1919 was a great year for John Moses Browning. On February 4, 1919 he was granted two U.S. Patent — Nos. 1,293,021 and 1,293,022. The first covered several improvements to the Model 1917 machine gun and the second was for the Browning Light Machine Gun — his legendary B.A.R. Later that year he was granted another patent for a pump-action 22 caliber rifle. This little rimfire saw production in the tabled Belgian factories of Fabrique Nationale for the European market, but was one of the few Browning-designed firearms that never made it to the United States shores.

Fast forward 100 years and the Browning brand is poised for another successful year. From firearms to knives, and apparel to safes, there are new and improved products to be discovered in every category. Each of these new products have been developed, tested and proven to give you the edge you need when you venture into the field, tree stand, marsh, mountains or step to the firing line. Just as it was a century ago, Browning innovation, quality and the desire to be The Best There Is for our customers has led us to dominate the firearms industry yet again.
STEEL BREECH FACE
- A steel breech face is dovetailed into the alloy receiver to ensure strength and quality alloy for the receiver rather than steel.
- Shotgun, by about one pound, using a high alloy receiver to ensure strength and quality.
- Browning Feather technology significantly reduces the weight of an over and under shotgun.

STEEL HINGE PIN
- The full-width, steel hinge pin provides long wear.
- Steel components are added to high wear areas, ensuring durability.

INLAYED TECHNOLOGY
- Browning Feather technology significantly reduces the weight of an over and under shotgun, by about one pound, using a high quality alloy for the receiver rather than steel.
- Steel components are added to high wear areas, ensuring durability.

INFLUX RECOIL PAD
- Influx recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- Influx recoil pads are made from a soft material for the best recoil absorbing performance available.

FLOATING RIB
- The floating rib above the rib and barrel to expand at different rates and move independently of each other.
- The floating rib prevents point of impact shifts caused by the barrel heating.

MICRO AND MICRO MIDAS FIREARMS
- Micro and Micro Midas firearms are specifically designed to give younger or smaller shooters a high-quality, great fitting firearm.
- Micro- and Micro Midas firearms are constructed with the same quality components and attention to detail as all Browning firearms.

BROWNING GROWTH INSURANCE PROGRAM
- Micro and Micro Midas models are eligible for the Growth Insurance Program that allows new owners to purchase a full-size stock at 50% off the retail price.
- Growth Insurance allows Micro and Micro Midas firearms to grow with the shooter to offer a higher rate of return on your firearm investment.
- Visit browneing.com for complete details.

BACK-BORED TECHNOLOGY
- Back-boring enlarges the bore to the maximum diameter to increase shot velocity and minimize pellet deformity for more uniform patterns on 12 and 20 gauge Citori 725, Citori, Cynergy and Cynergy models.
- Total Barrel Dynamics is a system of features that work together to reduce shot deformation and improve pattern consistency and performance. Each component of Total Barrel Dynamics plays a part in keeping shot patterns dense to put more pellets on your target. To ignore any single aspect of the system weakens the overall performance. Look for Total Barrel Dynamics on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori and Cynergy models.

VECTOR PRO LENGTHENED FORCING CONE
- The forcing cone is the tapered transition between the chamber and the bore that constrains the shot column. The longer the forcing cone is, the more gradual the constriction. Vector Pro is better than the competitors’ forcing cone designs because it has a more gradual conformation.
- The Vector Pro forcing cone reduces stress on the shot column as it moves into the bore, reducing pellet deformation for more uniform patterns and more pellets in the center of the pattern.
- Lengthening forcing cones is a popular and expensive aftermarket practice done to increase shot pattern performance but it comes standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori, Cynergy and Cynergy models.

STANDARD INVECTOR
- The Standard Invector Interchangeable Choke Tube System offers consistent, dense shot patterns with the right constriction needed for the shooting situation.
- Threads on the breech end of the choke tube help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.
- View the full line of Invector-DS choke tubes on pages 171 and 174.

INVECTOR-DS
- “DS” stands for double-seal, our proprietary dual-banded brass seal. It compresses against the barrel wall to keep the choke tube threads clean and makes installation and removal easier than any other muzzle thread system.
- Invector-DS choke tubes combine muzzle-end threads and Thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly spaced steps.
- Muzzle end threads minimize the flare at the end of the barrel for improved shotgun appearance. A slightly lighter overall barrel weight is achieved for a faster swing and improved balance.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard-hitting performance.
- Invector-DS is standard on A5 and Citori 725 models.

See pages 171 through 174 for our complete line of choke tubes.

BACK-BORED TECHNOLOGY
- Back-boring enlarges the bore to the maximum diameter to increase shot velocity and minimize pellet deformity for more uniform patterns on 12 and 20 gauge Citori 725, Citori, Cynergy and Cynergy models.
- Total Barrel Dynamics is a system of features that work together to reduce shot deformation and improve pattern consistency and performance. Each component of Total Barrel Dynamics plays a part in keeping shot patterns dense to put more pellets on your target. To ignore any single aspect of the system weakens the overall performance. Look for Total Barrel Dynamics on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori and Cynergy models.

VECTOR PRO LENGTHENED FORCING CONE
- The forcing cone is the tapered transition between the chamber and the bore that constrains the shot column. The longer the forcing cone is, the more gradual the constriction. Vector Pro is better than the competitors’ forcing cone designs because it has a more gradual conformation.
- The Vector Pro forcing cone reduces stress on the shot column as it moves into the bore, reducing pellet deformation for more uniform patterns and more pellets in the center of the pattern.
- Lengthening forcing cones is a popular and expensive aftermarket practice done to increase shot pattern performance but it comes standard on A5, Maxus, BT-99 and on 12 and 20 gauge Citori 725, Citori, Cynergy and Cynergy models.

STANDARD INVECTOR
- The Standard Invector Interchangeable Choke Tube System offers consistent, dense shot patterns with the right constriction needed for the shooting situation.
- Threads on the breech end of the choke tube help prevent gases from slipping between the choke tube and barrel that could damage the choke tube and the barrel.
- Invector-Standard is standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.
- See pages 171 through 174 for our complete line of choke tubes.
The Browning High Grade Program — Now with Four Times the Excitement.

It is a rare occasion when a shotgun is so beautiful, so functional, that it shouldn’t be contained to just a single discipline. Such is the case with the 2019 Browning High Grade Program offering. The Browning Citori High Grade Side Plate Four Gauge Combo features a receiver with full side plates that are extensively engraved. It is this receiver that serves as the foundation to four interchangeable barrel sets that allow you to match the ammunition to the sport or quarry at hand, while enjoying the artistry of a shotgun that is sure to be among the crown jewels of your collection.

- Side plates feature beautiful full-coverage engraving with gold bird and dog accents
- Four barrel sets in 12, 20, 28 gauge and .410 bore
- Gloss oil finish Grade VI/VII walnut stock
- Inflex recoil pad
- Ivory bead sight with mid-bead
- Ideal for hunting/sporting clays

Measurements in inches, pounds and ounces.

A John M. Browning Signature leather fitted case that holds all four barrel sets is included.
Features and Benefits

LOW PROFILE RECEIVER

- Improved recoil control and less muzzle jump are two of the biggest benefits of a low profile receiver. There is also the “low with the gun” feeling that makes the Citori 725 feel like an extension of your body.
- Places the forend closer to the bore line for superior hand-eye coordination and pointability.
- Citori 725 receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.

TRIPLE TRIGGER SYSTEM

- The Triple Trigger System fine-tunes finger-to-trigger reach on target models.
- Includes three interchangeable trigger shoes: Wide checkered, narrow smooth and wide smooth.

PRO FIT ADJUSTABLE COMB

- The Browning Pro Fit Adjustable Comb makes it easy to find the perfect comb position.
- Provides a comfortable, secure grip.

FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates, preventing changes to point of impact due to barrel heating.
- Porting reduces felt recoil for faster target acquisition and increased shooting comfort.
- Ventilated side rib increases air circulation to aid in barrel cooling.

PRO BALANCE SYSTEM

- The Pro Balance System allows you to fine-tune the balance point for a perfect mount and swing.
- Adding weights to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil.
- Stock weights reduce muzzle jump for more accurate follow-up shots and allow a smoother follow-through.
- Pro Balance weights are easy to install.

PALM SWELL

- Optimizes finger-to-trigger placement.
- Provides a comfortable, secure grip.

INVECTOR-DS CHOKE TUBE SYSTEM

- Invector-DS choke tubes combine muzzle-end thread and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard hitting performance.
- The “DS” stands for double-seal. Our proprietary differential-threaded brass seal compresses against the barrel wall to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- See pages 171 to 175 for our complete line of choke tubes and wrenches.

ABS CASE

- The sturdy, lockable ABS case is perfect for storage and transportation.
- All Browning Firearms are shipped with a free locking device to assist in the safe storage of firearms.

INVECTOR-DS CHOKE TUBE SYSTEM

- Invector-DS choke tubes combine muzzle-end thread and thin-wall construction for a longer, more gradually tapered choke tube that produces extremely consistent, dense shot patterns.
- From Cylinder to Extra Full, Invector-DS shot patterns tighten consistently in reliable, evenly scaled steps.
- The more gradual taper of Invector-DS choke tubes reduces shot deformation for fewer flyers and gaps in the pattern and allows higher shot velocities for hard hitting performance.
- The “DS” stands for double-seal. Our proprietary differential-threaded brass seal compresses against the barrel wall to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.
- See pages 171 to 175 for our complete line of choke tubes and wrenches.

Abs Case

- The sturdy, lockable ABS case is perfect for storage and transportation.
TRIPLE TRIGGER SYSTEM

- The Triple Trigger System fine-tunes finger-to-trigger reach on target models.
- Includes three interchangeable trigger shoes: Floating Rib, High Rib, and Ergo Balanced
- Features less take-up, a crisp break and immediate second shot capability.
- Unlike an inertia trigger that relies on recoil to set the next shot; instead, it offers exclusive mechanical trigger design.
- Offers increased visibility — the barrels don’t cover up the target.

FLOATING RIB

- The floating rib allows the rib and barrel to expand at different rates to eliminate stress.
- Prevents changes to point of impact due to barrel cooling.
- Provides improved cooling helps prevent heat waves spread up the receiver.
- Offers increased visibility — the barrels don’t cover up the target.
- Gold enhanced engraving.

FULL-WIDTH HINGE PIN

- The Citori 725 has a full-width hinge pin that provides maximum strength and long-lasting endurance.
- Includes three interchangeable chokes: Invector interchangeable chokes.
- Competitors’ trunnions provide only a fraction of the bearing surface that the full-width hinge pin of the Citori 725 provides.
- Includes three interchangable chokes: Floating Rib, High Rib, Ergo Balanced
- Available adjustable comb makes it easy to dial-in head alignment.
- Gloss oil finish Grade III/IV walnut stock with close radius grip and palm swell.
- Five extended choke tubes.
- Ideal for sporting clays/shoot.
Reach for the Gold.

Designed to handle as great as they look, Browning Golden Clays models have long been viewed as the pinnacle of over and under shotgun style. Richly engraved and embellished with gold highlights, the silver nitride receiver finish blends beautifully with the finely-finished Grade V/VI walnut.

**TRAP GOLDEN CLAYS**

- Graco Adjustable Monte Carlo Comb makes it easy to dial-in bead alignment
- Adjustable Graco® Recoil Reduction System increases comfort and offers length of pull adjustment
- Graco butt pad plate adjusts for angle and location
- Semi-beavertail forearm with finger grooves

**SPORTING GOLDEN CLAYS**

- Graco Adjustable Comb makes it easy to dial-in bead alignment
- Graco Gracoil® Recoil Reduction System increases comfort and offers length of pull adjustment
- Graco butt pad plate adjusts for angle and location
- Semi-beavertail forearm with finger grooves

**ROBBIE PURSER**

A Shooting Legend.

Robbie Purser is a force to be reckoned with on the skeet and sporting clays circuits. In addition to winning more than 200 tournaments during his career, he also holds a World Championship in skeet. Read more about Robbie on page 283.
Most trap and over and under shotguns with a low-profile receiver gain the advantages of improved recoil control, faster follow-up shots and reduced weight. But while other guns rely on a pair of trunnions for not out, and has kept the Citori shotgun a favorite of hunters and shooters for decades.

**TRAP WITH ADJUSTABLE COMB**

- Gloss finish Grade II/IV walnut stock with close radius grip and palm swell
- Semi-beavertail forearm with finger grooves aids control
- High-post floating rib
- Gold enhanced engraving
- Trap-style recoil pad
- InComp® Pro Comp sight and ivory mid-bead
- Ideal for trap

**TRAP**

- Gloss finish Grade II/IV walnut stock with close radius grip and palm swell
- Semi-beavertail forearm with finger grooves aids control
- High-post floating rib
- Gold enhanced engraving
- Trap-style recoil pad
- InComp® Pro Comp sight and ivory mid-bead
- Ideal for trap

**FIELD**

- Gloss oil finish Grade II/III walnut stock
- Accented engraving
- Inflex recoil pad
- Ivory bead sight
- Ideal for hunting/sporting clays

**NEW FEATHER**

- Lightweight alloy receiver with steel breach face and hinge pin
- Gloss oil finish Grade II/III walnut stock
- Accented engraving
- Inflex recoil pad
- Ivory bead sight
- Ideal for hunting/sporting clays

**FEATHER SUPERLIGHT**

- Lightweight alloy receiver with steel breach face and hinge pin
- Gloss oil finish Grade II/III walnut stock with straight grip
- Schnabel forearm
- Accented engraving
- Inflex recoil pad
- Ivory bead sight
- Ideal for hunting/sporting clays

**MATT & FOSTER**

Brothers Matt and Foster Bartholow spend their time tearing up the ATA trap shooting circuit. Over the past few years the pair has amassed more than 200 trophies between them with their Browning Citori shotguns. Read more about Matt and Foster on page 282.
**Features and Benefits**

**STEEL RECEIVER**
- Citori receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.
- Feather receivers reduce weight by using a high quality alloy for the receiver rather than steel. Steel components are added to high wear areas, ensuring durability.

**TRIPLE TRIGGER SYSTEM**
- Citori CX, CXS and CXT shotguns come equipped with the Triple Trigger System, which fine-tunes trigger-to-trigger length of pull. One trigger shoe is included.

**LOCKING BOLT AND HINGE PIN**
- The Citori features a heavy-duty, transverse-mounted, full-width locking bolt that engages a full-width tapered recess in the rear barrel lugs. Tapering the bolt and reams allows the bolt to seat deeper, accommodating for wear. The hinge pin extends across the width of the receiver for maximum strength. Engineering like this ensures the Citori wears in, not out.

**Hammers and HAMMER EJECTORS**
- For positive primer ignition, Citori hammers are driven by several coil springs. The convenient barrel selector allows you to choose which barrel fires on the first pull of the single trigger, and the second pull fires the remaining barrel. Ejectors are activated by a sharp hammer blow for more positive ejection than the push impaired by competitors’ ejectors. The automatic ejector ejection halls when the breech is opened and elevate until shells for easy removal.

**Point of Impact**
- A big part of what makes Citori shotguns so versatile are the different points of impact (POI). CXS models feature a 50/50 POI that is preferred when a target presentation can come from anywhere, like a clay target soaring above you or a phasing enraging from the brush. CX models feature a 70/30 POI that is great for all clay target sports and hunting as it allows you to float the target slightly to improve the sight picture. CXT models feature a 75/25 POI that is more suited to trap, where targets rise. The higher POI allows the target to be visible when the trigger is pulled.

**Chrome Chambers**
- For increased durability and corrosion resistance, all Citori shotguns have hard chrome-plated chambers to resist the toll thousands of shells can take on lesser quality guns.

**Steel Shot Performance**
- The strength of Browning barrels is legendary, and they are built to handle the punishment of steel shot. Unlike some manufacturers’ barrels that show pitting after shooting steel, Browning pioneered construction that maximizes steel shot performance and barrel durability.
- Browning barrels meet the strictest material and construction quality standards. The barrel blanks are made from rolled and tempered steel bars and are stress relieved to offer exceptional mechanical properties. The barrel blanks are then precision drilled, mated and honed to exacting specifications.

**Vector Pro® Forcing Cones**
- Browning was the first manufacturer to recognize the performance advantages of a back-bored barrel and to make it a standard feature on shotguns. Longer, tapered Vector Pro forcing cone dimensions minimize shot deformation and maximize pattern uniformity, consistency and density. Back-boring increases bore diameter specifications and decreases friction between the shot cup and the bore to maximize shot pellet velocity and to reduce felt recoil. Reducing contraction from the forcing cone on the shot column results in fewer deformed pellets for more uniform patterns, and keeps more pellets in the central part of the pattern where they’re needed to bag more upland birds, waterfowl and clay targets.
- Browning back-bore specifications represent the ideal bore dimensions. A larger bore diameter can let gases slip by the shot cup, resulting in both reduced pellet velocity and decreased pattern size. A smaller bore diameter means the forcing cone can deform pellets, leading to flyers and poor ballistic performance.

**Interchangeable Choke Tubes**
- To maximize versatility and optimize shot pattern performance and versatility, Citori shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches. All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.

**Crossover model for hunting/sporting clays/skeet/Trap**
- Three extended Midas Grade choke tubes
- Crossover model for hunting/sporting clays/skeet/Trap

**NEW CX**
- Versatile 60/40 POI is ideal for hunting and all clay target sports
- Gloss finish Grade II American walnut stock
- Gold enhancement
- Inflex recoil pad
- Ivory bead sight and mid-bead

**NEW CX WITH ADJUSTABLE COMB**
- Versatile 60/40 POI is ideal for hunting and all clay target sports
- Graco adjustable comb makes it easy to dial in a perfect fit
- Gloss finish Grade II American walnut stock
- Gold enhancement
- Inflex recoil pad
- Ivory bead sight and mid-bead

• Three extended Midas Grade choke tubes
• Ideal for trap
The Boys are Back.

If you thought that you might have missed your chance to add a new Browning Citori Lightning to your collection, now is the time to rejoice. These three new models share the reputation for durability earned by their forebears, and feature new receiver engraving artwork and stock checkering that provide updated style to this timeless design.

**NEW WHITE LIGHTNING**
- Oil finish Grade III/IV walnut lightning-style stock
- Intricate, broad coverage engraving
- Inflex recoil pad
- Ivory bead sight and mid-bead
- Three extended black Midas Grade choke tubes
- Ideal for hunting/sporting clays

**NEW GRAN LIGHTNING**
- Oil finish Grade V/VI walnut lightning-style stock
- Intricate, broad coverage engraving
- Inflex recoil pad
- Ivory bead sight and mid-bead
- Three extended black Midas Grade choke tubes
- Ideal for hunting/sporting clays

**NEW FEATHER LIGHTNING**
- Lightweight alloy receiver with steel breech face and hinge pin
- Oil finish Grade III/IV walnut lightning-style stock
- Intricate, broad coverage engraving
- Inflex recoil pad
- Ivory bead sight and mid-bead
- Three extended black Midas Grade choke tubes
- Ideal for hunting/sporting clays

Features and Benefits

LOW PROFILE RECEIVER
• Improved recoil control and less muzzle jump are two of the biggest benefits of a low-profile receiver.
• Places the front hand closer to the bore line for superior hand-eye coordination and pointability.
• Cynergy receivers are machined from steel for a long life and feature a durable, attractive silver nitride finish.

