a frigid treestand to lounging in the den, Browning offers comfortable socks that are ideal for every outdoor and indoor adventure. Featuring quality construction and top-of-the-line materials, Browning socks come in a variety of styles, colors and thicknesses.

**SPORTING BAGS AND TRAVEL GEAR**
High quality packs and bags geared to meet every carry need. Whether hunting, traveling, or just showing Buckmark pride, Browning Bags and Travel Gear has it all. Durable materials, customer understanding and product innovation provide the right tools for the right job.

Call 800-342-3764 for additional information. Check local laws before riding on trails. Polaris® is a registered trademark of Polaris Industries Inc. ©2017 Polaris Industries Inc.
BE A SAFE SHOOTER

Read and follow all safety information in the owner’s manual provided with each firearm before use. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible; however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.

BROWNING IS COMMITTED TO SERVING YOU

Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice.