REVERSE STRIKER MECHANICAL TRIGGER
• The Reverse Striker is a striker-based mechanical trigger system that does not use the inertia from recoil to set the hammers.
• Reverse Striker offers the benefits of a crisp feel, reduced locktime and less overtravel than other over and under shotguns.
• Because inertia is not needed for the hammers to set, the design eliminates the possibility of the second barrel not firing.

TRIPLE TRIGGER SYSTEM
• Cynergy CX and target models are equipped with the Triple Trigger System, allowing finger-to-trigger length adjustment and the ability to switch between styles of interchangeable trigger shoes. Wide checkered, narrow smooth or wide smooth casted are available. One trigger shoe is included.

MONOLOCK HINGE
• The strong MonoLock Hinge design is in the engineering behind the Cynergy’s low profile receiver.
• Integrates the monoblock and the hinge for up to 300% more surface area to pivot on than traditional trunnion-style hinges.
• Rectangular locking pins provide extra strength and feature a “Wear-In Field” that keeps the action tight.

ADJUSTABLE COMB
• Composite models include an adjustable comb system that allows the fit of the gun to be customized.
• Drop at comb adjustments are made in 1/8” increments.
• For cast on/cast off customizing, we offer accessory combs that are shown below.

CHROME CHAMBERS
• Cynergy shotguns feature hard chrome-plated chambers.
• Increased durability and corrosion resistance.
• Camo models have chrome-plated bores.

IMPACT EJECTORS
• Impact Ejectors are added by the push of a secondary striker spring for positive, reliable ejection of fired hulls from the chambers.
• Unfired shells are elevated for easy removal.

POINT OF IMPACT
• A big part of what makes the Cynergy CX guns so versatile is the 60/40 point of impact (POI).
• The slight upward bias of the 60/40 POI makes for an excellent general use shotgun that is equally capable both in the field and on the range.
• The higher bias makes rising targets, as encountered in trap, easier to hit.

INTERCHANGEABLE CHoke TUBES
• To maximize versatility and optimize shot pattern performance, Cynergy shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

Measurements in inches, pounds and ounces.
Find Your Cynergy.

The Browning Cynergy is designed to help you shoot your best. Several different variations are available to match your specific needs, each built upon the same rugged, low-profile receiver and featuring the crisp Reverse Striker mechanical trigger.

**Canvas/Leather fitted case included with the Cynergy Trap Unsingle Combo.**

**A Versatile Platform.**

The low-profile Cynergy receiver has proven to be a perfect platform for a wide variety of shotgun sports. From turkey to trap, the broad hinge surfaces and tight lock-up of the rugged MonoLock Hinge are ready for punishment, whether from 3-1/2” shells or year-after-year of trap loads.

---

**COMPOSITE ULTIMATE TURKEY MOSSY OAK® BREAK-UP COUNTRY®**

- Adjustable comb makes it easy to dial-in a perfect fit (cast-on/off combs available)
- Inlaid recoil pad
- 1-1/4” stock spacer
- Five choke tubes (extended Ultimate Full Turkey and Spreader; flush fit F, M, IC)
- Marble Arms® Bullseye rear sight
- Fiber-optic front sight
- Short Picatinny rail to mount red dot optic
- Crossover for hunting/turkey

**Measurements in inches, pounds and ounces.**

Features and Benefits

LOW PROFILE RECEIVER
• BT-99 receivers are machined from steel for a long-life and feature a durable, attractive silver nitride or blued finish.

FOREARM
• A beavertail forearm helps control recoil and assists hand-eye coordination.

CHROME CHAMBER
• The chrome-plated chamber resists wear and corrosion.

INTERCHANGEABLE CHOKES TUBES
• To maximize versatility and optimize shot pattern performance and versatility, BT-99 shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

Classically Modern.

Considered to be one of John M. Browning’s greatest inventions, the original Browning Auto-5 introduced the concept of the autoloading shotgun to the world. The new A5 shares the classic humpback receiver profile of the original, and offers modern ergonomics and materials that make it an excellent performer in the field.

**KINEMATIC DRIVE SYSTEM**
- Kinetic energy is defined as the energy of motion.
- The A5 uses kinetic energy to power the recoil-operated Kinematic Drive System.
- Simplicity of design for consistent, reliable function with any load and under the full extremes of weather, temperature, moisture and grime.
- Kinematic Drive is so reliable that the A5 is the first ever autoloading shotgun to carry a 100,000 round or five-year guarantee.
- Clean operation because gases are sent out the barrel and away from the action.
- Extreme load versatility for reliable performance with virtually all factory ammunition down to one ounce field loads with no adjustments.

**ERGO BALANCED**
- Balances in the hands from pad to muzzle.
- Facilitates a light feel and fast swing.
- Promotes smoother follow through.
- Places front hand closer to the bore line for superior hand-eye coordination and pointability.

**TURNKEY MAGAZINE PLUG**
- The patented TurnKey Magazine Plug is easily removed in seconds using just a door or car key.
- Speed Load Plus: Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- Speed Unload feature makes emptying the magazine fast and easy, without chambering and ejecting every shell with the bolt handle.

**ERGONOMIC BOLT LATCH**
- Conveniently located just ahead of the trigger guard.
- Locks the bolt to the rear when the magazine is unloaded and releases a shell from the magazine when the bolt is closed for faster loading.
- Oversized shape makes the bolt latch easy to locate and operate with or without gloves.

**RECEIVER**
- The Humpback Acquisition Advantage extends the sight plane for faster, more natural sight alignment.
- Speeds target acquisition.
- Constructed from rugged, lightweight aluminum alloy.

**INFLUX RECOIL PAD**
- Influx recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- The Influx recoil pads are made from a soft material for the best recoil absorbing performance available.

**WICKED WING MOSSY OAK® SHADOW GRASS BLADES**
- Cerakote Burnt Bronze camo finish on receiver, Burnt Bronze finish on barrel.
- Fully chromed bore for corrosion resistance.
- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop.
- 1/4” and 1/2” stock spacers included for length of pull adjustment.
- Three extended Invector-DS Banded choke tubes.
- Briley® oversize bolt release.
- Fiber-optic front sight and ivory mid-bead sight.
- Ideal for hunting.

**Features and Benefits**

**TurnKey Magazine Plug**
- Easily removed in seconds using just a door or car key.

**Ergonomic Bolt Latch**
- Conveniently located just ahead of the trigger guard.

**Influx Recoil Pad**
- Guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.

**ABS Case**
- Sturdy, lockable ABS case is perfect for storing and transporting the A5.

**Measurments in inches, pounds and ounces.**

**BROWNING.COM**
All Weather Action.

With a synthetic forearm and stock and ultra-reliable Kinematic Drive recoil-operation, these A5 models are ready for all weather action.

MOSSY OAK® SHADOW GRASS BLADES

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop.
- 1/4” and 1/2” stock spacers included for length of pull adjustment
- Three Invector-DS choke tubes
- Fiber-optic front sight and ivory mid-bead
- Ideal for hunting/sporting clays/turkey

MOSSY OAK® BREAK-UP COUNTRY®

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop.
- 1/4” and 1/2” stock spacers included for length of pull adjustment
- Three Invector-DS choke tubes
- Fiber-optic front sight and ivory mid-bead
- Ideal for hunting/sporting clays/turkey

STALKER

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop.
- 1/4” and 1/2” stock spacers included for length of pull adjustment
- Three Invector-DS choke tubes
- Fiber-optic front sight and ivory mid-bead
- Ideal for hunting/sporting clays/turkey

Measurements in inches, pounds and ounces.

Fred Zink is the man behind Zink Calls, a successful hunting DVD series and the popular TV program, Avian-X. This exciting show brings viewers along on waterfowl and turkey hunts across North America. Read more about Fred on page 283.
Score a Perfect 16.

There are many people who believe that 16 gauge is the perfect ammunition for a shotgun. And, arguably, they’re right. The “in between” 16 gauge utilizes a smaller, lighter weight receiver than 12 gauge models and shoots a larger shot payload than a 20 gauge. These facts are evident in the A5 Sweet Sixteen. Light and fast-handling, the Sweet Sixteen is easy to carry all day, comes to the shoulder fast and offers a butter-smooth swing to match crossing or rising birds.

### SWEET SIXTEEN

+ Gloss finish walnut stock with close radius pistol grip is slim adjustable for length of pull and drop
+ 18 lines-per-inch checkering
+ 1/4” and 1/2” stock spacers included for length of pull adjustment
+ Gloss black anodized receiver finish
+ Three Invector-DS choke tubes
+ Fiber-optic front sight and ivory mid-bead
+ Ideal for hunting/sporting clays

### ULTIMATE

+ Satin nickel receiver finish with brushed accents and scroll engraving pattern that depicts pheasants on the left side and mallards on the right side
+ Gloss oil finish Grade III Turkish walnut stock with close radius pistol grip is slim adjustable for length of pull, cast and drop
+ Includes ABS Case

### HUNTER

+ Gloss finish Grade II Turkish walnut stock with close radius pistol grip is slim adjustable for length of pull, cast and drop
+ 18 lines-per-inch checkering
+ 1/4” and 1/2” stock spacers included for length of pull adjustment
+ Gloss black anodized receiver finish
+ Three Invector-DS choke tubes
+ Fiber-optic front sight and ivory mid-bead

### HIGH GRADE HUNTER

+ Gloss black receiver with scroll engraving pattern depicts pheasants on the left side and mallards on the right side
+ Gloss varnish finish Grade 2.5 Turkish walnut stock with close radius pistol grip is slim adjustable for length of pull, cast and drop
+ Includes ABS Case

### Pheasants and Quail Forever, ROOSTER ROAD TRIP

Andrew Vavra, Anthony Hauck and Logan Hinners are the crew of Rooster Road Trip, an online production for Pheasants Forever. Off the screen, the trio works for Pheasants Forever and Quail Forever with Andrew serving as the Marketing Manager, Anthony as the Director of Public Relations and Logan as a Graphic Designer. Learn more about Rooster Road Trip and the rest of the team on page 282.
**Features and Benefits**

**RECEIVER**
- • Constructed from rugged, lightweight aluminum alloy.
- • Power Drive Gas Piston
- • Includes Lightning Trigger
- • The lightning trigger features oversized exhaust ports that dump gases faster with heavy loads to reduce recoil.
- • 35% longer piston stroke increases reliability with light loads.
- • An enclosed seal keeps residue out of the action for cleaner operation.
- • The Power Drive Gas System works with the Invector Technology recoil pad to reduce muzzle jump up to 44% compared to the competition.

**LIGHTNING TRIGGER**
- • The Lightning Trigger is the finest fire control system ever offered in an autoloading shotgun.
- • Offers a smooth, crisp feel with minimal travel.
- • Lock times average .0052 seconds, 24% faster than traditional screw-on magazine caps.
- • The Lightning Trigger is the finest fire control performance available.

**POWER DRIVE GAS PISTON**
- • System ever offered in an autoloading shotgun.
- • Reliable gas piston design ever.
- • Easy to remove for cleaning.
- • Extensive research has produced the most technology recoil pad to reduce muzzle jump up to 44%.

**INTERCHANGEABLE CHOKE TUBES**
- • To maximize versatility and optimize shot pattern performance. Maxus shotguns feature the Invector-Plus system. See pages 171 to 175 for our complete line of choke tubes and wrenches.

**SPEED LOAD PLUS**
- • Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- • Speed unload feature makes emptying the magazine fast and easy.

**SPEED LOAD PLUS**
- • Patented feeding system sends the first shell loaded into the magazine directly into the chamber.
- • Speed unload feature makes emptying the magazine fast and easy.

**OPTIMAL DIMENSIONS**
- • The Maxus features a trim forearm and close radius pistol grip to maximize control.
- • An externally relieved steel magazine tube reduces weight for a faster swing while retaining durability.
- • Drop and cast can be tuned using the included stock shim kit.
- • A low rib is in line with the top of the receiver and translates into dead-flat point of impact.

**MAGAZINE CUT-OFF**
- • The magazine cut-off (not available on Sporting models) allows the chamber to be unloaded to change loads without cycling a shell from the magazine.
- • Useful when hunting different bird species and different loads are instantly required.

**INVECTOR RECOIL PAD**
- • Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- • The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

**TURNKEY MAGAZINE PLUG**
- • The patented TurnKey Magazine Plug is easily removable in seconds using a standard door or car key.

**ULTIMATE**
- • Gloss oil finish Grade III walnut stock with close radius pistol grip is slim-adjustable for length of pull.
- • Satin nickel receiver finish with brushed accents.
- • Laser engraved receiver (pneahs on the right, mallards on the left)
- • 22 lines-per-inch checking
- • Engineered bolt finish
- • Two 1/4” stock spacers included for adjustment
- • Three Invector-Plus choke tubes
- • Brass bead front sight
- • Ideal for hunting/sporting clays

**HUNTER**
- • Gloss finish Grade II walnut stock with close radius pistol grip is slim-adjustable for length of pull.
- • Satin silver receiver finish with brushed accents.
- • Laser engraved receiver (pneahs on the right, mallards on the left)
- • 22 lines-per-inch checking
- • Two 1/4” stock spacers included for length of pull adjustment
- • Three Invector-Plus choke tubes
- • Brass bead front sight
- • Ideal for hunting/sporting clays

**SPECIAL FEATURES**
- • Gloss oil finish Grade III walnut stock with close radius pistol grip is slim-adjustable for length of pull, cast and drop.
- • Satin nickel receiver finish with brushed accents.
- • Laser engraved receiver (pneahs on the right, mallards on the left)
- • 22 lines-per-inch checking
- • Engineered bolt finish
- • Two 1/4” stock spacers included for length of pull adjustment
- • Three Invector-Plus choke tubes
- • Brass bead front sight
- • Ideal for hunting/sporting clays

**PERFORMANCE**
- • Less Muzzle Jump
- • The Softest Shooting Autoloader Ever
- • Measurements in inches, pounds and ounces.

**INVECTOR RECOIL PAD**
- • Inflex recoil pads incorporate directional deflection construction that guides the comb down and away from your face, reducing felt recoil for greater shooting comfort and allowing faster, more accurate follow-up shots.
- • The Inflex recoil pads are made from a soft material for the best recoil absorbing performance available.

**BARREL**
- • Engineered bolt finish
- • Two 1/4” stock spacers included for length of pull adjustment
- • Three Invector-Plus choke tubes
- • Brass bead front sight
- • Ideal for hunting/sporting clays

**COMPARISON**
- • Measurements in inches, pounds and ounces.
- • All BROWNING FIREARMS Are SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.
Ready for Maximum Effort.

Rain, snow, mud, grit... the Browning Maxus is built to deliver maximum performance in all shooting conditions. The soft-shooting Power Drive Gas System reduces felt recoil with heavy loads, and is more reliable with a wider variety of loads than the competition.

Includes ABS Case

- Cerakote Camo Finish
- Briley® Oversize Bolt Release

Measurements in inches, pounds and ounces.

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- Two 1/4” stock spacers included for length of pull adjustment
- Three Invector-Plus choke tubes plus X-Full Turkey tube
- HiViz® magnetic combo sight set for turkey hunting and a brass bead front sight
- Drilled and tapped for scope mounts
- Ideal for hunting/sporting clays/turkey

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- Two 1/4” stock spacers included for length of pull adjustment
- Three Invector-Plus Banded choke tubes
- 1/4” and 1/2” stock spacers included for length of pull adjustment
- Fiber-optic front sight and ivory mid-bead sight
- Ideal for hunting

- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- Two 1/4” stock spacers included for length of pull adjustment
- Three Invector-Plus choke tubes
- Fiber-optic front sight and ivory mid-bead sight
- Ideal for hunting/sporting clays/turkey
While the Maxus excels in both the marsh and field, it also finds a home on the range. Maxus sporting clays models are fast cycling and fast to the shoulder, making them ideal for tricky target presentations. The Power Drive Gas System also reduces felt recoil to minimize fatigue and keep you shooting all day long.

### SPORTING GOLDEN CLAYS
- Gloss finish Grade III Turkish walnut stock with close radius pistol grip is shim-adjustable for length of pull, cast and drop
- Gold enhanced engraving of game birds transforming into a clay target (quail on the right, mallard on the left)
- 22 lines-per-inch checkering
- Engine-turned bolt finish
- Two 1/4" stock spacers included for length of pull adjustment
- Five Invector-Plus choke tubes
- HiViz® TriComp fiber-optic front sight with mid-bead
- Ideal for hunting/sporting clays

### SPORTING
- Gloss finish Grade 2.5 Turkish walnut stock with close radius pistol grip is shim-adjustable for length of pull, cast and drop
- 22 lines-per-inch checkering
- 1/4" and 1/2" stock spacers included for length of pull adjustment
- Satin receiver finish
- Five Invector-Plus choke tubes
- HiViz® TriComp fiber-optic front sight with mid-bead
- Ideal for hunting/sporting clays

### SPORTING CARBON FIBER
- Hydrographically decorated carbon fiber finish
- Composite stock with close radius pistol grip, textured gripping surfaces and is shim-adjustable for length of pull, cast and drop
- Two 1/4" stock spacers included for length of pull adjustment
- Five Invector-Plus choke tubes
- HiViz® TriComp fiber-optic front sight with mid-bead
- Ideal for hunting/sporting clays

Measurements in inches, pounds and ounces.
Silver.

Features and Benefits

RECEIVER
• Semi-humpback design is constructed from rugged, lightweight aluminum alloy.

ACTIVE VALVE GAS SYSTEM
• The self-adjusting Active Valve Gas System in Silver autoloaders shunts gases from fired shells to operate the action instead of adding to recoil.
• When shooting light loads, most of the gases operate the action.
• With magnum loads, only a small amount of gas is necessary to operate the action, while the remaining gases are vented out the top of the receiver for additional safety.
• The trigger assembly can be removed in just seconds for a thorough cleaning.
• The trigger guard is large and has carefully rounded edges to accommodate gloved fingers.

INTERCHANGEABLE CHOKE TUBES
• To maximize versatility and optimize shot pattern performance, Silver shotguns feature the Invector-Plus system. See pages 177 to 175 for our complete line of choke tubes and wrenches.

GRIPPING SURFACES
• Composite Silver models feature checkered gripping surfaces for a sure hold and a sleek feel in all climate conditions.
• Composite stock with textured gripping surfaces.
• Satin finish walnut stock with cut checkering.
• Ideal for hunting/sporting clays

TRIGGER
• The self-adjusting Active V alve Gas System diverts gases from fired shells to operate the action instead of adding to recoil, while y to operate the action, while
• Rugged, lightweight aluminum alloy
• Gloss black receiver finish
• Black/light olive drab
• Silver/matte black bi-tone receiver finish
• Satin finish walnut stock with cut checkering
• Gloss black receiver finish

LOAD VERSATILITY
• The Active Valve gas piston efficiently adjusts to reliably fire a wide range of loads.
• The piston automatically vent less gas with light loads ensuring reliability and more gas with heavy loads to mitigate felt recoil.
• 12 gauge "3" models fire everything from light, 1 oz., 2-3/4" field loads to the heaviest 3" magnums. The 2-1/2" version is built to handle a similar range, from 1-1/8 oz., 2-3/4" field loads up to hard-hitting 3-1/2" magnum loads.

FIELD COMPOSITE

• Black/charcoal bi-tone receiver finish
• Composite stock with, textured gripping surfaces
• Three extended Invector-Plus choke tubes
• Brass bead front sight
• Ideal for hunting/sporting clays

FIELD MICRO MIDAS

• Black/charcoal bi-tone receiver finish
• Composite stock with textured gripping surfaces
• Three extended Invector-plus choke tubes
• Brass bead front sight
• Ideal for hunting/sporting clays

FIELD

BARREL LENGTH CHOKES CHAMBER WT

Measurements in inches, pounds and ounces.

FIELD LIGHTNING

• Lightning-style, Grade 2.5 Turkish walnut stock with gloss finish and cut checkering
• Three extended Invector-Plus choke tubes
• Brass bead front sight
• Ideal for hunting/sporting clays

BARREL LENGTH

Measurements in inches, pounds and ounces.

OVERALL LENGTH

Measurements in inches, pounds and ounces.
orn steel. The receiver is machined from a solid block of forged steel.

A convenient serrated slide release is located at the rear of the trigger guard.

The BPS can easily be operated with the right or left hand, even with gloves on.

The thumb-operated, top-tang safety on the BPS continues to be the shotgun shooters rely on — no matter the conditions they face, season after season.

The slide-action shotgun represents no-nonsense reliability, and no other pump is better than the Browning BPS.

**Bottom Ejection and Loading**
- Unique bottom ejection throws empty hulls straight down, out of the line of sight.
- The BPS is the best pump shotgun choice for both right- and left-handed shooters.

**Reliable Pump-Action**
- The proven pump-action features rugged steel components.
- Rigid double action bars are made from heat-treated steel to eliminate twisting and binding for faster, more efficient slide-action operation.
- Reliable in all conditions.
- A convenient serrated slide release is located at the rear of the trigger guard.

**Receiver**
- The receiver is machined from a solid block of forged steel.
- The BPS can easily be operated with the right or left hand, even with gloves on.

**Top-Tang Safety**
- The thumb-operated, top-tang safety on the BPS can easily be operated with the right or left hand, even with gloves on.

**INTERCHANGEABLE CHoke TUBes**
- To maximize versatility and optimize shot pattern performance, the BPS features Invector interchangeable chokes. 12 and 20 gauge models receive the Invector-Plus system and .410 bore models benefit from the Standard Invector system. Interchangeable chokes. See pages 171 to 175 for our complete line of interchangeable chokes.

**Magazine Capacity**
- 2-3/4". Four in the magazine, one in the chamber.
- 3". Three in the magazine, one in the chamber.

**Features and Benefits**

- **Gripping Surfaces**
  - Guno composite BPS models have in-molded checkered gripping surfaces for a sure hold.
  - Forged steel. The receiver is machined from a solid block of forged steel.

- **Magazine Capacity**
  - 2-3/4": Four in the magazine, one in the chamber.
  - 3": Three in the magazine, one in the chamber.
  - A three-shot magazine adaptor plug is included.

- **All Browning Firearms are shipped with a free locking device to assist in the safe storage of firearms.**

- **Choke Tubes**
  - Three Invector Plus choke tubes

- **Top-Tang Safety**
  - The thumb-operated, top-tang safety on the BPS can easily be operated with the right or left hand, even with gloves on.

**CHOKE TUBES**
- Interchangeable choke tubes.
- Composite stock with textured gripping surfaces
- NWTF® buttstock decal

- Ideal for hunting/sporting clays

**STALKER**
- Brass bead front sight
- Ideal for hunting/sporting clays
Performance as Solid as Steel.

There aren’t many shotguns today that are built with a ready-for-anything forged steel receiver, but the BPS still is. This type of rock-solid construction may be considered overkill to some manufacturers, but to us it means the BPS is built for a lifetime of reliable performance.

Measurements in inches, pounds and ounces.
Deer Slayers.

Browning slug guns are ideal for deer, bear and boar. Like every shotgun we manufacture, BPS and Silver slug guns offer the natural pointability, top-notch quality and unshakable reliability you demand.

**RIFLED DEER 12 GA. MOSSY OAK® BREAK-UP COUNTRY®**

- Composite stock with textured gripping surfaces
- Thick-walled barrel for slug and sabot ammunition is rifled with a 1 in 28” twist
- Cantilever Weaver®-style scope mount
- Ideal for deer/bear/boar

**RIFLED DEER 20 GA. MOSSY OAK® BREAK-UP COUNTRY®**

- Thick-walled barrel for slug and sabot ammunition is rifled with a 1 in 35” twist
- Cantilever Weaver®-style scope mount
- Ideal for deer/bear/boar

**RIFLED DEER HUNTER**

- Satin finish walnut stock with cut checkering
- Non-glare matte black receiver finish
- Thick-walled barrel for slug and sabot ammunition
- Cantilever Weaver®-style scope mount
- Ideal for deer/bear/boar

**RIFLED DEER MATTE**

- Satin finish walnut stock with cut checkering
- Non-glare matte black receiver finish
- Thick-walled barrel for slug and sabot ammunition
- Cantilever Weaver®-style scope mount
- Ideal for deer/bear/boar

Measurements in inches, pounds and ounces.
10 GAUGE

Big Bores for Big Birds.

The extra punch of big-bore 10-gauge ammunition is made to bring down large birds such as turkey and geese. For hunting these heavy birds at extended ranges, a reliable Browning Gold autoloader or BPS pump-action 10 gauge is the shotgun you want in your hands.

GOLD LIGHT

• Composite stock with textured gripping surfaces
• Mossy Oak® camouflauge finishes
• Standard Invector interchangeable choke tube system
• National Wild Turkey Federation model includes HICK••® 4-in-1 fiber-optic sight set and NWTF® decal on the buttstock
• Silver bead front sight
• Ideal for hunting

BARRELS

Important: Do not attempt the use of 3-1/2” chambered barrels with 3” receivers or 3” chambered barrels with 3-1/2” receivers.

**Features and Benefits**

**FEATHER TRIGGER**
- The X-bolt, three-lower feather trigger provides a clean, crisp pull with no take-up or creep and minimal overtravel.
- The trigger is screw adjustable from 3 to 5 lbs. and factory pre-set at approximately 3-1/2 to 4 lbs.
- An alloy trigger housing contains hard chromed steel components that are highly polished on all critical contact surfaces.

**X-LOCK SCENE MOUNTING SYSTEM**
- X-loc mounts feature a four screws-per-base design that replaces the traditional two screw system.
- Offers more accurate placement and more secure attachment to the receiver.

**FREE-FLOATING BARREL**
- Every X-bolt action is individually bedded into the stock for a true free-floating barrel, not bedded using a master receiver like the competition.
- The barrel is free-floating by bedding the front into the stock for a true free-floating barrel, not bedded using a master receiver like the competition.
- The recessed muzzle crown helps protect the muzzle from damage.
- Barrels are triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.

**60° BOLT LIFT**
- Short 60° bolt lift is fast cycling so the hand easily clears the scope.
- The bolt is machined from solid steel bar stock for strength and custom rifle precision.
- Three locking lugs provide exceptional bolt strength.

**BOLT UNLOCK BUTTON**
- The bolt unlock button works in conjunction with the top-tang safety to provide an extra margin of safety when checking and unloading the chamber.
- Located on top of the bolt handle, the bolt unlock button allows the bolt to be unlocked and opened with the tang safety in the on safe position.
- The convenient tang safety blocks the trigger face and features a firing pin block for added security.

**INFLUX RECOIL PAD**
- The Influx Technology recoil pad features internal directional ribs that move the comb down and away from the cheek to increase shooting comfort.

**ROTARY MAGAZINE**
- The unique rotary magazine is removable, durable, easy to load and feeds rounds from the center line, not off to the side like other rifles, for straight to the chamber feeds.
- Unique design bears U.S. patent numbers: 6,156,875, 6,484,073 and 7,475,912.

**TOP-TANG SAFETY**
- Top-tang safety is easy to reach with the thumb.

**RATE OF TWIST**
- Select X-bolt Long Range models incorporate faster rates of twist to better stabilize longer, heavier bullets.
- 300 Win Mag: 1-8”
- 300 WSM: 1-8”
- 308 Win: 1-8”
- 6.5 Creedmoor: 1-8”
- 6mm Creedmoor: 1-8”
- 26 Nosler: 1-8”
- 7mm Rem: Mag: 1-8”.

**PERSONALIZED ENGRAVING**
- The bolt can be personalized with your name. Call (800) 333-3288 for information.

**X-Bolt Max Long Range Hunter**

The popularity of long-range hunting has more shooters than ever honing their ammunition and rifle setup to ensure that their shot at a once-in-a-lifetime trophy finds its mark. The New Max stock found on select Browning X-Bolt rifles is designed to help improve your shooting confidence by offering the adjustment to the optics you want and get the repeatable fit you need.
**NEW TUNGSTEN**

- Second generation carbon fiber stock offers excellent stability
- Cerakoted Tungsten finish protects better than traditional bluing or stainless steel
- Stainless steel bolted action
- Lightweight sporter contour, fluted barrel
- Threaded muzzle brake reduces recoil (thread protector included)
- Proprietary lapping process enhances the bore finish

**BURNT BRONZE**

- Second generation carbon fiber stock offers excellent stability
- Cerakoted Burnt Bronze finish protects better than traditional bluing or stainless steel
- Stainless steel bolted action
- Lightweight sporter contour, fluted barrel
- Threaded muzzle brake reduces recoil (thread protector included)
- Proprietary lapping process enhances the bore finish

**LONG RANGE BURNT BRONZE**

- Second generation carbon fiber stock offers excellent stability
- Cerakoted Burnt Bronze finish protects better than traditional bluing or stainless steel
- Stainless steel bolted action
- Heavy sporter contour, fluted barrel for long-range accuracy
- Muzzle brake with 5/8”-24 TPI suppressor threads (thread protector included)
- Extended bolt handle
- Proprietary lapping process enhances the bore finish

Take Your Pick.

There has never been a better selection of Browning bolt-action rifles available than within these pages, with more X-Bolt variations than ever before to meet your exact wants and needs. New long-range models are ready to help you test your limits at varmints or steel at extended ranges. A great selection of hunting rifles is available to help put meat in your freezer. We also offer long-range hunting models built to give you the confidence to make a cross-canyon shot at the trophy that always seems to stay a step ahead.

- Composite McMillan® A3-5 stock offers an adjustable comb to dial-in eye-to-scope alignment
- Fluted bull barrel for long-range accuracy
- Muzzle brake with 5/8”-24 TPI suppressor threads (thread protector included)
- Extended bolt handle
- Urban Carbon Ambush camouflage
- Pachmayr® Decelerator® recoil pad
- 20 MOA Picatinny optics rail
- OD sling swivel studs
- Bipod stud

- Composite McMillan® Game Scout stock offers a stable platform for hunting and long-range shooting
- Fluted, heavy sporter contour barrel for long-range accuracy
- Muzzle brake with 5/8”-24 TPI suppressor threads (thread protector included)
- Extended bolt handle
- Cerakote Burnt Bronze finish protects better than traditional bluing or stainless steel
- Exclusive A-TACS AU Camo®
- Pachmayr® Decelerator® recoil pad
- 20 MOA Picatinny optics rail
- OD sling swivel studs
- Bipod stud

Husband and wife hunting team Rick and Julie Kreuter host Beyond the Hunt. Not only do they bring you along on their hunting adventures, their program places an emphasis on wildlife conservation and land management. Watch Beyond the Hunt and learn more about Rick and Julie on page 284.

Hells Canyon Speed and Stalker models offer proven performance for hunters with no-nonsense features that maximize accuracy. A lightweight composite stock provides a stable platform that is unaffected by conditions or climate. The precision barrel is triple checked to offer optimal accuracy. The Feather Trigger optimizes shooter interaction at this most critical point with a crisp, light pull to help keep your shot on target.

### Measurements
- Calipers and weights are shown not included.
- Measurements in inches, pounds and ounces.
Tradition. Not Traditional.

It’s tough to beat the time-honored tradition and beauty of checkered walnut in your hands. A Browning X-Bolt with a handsomely-finished wood stock gives you the very best of modern rifle manufacturing and performance, plus the warm feel of real wood that other materials just can’t equal.

MEDALLION

- Engraved receiver with polished blued finish
- Sporter contour barrel for the ideal blend of accuracy and weight savings
- Gloss finish checkered walnut stock with roundwood fore-end tip and pistol grip cap
- Inflex recoil pad

HUNTER

- Non-reflective matte blued receiver finish
- Sporter contour barrel for the ideal blend of accuracy and weight savings
- Satin finish checkered walnut stock
- Inflex recoil pad

Hunting Pioneers. RALPH, VICKI & RJ

Ralph and Vicki Cianciarulo have been in the hunting TV business longer than most and are considered to be pioneers in the industry as one of the first hunting couples on air. Now “The First Couple of Hunting TV” is set to become the first family, as their son, RJ is set to join them on their programs: The Choice and Archer’s Choice. Learn more about the Cianciarulo family on page 286.
Big-Time Performance.

X-Bolt Micro rifles are sized to give younger and smaller shooters their best shot at success. Built to last with all the features of Browning full-size models, Micro models feature a compact stock that provides a shorter length of pull that is suitable for those of smaller stature. And the best part is, Micro guns are eligible for the Growth Insurance Program that allows the rifle to grow with the shooter.

MICRO COMPOSITE

• Non-reflective matte blued receiver finish
• Sporter contour barrel for the ideal blend of accuracy and weight savings
• Threaded muzzle brake reduces recoil (thread protector included)
• Weather-resistant composite stock with Dura-Touch Armor Coating

MICRO MIDAS

• Non-reflective matte blued receiver finish
• Sporter contour barrel for the ideal blend of accuracy and weight savings
• Satin finish walnut stock with cut checkering
• Inflex recoil pad
• Three 1/4” stock spacers
• Eligible for the Growth Insurance Program (see page 2 for information)

Measurements in inches, pounds and ounces.

Join brothers William and McLean Russell as they travel around the globe pursuing game on their program Boundless Hunting. Learn more about the brothers and their show in the bio on page 284.

Optics, mounts and accessories shown not included.

William

McLean
You’ll need to look far and wide to find a production bolt-action rifle that equals the beauty of a Browning White Gold Medallion — where polished stainless steel is surrounded by glass finished, sharply checkered walnut. Along with the aesthetics, these rifles feature a free-floating barrel, a recoil-taming Inflex pad, and the smoothest trigger on the market.

**WHITE GOLD MEDALLION**

- Polished stainless steel receiver
- Sporter contour barrel for the ideal blend of accuracy and weight savings
- Raised cheekpiece
- Glass finish Grade IV/V checkered walnut stock with rosewood fore-end tip and pistol grip cap

Features and Benefits

**LARGE BOLT SURFACE**
- The robust bolt offers additional rigidity.
- The bolt is machined from solid steel bar stock and machined internally to keep weight low.
- Three locking lugs provide exceptional bolt strength.
- Super smooth chrome bolt finish is great looking, quieter and offers smooth cycling.

**INFLEx RECOIL PAD**
- Inflex recoil pad softens recoil and allows faster, more accurate second shots.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.
- Polymer and steel construction is lightweight and extra tough.
- Hand-reamed chamber for precision accuracy.
- Non-reflective matte blued finish.
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**BOLT LOCK OVERRIDE BUTTON**
- The bolt lock override button provides an additional margin of safety when checking and unlocking the chamber.
- Located behind the bolt handle, the bolt lock override allows the bolt to be unlocked and opened with the tang safety in the on-safe position.
- The convenient tang safety blocks the trigger when the bolt is unlocked.
- Hand-reamed chamber for precision accuracy.
- Optimized magazine follower tilt for more reliable feeding.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.
- Polymer and steel construction is lightweight and extra tough.
- Hand-reamed chamber for precision accuracy.
- Non-reflective matte blued finish.
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**DETACHABLE MAGAZINE**
- The convenient tang safety blocks the trigger when the bolt is unlocked.
- Inset magazine follower for more reliable feeding.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.
- Polymer and steel construction is lightweight and extra tough.
- Hand-reamed chamber for precision accuracy.
- Non-reflective matte blued finish.
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**FREE-FLOATING BARREL**
- Free-floating maintains barrel-to-stock spacing for consistent accuracy.
- Recessed muzzle crown helps protect the rifling from damage.
- Precision button-rifled barrel is triple checked for interior finish, straightness and air-gauged for uniformity.
- Hand-reamed chamber for precision accuracy.
- Optimized magazine follower tilt for more reliable feeding.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.
- Polymer and steel construction is lightweight and extra tough.
- Hand-reamed chamber for precision accuracy.
- Non-reflective matte blued finish.
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**60° BOLT LIFT**
- Short 60˚ bolt lift is fast cycling, allowing the rifle to return to shooting position quickly.
- Hand-reamed chamber for precision accuracy.
- Optimized magazine follower tilt for more reliable feeding.
- Unique spring and follower design minimizes follower tilt for more reliable feeding.
- Polymer and steel construction is lightweight and extra tough.
- Hand-reamed chamber for precision accuracy.
- Non-reflective matte blued finish.
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**HUNTER**
- • Non-reflective matte blued finish
- • Sporter contour barrel for the ideal blend of accuracy and weight savings
- • Weather-resistant composite stock
- • Compact dimensions fit many shooters better
- • Pushmark® Decelerator® recoil pad
- • Eligible for the Growth Insurance Program (see page 2 for information)
- Satin finish walnut stock with cut checkering.
- Inflex recoil pad

**COMPOSITE STALKER**
- • Non-reflective matte blued finish
- • Sporter contour barrel for the ideal blend of accuracy and weight savings
- • Weather-resistant composite stock
- • Inflex recoil pad

**MICRO STALKER**
- • Non-reflective matte blued finish
- • Sporter contour barrel for the ideal blend of accuracy and weight savings
- • Weather-resistant composite stock
- • Inflex recoil pad

**STALKER**
- • Non-reflective matte blued finish
- • Sporter contour barrel for the ideal blend of accuracy and weight savings
- • Weather-resistant composite stock
- • Inflex recoil pad

**Pure Hunting,**
**WILLI SCHMIDT**

Pushing boundaries and testing the limits of personal endurance are in store on Pure Hunting. Host Will Schmidt takes you on hunting adventures and shows what it takes to get in shape for them. Learn more on page 285.
**Features and Benefits**

**RECEIVER**
- Lightweight, sturdy machined aircraft-grade aluminum.
- Drilled and tapped to accept scope mounts.

**ACTION**
- Lightning fast, glass-smooth rack and precision lever-action.
- Strong rotating head, multiple-lug breech bolt with a recessed bolt face and side ejection.

**HAMMER**
- The folding hammer provides an added measure of safety when the hammer is at half-cock.
- The fold-down hammer has four positions: Full-cock, half-cock, the folded hammer position, and the dropped, or fired position. The two positions at half-cock readily indicate the status of the rifle.

**DETACHABLE BOX MAGAZINE**
- The detachable box magazine provides reliable feeding and allows the use of ammunition with superior pointed bullets.

**TAKEDOWN FEATURES**
- BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store.
- BLR Takedown models are just as accurate and reliable as their unified counterparts but much easier to transport and store.
- Barrel is drilled and tapped for optional sight and adjustable rear sight.

**Lightweight '81**

**Features**
- Polished blued receiver finish
- Straight grip gloss finished walnut stock with cut checkering
- Adjustable sights

**Specifications**
- Caliber: 223 Rem.
- Weight: 1,039.99 lbs
- Barrel Length: 17-3/4" 7/8" 1-3/8 1-1/16 10
- Overall Length: 13-3/4 1/8 1-1/16 1-1/16 10

Measurements in inches, pounds and ounces.
If you are looking for an autoloading rifle that has the ability to offer extra punch from magnum cartridges and has head-turning style, we present the Browning BAR. Available in a broad selection of calibers and models, the reliable, gas-piston operated BAR combines the strength of a multi-lug bolt for excellent accuracy with the nimble performance you rely on from Browning.

**Features and Benefits**

**THE BOSS DEVICE**
- The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy.
- The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups.
- BOSS devices are available on the BAR Mark II Safari.

**RECEIVER**
- The BAR Mark II Safari uses a blued one-piece ordnance steel receiver with scroll engraving.
- A BAR rifle is drilled and tapped for scope mounts. The bolt release lever is incorporated into the receiver.

**MAZINE**
- Detachable box magazine with a unique hinged floorplate, detach the empty magazine and snap in a full magazine in mere seconds.
- The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups.
- BOSS devices are available on the BAR Mark II Safari.

**BOSS**
- The Ballistic Optimizing Shooting System (BOSS) is designed to maximize accuracy.
- The BOSS device quickly and easily tunes barrel harmonics to precisely match the specific ammunition fired, resulting in amazingly tight groups.
- BOSS devices are available on the BAR Mark II Safari.

**McK 3 HELLS CANYON SPEED**
- Ceramic Burnt Bronze finish protects better than traditional bluing or stainless steel
- Exclusive A-TACS AU Camo®
- Composite stock with overmolded gripping panels
- Slim-adjustable for cast off and drop at comb
- Inflex recoil pad

**McK 3 MOSSY OAK® BREAK-UP COUNTRY®**
- Composite stock with overmolded gripping panels
- Slim-adjustable for cast off and drop at comb
- Inflex recoil pad

### BOSS-CR ACCESSORY

- Offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature.
- By simply replacing the original BOSS forward weight and recoil reduction components with the one-piece, non-ported BOSS-CR accessory, only the reduced roar of the original BOSS is sacrificed.
- Designed to fit only BAR Mark II and A-Bolt centerfire rifles previously factory-fitted with the BOSS.
-‡ GLOSS BLUED for BAR Safari; A-Bolt models: Metalflame and Gold Medalion
-‡ STAINLESS for A-Bolt models: White Gold, Medalion and M-1000 Eclipse
-‡ BOSS device without the muzzle brake feature.
-‡ BOSS-CR device optional
-‡ Available with BOSS device, BOSS-CR device optional, Blued receiver finish
-‡ Gloss finish select walnut stock with cut checkering
-‡ High-relief scroll engraving

### MARK II SAFARI

- *Available with BOSS device, BOSS-CR device optional, Blued receiver finish*
- Gloss finish select walnut stock with cut checkering
- High-relief scroll engraving

### Optics, mounts and accessories shown not included.

- Measurements in inches, pounds and ounces.

### Description

- Gloss Blued
- Matte Blued
- Stainless

### MSRP

- 39.99
**T-BOLT**

### Features and Benefits

**STOCK**
- Stocks are full-size to more comfortably fit adults.
- Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock.
- Walnut stocked Sporter models feature trim dimensions with a satin finish and cut checkering. Walnut Target/Varmint models feature a Monte Carlo comb and wide forearms for stability on the bench.
- All models include a b璧ted action and dual action-screws for solid attachment.
- Sling swivel studs included.

**TRIGGER**
- The three-lever trigger design combined with a short-travel firing pin give a crisp break, quick lock time, no take-up and minimal overtravel.
- Adjustable for pull weight.

**ACTION**
- Receiver is machined from steel barstock.
- Features crossbolt lockup for strength and smooth operation.
- The mainspring runs directly through the massive pivot pin. Cocking effort is split between opening and closing for ease of operation. The bolt features dual extractors and a red cocking indicator band.
- Right-side ejection on both right- and left-hand models.

**TOP-TANG SAFETY**
- Top-tang, thumb operated two-position safety can be operated without changing from a shooting grip.

**BARREL**
- Target/Varmint models feature a 22” medium target profile.
- Sporter models feature a 22” medium sporter profile.
- Barrel is free-floating with a semi-match sporter profile.

**OPTICS READY**
- Receiver is drilled and tapped for scope mounts (not included). See pages 156-157 for scope rings and bases for T-Bolt rifles.

**BUTTSTOCK MAGAZINE STORAGE**
- Composite stock models offer a convenient location to securely store an extra magazine.
- Durable Composite models feature a Monte Carlo comb and include magazine storage in the buttstock.

**GRAY LAMINATED TARGET/VARMINT STAINLESS**
- Stainless steel medium target barrel with matte finish.
- 1/2”/28 TPI suppressor threads (thread protector included)
- Gray laminated, satin finish stock with Monte Carlo cheekpiece and cut checkering.

**Measurements in inches, pounds and ounces.**

---

**COMPOSITE SPORTER**
- Composite stock with textured gripping surfaces.
- Raised cheekpiece.
- Sporter weight barrel.
- Magazine storage in buttstock (Extra magazine included).

**COMPOSITE TARGET/VARMINT**
- Composite stock with textured gripping surfaces.
- Raised cheekpiece.
- Medium varmint barrel.
- Magazine storage in buttstock (Extra magazine included).

**SPORTER**
- Sporter weight barrel.
- Satin finish walnut stock with cut checkering.
- Both right- and left-hand models have right side ejection.

**TARGET/VARMINT**
- Medium varmint barrel.
- Satin finish varmint stock with raised cheekpiece and cut checkering.
- Both right- and left-hand models have right side ejection.

---

*Ammunition shown not included.*
Distinguished Craftsmanship.

Expertly built from solid steel and walnut, the Browning BL-22 is a breed apart from other rimfire rifles. In addition to its upscale appearance, the BL-22 stands out with its short-throw lever action that is as smooth and quick as the day is long.

Features and Benefits

**LEVER**
- The BL-22 features smooth, quick-cycling 33° lever throw.

**TRIGGER**
- The trigger travels with the lever to prevent finger pinch.

**AMMUNITION**
- The versatile BL-22 fires 22 Short, Long and Long Rifle ammunition.

**GRADE I MICRO MIDAS**
- Blued receiver finish
- Compact 12” length of pull to fit smaller shooters
- Glass finish walnut stock
- Eligible for the Growth Insurance Program (see page 2 for information)

**GRADE I**
- Blued receiver finish
- Glass finish walnut stock

**GRADE II OCTAGON**
- Blued receiver finish
- Scroll engraving
- Satin finish American walnut stock with cut checkering
- Gold-colored trigger

**GRADE II SATIN NICKEL**
- Satin nickel receiver finish
- Satin finish American walnut stock
- Scroll engraving
- Satin nickel receiver finish
- Satin finish American walnut stock with cut checkering
- Gold-colored trigger

**Measurements in inches, pounds and ounces.**
100% Browning.

The greatness of John M. Browning lives on in the SA-22. From the simple, straightforward operating design to the unique takedown feature, these sought-after rimfires showcase the inventor’s talent and eye for innovation. Unlike modern, mass-produced rimfires, the SA-22 is still expertly crafted from finely-finished walnut and steel. Well balanced, easy to load and accurate, the SA-22 is the perfect way to catch a glimpse inside the mind of the greatest firearms inventor of all time.

Features and Benefits

**TAKEDOWN FEATURE**
• The Semi-Auto 22 can be quickly taken down to a compact length of only 19-3/8” for storage or packing.

**BARREL ADJUSTMENT**
• The knurled knob allows play to be adjusted out of the barrel to ensure accuracy.

**IN-STOCK MAGAZINE**
• The tubular magazine is located in the stock to maintain the trim dimensions of the rifle.

**BOTTOM EJECTION**
• Bottom ejection makes the Semi-Auto 22 ideal for right- or left-handed shooters alike.

**IN-STOCK MAGAZINE**
• Cartridges load through a port in the right side of the buttstock.

**BOTTOM EJECTION**
• Bottom ejection with a free locking device to assist in the safe storage of firearms.

**ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.**

Measurements in inches, pounds and ounces.
Ready for Rimfire Fun?
Spend an afternoon with a Buck Mark Rifle in hand, a pocket full of ammunition and a few tin cans and you’ll understand why these lightweight, fast-handling little firearms are so popular. Set ‘em up and knock ‘em down with the easy-to-shoot Buck Mark Rifle.

Features and Benefits

SAFETY AND SLIDE RELEASE
• Large manual thumb safety.
• The convenient manual slide release is easily operated with the shooting or support hand.

SIGHTS
• Sporter model features a TRUGLO®/Marble Arms® fiber-optic sight system.
• The rear sight is adjustable for windage and elevation.

OPTICS RAIL
• All Buck Mark Rifles include an integrated optics rail.

MAGAZINE RELEASE
• Located adjacent to the trigger guard for convenient operation.

ACTION
• The straight blowback design offers enhanced simplicity and reliability.

FRAME
• Machined to exacting tolerances from a solid billet of 7075-T6 aluminum. The stock structure is a part of the pistol frame, reducing weight and the number of parts.
• Tough anodized finish.

BARREL
• Sporter model features lightweight, tapered sporter-weight barrel. Target models feature a bull barrel.
• The chamber in every Buck Mark Rifle barrel is hand-reamed and the muzzle crown is recessed to protect it from damage that could degrade accuracy.

SLIDE
• Serrated for an improved cocking grip.

MADE IN THE USA
• Buck Mark Rifles are proudly made in the USA.

ALL BROWNING FIREARMS ARE SHIPPED WITH A FREE LOCKING DEVICE TO ASSIST IN THE SAFE STORAGE OF FIREARMS.

Measurements in inches, pounds and ounces.
**EASY-TO-REACH CONTROLS**

- Large manual thumb safety.
- The convenient manual slide release is easily operated with the shooting or support hand.
- The magazine release is positioned adjacent to the trigger guard for convenient operation.

**ACTION**

- The straight blowback design offers enhanced simplicity and reliability.

**FRAME**

- Machined from aircraft grade aluminum alloy.
- Tough black anodized finish.

**SIGHTS**

- The 16-click per revolution adjustable Pro-Target® sight is standard on all models.
- This sight provides a finer degree of adjustment over the industry’s standard of 12-clicks per revolution.
- Fiber-optic TRUGLO®/Marble Arms® front sights are available on select models.

**GRIPS**

- Several wood, laminate and composite styles are available. Dremeltrided Ultragrip FX (UDX), soft touch rubber Ultragrip XX (URX) and wood Ultragrip Deluxe® (UFX) ambidextrous grips have ergonomic finger grooves for enhanced control.

**MAGAZINE**

- The steel magazine body is heat treated for long-term feeding reliability and long life. The coil spring provides a consistent follower angle. 10-round capacity.

**MADE IN THE USA**

- All Browning firearms are shipped with a free locking device to assist in the safe storage of firearms.

**Features and Benefits**

- Stainless steel slabside barrel with polished flats.
- Black laminated UDX grips.
- Pro-Target white outline adjustable rear sight.
- TRUGLO®/Marble Arms® fiber-optic front sight.
- Picatinny optics rail.

Buck the Trend.

From the machined-from-billet precision alloy frame to the recessed muzzle crown, the Browning Buck Mark is made in the good ol’ US of A — and we’re proud of that. Straight from the box, these accurate, reliable rimfires are ready to make their mark on the range or in competition.

John M. Browning

Born in 1855, John M. Browning dedicated his life to inventing revolutionary firearms that were destined to shape the future.

Many of his later designs began life in the factories in the Herstal region of Belgium. And it is in Belgium where some of his famous designs live on — including his most lasting legacy: The B25.

First manufactured by Fabrique Nationale d’Herstal in 1925, the B25 was the world’s first widely successful over and under shotgun. It was the result of Browning’s creative genius and experience combined with more than 400 years of FNH manufacturing expertise.

Often copied, the B25 has never been equalled, and remains an icon for hunters and target shooters everywhere.

John M. Browning was a prolific innovator and a legend in the truest sense; so it’s befitting that his name should grace a range of exquisitely crafted firearms.

The John M. Browning Collection is the very best of what we do.

For complete ordering information in the United States please contact your nearest Browning dealer.
Introducing the B15 Beauchamp
Grade B and Grade C

TRADITIONAL BEAUTY COLLIDES
WITH MODERN INNOVATION

The John M. Browning Collection is honored to present the Grade B and Grade C B15 Beauchamp models. These over and under shotguns showcase the storied reputation of Belgian finish work and the precision of modern design and manufacturing.

Following the traditionally sleek lines of storied field guns of the past, the beauty of the Grade B shines through. The low-profile receiver is replete with full side plates to better showcase the extensive engraving of pheasant and quail scenes. Additional chasing is performed by our artisans and adds dimension to these beautiful firearms.

Moving to the Grade C, the owner will receive an even more extensive and richly engraved acanthus scroll pattern that fills the bottom and sides of the receiver. This engraving also features hand chasing to increase the contrast and depth within the pattern.

Both Grade B and Grade C models feature polished blued barrels with a solid top rib. Checkered Grade V wood is expertly matched to the receiver and barrel set. A rich satin oil finish is the ideal match for a field gun, and ties the bluing of the barrels and silver nitride receiver together perfectly.
Introducing the B15 Beauchamp
Grade D and Grade E
YOUR PERFECT OVER AND UNDER
SHOTGUN DOES EXIST

Walk the fields with the John M. Browning Collection and find the sought-after place where technology and craftsmanship become one. Fancy Grade D and Grade E B15 Beauchamp models incorporate the latest in Browning over and under performance and handling. It culminates with fit and assembly in the old-world style by the skilled hands of legendary Belgian armurers and engravers.

Precision engraving on the full side plate receiver is the standout feature of the smooth-handling Grade D. The additional chasing performed adds contrast and depth to the intricate pheasant and quail scenes, and sets this over and under apart from the crowd.

Traditional Belgian artistry steps to the forefront with the absolutely exquisite Grade E. Extensive chasing to the acanthus scroll engraving adorns the entire receiver and extends to cover every steel surface.

Grade D and Grade E models are fitted with a buttstock carved from highly-configured Grade V wood. The stock is then finished in a smooth satin oil finish and capped with an engraved grip cap and skeletonized buttplate. The forearm is a mock three-piece style that adds strength to this traditional style.
ProSteel safes lead the industry with advanced security measures that guard against break-in from drill, punch and pry attacks. Fire protection is also a priority, with multiple features that work together to increase protection from catastrophe and contribute to our honest and excellent ratings.

**OmnibARRIER® Lock Protection System**
A carefully engineered structure of steel hard plate and steel components designed to protect the safe lock from drill, punch and push attacks.

**Pry-Stop Corner Bolts**
Pry-Stop Corner Bolts (U.S. patent #6,276,327) provide better protection than other pry-defense designs. Innovative long locking bolts extend diagonally from a reinforced support at the corners of the door to protect against pry attack at the corner areas.

**Pry-Stop End Bolts**
Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over two and one-half times stronger and attach to a high-strength steel angle iron that prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

**Pry-Stop Tabs**
Pry-Stop Tabs are pieces of angled steel added to the top and bottom bolts and inside of the safe door. These reinforcements work together to increase pry resistance.

**DUO-FORMED DOOR**
The best Browning ProSteel safe door is made from multiple layers of steel formed together to provide superior strength, pry resistance and attack protection. Full second panel for outstanding strength. The door face is 1-1/16” thick.

**FORMED DOOR**
The Formed Door is engineered with a rugged steel face. Back and reinforcement panels provide excellent strength and attack protection compared to the competition.

**REINFORCED DOOR FRAME**
The door opening of the safe is strengthened by an integrated return flange to create added pry and attack resistance.

**UNI-FORCE™ Locking System**
The finest Browning ProSteel safe locking mechanism uses robust cam locks and a large, multiple diversion bar system to prevent bolt or handle pressure from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.

**FORCE DEFLECTOR™ Locking System**
The Force Deflector Locking System (U.S. patent #7,466,405) prevents bolt or handle forces from reaching the lock. Forces go to the cams and diversion bars, not the lock, for protection unmatched by other locking systems.

**180° HEAVY DUTY HINGES**
Rugged exterior hinges allow the door to swing open 180° for unhindered access to the safe interior. Door locking bolts maintain security if the hinges are cut off. Fire protection is better with external hinges because no insulation is removed to accommodate the hinges.

**ThermaBlock**
Browning ProSteel safes feature multi-faceted ThermaBlock fire protection technology. The three main components of ThermaBlock are: 1) our external door hinges that don’t require fire insulation to be removed 2) thicker sheets of fire insulation and 3) the interlocking arrangement pattern of the fire insulation that eliminates gaps. Together, these three pieces remove areas where heat can migrate into a safe and raise the internal temperature. The chart below demonstrates that a Browning ProSteel safe with ThermaBlock offers two to three times the fire protection of a comparable safe.

<table>

<tr>
<td><strong>COMPETITOR B</strong></td>
<td><strong>50 minutes at 1200˚F</strong></td>
</tr>
</tbody>
</table>

Browning ProSteel safe with ThermaBlock offers two to three times the fire protection compared to the competition. Back and reinforcement panels provide superior strength, pry resistance and attack protection. Superior to other bolt designs which allow the locking bolt support bar to bend. Pry-Stop End Bolts are over two and one-half times stronger and attach to a high-strength steel angle iron that prevents the locking bolt support bar from bending in a pry attack. The top and bottom locking bolts on the door side secure the critical door corners.

**Don’t Cut Corners.**
It may not seem to matter, but hinge type is crucial to fire protection. To accommodate an internal hinge, fire protection material must be removed where the hinges attach. In a fire, the unprotected hinge areas allow the internal temperature of a safe to rise to a significantly higher temperature than in a Browning ProSteel safe with external hinges and no gaps in the fire protection.

**Staying Cool When it Gets Hot.**
Browning ProSteel safes feature multi-faceted ThermaBlock fire protection technology. The three main components of ThermaBlock are: 1) our external door hinges that don’t require fire insulation to be removed 2) thicker sheets of fire insulation and 3) the interlocking arrangement pattern of the fire insulation that eliminates gaps. Together, these three pieces remove areas where heat can migrate into a safe and raise the internal temperature. The chart below demonstrates that a Browning ProSteel safe with ThermaBlock offers two to three times the fire protection of a comparable safe.
Residential Security Container) rating — the industry safes carry the UL RSC (Underwriters Laboratories) addition to exclusive features, all Browning ProSteel interior designs to elevate them above the rest. In construction, proprietary technology and patented set by Browning. (Compatible with safes that Axis accessories, featured on page 111 are designed to easily mount and valuables. It also adds a sleek appearance to the safe interior. silicone rubber that is highly durable and designed to protect guns from a single piece of sturdy steel. Covered in a soft, protective be configured to meet virtually every need. The Axis shelf is made to retain much of the adjustability of the higher-end system. Like CMS shelves are constructed of wood, covered in soft carpet and the door gun rack and can be quickly accessed. The exclusive Axis Adjustable Shelving (U.S. patent #D662341) is a completely customizable system with an array of shelves that can be configured to meet virtually every need. The Axis shelf is made from a single piece of sturdy steel. Covered in a soft, protective silicone rubber that is highly durable and designed to protect guns and valuables. It also adds a sleek appearance to the safe interior. Axis accessories, featured on page 111 are designed to easily mount to the solid steel shelf or barrel rack. (Compatible with safes that feature Axis Adjustable Shelving built in 2013 or later.) Differences among gun safes are difficult to see on a sales floor, but you can be confident that you won’t find another brand that lives up to the high standards set by Browning. Our safes combine quality construction, proprietary technology and patented interior designs to elevate them above the rest. In addition to exclusive features, all Browning ProSteel safes carry the UL RSC (Underwriters Laboratories) Residential Security Container rating — the industry standard that defines a home security safe. The UL RSC rating ensures that a safe meets construction specifications and has passed a series of independent laboratory test attacks. Confidence in Browning ProSteel product leads to the best warranty in the gun safe industry — a lifetime warranty that covers attempted break in, break in, or fire. If one of our safes is involved in one of these situations and your homeowner’s insurance policy does not cover the damage to the safe, ProSteel will repair or replace the safe. (Safe contents are not covered.)
The Best of the Best.

Premium Platinum safes are The Best There Is. Each is constructed using thicker 3/16” (7-Gauge) steel for added weight and pry resistance. ThermaBlock fire protection is designed to keep heat and flames at bay for two hours. The distinguishing feature of the Platinum is the handsome Grade VI cedar interior. Platinum safes are made in the USA.

Features

SECURITY
• Heavy duty 3/16” (7-Gauge) steel body
• 9-1/16” Thick Duo-Formed® Door with full coverage 10-Gauge inner plate
• Uni-Point Locking System
• OmniBarrier® Lock Protection System
• Pre-Stop Corner Bolts extend diagonally from the corners of the door to protect against pry attack at the crucial corner areas
• 1-1/2” diameter chromed locking bolts on all four sides of door (top/sides/bottom)

FIRE PROTECTION
• ThermaBlock 1750° F/120 min.

APPEARANCE AND CUSTOMIZATION
• Automotive grade gloss finish in your choice of color
• Pinstriping and choice of graphic
• Grade VI cedar interior adds a luxurious quality to the safe
• Five-spoke handle in your choice of finish

STORAGE AND CONVENIENCE
• Premium DXP Storage System with Quick Access DXP Barrel Rack and Scope Saver
• Axis Adjustable Steel Shelves with Drawer and Multipurpose Insert. File Box and Pistol Rack
• High Capacity Barrel Racks each store up to 13 long guns and offer quick access to 7 (per rack)
• Axis Pistol Shelf holds up to 12 handguns
• Electrical Outlet allows electrical accessories to be added without taking apart power cords
• Interior LED lighting around the door frame makes locating items inside the safe much easier
• Elevated floor protects gun stocks

## Axis Adjustable Shelving

Axis Adjustable Shelving (U.S. patent #2662341) and CMS Adjustable Shelving can be configured to fit most any need for your safe, and the accessories on this page add to the tremendous potential. The accessories below are compatible with all Axis- and CMS-equipped safes built in 2018 and newer and are greater than 20 cubic feet in size.

### PISTOL SHELF

- Made up to 12 handguns. The soft surface protects handguns from damage.
  - **CODE MSRP 154106 40.00**

### STEEL SHELF

- Holds five handguns and leaves the shelf available for other possessions and gear.
  - **CODE MSRP 154102 22.00**

### PISTOL RACK

- With a deeper drop and heavy-gauge metal, handguns with optics are easier to store.
  - **CODE MSRP 154116 22.00**

### BARREL RACK

- Stores more long guns in the same space with the high capacity barrel rack.
  - **CODE MSRP 154101 36.00**

### SCOPE SHELF

- 15 slots accommodate rifles, shotguns, carbines and modern sporting rifles.
  - **CODE MSRP 154103 35.00**

### VERTICAL FILE HOLDER

- This file holder makes it easier to locate and organize important documents.
  - **CODE MSRP 154119 25.00**

### DEEP DRAWER

- This deep drawer is the perfect home for larger or oddly shaped items.
  - **CODE MSRP 154120 72.00**

### DRAWER WITH JEWELRY INSERT

- This insert protects and organizes valuables such as watches, rings and necklaces.
  - **CODE MSRP 154107 50.00**

### DRAWER WITH FOAM INSERT

- This insert provides a sturdy platform for tucked and organized items.
  - **CODE MSRP 154102 50.00**

### DRAWER WITH MULTI PURPOSE INSERT

- Compartments are sized to organize cash, passports and other documents.
  - **CODE MSRP 154113 90.00**

### MONEY/PASSPORT INSERT

- Multi-purpose drawer keeps delicate items organized, protected and easy to find.
  - **CODE MSRP 154109 50.00**

**Lock ‘em Down.**

Head ‘em up and move ‘em into a Rawhide safe. A tough 11-Gauge steel body and Pry-Stop End Bolts improve resistance to break-in. The excellent 1550° F/80 min. fire rating offers additional protection. A standout feature is the faux leather-trimmed interior that adds a touch of rugged class. A full DPX door storage rack adds storage while improving access to more long guns.

VAULT DOORS/SECURITY DOOR

Large collections of guns and valuables call for a walk-in gun room sealed with a Browning ProSteel Vault Door. To protect your collection, Vault Doors feature high-end security, fire insulation and the flawless finish that Browning ProSteel safes are regarded for, and they are available in a variety of finishes to match the interior of your home.

STANDARD SPECIFICATIONS

- The minimum rough door opening for the Standard Vault Door is 83” H x 36” W.
- External L-frame with 1/2” diameter steel 2-bolt anchors (included) can be poured in place in new construction or installed in an existing door frame by using expansion anchors or lag bolts (not included).
- Door frame L-flange will fit any wall with a minimum thickness of 5-1/2”.
- Available in Out-Swing Model only.

CLAMSHELL SPECIFICATIONS

- The minimum rough door opening for the Clamshell Vault Door is 82” H x 40” W.
- Clamshell flange design uses an internal and external flange for additional security and improved appearance.
- Can be secured into an existing door frame using the clamshell flange or, for additional security, using expansion anchors or lag bolts (not included).
- Clamshell flange has a 3-1/2” range of adjustment to fit walls with a minimum thickness of 8” to a maximum thickness of 11-1/2”.
- Available in both In-Swing and Out-Swing Models.

Security Door

- 7-Gauge steel frame
- Exterior: 84” H x 38-1/8” W
- Weight: 645 lbs.
- Locking Bolts: 22/22
- Minimum Rough Opening: 83” H x 36” W

Available Models

CLAMSHELL - OUT SWING

- Exterior: 83” H x 42-3/4” W
- Weight: 600 lbs.
- Locking Bolts: 24/24
- Minimum Rough Opening: 82” H x 40” W

CLAMSHELL - IN SWING

- Exterior: 83” H x 42-3/4” W
- Weight: 600 lbs.
- Locking Bolts: 24/24
- Minimum Rough Opening: 82” H x 40” W

STANDARD - OUT SWING

- Exterior: 84” H x 38-1/8” W
- Weight: 645 lbs.
- Locking Bolts: 22/22
- Minimum Rough Opening: 83” H x 36” W

Build a Custom Vault Door

See page 110 for detailed samples of locks, hardware/trim colors, finish colors, graphics and pricing. For even easier ordering, use the “Build-A-Safe” tool on Dealer Access. User-installed accessories are on page 126-128. Additional accessories are on page 111.
PISTOL VAULTS

Compact Protection.
Browning ProSteel pistol vaults are a compact, convenient place to store a handgun, cash and small valuables. Tough security features include safe-like bolts and thick steel construction built to stand up to smash and grab thieves. Keyless electronic entry provides you with fast, easy access to your belongings.

SAFES
**USER-INSTALLED ACCESSORIES**

Get the Most from Your Safe. Get the most from your safe with our line of safe accessories. These accessories help you store more gear and guns, better organize interior space, add lighting to make items easier to locate and ensure your possessions are protected from humidity.

**DOOR ORGANIZERS**
- Browing safe door organizers increase gun capacity, free-up shelf space and improve organization in your safe by utilizing the inside surface of the door.
- Store your most used guns and valuable items on the door for fast access.
- Accommodates a wide range of long guns.
- Document pouch keeps important papers within easy reach.
- MOLLE System straps allow for versatile storage options for handguns and is compatible with any MOLLE pouch, holster or strap.

**SMALL**
- Size: 14” W x 48” H
- Two handgun pouches
- One document pouch
- Two long gun (up to 47” long) storage pouches and barrel straps

**MEDIUM**
- Size: 20” W x 48” H
- Three handgun pouches
- One large document pouch
- Three long gun (up to 47” long) storage pouches and barrel straps
- One multipurpose pouch

**LARGE**
- Size: 27” W x 48” H
- Four handgun pouches
- Two document pouches
- Four long gun (up to 47” long) storage pouches and barrel straps
- Two multipurpose pouches

**LED LIGHT**
- This battery-powered LED light adds 75 lumens of bright light to your safe interior.
- Motion sensor activated.

**BOLT DOWN HARDWARE KIT**
- Includes four lag screws for anchoring to wood floors and four concrete bolts and concrete anchors for securing to concrete.
- Wood and concrete drill bits are also included.

**PISTOL RACKS**
- Store handguns more efficiently.
- Increases storage space on shelves.
- Access to handguns is made easier by placing them in an upright position.

**4-Gun**
- 15.00

**6-Gun**
- 20.00

**ZEROUST VCI PROTECTANT**
- Small capsule emits an invisible vapor that forms a corrosion- and rust-resistant barrier on metal surfaces.
- Vapor Corrosion Inhibitors (VCI) have been used for years to protect metal parts in industrial and commercial applications.
- One capsule protects a standard 50” wide (approximately 26 cu. ft.) safe for one year.

**VCI GUN SOCK**
- VCI (Vapor Corrosion Inhibitor) penetrates into the smallest crevices and drives out moisture where oils cannot reach.
- A protective vapor enclosure around the firearm.
- Extra protection for all metal items in an enclosed gun safe or cabinet.
- Fits rifles and shotguns 48” to 56”.

**DPX ACCESSORIES**
- Store more guns without taking up shelf space with DPX Handgun Pouches (sold in sets of two).
- Store shorter firearms and make them easily accessible with DPX barrel loops and DPX stock risers.

**LED SAFE LIGHTING KIT**
- The LED Safe Lighting Kit is the best aftermarket lighting solution available today.
- Each kit comes complete with six LED light tubes with six LEDs per tube, three flexible connectors, mounting clips with hook and loop tape, A/C adaptor and a motion sensor power module.

**VCI GUN SOCK - TWO PIECE**
- Vapor Corrosion Inhibitor (VCI) forms a protective vapor enclosure around the entire firearm.
- Adds protection to all metal items in an enclosed gun safe or cabinet.
- Two-piece design fits most breakdown rifles and shotguns.

**BOLT DOWN HARDWARE KIT**
- Includes four lag screws for anchoring to wood floors and four concrete bolts and concrete anchors for securing to concrete.
- Wood and concrete drill bits are also included.

**DOOR ORGANIZERS**
- Browing safe door organizers increase gun capacity, free-up shelf space and improve organization in your safe by utilizing the inside surface of the door.

DRIY ZONE MOISTURE REDUCER
• Absorbs moisture without electricity and is recharged in an oven
• Can be reactivated indefinitely
30.00

EVERDRY™ ELECTRIC DEHUMIDIFIER
• The EverDry Electric Dehumidifier removes humidity from the interior of a safe and protects against rust
• The 18’ long EverDry should be used on safes 30” wide and larger
• Cord is removable for installation
10.00

FLEXIBLE EVERDRY™ DEHUMIDIFIER
• The Flexible EverDry is flat and easily bends
• Takes up less space and makes installation easier, especially in small safes
40.00

S&G® ELECTRONIC LOCK RETROFIT KIT
• The S&G Electronic Lock is an advanced security solution
• Uses the uniqueness of an individual
• Kit includes lock and installation DVD (Installation by a professional locksmith is recommended)
165.00

SECURAM™ SCANLOGIC BIOMETRIC LOCK RETROFIT KIT
• The SecuRam ScanLogic Biometric Lock uses the uniqueness of an individual fingerprint as the combination in this advanced security solution
• The lock opens with either a fingerprint or a multi-digit code
• It is highly secure and operates very quickly
• Simple programming instructions
• LCD Screen (Installation by a professional locksmith is recommended)

Making the Case for Protecting a Classic Browning.

One of the grand traditions of the shooting sports is having a genuine Browning fitted luggage case for a favorite Browning firearm. Our cases are constructed with solid wood frames and plush padded interiors. Their durable vinyl exteriors have the look and feel of fine aged leather accented by brass fittings. These cases become the perfect backdrop for showing off a fine Browning firearm and will provide decades of tasteful protection.

- Rugged wood construction with leather-like expanded vinyl covering and trim
- Deep pile fleece-fitted interior with fabric-covered positioning blocks and accessory compartments
- Brass-plated corner accents, hinges and key locks
- Available in classic brown or black and tan
- Models are available to fit most Browning single barrel, over-under, autoloading and pump shotguns and the SA-22 rifle

Browning fitted cases shown here are not for use with rifles or auto/pump style guns.

**ENCINO II COLORS**

- Black/Brown
- Chestnut/Coffee
- Sage/Redwood

*Does not fit Citori Trap or Skeet. Firearms and accessories shown not included.*
**FLEXIBLE GUN CASES**

**DRAG MAT**
- Heavy-duty nylon ripstop shell with MOLLE webbing, carry handle, shoulder strap, and padded yoke for backpack carry
- Heavy closed-cell foam padding won’t absorb moisture
- Converts from a prone mat into a rugged, padded rifle case
- Non-slip shooting surfaces, muzzle and buttstock pockets and two-removable interior pockets

**LONA CANVAS/LEATHER - TAKEDOWN**
- Quilted 9 oz. 100% cotton canvas shell with aged leather rifle-style shoulder strap, muzzle cap and trim
- Closed cell foam padding with plush red flannel lining
- Double-pull zipper with brass hardware
- Snap closure side pocket
- Seven in divider creates individual spaces for barrels and receiver on takedown guns
- 34-1/2” L x 2” D x 19-1/2” H

**LONA CANVAS/LEATHER - SHOTGUN**
- Quilted 9 oz. 100% cotton canvas shell with aged leather rifle-style shoulder strap, muzzle cap and trim
- Closed cell foam padding with plush red flannel lining
- Double-pull zipper with brass hardware
- Snap closure side pocket with shell or choke tube loops
- 52” L x 2” D x 8” H

**LONA CANVAS/LEATHER - SCOPED RIFLE**
- Quilted 9 oz. 100% cotton canvas shell with aged leather rifle-style shoulder strap, muzzle cap and trim
- Closed cell foam padding with plush red flannel lining
- Double-pull zipper with brass hardware
- Snap closure side pocket with cartridge loops
- 48” L x 2” D x 11-1/2” H

**VCI GUN SOCK - ONE PIECE**
- Vapor Corrosion Inhibitor (VCI) forms a protective vapor enclosure around the entire firearm
- Adds protection to all metal items in an enclosed gun safe or cabinet
- Drawstring closure
- One-piece design fits most rifles and shotguns 48” to 68”

**VCI GUN SOCK - TWO PIECE**
- Vapor Corrosion Inhibitor (VCI) forms a protective vapor enclosure around the entire firearm
- Adds protection to all metal items in an enclosed gun safe or cabinet
- Drawstring closure
- Two-piece design fits most takedown rifles and shotguns

**BRUISER PRO - TAKEDOWN**
- Waterproof double-wall polyethylene shell with rounded corners, recessed handles and wheels, O-ring lid seal and equalization air valve
- Tough Lock™ hinge and three locking points for user-supplied padlocks
- Holds one takedown firearm
- Corrosion-inhibiting Zerust® inserts
- Airline approved
- 38” W x 14” D x 5” H
- 14 lbs.

**BRUISER PRO - DOUBLE GUN**
- Waterproof double-wall polyethylene shell with rounded corners, recessed handles and wheels, O-ring lid seal and equalization air valve
- Tough Lock™ hinge and three locking points for user-supplied padlocks
- Holds two scoped firearms
- Corrosion-inhibiting Zerust® inserts
- Airline approved
- 54” W x 15” D x 5” H
- 19 lbs.

**BRUISER PRO - SINGLE GUN**
- Copolymer shell with piano-style hinge, recessed handle, four latches and eyelets for user-supplied padlocks
- Double convoluted foam interior
- Holds one scoped firearm
- Corrosion-inhibiting Zerust® inserts
- Airline approved
- 53-5/8” W x 12-1/8” D x 3-3/4” H
- 5 lbs.

**MIRAGE - SINGLE GUN**
- Copolymer shell with piano-style hinge, recessed handle, four latches and eyelets for user-supplied padlocks
- Double convoluted foam interior
- Holds one scoped firearm
- Corrosion-inhibiting Zerust® inserts
- Airline approved
- 53-5/8” W x 16-1/2” D x 4-1/2” H
- 12 lbs.

**MIRAGE - DOUBLE GUN**
- Copolymer shell with piano-style hinge, recessed handle, four latches and eyelets for user-supplied padlocks
- Double convoluted foam interior
- Holds two scoped firearms
- Corrosion-inhibiting Zerust® inserts
- Airline approved
- 53-5/8” W x 16-1/2” D x 4-1/2” H
- 12 lbs.

**LONA CANVAS/LEATHER - SCOPED RIFLE**
- Quilted 9 oz. 100% cotton canvas shell with aged leather rifle-style shoulder strap, muzzle cap and trim
- Closed cell foam padding with plush red flannel lining
- Double-pull zipper with brass hardware
- Snap closure side pocket with cartridge loops
- 48” L x 2” D x 11-1/2” H

**SCOPE MOUNTS/BASES/RINGS**

**Integrated Scope Mount System.**

Our Integrated Scope Mount System eliminates alignment problems and the possibility of a loose connection between the base and ring. The ring and base become a single, ultra-rigid unit machined from 7000 series aluminum alloy and are available in .400” Low height, .500” Medium height and .600” High height versions to fit many popular Browning firearms.

The height is determined by measuring from the top of the base to the bottom of the scope ring. Barrel contour, optic size and preferred eye relief all affect the fit of the scope on a rifle.

**SCOPE BASES**

- **Machined from solid steel**
- **Double recoil shoulder design holds rings securely, even under recoil**
- **These bases are only compatible with Browning scope rings listed below**
- **T-Bolt two-piece and SA-22 one-piece bases are alloy and are only compatible with Browning riflering rings (Code 12365)**

**SCOPE RINGS**

- **Ultra-rigid vertically split rings use oversized hardware for extra strength and ease of installation**
- **Standard, Intermediate and High rings are available for both 1” and 30mm diameter scopes**
- **Compatible with the two-piece scope bases for A-Bolt, BAR, BLR and the X-Bolt bases for X-Bolt rifle models listed above**
- **T-Bolt and SA-22 mounts use riflre rings**
- **Rifle rings do not have Buckmark engraving**
- **Rings are sold in pairs**

**WEAVER-STYLE SCOPE BASES**

- **Browning one- and two-piece Weaver-style scope bases are machined from aircraft grade alloy**
- **X-Bolt bases feature a four-screw per base mounting platform for a secure fit**
- **Compatible with Browning Weaver-style scope rings listed below**
- **BLR Takedown bases are Weaver-type, one-piece scout-style bases for forward mounting a low eye-relief scope**

**WEAVER-STYLE SCOPE RINGS**

- **Standard, Intermediate and High rings are available for both 1” and 30mm diameter scopes**
- **Compatible with the one- and two-piece Weaver-style scope bases for AB3, A-Bolt, X-Bolt, BLR and Buck Mark rifles, and for Maxum, Gold and Silver stockers as listed above**
- **Weaver-style rings will fit most Picatinny bases**
- **Rings are sold in pairs**

**SHOOTING RESTS**

**NEW**

**LONG RANGE SUPPORT SYSTEM**

- Ballistic nylon construction with hook and loop adjustable web carry strap.
- Lightweight foam filling makes them easy to carry in the field or on the range.
- Elastic bungee cords on medium and large models.

Small: 8.8" W x 4.1/2" H x 4.3/4" D, weighing 3.5/4 ounces

Medium: 8.3/4" W x 5.1/2" H x 3" D, weighing 6.1/16 ounces

Large: 9.1/2" W x 7.3/4" H x 7" D, weighing 13 ounces

**MOA MODULAR SHOOTING REST LIGHTWEIGHT**

- Ballistic nylon construction and web carry strap.
- Four modular components quickly configure the rest for ideal height.
- Polymer pellet fill in both top and bottom modules.

**MOA UTILITY SHOOTING REST**

- Ballistic nylon construction and rubberized top and bottom surfaces.
- Polymer pellet fill provides a solid rest.

**MOA TWO-PIECE SHOOTING REST**

- Ballistic nylon construction.
- Rubberized top holds gun in place while shooting.
- Polymer pellet fill provides a solid rest.

**MOA RAIL REST**

- Ballistic nylon construction.
- Rubberized top holds gun in place while shooting.
- Y-shaped ears provide a solid platform to support firearm without lateral movement.
- Polymer pellet fill provides a solid rest.
  - Retaining buckle fits over most tree stand top rails and shifts easily to align firearm with large.
  - 6.3/4" W x 10.1/2" H x 3.1/4" D

**BOSS-CR**

- Offers all the accuracy and tunable advantages of the original BOSS device without the muzzle brake feature.
- By simply replacing the original BOSS for forward weight and recoil reduction components with the one-piece, non-port BOSS-CR accessory, only the reduced recoil of the original BOSS is sacrificed.
- Is designed to fit only BAR Mark II and A-Rifle centerfire rifles previously factory-fitted with the BOSS.

**EASY SPOT PAPER TARGETS**

- Produces a high-contrast halo around each bullet hole, helping you see the holes without a spotting scope.
- Self-adhesive for easy application to almost any surface.
- Includes color matched repair patches.
- Choose from two different target styles.
- 12" x 12" sheets with six targets per package.

**ACCESSORIES**

- BROWNING.COM

[^158]: BROWNING.COM

**BOSS-CR**

- SLOTTED BLUED for BAR Safari; A-Rifle models: Matte Blued and Gold Medallion
- MATTE BLUED for A-Rifle models: Composite Stalker, Hunter, Euro-Bolt, Varmint, Eclipse Hunter and M-1000 Eclipse
- STAINLESS for A-Rifle models: Stainless Stalker, White-Gold, Matte Blued and M-1000 Eclipse

It is important that the correct BOSS-CR be selected for a specific caliber and model of rifle.

Eye protection meets or exceeds ANSI Z87.1 impact standards. Hearing protection meets or exceeds ANSI S3.19 noise reduction standards.

BROWNING.COM
ACCESSORIES
The end of each earpiece opens to release a corded retractable earplug, so you never have to fumble in your pocket or pouch for earplugs.

Sound Shield is the perfect solution to the problem of having to search for both eye and ear protection items in a crowded shooting gear bag. User-replaceable earplugs have a noise reduction rating of 25dB.

Sound Shield eyewear offers a full-wrap lens design that helps eliminate blind spots or target blocking sometimes found on center-frame designs.

Eye protection meets or exceeds ANSI Z87.1 impact standards. Hearing protection meets or exceeds ANSI S3.19 noise reduction standards.
**UNIVERSAL DELUXE CLEANING KIT**

- Everything needed for gun cleaning
- 2 three-section T-handled brass cleaning rods fits .17 caliber and larger
- 13 nylon jag tips
- 4 nylon slotted tips

- Empty two-compartment poly bottle with twist closure for oil and grease
- Clear-topped plastic hard case

**CODE MSRP**

| 124202 | 21.99 |
**SHOTGUN PIG™ POLYMER BARREL CLEANING JAGS**

- Provides 100% contact with interior of barrel
- Color coded by gauge and threaded for standard shotgun cleaning rods
- Withstands common solvents and lubricants and will not harm barrel
- Fabric cleaning patch can be attached via magnet on end of jag
- Available individually, all 5, and 12 and 20 gauge combo packs

**SHOTSHELL SNAP CAPS**

- Precisely matches 12 gauge shell dimensions
- Safely withstands repeated dry-firing practice
- Will not harm firing pins or chambers
- Packaged in pairs

**GUN CLEANING MAT**

- Soft, felt-like fabric protects both firearms and furniture
- Waterproof Zorb Tech™ backing stops spills from migrating and inhibits the soak-through of cleaners
- Washable, dryable and highly stain resistant
- 16” H x 54” W

**SCREWDRIVER TOOL SET**

- Compact 51-piece tool set
- Custom-molded driver handle with magnetic tip
- Rugged-fitted plastic case with clear lid and sliding closure
- 12 flat head bits, 8 hex bits, 4 Phillips bits, 2 extra-long Phillips bits, 7 Torx® bits, 4 Robertson bits, 4 mini-wing bits, 3 clutch bits, 2 spline bits, 3 torq bits and one 1/4” socket adaptor

**PRE-PACKAGED 4-STEP GUN CLEANER**

- Includes Carbon Cleaner, Bore Polish, 10 oz. Solvent Degreaser and Gun Oil

**STEP 1: CARBON REMOVER**

- Proprietary formula quickly removes carbon buildup
- Evaporates quickly
- Contains no ammonia and is pH neutral
- 4 oz. bottle with pinpoint applicator

**STEP 2: BORE POLISH**

- Proprietary formula improves bore condition while safely removing accuracy-harming copper buildup
- Removes copper, lead and powder residue
- Evaporates quickly
- Contains no ammonia and is pH neutral
- 4 oz. bottle with pinpoint applicator

**STEP 3: SOLVENT AND DEGREASER**

- Safely removes residue from Carbon and Bore Polish cleaners
- Fast-drying solvent displaces water and leaves no residue
- Contains no chlorofluorocarbons and is chlorine safe
- Rapidly cuts through oil and grease
- 19 fl. oz. aerosol can

**STEP 4: GUN OIL**

- Proprietary formula passes strict military requirements
- Low-surface tension provides excellent lubrication and corrosion protection
- Contains no synthetics
- Available in 10 oz. bottle with pinpoint applicator or 6 oz. aerosol can

**ACCESSORIES**

- 10 Gauge
- 12 Gauge
- 16 Gauge
- 20 Gauge
- 28 Gauge
**MAGAZINES**

- A83
  - Detachable staggered box magazine has a formed steel body with integrated feed lips for durability
  - Tough polymer baseplate and shoulder prevents recoil-induced bullet tip deformation and bullet setback

**A-BOLT RIFLE**

- Action: LY/Note: A-Bolt magazines that
- Caliber: • Action/Caliber/Color Code
  - Short: 243 Win., 6.5 Creedmoor, 7mm-08 Rem., 308 Win.
- Capacity: is three rounds in magazine calibers and four rounds in standard calibers

**A-BOLT SHOTGUN**

- Action: LY/Note: A-Bolt magazines that
- Caliber: • Action/Caliber/Color Code
  - Short: 243 Win., 6.5 Creedmoor, 7mm-08 Rem., 308 Win.
- Capacity: is three rounds in magazine calibers and four rounds in standard calibers

**BAR**

- Detachable box magazines for the BAR designed to fit onto the unique hinged floorplate
- Allows you to lower the floorplate, detach the empty magazine and snap in a full magazine in mere seconds

**BLR**

- Flash-mounted detachable box magazine
- Capacity: is three rounds in magazine calibers and four rounds in standard calibers

**T-BOLT**

- Action: LY/Note: A-Bolt magazines that
- Caliber: • Action/Caliber/Color Code
  - Short: 22 LR, 17 HMR, 22 WMR
- Capacity: is three rounds in magazine calibers and four rounds in standard calibers

**X-BOLT**

- Detachable rotary magazine constructed from a durable lightweight polymer
- Feeds cartridges directly in line with the bolt, instead of offset as with traditional leaf-spring magazines for a straight path right into the chamber
- Ergonomic magazine-mounted release

**HI POWER**

- Classic double-stack magazine design
- Available in 13-round or 10-round capacity models

**1911-380/1911-22**

- Detachable box magazine with heat treated steel body for long life
- Steel coil spring for maximum feeding reliability with all types of factory ammunition including modern defensive hollowpoints
- Capacity: eight rounds for the 1911-380
- Capacity: ten rounds for the 1911-22

**BUCK MARK**

- Detachable box magazine with heat treated steel body for long life
- Steel coil spring for maximum feeding reliability
- Capacity: ten rounds and fits both Buck Mark pistols and rifles

**NOTE:** A-Bolt Magazines that are not listed here may be available through the Browning Parts Department at (800) 322-4626

**ACCESSORIES**
INVECTOR-DS CHOKE SYSTEM

Features and Benefits

- Invector-DS choke tubes combine muzzle-end threads and thin-wall construction for a longer, more gradual taper that produces extremely consistent, dense shot patterns that tighten consistently in reliable, evenly scaled steps.

- Muzzle threads minimize the flare at the end of the barrel for improved appearance, a faster seeing and improved balance.

- A proprietary differential-braded brass seal compresses against the barrel wall when lightened to keep the choke tube threads clean and make installation and removal easier than any other muzzle thread system.

- Invector-DS is standard on AS and Citori 725 models.

- View the full line of Invector-DS choke tubes on pages 171, 173 and 174.

INVECTOR-PLUS CHOKE SYSTEM

- The Invector-Plus interchangeable choke tube system works with Victor Pro and back-boring to offer consistent, dense shot patterns.

- The longer choke taper inside an Invector-Plus choke tube produces consistent patterns and is far more durable than choke systems in competitors’ guns, especially with steel shot.

- Invector-Plus eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel.

- Invector-Plus is standard on 12 and 20 gauge Maxus, Citori, Cynergy, Silver, BPS and BT-99 models.

- See pages 171 through 175 for our complete lineup of choke tubes and choke tube wrenches.

STANDARD INVECTOR

- The Standard Invector interchangeable choke tube system is for non back-bored Browning barrels and offers consistent, dense shot patterns. It’s far more durable than the choke systems found in competitors’ guns, especially with steel shot.

- Standard Invector eliminates gases slipping between the choke tube and barrel that could damage the choke tube and the barrel and it’s standard on 10, 16 and 28 gauge, and .410 bore Citori, Cynergy, Gold and BPS models.

- See pages 171 through 175 for our complete lineup of choke tubes and choke tube wrenches.

CHOKE TUBE TECHNOLOGY

Choke Points – How to Select the Right Choke Tube.

The key to making a successful shot is selecting the right choke tube for a specific hunting situation or a challenging target presentation. Choose from Extra-Full constrictions for turkey and predators to pattern-spreading Timber n’ Teal tubes for close-in flooded timber waterfowling. You can trust that every Browning choke tube is made to the most exacting standards. They will provide you with perfect, dense shot patterns over many years of shooting and hunting.

INVECTOR-DS FLUSH

- Standard tubes fit flush with the end of the barrel but are longer than competitors’ tubes.

- Proprietary differential-braded brass gas seal eliminates residue buildup and makes chokes easy to remove and install.

- Improved spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke.

- Gas is controlled at the interface between choke and where it seats in the bore.

- From Skeet to Full choke, patterns lighten consistently and reliably.

- Choke tube wrenches are listed on page 175.

- Flat choke tube wrench is not compatible with Invector-DS choke tubes.

INVECTOR-PLUS FLUSH

- From Skeet to Full choke, patterns lighten consistently and reliably.

- Choke tube wrenches are listed on page 175.

- Flat choke tube wrench is not compatible with Invector-DS choke tubes.

STANDARD INVECTOR

INVECTOR-PLUS EXTENDED

- Extended length tubes are easy to change and add where it seats in the barrel.

- Proprietary differential-braded brass gas seal eliminates residue buildup and makes chokes easy to remove and install.

- Integrated spring suspension holds the seal tight, yet allows expansion against the barrel wall for a perfect fit and a smooth transition for shot column entering choke.

- Gas is controlled at the interface between choke and approximately 1/4” to the overall length of the barrel.

- From Skeet to Full choke, patterns lighten consistently and reliably.

- Choke tube wrenches are listed on page 175.

- Flat choke tube wrench is not compatible with Invector-DS choke tubes.

INVECTOR-PLUS ACCESSORIES

- Produces tighter patterns than Browning Invector-Plus flush choke tubes.

- 28 gauge and .410 bore are Standard Invector chokes.

- Choke tube wrenches are listed on page 175.

- Flat choke tube wrench is not compatible with Midas Grade Extended choke tubes.

- Extends beyond the end of barrel for easy removal and installation.

- Stainless steel with black oxide finish.

- Laser-etched gold accent band.

- Minimum gas geometry plus high-resolution “RMS” finish reduce plastic buildup in bore.

- Invector-Plus long taper choke tube technology in 12 and 20 gauge.

MIDAS GRADE EXTENDED

- Produces tighter patterns than Browning Invector-Plus flush choke tubes.

- 28 gauge and .410 bore are Standard Invector chokes.

- Choke tube wrenches are listed on page 175.

- Flat choke tube wrench is not compatible with Midas Grade Extended choke tubes.

ACCESSORIES
CHOKE TUBES

DIAMOND GRADE EXTENDED

- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels on 12 and 20 gauge shotguns
- 17-4 stainless steel construction
- Absolutely perfect concentricity for superior patterning
- Diamond-cut knurling extends beyond the end of the barrel for easy removal and installation
- Titanium nitride finish with black accent band

DIANA GRADE EXTENDED

- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels on 12 and 20 gauge shotguns
- Stainless steel barstock is heat treated prior to machining
- Titanium nitride surface 729HC hard coat for excellent wear and reduced plastic buildup
- Absolutely perfect concentricity for superior patterning
- Extends beyond the barrel for easy removal and installation
- Produces tighter patterns than Browning Invector-Plus flush choke tubes

INVECTOR-PLUS EXTENDED

- Constructed of highly polished stainless steel for the ultimate in performance and durability
- Knurled portion extends beyond the end of the barrel for easy removal and installation
- Longer choke taper inside for use with back-bored barrels
- Produces excellent shot patterns with uniform densities
- Set to industry construction patterns
- Threaded for 12 gauge Browning Invector-Plus back-bored barrels only
- Available in six constrictions from Skeet to Full
- Choke tube wrenches are listed on page 175

SPECIALTY EXTENDED

- Constructed of stainless steel for the ultimate in performance and durability
- Knurled portion extends beyond the end of the barrel for easy removal and installation
- Full Strut Turkey tube has directional porting, a camo front band and is optimized for tight patterns with #4, #5 and #6 shot sizes

WICKED WING EXTENDED

- Available in three constrictions for close, medium and long range shooting
- Constructed of 17-4 stainless steel with black oxide finish for the ultimate in performance and durability
- Diamond knurled portion extends beyond the end of barrel for easy removal and installation
- Specifically designed for steel shot, particularly Browning BDX waterfowl ammunition

GRAND PASSAGE EXTENDED

- Mosy-Oak® camo accent band
- Stainless steel with black oxide finish
- Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus back-bored barrels only
- Produces tighter patterns than Browning Invector-Plus flush choke tubes

* Helically rifled to spin the shot charges and spread the pattern

** Flat choke tube wrench is not compatible with Diamond Grade Extended choke tubes

** Flat choke tube wrench is not compatible with Diana Grade Extended choke tubes

** Flat choke tube wrench is not compatible with Invector-Plus Specialty Extended choke tubes

** Flat choke tube wrench is not compatible with Wicked Wing Extended choke tubes
CHOKE TUBES

GOOSE BAND EXTENDED
- Polished stainless steel constriction with waterfowl leg band motif
- Identical to the factory Invector-DS choke tubes included with the Wicked Wing AS and the factory Invector-Plus choke tubes included with the Wicked Wing Maxus
- Superior patterning with steel shot
- Threaded for 12 gauge Invector-Plus back-bored barrels only
- Choke tube wrenches are listed on page 175

INVECTOR-PLUS
- Invector-Plus tubes are available in constrictions ranging from Cylinder to Extra-Full
- Longer choke taper inside Invector-Plus choke tubes for use with back-bored barrels
- Produces excellent patterns with uniform densities
- Made to industry constriction standards
- Flush fit tubes do not extend beyond end of barrel (Except X-Full Turkey and X-Full Trap models)
- Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability
- Choke tube wrenches are listed on page 175

STANDARD INVECTOR
- Standard Invector tubes are available in constrictions ranging from Cylinder to Extra-Full
- Produces excellent patterns with uniform densities
- Made to industry constriction standards
- Flush fit tubes do not extend beyond end of barrel (Except X-Full Turkey and X-Full Trap models)
- Constructed of highly polished, 17-4 stainless steel for the ultimate in performance and durability
- Choke tube wrenches are listed on page 175

CHOKE TUBE WRENCHES

SPEED WRENCH
- Works with both extended and flush mount choke tubes
- Fits 12 gauge Invector-Plus choke tubes

T-WRENCHES
- Works with both extended and flush mount choke tubes

DUAL INVECTOR WRENCH
- Fits 12 and 20 gauge Invector-DS, 12 and 20 gauge Invector-Plus and Standard Invector choke tubes
- Not compatible with extended choke tubes

STANDARD INVECTOR WRENCH
- Not compatible with extended choke tubes

- Accessories
**Secure Blade Lock**

- The Speed Load blade lock is the essence of simplicity. Just press in on the release button while pressing down on the back of the blade spine and lift the blade up and out of the frame.
- Insert a new blade by reversing the process and making sure the release button fully engages the slot in the blade.
- Folding blade models have a rugged liner lock that keeps the blade securely in position when open.

**COMFORTABLE GRIPS**

- Speed Load knives are offered with a variety of handle materials including G-10 laminate and rugged injection molded composites with soft rubber inserts for improved grip.
- The handle’s grip is further improved by adding attractive sculpting and textured patterns to help prevent slipping, even when wet.

**BLADE STORAGE**

- The Speed Load Hunting and Fixed Blade knives and the Speed Load Saw come with rugged nylon belt sheaths that help keep the knife secure and provide a hard polymer insert case for storage of additional blades.
- Folding blade models have rugged snapped nylon belt sheaths that help keep the blade secure and provide a hard polymer insert for storing additional blades.

**Features and Benefits**

**TASK-SPECIFIC BLADES**

- Speed Load blades come in a variety of blade profiles, contours and edge treatments. Just pick the blade that best suits the cutting task at hand.
- Speed Load knives are available in your choice of stainless steel or ceramic blade models.
- The Speed Load Hunting model also accepts standard utility knife blades that are readily available in any hardware store or home improvement center.
- Not all blades are fully interchangeable between all models.

**SPEED LOAD REPLACEMENT BLADES**

- Replaceable high carbon steel, stainless steel or ceramic blades for Speed Load knives and saws.
- Choose from single saw blades, multi-blade variety packs and bulk packs.
- 24-blade packs contain 6 blade storage boxes, 50-blade packs contain 5 blade storage boxes.
- Blades are not interchangeable between all models.

**Steel**

- Four replaceable blades include one drop-point, one guthook, one caper and one utility.
- Thumb stud and pocket clip.
- Rugged nylon belt sheath with polymer insert for storing extra blades.
- Accepts Speed Steel blades.

**Ceramic**

- Three replaceable blades include one drop-point, one guthook and one caper.
- Thumb stud and pocket clip.
- Accepts Speed Steel blades.

**Saw**

- Two push/pull saw blades.
- Push button blade lock and release.
- Thumb stud.
- Locking wood screw in base allows it to be used as a pole saw.
- Rugged snapped nylon belt sheath with protective sleeves for storing extra blades.

**Hunting**

- Four replaceable blades include three drop-point and one caper.
- Thumb stud and pocket clip.
- Rugged nylon belt sheath with polymer insert for storing extra blades.
- Accepts ceramic blades.
- Two-tone black and gray handle.

**Fixed**

- Six replaceable stainless steel blades include one deep belly Skinner, one drop-point, one Guthook/saw and three fillet.
- Rugged snapped nylon belt sheath with polymer insert for storing extra blades.
- Molded polymer hard case.
HUNTING

**HUNTING**

- Mirror polished drop-point blade

- Lanyard eyelet
- MOLLE compatible flapped nylon belt sheath with accessory pocket
HUNTING

HUNTING

LONG HAUL FOLDING

- Hollow-ground drop-point blade with matte titanium finish
- Anti-skid grooves on blade spine
- Lanyard-eyepet
- Thumb stud and pocket clip
- Available in small and large folding models

KNIFE SHARPENER

- Quickly sharpens most knife and precision tool blades
- Two carbide inserts
- Anodized aluminum alloy with key ring
- Ideal for pack, pocket, kitchen, cabin or camp

NEW

FEATHERWEIGHT CLASSIC FIXED

- Slender, mirror polished drop-point blade profile
- Anti-skid grooves on blade spine
- Stitched leather belt sheath

WHITE WATER FILLET

- Long flexible blade for precise fillet cuts
- Nylon lanyard
- Hard molded polymer sheath

KODIAK

- Includes a drop-point, gut hook/abdominal blade and double-cut bone saw
- Finger groove handle design
- Flush fit fasteners
- Nylon belt sheath

MODEL 111

- Traditional clip-point blade
- Brass bolsters
- Classic outdoor look and feel
- Nylon belt sheath

**GAME REAPER SAW**

- Push-pull saw teeth for efficient cutting
- Large radius finger grooves in handle for added control
- Two-position nylon belt sheath

**OUTDOORSMAN SURVIVAL KIT**

- Assisted opening drop-point blade profile
- Thumb stud and pocket clip
- Compact 50 lumen flashlight (includes one AA alkaline battery)

**OUTDOORSMAN SHEARS**

- Lever securely locks blades in closed position
- Perfect for field dressing game, clearing shooting lanes and other camp chores
- Nylon belt sheath

**OUTDOORSMAN COMPACT HATCHET**

- One-piece head
- Integrated full-tang construction
- Hanging eyelet
- Nylon belt sheath with snap closure

**OUTDOORSMAN ULU HATCHET**

- Skeletonized ulu-style head for added versatility in chopping, skinning and carving game
- Black oxide finish
- Integrated full-tang handle
- Lanyard eyelet and cord hanging loop
- Nylon belt sheath
**CAMPING/SURVIVAL COLLECTIBLES**

- **BLACK LABEL SHOCK 'N AWESOME**
  - One-piece hot forged steel head and integral handle
  - Black powder-coated finish
  - Curved penetration spike
  - Split pommel
  - Lanyard eyelet
  - Blade-Tech™ molded polymer belt sheath with MOLLE attachment system

- **STORM FRONT DAMASCUS**
  - Deep drop-point blade profile
  - Integral hand-forged Damascus steel bolster
  - Dark hardwood handle accent with two thin red accent bands
  - Five leather belt sheaths
  - Made in the USA

- **SECOND CHANCE**
  - Slender drop-point blade profile
  - Traditional gentleman’s pocket folder styling
  - Fingernail opening nick on blade
  - Available in Ebony or Zebrawood

- **VISUAL EFFECTS MAMMOTH**
  - Unique presentation grade example of the knife making art
  - Slender drop-point blade profile
  - Mirror polished stainless steel blade and bolster
  - Thumb stud and pocket clip

Browning lights are designed to be the most rugged and efficient lights on the market. Today we offer a full line of lighting products ranging from basic flashlights and headlamps to high-performance lights with the latest USB charging capabilities. Across the line, Browning is the brilliant brand that’s perfect for pocket, purse, pack or pickup.

Features and Benefits

MULTI-MODE OPERATION

• Many of our lights offer a choice of continuous full output, continuous low output and a rapid strobe mode.
• Many models also offer multi-color LEDs for specialized tasks, to extend run times, prevent spooking game animals and preserve night vision.

PUSH-BUTTON TAILCAP SWITCH

• The multi-mode, push-button tailcap switch allows partial depression, giving you a quick flash for search or identification, plus a full depression (ON) to provide a continuous beam for task illumination.
• The textured rubber-covered switch prevents finger slippage during activation.
• The rotating lock-out tappet prevents accidental activation in a pocket or pack, and a quick twist enables the light.

WIDE-ANGLE TECHNOLOGY

• This latest LED technology creates a clear, soft, ultra-wide-angle beam to span out the shadows, making it the perfect choice for close-distance task lighting or working around your vehicle, home or campsite at night.

SIZE, WEIGHT AND POWER

When choosing a light, smaller, brighter and lighter are better. Today’s high-output LEDs are so powerful and efficient they achieve the same light output as the old multi-cell C and D lights. The Trak USB keychain light is no bigger than a magnesium pistol cartridge, yet it shines with a powerful 121 lumens.

LED VS. XENON BULBS

LEDs are preferred over traditional Xenon bulbs for most uses, thus all of our lights are now LED designs. LEDs use batteries more efficiently, illuminate at greater distances, emit a clean, even beam and will never burn out under normal use. Like most technology, LEDs keep getting better every year. For 2019 several of our lights offer upgraded LEDs with 15% – 100% more output.

HAND HELD OR HANDS FREE

Headlamps and cap lights allow the use of both hands for tasks like dressing a deer, fixing a truck or finding a path through the woods. Modern technology makes many headlamps as powerful as larger hand-held flashlights. The Blackjack 6V headlamp puts out 860 lumens and is brighter than all but three of our Browning hand-held flashlights.

LONG RUN TIME

By using advanced digital circuitry, highly efficient LEDs and low-resistance switches, we are able to offer extra long run times on many lights. Many flashlights and headlamps will run for 20-48 hours on the low setting. The High Noon 3C spotlight will run for 4 days at the low setting. These extended run times could be the difference between getting home safely or spending a night in the woods.

WATERPROOF AND SUBMERSIBLE

Because the great outdoors doesn’t always have great weather, we have redesigned most lights to be waterproof and submersible to 3 feet for 30 minutes (ANSI IPX7). Most of our other lights are O-ring sealed for greater water resistance (IPX4). The High Noon LED spotlight is submersible and floats.

BATTERIES

Lithium batteries are used in many of our highest-performing lights, such as the Kingpin, Ruckus Lantern and High Noon Rechargeable spotlight. Lithium batteries pack twice the power of alkaline batteries for their weight, and operate well at very cold temperatures.

Impact resistance (FL-1 Standard 1M) measures how well the light resists damage when dropped repeatedly from a height of 1 meter (about 39”) onto concrete.

POWER BANK

For 2019, in addition to the standard Power Bank Charging station, there is a USB “power out” feature built into the Skyway flashlight, Ruckus lantern, the High Noon Rechargeable spotlight, and Kingpin.

The Browning USB Power Bank charging station is built around a 4400mAh battery that has plenty of juice to keep all your USB lights and other electronic devices topped off and running at peak performance.

ALL-WEATHER SEALS ON USB PORTS

The flexible rubber seals on USB charging ports help keep moisture out of your Browning light or power station, preventing damage during rain, snow or unexpected splashing.

Fl 1-Meter Waterproof Certification

The means of all of our lights are certified to meet the latest ANSI FL-1 Flashlight Performance Standards to operate after being submerged in 1 meter (about 39”) of water for 30 minutes. It can be a real Messiah in a water survival situation (even if you just leave your spotlight in the duck boat for the winter).

**Black**

Hi-Viz Yellow

• Modes: High, low or flashing
• Battery: 5000 mAh Li-polymer (included) with color-coded charging and power-remaining indicator
• Includes: Lanyard and one CR123A battery

**DUAL FUEL**

Use the internal Li-polymer battery or a CR123A battery for back-up

**HIGH NOON PRO USB RECHARGEABLE WITH POWER BANK**

- **Beam Distance**: 14-1000 yds
- **Lumens Range**: 87-1900
- **Waterproof/Floatable**: 3 feet/30 mins
- **Run Time**: 24 hrs
- **Impact Resistant**: 1 meter
- **USB Charge**: Recharge internal battery from power source via USB cable provided
- **Power Bank**: Draw power from the internal battery to charge other USB devices
- **Modes**: Long distance, wide angle, long distance plus wide angle, low or flashing
- **Battery**: 5000 mAh Li-polymer (included) with color-coded charging and power-remaining indicator
- **Wide-Angle Technology** offers an ultra-intense wide angle beam
- **Includes**: Lanyard and one CR123A battery

**HIGH NOON USB RECHARGEABLE WITH POWER BANK**

- **Beam Distance**: 110-600 yds
- **Lumens Range**: 91-1000
- **Waterproof/Floatable**: 3 feet/30 mins
- **Run Time**: 4-36 hrs
- **Impact Resistant**: 1 meter
- **USB Charge**: Recharge internal battery from power source via USB cable provided
- **Power Bank**: Draw power from the internal battery to charge other USB devices
- **Dual Fuel**: Use the internal Li-polymer battery or a CR123A battery for back-up
- **Includes**: Lanyard and one CR123A battery

**HIGH NOON PRO 1000 USB RECHARGEABLE WITH POWER BANK**

- **Beam Distance**: 220-725 yds
- **Lumens Range**: 90-1000
- **Waterproof/Floatable**: 3 feet/30 mins
- **Run Time**: 9-72 hrs
- **Impact Resistant**: 1 meter
- **USB Charge**: Recharge internal battery from power source via USB cable provided
- **Power Bank**: Draw power from the internal battery to charge other USB devices
- **DUAL FUEL**: Use the internal Li-polymer battery or a CR123A battery for back-up
- **Includes**: Lanyard and one CR123A battery

**HIGH NOON 4C**

- **Beam Distance**: 135-475 yds
- **Lumens Range**: 55-625
- **Waterproof/Floatable**: 3 feet/30 mins
- **Run Time**: 12-96 hrs
- **Impact Resistant**: 1 meter
- **Modes**: High, low or strobe
- **Rubberized soft touch finish**
- **Built-in folding stand with multiple positions**
- **Safety lock-out switch**
- **Black model has a rubberized soft touch finish**
- **Includes**: Lanyard

**HIGH NOON 3C BLACK**

- **Beam Distance**: 135-475 yds
- **Lumens Range**: 87-1800
- **Waterproof/Floatable**: 3 feet/30 mins
- **Run Time**: 2-24 hrs
- **Impact Resistant**: 1 meter
- **Modes**: High, low or flashing
- **Battery**: 3000 mAh Li-polymer (included) with color-coded charging and power-remaining indicator
- **Safety lock-out switch**
- **Rubberized soft touch finish**
- **Built-in folding stand with multiple positions**
- **Includes**: Lanyard

### WAIST

Measure around the waist where pants are normally worn.

### CHEST

Measure under the armpits, around the widest part of the chest and shoulder blades.

### CIRCUMFERENCE

**CIRCUmFERENCE**

**APPAREL**

**Harness Access**

- **Select Browning outerwear offers convenient Harness Access.**
- **Allows a trail-ready safety harness to be comfortably worn underneath a parka or jacket.**
- **Improves concealment as the harness does not interfere with the camouflage pattern on the garment.**

**Rugged Slider Buttons**

- **These large, low-profile buttons are easy to fasten and undo, even in cold, wet conditions.**
- **Unlike buttons that are simply sewn on, the Slider Buttons are held in place by a durable loop of webbing that laces through two slots and is permanently treated to repel water and prevent absorption, making PrimaLoft tastier drying than other synthetic insulations.**

**PrimaLoft® Insulation**

- **PrimaLoft® is a premium performance insulation that is engineered for superior warmth, water resistance, loft and compressibility.**
- **PrimaLoft has the best warmth-to-weight ratio in the industry. The fibers are more densely packed and retain heat better than other insulations for improved thermal efficiency.**

**Silvadur™**

- **Silvadur technology provides long-lasting odor control.**
- **SilentSnaps use a quiet polymer interface that won't spook game, yet are easy to use in any condition.**

**Temperature/Conditions Icons**

- **Thermometers indicate the temperature for which the performance of the garment is optimized.**
- **Water droplets indicate the level of protection against moisture and the breathability of the garment.**
- **Water Resistant**
- **Waterproof/Breathable**
- **Cold**
- **Moderate**
- **Hot**
- **Extremely Waterproof/Breathable**

**Features and Benefits**

**Technology**

**The Best There Is for Hunters.**

At Browning, we take pride in being at the forefront of clothing development for hunters. From the most cutting edge camo patterns, to the finest in waterproof/breathable technology, to the warmest insulations, we utilize the best technology to improve your outdoor experiences.
The Gore-Tex® membrane is an extremely thin layer of expanded polytetrafluoroethylene (ePTFE) with over 9 billion pores per square inch. The pores in the Gore-Tex membrane are so small that water vapor can pass through, but water droplets cannot. This unique combination of breathability and waterproofness allows perspiration to pass through the membrane without compromising the waterproof protection.

**3-LAYER GORE-TEX® TECHNOLOGY**
- The Gore-Tex® membrane is bonded to both the outer material and the inner lining.
- Zero movement between the layers reduces wear and tear for greater durability.
- Reduces excess bulk and weight to a minimum.
- Provides breathable comfort and durable waterproof and windproof protection over a wide range of outdoor activities.

**HOW DOES GORE-TEX® WORK?**
With Gore-Tex, you are protected from the elements and your own perspiration, even when hiking. Because your skin stays dry, even under exertion, you stay warm and comfortable. This breathable comfort and durable waterproof and windproof protection is perfect for hunters of all activity levels. Each stitch is a potential leak, that is why every seam in Browning Gore-Tex garments is taped. Every Browning Hell’s Canyon Speed piece not only meets our standards, they meet the standards of Gore. All new Gore-Tex product prototypes are put through a battery of tests in Gore labs. Only if they meet their strict weatherproof performance standards are they approved for production. And with Gore-Tex, it isn’t just about short-term waterproofness; there is an emphasis on the long-term durability and protection you get from the fabric. Gore-Tex is designed to effectively deliver the goods, keeping you dry and warm for many years to come.

**THE GORE® RAIN ROOM**
The Gore® Rain Room is more impressive than it may sound. This two-storm room can mimic nearly any style of precipitation, with water plunging from the ceiling and also from ports in the walls. To meet the minimum rain rating, a garment must bear 30 minutes of rain at a rate of 3” per hour. To earn the maximum storm rating, garments must withstand 60 minutes of rain at a monsoonal rate of 22” per hour. If a garment has a weakness to water, the Rain Room is sure to expose it. Browning Gore-Tex garments pass the rigors of the Rain Room with flying colors.

**RIGOROUS PRODUCT TESTING**
A battery of laboratory tests have been developed to ensure that products that wear the Gore® name are up to their standards. Manufacturers using Gore technologies, like Browning, are required to send samples to Gore labs where they are put through the wringer, literally, guaranteeing that survival indoors translates into dry comfort outdoors.

**THE GORE® ENVIRONMENTAL CHAMBER**
The Gore® Environmental Chamber is a state-of-the-art testing laboratory that is capable of recreating between 85 to 95 percent of the environments on the earth’s surface.

**THE GORE-TEX INFINIUM™: THE SCIENCE BEHIND COMFORT**
GORE-TEX INFINIUM™ is a new approach to weathering the storm from Gore, the industry leaders in comfort science. The GORE-TEX INFINIUM™ membrane manages the environment by blocking out wind while allowing moisture vapor from perspiration to escape. This breathable protection reduces the chilling effect of wind while reducing the risk of overheating when you are active. A durable outer fabric treatment (DFT™) provides you with the additional protection of water repellency.

**FLEX**
The Gelbo Flex test is designed to check how well a fabric will perform in high stress areas such as the knee and elbow. Repeat motion checks for holes, cracking and excessive wear of the fabric.

**TOUGHNESS**
Our fabrics undergo the Martindale Abrasion test that measures the abrasion resistance of the fabric. The Puncture, Propagation and Tear (PPT) test measures how resistant the fabric is to penetration by sharp objects and how the fabric reacts if compromised.

**BREATHABILITY**
The Moisture Vapor Transfer Rate test measures breathability. Body temperature water is separated by a Gore-Tex® membrane. A cup with a Potassium Acetate salt solution is placed on the membrane. The cup is weighted before and after the test to determine how much water vapor passes through the membrane.

**WASHING**
Washing clothing usually wears it out faster than wearing it does. Rinses of washing machines, without timed cycles, stress Gore® products and enable longevity testing. They also confirm that normal washing won’t result in decreased performance.
If you want to hunt faster, harder and in more comfort than you believed possible, it’s time to gear up with Browning Hell’s Canyon Speed. This high-tech outerwear has undergone scrutiny from every angle in order to become the best it can be and exceed the demands of backcountry hunters. Speed is designed with the newest weather-resistant fabrics and features a slim fit that trims away excess bulk and weight.

**RAIN SLAYER GORE-TEX® JACKET**
**WATERPROOF/BREATHABLE**

- Speed Flexfit Cap $24.99
- Speed Cap $19.99

APPAREL
The CFS Rain Jacket is simply too good and too versatile to keep it pigeonholed in the big game category, so we’ve added more patterns and colors to the mix to broaden its appeal. This lightweight, packable piece is now available in three camo patterns for big game hunters; and waterfowlers can pick from two marsh patterns. There’s a colorway tailored for upland hunters with blaze shoulder overlays and even a solid charcoal for the ultimate in versatility, fitting in on the street and the wilds alike.

**CFS RAIN JACKET**
- Water/windproof fabric with fully-taped seams
- Adjustable hood

A Mountain of Comfort.

Wasatch has long been a staple in the Browning apparel line. This versatile fieldwear is appreciated for its soft, comfortable fabric that is ideal for a variety of conditions. From cool to hot temperatures, spring turkey to summer dove to fall deer hunts; Wasatch represents the basic gear hunters need for the majority of their time in the field. Wasatch fieldwear features a traditional full cut, and the rugged, lightweight six ounce cotton fabric maximizes breathability and moisture transfer when you are in motion.

**WASATCH SHIRT**

Wicked Good Protection.

When wicked waterfowling weather sets in, that’s when you’ll appreciate the protection of Browning Wicked Wing. For 2019 Wicked Wing has undergone a massive overhaul, with a new focus placed on maximizing comfort in the field so that you can keep your eyes to the sky instead of dreading cold and wet conditions. In partnership with our friends at Gore®, this new line of gear offers improved resistance to water and wind blowing across the marsh. Insulation from PrimaLoft® and high-pile fleece offer proven protection from the frigid temps you experience on a frosty morning in a layout blind.
WICKED WING™

**NEW**
Ammonition shown not included.
Upland All-Terrain.

Time-honored traditions in upland game hunting call for a fine over and under shotgun, a keen canine and enough wool and waxed cotton to keep the elements at bay. While tough fabrics like treated canvas and cotton certainly had their places in the field, modern technology is always at the ready to keep you warmer, drier and more comfortable as you tick off the miles and bag your limit.

**UPLAND GORE-TEX® JACKET**

- 3-Layer GORE-TEX® shell with fully-taped seams
- Water/windproof and extremely breathable
- Fully-adjustable attached hood
- Left chest upland pocket
- REACTOR G2 pad pocket in right shoulder (pad sold separately)
- Large knee shell pockets
- Fleece lined handwarmer pockets
- Water-resistant front zipper with internal storm flap and chin guard
- Internal gear pocketing
- Internal back pocket access for easy cleaning
- Front load, bloodproof, fabric-lined game bag
- Game back venting system
- Hook and loop wrist closures
- Regular Fit

**UPLAND GORE-TEX® PANT**

**Meet the Pros.**

From world-class shooters to the hardest of the hardcore hunters to unique personalities, the members of the Browning Pro Staff all share a love of the outdoors, the shooting sports and the greatest gun brand in the world. Pro Staff members are chosen for their skill, professionalism and enthusiasm in promoting the Browning brand. Look for these faces at major shooting events and on your television screen.

**Bowhunter TV** strives to educate, entertain and demonstrate to viewers how they can become better archers and more effective hunters, and to inspire their own, digital and TV audiences to enjoy bowhunting as a year-round pursuit and family lifestyle.

Host Mike Carney has worked on Bowhunter TV since the program’s inception in 2006. As a hard-core equipment junky, Mike loves testing and evaluating bowhunting gear on the program’s popular Tech Talk segment. Living in Illinois, Mike is a whitetail fanatic with a tremendous understanding of property management. When he isn’t hunting, his fingers are in the dirt, improving the local herd health and potential of the ground he manages.

**Chris Denham** and **Nate Simmons** are the hosts of Western Hunter TV® a program committed to teaching and entertaining viewers hunting in the vast expanse of the American West. Chris brings notable credentials to the program. He is the publisher of Western Hunter Magazine and has spent the better part of 20 years in the hunting industry. As a passionate hunter and guide, he possesses a great deal of knowledge about the region and its game and animals. One of his most important endeavors is the group Outdoor Experience 4 All, which helps children with terminal or life-limiting illnesses get into the field on a hunting trip of their own.

Nate Simmons is an accomplished outdoor writer and the producer and co-host of The Western Hunter TV®. As a bowhunter, Nate is known to take extreme to a new level with his hardworking, do-it-yourself style.

**Andrew Vavra**, **Logan Himmers** and **Anthony Hauck** are the hosts of Pheasants Forever’s Rooster Road Trip, an exciting online program that takes hunters road tripping across the country, hunting exclusively on public land, in pursuit of America’s most popular upland game bird.

Their dedication to hunting and conservation goes well beyond the entertainment industry. Andrew is a published writer, accomplished blogger and serves as the Marketing Manager for Pheasants Forever. Logan is a die-hard hunter and designer. Anthony also works at Pheasants Forever as the Director of Public Relations.

Go to pheasantsforever.org to view episodes of Rooster Road Trip. While there, join Pheasants Forever and help ensure the future of the pheasant and its habitat.

**Robbie Purser**

Robbie Purser started shooting skeet at the age of six. During his career he has earned an impressive list of prestigious titles including 1980 World Skeet Champion, two-time NIGA Champion, Zone 4 Champion, Quad Unlimited Champion, four-time Ducks Unlimited Champion and an ISSP Great Outdoor Games gold medalist. He is a twelve-time All-American Team member, a member of Team USA and a ten-time Georgia State Champion. Robbie is also set to become inducted into the National Sporting Clay Association Hall of Fame in 2018.

As host of the popular TV series, **Andrew X. Fred Zink shares the excitement of waterfowling as he embarks on hunts throughout the U.S. and Canada. Along the way he shares the secrets of his highly successful calling tactics and strategies.**

Fred founded Zink Calls® in 2001 as a way to put exceptional calls into the hands of waterfowlers and professionals who demand high-end calls. A dedicated and successful goose hunter, Zink has a unique talent for calling waterfowl that are not easily approached by other hunters. Zink’s business continues to grow and set new standards in the industry.

Zink’s high-octane 24/7 DVD series is designed to speak to hunters with exciting footage that shares his hunting experiences with his viewers.

**Johnny Meitzen**

Johnny Meitzen has been a Browning Pro Staff for years and is a member of the Texas Sporting Clay Hall of Fame.

Johnny started shooting competitively in 1987 and over his lifetime has fired over 500,000 shells in competition, winning a number of shooting titles including two-time NIGA Nationals Vet Champion and two-time NIGA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. He is an NIGA Level III instructor and a die-hard Chitori man who currently shoots a Chitori 725 Sporting.

**Roger Zink**

Roger Zink is a nationally-recognized goose caller in his own right, Zink’s business continues to grow and set new standards in the industry.

excitement of waterfowling as he embarks on hunts throughout the U.S. and Canada. Along the way he shares the secrets of his highly successful calling tactics and strategies.

**Johnny Meitzen**

Johnny Meitzen has been a Browning Pro Staff for years and is a member of the Texas Sporting Clay Hall of Fame.

Johnny started shooting competitively in 1987 and over his lifetime has fired over 500,000 shells in competition, winning a number of shooting titles including two-time NIGA Nationals Vet Champion and two-time NIGA Nationals FITASC Vet Champion. Johnny is a six-time All-American Sporting Team member, two-time Team USA Sporting member and two-time Team USA FITASC member. He also has many state and zone championship titles to his credit. He is an NIGA Level III instructor and a die-hard Chitori man who currently shoots a Chitori 725 Sporting.

**Foster and Matt Bartholow**

Foster and Matt are stars on the ATA trapshooting circuit, and both shoot Browning trap shotguns. The brothers came up through the Scholastic Clay Target Program and have made their mark within the pro ranks. Matt has earned several Grand American Championship titles, holds the 2nd longest recorded singles run at 1,840, achieved his Grand Slam (and Grand American Grand Slam), owns several South Dakota State Champion titles and is a three time All-American Team member.

Foster is also a Grand American Champion and set a shoot off record at the Grand with 200 targets in program and 500 in shoot off. He is a two-time All-American Team member, achieves his Grand Slam (and Grand American Grand Slam) shooting 200 singles, 100 doubles and 100 handicap from the 25’ yard line. He too holds multiple South Dakota State Champion titles.

**Gohunt.com is the community for western hunters to go for all the information they need to pursue their passion for the outdoors.**

Gohunt.com started in early 2013 when Lorenzo Sanzini realized that although there are more than two million active big game hunters in the western USA, there wasn’t a place where feature articles, photo galleries and valuable editorial content was set out to change that.

Gohunt.com is now an open, interactive platform that encourages active conversations and connections among hunters and features breaking news, hunting lifestyle content, expert advice and data-based insights.

Bob Reed's experience as an outdoor TV personality extends back more than 35 years. With his lifelong devotion to promoting hunting, shooting sports, fishing and conservation efforts, Bob ventured out on his own in 2007 to begin the highly successful outdoor series, **Bob Redfern's Outdoor Magazine**.

Bob enjoys bringing the outdoors and the best it has to offer to the screen each week, featuring real-life hunting and fishing adventures, with featured segments on how to succeed at hunting, shooting and fishing as well as the award-winning Sportsman’s Table weekly cooking segment. Each week Bob features hunting and fishing destinations around the country for the sportsman who seeks the best places to enjoy the outdoors year round.
Born in North Carolina, Levi Morgan began competing and hunting with a bow when he was six years old. Since then, he has amassed an impressive list of archery results, including eight World Championships and 40 National Championships. Now you can follow along with Levi, and wife Samantha, on Bow Life TV.

Bow Life TV brings you along as Levi and Samantha divide their time between chasing trophies in archery competition and harvesting game in the field. On air, their love and knowledge of the sport and the surroundings helps to immerse viewers in each episode.

As the host of Pure Hunting, Willi takes you on his do-it-yourself adventures and shows that pure hunting opportunities still exist for those willing to put in the effort. Pure Hunting explores the training, nutrition and gear that goes into the preparation of a self-sustained hunt. Willi appreciates the journey leading up to the hunt, not just the result, and the friendships made and camaraderie experienced along the way.

Rick Kreuter and Julie Kreuter host Beyond the Hunt. The unique program follows this dynamic pair on more than just their hunting adventures; it also focuses on wildlife conservation and land management.

Rick grew up in the outdoors of Wyoming and adventure has been a part of his life from an early age. After graduating from college, Rick received his guide license and soon became an outfitter full time. Julie has also had a love of the outdoors from her earliest days in Nebraska. She and Rick were married after she received her degree in Physical Therapy. As their outfitter business grew, so did their success and popularity. After 16 years of guiding hunters, Beyond the Hunt has become their own adventure.

William and McLean Russell grew up on the family ranches in Texas and have had guns in their hands since they could walk.

Taking full advantage of the wealth of hunting and shooting possibilities offered in their home state, the brothers have put their passion for the outdoors into Boundless Hunting TV.

This exciting show takes the Russell brothers across the globe in search of life-changing hunting adventures. While they may be brothers, the pair are quite different. William prefers to take extreme hunting to the next level with his knowledge of tracking and survival techniques, and McLean uses his interests in photography, cooking and game management to bring a unique twist to the program.

What really sets Boundless Hunting apart from other hunting shows is its message of family and the bonds created by being outdoors.

Husband and wife hunting duo Rick and Julie Kreuter host Beyond the Hunt. The unique program follows this dynamic pair on more than just their hunting adventures; it also focuses on wildlife conservation and land management.

Rick grew up in the outdoors of Wyoming and adventure has been a part of his life from an early age. After graduating from college, Rick received his guide license and soon became an outfitter full time. Julie has also had a love of the outdoors from her earliest days in Nebraska. She and Rick were married after she received her degree in Physical Therapy. As their outfitter business grew, so did their success and popularity. After 16 years of guiding hunters, Beyond the Hunt has become their own adventure.

All Things Hunting is an all action, real-world, hunting series hosted by Kyle Barefield, Cole Barthel, and their family and friends. Kyle lives in Monroe, Louisiana and grew up hunting with his father and grandfather, and would hunt everyday of his life if possible. Most of Kyle’s hunts are self-produced from the field to the editing booth and he strives to improve the quality of outdoor TV constantly looking to sharpen his edge on creating a truly entertaining hunting film.

Kyle Barthel is from Rayville, Louisiana. He’s been an avid hunter since childhood, and laid the foundation for the show when he was a teen, spending all of his free time hunting whatever was in season.

Derek was born and raised near Benton, a small town in southeast Missouri. He’s been an avid hunter since childhood, and laid the foundation for the show when he was a teen, spending all of his free time hunting whatever was in season.

Derek’s main passion is the year-round obsession with bowhunting whitetails, shed hunting, food plots, checking trail cameras and hopefully finishing up with a mature buck. Derek is also pulled into the woods every spring to chase Missouri longhorns.

As the host of Pure Hunting, Willi takes you on his do-it-yourself adventures and shows that pure hunting opportunities still exist for those willing to put in the effort. Pure Hunting explores the training, nutrition and gear that goes into the preparation of a self-sustained hunt. Willi appreciates the journey leading up to the hunt, not just the result, and the friendships made and camaraderie experienced along the way.

Craig Morgan has a resume as vast as it is impressive. His journey to become one of country music’s most renowned artists began as an 18-year-old EMT, followed by years in the U.S. Army, where he took up photography and songwriting. After the Army, he moved to Nashville to hone his craft. Now, Craig performs frequently for military audiences and is a frequent guest at the Grand Ole Opry.

All parts of his life came together on his television show, Craig Morgan’s All Access Outdoor, now in its eighth season. The hit reality show gives viewers an all-access, backstage pass to Morgan’s travels as he and his crew pursue big thrills and big laughs across the globe in a quest for the ultimate adventure.

Bud Fisher, Mike Fisher and Ryan Hawkins are the creators of Catchin’ Deers — The Funniest Brand In Hunting. The folks at Catchin’ Deers really know how to put things into perspective, they believe that you should take your hunting seriously and yourself lightly. In addition to their great line of comfortable, and humorous, camp and lifestyle apparel, they also produce an excellent video series that showcases their unique philosophy.

Come along with the Avian X Team as they take their calls, products and skills into the field after big birds of a different feather — wild turkeys. Join hosts Matt Morrett, Josh Grossenbacher and Hunter Wallis as they travel the country putting their top-notch skills to use. What skills, you ask? All three of them hold a variety of turkey calling championships to their credit, from world championships to North American Turkey Federation Grand Championships. When you combine the talent of these three with the skills of Avian X and Zink calls founder, Fred Zink, it’s clear why their company logo line is “A Champion in Every Call.”

Avian X turkey programming gives viewers the unique opportunity to watch — and listen — first-hand and experience how this pro get it done.

Once mired in the corporate world, Willi Schmidt took the leap and decided to pursue his passion for hunting as a host on outdoor TV. This new pursuit led him on the path to showcase the way he loved to hunt, with the challenge of succeeding and telling on his fall.
JARED WIHONGI

Originally from New Zealand, home of the legendary Maori warriors, Jared Wihongi has more than 25 years of martial arts experience and is trained in the Filipino blade-fighting system of Pekiti-Tirsia Kali. As a sought after instructor, Jared has worked with the U.S. Army Special Forces Groups, Marine Force Recon and Germany’s GSG-9 to name a few. Jared’s work meets the real world needs of discerning users like you.

Recon and Germany’s GSG-9 to name a few.

Jeff Foxworthy
Toxey Haas

THE GAMEKEEPERS

World famous comedian and actor Jeff Foxworthy and Toxey Haas, founder of Mossy Oak, share the hosting duties on The Gamekeepers. No matter where or what you hunt, it starts with the land. Dating back to President Theodore Roosevelt, hunters were the first conservationists, the stewards and caretakers of nature, doing what is possible to preserve, protect and pass on this knowledge. Mossy Oak. The Gamekeepers highlights this spirit of conservation and shares the ways to do it. This heartfelt program conveys the belief that it is the current generation’s responsibility to teach future generations how to preserve our hunting heritage.

ALEX WAMPLER

Californian Alex Wampler began shooting sporting clays in 2004 and in 2007 had earned her way onto the All-American Team. In addition to winning the 2013 US Open Lady FITASC Championship, she has been National Lady Sub Gauge HOA champion, regional champion and California Ladies Champion each on several occasions.

Her shooting interests also go beyond the range. She is a guide at Birds Landing Hunting Preserve, an NRA Range Safety Officer and attends the University of California Davis with aspirations to become a veterinarian.

GREG JORDAN

What began in 2007 as shooting in a few local USPSA matches has become a full-fledged career for Greg Jordan. Like many shooters, Greg caught the bug and his new hobby soon turned into a passion. Two short years later he earned the title of USPSA Grand Master and found a new interest, 3-Gun competition.

Greg’s hard work and commitment to practice, training and equipment continues to pay off. In 2014 he became 3-Gun Nation Champion with his Browning A5.

SHILOAH MATTOON

Born in the small town of Kamiah, Idaho, Shiloah Mattson fondly recalls that firearms have always been a part of his life. His competitive shooting career began in 2011, and his early experiences ignited Shiloah’s passion for 3-Gun competition. Now he competes against the best shooters in the 3-Gun Nation tour.

In addition to having a full-time job, Shiloah spends hours practicing and takes an athletic approach to the sport, training daily in the gym.

Shiloah shoots a Browning A5 with absolute faith in its unwavering reliability and Speed Load Plus feature.

TENNILLE CHIDESTER

Hailing from Salt Lake City, Utah, Tennille Chidester began shooting competitively in the USPSA ranks in her mid teens. Now she has found her true passion as a competitor in the 3-Gun Nation Pro Series, with her reliable Browning A5 speeding her through the toughest events. You may also recognize Tennille as the winner of the fourth season, host, of Ammo and Attitude.

In addition to the fast-paced competition, it is the amazing people and camaraderie that draws Tennille to the exciting sport of 3-Gun shooting. She especially enjoys introducing others to the sport and encouraging their development.

JEFF FOXWORTHY

With a nickname like “Tommy Gun,” you had better be fast on the trigger — especially if you are competing on the 3-Gun Nation tour.

Tommy Thacker is ranked among the best 3-Gun competitors in the nation, amassing an impressive list of victories and top finishes that includes winning the 3-Gun Nation Pro Series Championship in 2011 and 2012. With his success, Tommy has his pick of autoloading shotguns — and he chooses to get it done with his Browning A5.

THREE-HOLE PUNCH.
Browning is Committed to Serving You

Every effort has been made to ensure that all product photographs, descriptions and specifications in this workbook are accurate; however, inadvertent errors may occur. Changes in design or materials due to our continual effort to improve products may result in specification changes before subsequent publications are issued. Browning reserves the right to modify or change specifications without notice.

Be a Safe Shooter

Read and follow all safety information in the owner’s manual provided with each firearm before use. Additional copies are available for free download on the Browning website. Browning endeavors to make the safest firearms possible; however, firearm safety begins with you. At all times treat any firearm with intense respect for its power and potential danger. Always point the muzzle in a safe direction. There is no excuse for careless or abusive handling of any firearm.
